☞ Forty-six years ago, the first sermon was preached in New York before an audience of professed Unitarians. This was delivered in a private house by the late Dr. Channing, in the month of April, 1819, and in the following May a large congregation was assembled in the Hall of the Medical College, in Barclay street, to listen to his expositions of Christian doctrine. The First Unitarian Church in New York was dedicated in January, 1821.

JOHN SISE, Agent, Portsmouth, N. H.

WHAT IS A FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonsful of Sugar, biscuit can be made fit to set before a King. We have sold upwards of a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

BAILEY'S
Spring Roll and Cog Wheel
WASHING AND WRINGING MACHINES.
WRINGING MACHINES HAVE BECOME AN institution in the land. Thousands and tens of thousands have been sold during the last three years, and they all save an immense amount of labor and cost of material.
We now offer to the public a Machine that will WASH as well as WRING the Clothes. It is very heavy and strongly built—the Rolls are large and so fastened with screws as to be secure from turning on the shaft. The Cog Wheels give power, and the Spring Roll makes it do its work with ease and perfection. The Machine is secured to a bench, independent of the wash tubs; consequently there is no trouble of fastening it every time it is used.
Any person who wishes to obtain an article to do both washing and wringing in a Public House or Private Family, we say give this a trial. If not satisfactory, the money will be refunded.—Call and see it.
The above for sale by
E. A. STEVENS,
46 Market Street

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WEBB, BRADLEY & CARY, (late J. I. & J. O. Webb) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade street, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elliptic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
The WONDERFUL FLEXIBILITY and Great Comfort and pleasure any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic" Spring Skirt, for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Conjectionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all First-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.
INQUIRE FOR THE DUPLEX ELLIPTIC SKIRT. 17t—a4

48 Market street.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not gum up, broken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents apiece.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this Ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppo Galls, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. *It is a good Ink, but my occupation is all gone now. Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid twice and it now flows free and freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. TOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery H, 1st Mass. H. Artillery.
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing, and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had a quantity of it, it would find a ready sale. Thanking you in behalf of this community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. BAKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after lieing frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me, I believe I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works well in cold.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Morrey Maynard & Noyes', D. J. Kilcourt's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale* it to the trade, as a very lucrative business. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2aw4w3m
ARCANA WATCH.
An Elegant Novelty in Watches.
The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and plainished, producing an exact imitation of 18 carat gold, called Arcana, which always keep the color. They are as beautiful as solid gold, and are offered at a price eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Levers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are superbly finished, having engraved pallets, jewel engraved bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

Portsmouth, N. H.

THURSDAY, APRIL 13, 1865.

FAST DAY.—This day, we hope, will be properly observed. Humility is becoming at all times,—never more so than now, with us. We should certainly be thankful, yea, joyful, over our success as a nation, and our earnest of enduring peace; and we should certainly rejoice in the valor of the human arms that have struck rebellion a fatal blow, and in the faithfulness of the human hearts that moved these arms. But we should not forget that God's right hand and his holy arm have gotten us the victory over the deadly foe which had long been gnawing at the heart of our Republic, and which lately aimed a fatal blow at its head. Nor should we forget that we still depend on Him!

Solomon says: "The King's heart is in the hand of the Lord, as the rivers of water; he turneth it whithersoever he will."

What he said of the King is as true of the people. Who will not admire the wisdom, power and goodness, which have moulded our people (as the potter moulds the clay) into lovers of liberty, equality and fraternity? The nations of Europe, who had learned about us from our *late ministers and consuls* who aided treason, have been astonished at the *zeal* with which our treasure has been lavished, and the blood poured out, and the lives laid down, of thousands of the bravest and best in our land, and that, too, of men who hated war and strife, and deemed it a crime to fight when not a duty.

It might, however, be all plain to them, could they think for a moment that there is a higher law than any human statute, and that the throne of God is higher than the Kings of the Earth.

Trusting in him, and relying on him, we should pray to day that He will continue to give wisdom to our rulers, yea, the wisdom that comes from above, so that they may not heal the hurt of our people slightly but thoroughly,—that he will dispose the people to support wholesome and equal laws, to regard the gospel, and worship the one living and true God,—and that he will give us the rain from heaven and a fruitful season, and fill our hearts with food and gladness. Keeping the fast with such prayer, breaking every yoke and letting the oppressed go free, we may keep a Fast acceptable to God and profitable to ourselves.

U. T.

☞ Army correspondence dated Deatonville, Va., 7th, says up to that time the captures from Lee's army were immense in men and material. For miles the roads were strewn with artillery, wagons and ammunition, showing with what tenacity the pursuit was pressed. Gen. Sheridan made the largest part of the captures, but the infantry are entitled to an equal share of credit. Our losses in the pursuit were not large. The rebels are greatly surprised at the rapidity of our movements. Capt. W. S. Thomas, of the 1st Penn., cavalry, captured four battle flags, had four horses shot under him, and finally lost a leg.

Gen. Grant in speaking of our movements and success on the 6th, said "Sheridan told me he was coming up to help me take Richmond" but he added: "We will capture Lee's army, march down and gobble up Johnston and shake hands with Sherman over the line."

— Sec. Seward's condition is gradually improving.

— The Chicago Tribune says the force which is marching into North Carolina from East Tennessee to aid Sherman, numbers at least 18,000 effective men.

— The rebel ram Stonewall sailed from Lisbon March 28. The Niagara and Sacramento arrived there, and the Portuguese authorities prohibited their sailing for 24 hours.

— Men directly from Selma, Ala., report that place captured by Gen. Wilson on the 2d inst. Forrest and Rhoddy, with their entire commands, were captured.

Lynchburg also surrendered to a Lieutenant of Griffin's forces on the 11th. Gen. Grant has ordered McKenzie's brigade of cavalry to occupy the town and take care of public property.

— A Mr. Smith sued Chas. O. Rogers, publisher of the Boston Journal, for libel. The jury gave him a verdict of *one cent* damages. Mr. Smith claimed to have been *falsely* accused as a traitor, opposer of the draft, &c.

— John H. Brady, the last of the political prisoners in Fort Lafayette, was released on Saturday last.

IMPORTANT PROCLAMATION.

The Rights of our Navy in foreign ports are hereafter to be respected. On the 11th of April, President Lincoln issued the following Proclamation.

Whereas, for some time past vessels of war of the United States have been refused in certain ports, the privileges and immunities to which they are entitled by treaty, public law, or the comity of nations, at the same time that vessels of that country wherein said privileges and immunities have been withheld, have enjoyed them fully and uninterruptedly in ports of the United States, which condition of things has not always been forcibly resisted by the United States, although on the other hand, they have not at times failed to protest against and declare their dissatisfaction with the same. In the view of the United States no condition of things any longer exists which can be claimed to justify the denial to them by any one of the said nations of the customary naval rights, such as has heretofore been so unnecessarily persisted in.—

Now, therefore, I, Abraham Lincoln, President of the United States, do hereby make known that if, after a reasonable time shall have elapsed for the intelligence of this Proclamation to have reached any foreign country, in whose ports the said privileges and immunities shall have been refused as aforesaid, they shall continue to be so refused, then and thenceforth the same privileges and immunities shall be refused to the vessels of war of the country in the ports of the United States, and this refusal shall continue until the war vessels of the United States shall have been placed upon an entire equality in the foreign ports aforesaid with similar vessels of other countries. The United States, whatever claim or pretence may have existed heretofore, are now entitled to claim and concede an entire and friendly equality of rights and hospitalities with all maritime nations.

— The fisheries of Gloucester thus far this year have been very successful. One firm had $20,000 worth of fish brought in, caught in a few weeks, in ten trips, averaging $2000 each. Not a vessel has yet been lost, and only two men have lost their lives. The large fares have been brought from George's Banks and sold at high prices, and the shore fisheries have been equally successful, some in favorable weather earning each twenty dollars per day. Trains depart daily from Gloucester, loaded with fish. New and elegant schooners are arriving every day, to replace the large number sold last winter at good prices; and such is the growth of the town that scarcely a house can be rented in the place.

GOLD, Wednesday, 145 3-8.

— One million two hundred thousand two cent pieces were coined last month.—

— If you would find a great many faults be on the look-out. If you would find them in still greater abundance, be on the look-in.

—"I shall be," and "I might have been!" The former is the music of youth, sweet as the sound of silver bells; the latter the plaint of age, the dirge of hope, the inscription for a tomb.

— An elderly lady, telling her age, remarked she was born on the 23d of April. Her husband, who was present, observed: "I always thought you were born on the 1st of April." "People might well judge so," responded the lady, "in the choice I made of a husband."

— It is said the State Department has grounds to believe that the British government will revoke its recognition of belligerent rights to the Confederacy on the receipt of the President's proclamation closing the ports and declaring the blockade at an end.

— A young lady of extraordinary capacity addressed the following letter to her cousin:—"We is all well, and mother's got the his Terrix; brother Tom is got the Hupin Kaugh, and sister Ann has got a babee, and I hope these few lines will find you the same. Rite sune. Your sphectionate kuzzen."

— The Snake Falls of Oregon are exciting lots of fun among Western tourists. The height of the falls is 200 feet, and the width 2,000 feet. When the Pacific Railroad is completed, this will become a fashionable visiting place, as Niagara is now, with a wider range of curiosities to attract the visitors.

— Capt. H. Whitcomb of Feltonville, Mass., formerly Captain of the 13th Mass. regiment, while assisting in firing a salute in honor of our recent victories, by an accidental discharge of the piece, had both arms blown off, and his body burned in several places.

— It has been said that the negro never invented anything. This is a great mistake. Needles were first made in London by a negro from Spain, in the reign of Queen Mary. He died, however, without imparting the secret of his art; and it was lost till 1565, when it was recovered in the reign of Elizabeth.

— President Lincoln made a speech on Tuesday evening, in which he defended his reconstruction of Louisiana, and plead for the present State Government there as the egg out of which a good chicken may grow: He thinks it not best to smash the egg, lest we get no chicken; and wishes to get the vote of that State to amend the Constitution by excluding slavery.

BALTIMORE, April 9th.

Messrs. Editors:—Baltimore has been lively during the past week. The news of the fall of Richmond reached here about 11 o'clock Monday, and spread over the city, and soon crowds began to assemble. Everybody was excited and happy, and it wasn't long before they were jubilant too, for, as a matter of course, everybody had to take a drink when Richmond was taken! But there was no breach of the peace to any great extent; the only thing not exactly in accordance to law being the proclivities of the happy mass to compel all rebel sympathisers to show the "Stars and Stripes," which was done when the request was made: and then after three cheers, the "Regulators" would go to some other place and go through the same process, so that it was not long before the "flag" was displayed from nearly, if not quite, every residence in the city.

On Thursday evening a grand illumination took place, and it is safe to say that nothing like it ever occurred in Baltimore before. Baltimore street, in particular, was one blaze of light; and such a crowd as assembled there was never before seen. For a distance of a mile was it but one dense mass of human beings, and for three hours it was impossible for the horse cars to make their trips. There were crowds in the city. All the hotels were illuminated; but in the way of decorations and general effect, the "Maltby House" took the lead.

The bar-rooms having all been closed early in the afternoon, everything passed off quietly—no fighting or disturbance of any kind took place. It was a great success,—and Baltimore may well feel proud of what was done on Thursday evening, the 6th inst.

There is talk of a celebration by the loyal leaguers on the 18th inst., the 4th anniversary of the attack on the 6th Mass. Regt., and if it comes off, it will doubtless be a fine affair.

The markets here are abundantly supplied with Greens, Lettuce, Radishes, Spring Onions, &c., but the prices are enormously high. There was *one plate* of strawberries about three weeks since, at a fashionable Saloon, but none have been seen since.

Truly Yours, ROCKINGHAM COUNTY.

THE CAPITOL AT WASHINGTON.—On Friday last the workmen were engaged in putting the finishing touches to the iron-work of the immense dome of the Capitol, and in a few days the great dome—the wonder of modern engineering—will be finished—finished just about as rebellion and civil war on a grand scale are coming to an end in the land. As the National Intelligencer fitly remarks, "It is a grand reflection, that though the rebel ensign has floated within sight of the high lookouts of the dome; though the dull sound of cannonading has been twice heard from its lofty balconies, and twice have our armies been pushed back so as to expose the Capitol to swift destruction, still the work of construction thereon has speedily progressed, for the people had willed it in their heart of hearts that the Union should not be destroyed."

REPAIRING DAMAGES.—Improvements, renovation and reconstruction will most assuredly follow in the wake of the Union armies in things political as well as things material. A strong force of laborers is to be at once put at work on the broken points of the Richmond, Fredericksburg, Aquia Creek and Potomac Railroad, and its completion, which will occur within the next few weeks, will put Richmond in rail communication with the Capital of the United States again. The iron bands broken by the ruthless hand of war, wielded again, will once more re-unite a divided people in bonds too strong to be put asunder.

☞ The Boston Post's Washington correspondence of Tuesday says:

An extra session of Congress is considered inevitable. Certain acts must be repealed and legislation shaped anew to enable the Government to restore the rebellious States properly to the Union. The Orphans Court of the District have granted the heirs of the late John C. Rives leave to sell in London consols belonging to the estate, amounting to over one hundred thousand dollars in gold, and invest the proceeds in American Securities.

It is ascertained that eight hogsheads of the French Government tobacco was burned at Richmond and the balance was saved by Union troops. The City Assessor of Richmond estimates the entire loss by fire at thirty millions of dollars. The headquarters of the Army of the Potomac are to be established at Richmond in a few days. Half a dozen applications have already been made for National Banks in Richmond.

☞ The Washington Star of Tuesday afternoon says: "In order to put a stop to the absurd canard afloat in regard to the proposition of the President to recognize the rebel Legislature of Virginia, we are enabled to state that early on Saturday the President telegraphed to Governor Pierrepont to come at once to Washington, where a long conference was held between them, the object of which was to perfect a plan for the restoration of Governor Pierrepont's government at Richmond."

☞ The copperhead News of New York had a dispatch from Richmond on the 7th, saying the rebels have been removing the Government archives to Charlotte, N. C., since the 1st of March, and will there establish their government. How long it will stay established, the papers don't say.

— Spain spends $50,000,000 annually for tobacco and $64,000,000 for lottery tickets.

A HYMN OF THANKSGIVING.

Dedicated to Rev. JAMES DENORMANDIE,

BY A PARISHIONER.

Ring out! Ye bells! ring out!
Ye cannon, loudly roar!
Ye trumpets—from your brazen throats
Let songs of Triumph pour:
A nation is redeemed this hour,
From Slavery's despotic power.

Thanks! to the Lord on high,
Who Victory has given;
Thanks! to the heroes, brave and true,
Who rallied when the war-note blew:
Placing their trust in Heaven,
That God would keep their banner bright
And o'er it shed fair Freedom's light.

Let loud Thanksgivings ring
Through all our native land;
For Treason's hosts are flying fast,
Like chaff before the stormy blast,
And broken are their bands;
While Liberty unveils her form
And smiles amid the breaking storm.
Freedom to each and all!

The bondsmen now are free!
The power which raised its haughty hand
And strove to break the Union's band,
Is broken, Lord! by thee!
In Union, we with loud acclaim
Give thanks to thine Almighty Name.

Portsmouth, April 10th, 1865.

House and Land at Auction.

On SATURDAY, April 29th, 1865, *at* 12½ o'clock M., on the premises,

By virtue of a License from the Hon. Judge of Probate for the County of Rockingham,

The **Real Estate** of WILLIAM WARBURTON, late of Portsmouth, deceased, viz: A certain LOT of LAND with the DWELLING HOUSE thereon, situated on ISLINGTON ROAD, in said Portsmouth, and bounded and described as follows: 330 feet more or less on said Islington Road; 308 feet by land now or late of E. L. Flood; 449 feet more or less by land of the heirs of Samuel Treat, deceased; and 100 feet more or less by land of the Eastern Rail Road in New Hampshire.

Said Estate is subject to a mortgage of $300, with interest, from Nov. 14, 1859. The sale will include the whole of said Estate, and also the reversion of the Widow's Dower, and the right of redeeming said mortgaged Estate.

Local.

☞ Father Kemp's Troupe gave a very fine Concert last night—an excellent entertainment, as was to be expected, or rather as we *knew* they would, for they never give any other sort. It was as good as could be, of the kind—and we would not be understood as pronouncing it anything but of a high order, either. But the Concert for to-night will be superior to it, inasmuch as chorus singing is superior to all other music, and the chorus for to-night will be very rich and heavy.

Then, comparing the two, we object in toto to the idea of dressing in costumes at least liable, if not designed, to cast ridicule on "the sacred songs our fathers sang"—for which, with all the correteness and imperfections of some, we have a reverential regard; and we would no sooner dress in such costume, than we would dance a jig over a loved one's grave. Not that we would cast any censure upon Mr. Kemp, who as everybody knows, conducts all his entertainments in the most decorous and satisfactory manner. Perhaps our ideas are peculiar—and we make this remark about dress, more to answer numerous suggestions for the Portsmouth Choir adopting it, than anything else.

It is the regret of all concerned, that Mr. Christie, who has heretofore led this Choir in all their numerous rehearsals and concerts, should be so circumstanced at this time, as to be unable to do so,—tho' he still remains a member of the Choir. To him has Portsmouth been largely indebted for the best of our local music in years past; and the complete success of the Old Folks Choir is in no small degree attributable to his skill as a conductor, and his high standing both as a musician and a christian gentleman.

It will be remembered, that at the first concert of the Choir, when hundreds were unable to gain admittance,—all was expectation and uncertainty as to what was coming; and after grand old Lenox rolled majestically forth from the mass of voices the the "applause" was tremendous.

But the devout, worshipful spirit of our Conductor could not endure that—and he politely, but earnestly requested that if the audience approved the performances of the Choir, they would *silently* enjoy the same with them. From that time, but little if any noisy "applause," so called, has ever been manifested at these concerts; though the facts that large audiences always attend them, prove their popularity, at least; and it is perhaps not too much to say, that during the organization of this body, no better concerts than their's have been given here if indeed at any other time.

As to that for to-night, considerable has already "been said—and sung." The leader is well known here, and in time past has also been identified with the best of our home music, as co-laborer with him before mentioned. He is one of the most thorough musicians in the State, and it is no more than justice to him and all concerned, to state that the Choir has had but two rehearsals under his direction;—and in fact, as many will come from out of town to-day, there will be but a single meeting of the whole,—if indeed, all are even then on hand till the last moment. Rather an unfavorable comparison, with a splendid choir which has sung hundreds of times together in concert, isn't it? However, we have no doubt all will pass off, as heretofore, to the satisfaction of all concerned, except the hypercritics, who like the impracticables in any other walk of life—not worthy notice.

Father Kemp and his choir have been invited to stay, and join in singing, or as hearers; and we especially hope he will do so, and give his opinion of the performances—which if not so brilliant as his, will certainly be more "grand."

☞ Our reporter, and our own item also, we fear did injustice to Provost Marshal Hall, in referring to his action and responsibility as to the printing office riot. Our reporter stated that he had a "force" there, when in fact he did not have a single man of his force to *assist* him. In fact he has now only a corporal and three men on duty; and they had been given the day for a holiday. Our reporter did state that Capt. Hall used all exertions to keep the peace and protect the office; and we are told by others that it was finally at the peril of his life or limb that he kept back the infuriated crowd, almost alone—and that it was in vain, he called on various citizens for assistance, and requested acquaintances to call other aid. Officer Johnson was almost the only man who professed to assist him—the City Marshal and Mayor, we are told, not being present.

As to closing the traitorous concern by law, long before, as should have been done—we are assured by good authority that Capt. Hall had not the power to do so, unless ordered by a superior officer—which course there is no reason to doubt he would, like ourselves, have favored, as much as we both condemn the plan adopted by an insulted and outraged populace. Capt. Hall appears to have spared no effort to maintain order, and we regret he had not been better seconded, and our city saved the disgraceful death of a paper whose every day of life was a disgrace to us all.

☞ A large audience of Navy Yard workmen assembled at the Office Building on the Yard on Wednesday, between the hours of 12 and 1 o'clock, and after a few introductory remarks by the mustering clerks, in which they set forth the claims of John Magraw,—the unfortunate man who was so severely wounded on Monday,—upon the grounds of charity, humanity, and the fact of his having been a fellow workman, a unanimous vote was taken to devote the proceeds of one-half day's wages to his benefit, which will amount to the sum of $3000, making all due allowances for those who cannot be reached. This voluntary gift redounds to the credit and bespeaks the magnanimity of these noble men. And this is not the first instance wherein their liberality has been appealed to, and wherein they have responded in like manner. Accidents occur frequently on the Yard, and these same workmen *always* contribute money with the greatest generosity for the aid and comfort of the unfortunate sufferer, whoever he may be.

— We are also glad to learn that the officers and men of the U. S. Ship Vandalia made up a purse of about $330 for the same object.

☞ If the services at most of our churches to-day partake more of the character of a Thanksgiving than a Fast, (according to the general acceptation of the latter term) we think even the most rigid observer of Lent, if loyal to his country, will gladly "pardon something to the spirit of liberty." The Concert to-night will also be imbued with a martial and patriotic, though reverential and devout spirit—as will be seen by the extracts we give from the words of one or two choruses, on our 4th page.

☞ On Sunday last, Rev. Mr. Holman of the Methodist Church preached his last sermon here, he having served two years. He gave, in his afternoon discourse, a summary of his labors with this people, mentioning among other items of interest, the fact of the contribution of upwards of *four thousand* dollars by the members of the church and congregation during the past year. Mr. H. leaves with the respect and good wishes of his acquaintances..

☞ Complaints are often made of the difficulty in getting building sites near the compact part of Portsmouth. The large pasture on South Road, to be sold by Mr. Hackett on Saturday, will afford a rare opportunity to obtain a desirable site. From this spot is to be had a fine view of the river, city, Navy Yard, &c., and if a new street could be laid out over this land, parallel with Richards Avenue, leading to Middle street, it would doubtless ere long be lined with fine houses. We hope to see some enterprising man purchase this land, and either beautify the location by erecting a fine house there, or lay it open to the public in lots.—At present the building of houses seems to be confined to the Kittery side of the river, and Portsmouth ought to have room for house-lots at a moderate price.

☞ We mentioned, in an item of Monday, two individuals had been robbed of fifty dollars on the Saturday; previous and we have since learned, that the police, hearing of this, made a "raid" on the place on Monday, arrested the inmates,—at the same time making important notes of who were there, &c—brought them before the Police Court, with the intention of breaking up the low brothel—but the effort proved abortive, for the want of co-operation on the part of those duty it is to "help, aid, and assist" all movements in that direction.

☞ Fast Day Services will be held in the Court Street Christian Chapel to-day, at the usual morning hour. Sermon by the Pastor: "Let the *people* praise thee, O God; let *all* the people praise thee. Then shall the earth yield her increase, and *God*, even *our own* God, shall bless us."

☞ A crowd of musical people from the suburbs as well as the city, may be expected at the truly Grand Concert this evening. The programme presents attractions seldom offered in this vicinity.

☞ A new advertisement of Dr. Tebbets' Physiological Hair Regenerator will be seen in our Special Notice column. This article bears a high reputation wherever it is known; and if it is not known everywhere, it is no fault of the enterprising proprietors. The agent in this city is Thacher.

☞ We are indebted to Mr. E. A. Joy for a beautiful specimen of pure quartz, said to have been found at Gravelly Ridge in this city.

☞ The beautiful, appropriate and patriotic Hymn which we are permitted to give our readers to-day, is to be read during service at the Stone Church this morning.

☞ The Alms House will be open from 9 to 5 o'clock on Fast Day, for any who choose to visit it.

☞ There will be no Chronicle on Friday morning, of course.

Money Found.

Left in the Store of the Subscribers, by some person unknown, a SUM OF MONEY. The owner can have it by proving property and paying for this advertisement.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

A Great Improvement.

THE NEAT LITTLE DRUG STORE OF
Thacher's,
51 CONGRESS ST., CORNER OF VAUGHAN.

DR. URANN,

PRACTICAL PHYSICIAN,

Who has made so many wonderful and instantaneous cures in Boston, New York Hartford, Springfield, and more recently in New Hampshire and Vermont, has taken

ROOMS FOR THE PRESENT AT THE
FRANKLIN HOUSE,
PORTSMOUTH, N. H.

DR. URANN'S treatment is such that by it

All Curable Diseases

are affected in one or two treatments, and many are entirely cured by one, as the following will testify:—

W. P. HOMER, 50 and 52 Federal Street, Boston, for many years was troubled with Heart complaint, so bad that at times he was unable to attend to his business; after one treatment he was able to run up stairs, work in his garden and attend to his business; has since gained 12 pounds.

Mrs. ELLEN CONRY, of Cambridgeport, Mass.—Sciatica; so lame that she could not walk without assistance; after one treatment of fifteen minutes was well as ever, and could walk a mile free from pain.

Mrs. SARAH P. STILES, Lowell, Mass., had Fever Sores on both legs of twelve years standing; her right ankle measured eighteen inches, and was as blue as indigo; she could not move her foot; after one treatment it was reduced one-half, she could move her foot freely and is getting well rapidly, her left ankle all healed.

Prof. G. M. LARRON, 1 Dix Place, Boston, troubled with Spinal difficulty, was in much pain; relieved by one treatment.

Miss HANNAH COOL, Campton, N. H.—Spinal difficulties; was unable to walk but a short distance or do any kind of work; perfectly cured and is now the picture of health.

Miss C. FROTHINGHAM, Boston, Portrait Painter, was troubled with great depression of spirits, at times was unable to attend to her favorite employment; was entirely cured, and she expresses herself, is "made over anew."

Mrs. J. BROWN, Boston, a severe cough and pains through her lungs, cured.

Capt. W. H. LAMPSON'S child, Lowell, Mass. The child was pronounced by physicians as hopelessly idiotic. The child could neither walk or sit alone, and took no notice of anything. After one treatment he began to improve, and has so far gained as to be able to walk alone, can talk, takes notice of everything, laughs and sings, and appears perfectly well.

Mrs. HINCKLEY, wife of A. T. Hinckley, of State Arsenal, Hartford, Ct., troubled with hip complaint and contraction of the cords of the legs; could not get her heel to the floor within four inches; had to be brought down stairs in arms; after one treatment of twenty minutes was able to run up and down stairs with ease, and is now able to walk the streets.

Mr J. TURNER, Hartford, Ct, troubled for many years with loss of memory; could not attend to business; had been under the best medical treatment in England with no beneficial effect; after one treatment was perfectly restored

Miss MARTHA ST. JOHN, Simsbury, Ct., was confined to her bed from spinal difficulty and prolapsus uteri; had not been dressed for more than a year; in twenty minutes she was enabled to dress and walk out to one of the neighbors, a distance of about a half mile; she has since been to Hartford and to church, and is improving daily.

Mrs. HENRY LOOMIS, Southwick, Mass., troubled with fits and spinal difficulties, could not walk without much difficulty, perfectly cured by one treatment.

Mrs. WM. JENKINS, Unionville, Conn., troubled for over two years with chronic liver complaint and rheumatism, had a large lump on her side which was very painful; was unable to lie down. Cured by one treatment, and is as well as ever.

JOSEPH H. ELDRIDGE, formerly of the Hartford Police, more recently on Hartford and New Haven Railroad, was obliged to give up his business on account of a severe cough and bleeding, perfectly cured and can now do a good day's work.

LYDIA L. FULLER, of East Wallingford, Vt., had entirely lost the use of her limbs after a severe attack of diptheria, was restored by one treatment, and is as well as ever.

FANNY DAVIS, of Moretown, Vt., had been confined to her bed for more than five years—was not able to stand—after one treatment of less than an hour, was enabled to walk around the room, and is now quite well.

Miss HUTCHINSON, daughter of Judge Hutchinson of West Randolph, Vt., was troubled with fits, having some days from fifty to one hundred. She was unable to eat anything but liquids—was not able to stand. After one treatment she began to improve, until now, she is the picture of health, able to walk as well as any one, eats hearty and has no fits.

SOUTHWICK, Mass., July 21, 1862.

DR URANN,—Dear Sir:—I suppose it is even a pleasure to you to learn the convalescent state of your patients; notwithstanding my long three years of almost absolute confinement to my bed, unable most of the time to converse with or see any company, and for over two years unable to feed myself—yet with this painful picture of human wretchedness which made life almost a burden, since your treatment of my spine, on the 7th day of June, I have been able to take my meals at the table, with my family, ride out daily, and converse freely with all; and without some new misfortune befalls me, I shall soon be able to interest myself in the labors of my profession, at least to preach one sermon a Sabbath. Without flattery, in my honest judgment, there is no better treatment in the hands of men for the Spinal Disease than the one which you honor, and as my heart beats with sympathy with all Spinal sufferers, I only wish they knew the wonderful utility of your treatment, and avail themselves of the same. Yours with respect and gratitude,

M. H. RISING.

DR. URANN'S TERMS

Are such that all can avail themselves of his treatment.

☞ Persons at a distance who are unable to visit the Doctor, by sending particulars of their cases, with one dollar enclosed, will receive advice and learn whether their cases can be treated at a distance. In all cases, state age and sex.

Portsmouth, Feb. 23, 1865.

Morning Chronicle.

MIRIAM'S SONG.

Sound the loud timbrel o'er Egypt's dark sea,
Jehovah has triumphed; his people are free:
Sing, for the pride of the tyrant is broken,
His chariots, his horsemen all splendid & brave;
How vain was their boasting; the Lord hath but spoken,
And chariots and horsemen are sunk in the wave.
Praise to the conqueror; praise to the Lord;
His word was our arrow; his breath was our sword:
Who shall return to tell Egypt the story
Of those she sent forth in the hour of her pride?
The Lord hath looked out from his pillar of glory
And all her brave thousands are dashed in the tide.

STRIKE THE CYMBAL.

Strike the cymbal, roll the tymbal,
Let the trump of triumph sound;
Powerful slinging, headlong bringing
Proud Goliath to the ground.

From the river, rejecting quiver,
Jadah's hero takes the stone;
Spread your banners, shout hosannas,
Battle is the Lord's alone.

See, advances, with songs and dances,
All the band of Israel's daughters:
Catch the sound, ye hills and waters;
Spread your banners, shout hosannas,
Battle is the Lord's alone.

God of thunder, rend asunder
All the power Philistia boasts.
What are nations? What their stations?
Israel's God is Lord of hosts.

What are haughty monarch's now?
Low before Jehovah bow;
Pride of princes, strength of kings,
To the dust Jehovah brings;
Praise him, exulting nations, praise;
Hosanna.

OLD HUNDRED.

Be thou, O God, exalted high,
And as thy glory fills the sky,
So let it be on earth displayed.
Till thou art here as there obeyed.

Eternal are thy mercies, Lord;
Eternal truth attends thy word;
Thy praise shall sound from shore to shore
Till sun shall rise and set no more.

OUR HEIGHT.—Among all the adults of all classes measured by Mr. Queteler he found that fully-developed and fully-formed men varied from 4ft. 10in., to 6ft. 2in., with an average of 5ft. 6in; and that fully-developed and well-formed women varied from 4ft. 7in., to 5ft. 8in., with an average of about 5ft. 2in. Professor J. D. Forbes, of Edinburgh, about thirty years ago, measured about 800 young fellows at Edinburgh University; those at 25 were only a little taller than those at 20, and presented an average of 5ft. 9in., Irishmen being a little taller at that age than Scotchmen, and Scotchmen a little taller than Englishmen. But these had their shoes and boots on, and were all from the well-to-do classes. And, moreover, as the Professor remarks, little can does like to come forward to be measured. All things considered—leaves been off, various classes selected, and all ages from 20 to 60—the average of well-formed Englishmen cannot be far removed from 5ft. 7in., about an inch taller than average Belgians, and rather more in excess of average Frenchmen.—*All the Year Round.*

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to all the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody (sent free) this disclosures Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25cts. in stamps or post parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, and how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount send for it. 25 cents in stamps or post-paid stamps inclosed, will secure a copy by return mail. DR TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America for the sale of his Celebrated French Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, warranted safe and sure in advance at every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies or certain delicate situations should avoid their use. For reasons see directions which accompany each package, or the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 4 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Petroleum!
LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK EXCHANGE,
99 STATE STREET,
BOSTON,
Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.

We believe we can offer superior inducements to all persons wishing to invest in

Petroleum Stocks.

Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.

Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the Petroleum are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiassed account of the standing and prospects of the various companies on the market.

Enquiries by mail will receive prompt attention.

Subscriptions received to all first-class Companies upon the most favorable terms.

Receipts and Certificates will be forwarded in exchange for available funds, without charge, and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.

We would call special attention to the following Companies, viz:—

THE HAMILTON
OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital

PRESIDENT—HON. WM. G. STEELE, M. C.
VICE-PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.

This Company has secured 2216 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.

BOSTON
PETROLEUM OIL COMPANY.
Capital, - - - $300,000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.

This Company is organized under the General Laws of Massachusetts. The property consists of

Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,

all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.

PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.
SECRETARY—CHARLES M. PIERCE.
ATTORNEY—JOSIAH RUTTER, ESQ.
MANAGING AGENT—F. A. WILDER.

DIRECTORS.

C. S. WHITEHOUSE, J. W. FARMENTER.
CHARLES SMITH, JOHNSON BEAN.
JAMES P. BRIDGE, GEO. E. SMITH.

Books for Subscription are open at our office. Only 3300 Shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the Stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.

ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.

No personal liability. No further assessment. To be organized under the General Laws of Massachusetts.

MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring Wells, was known to be one of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and he was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror* of Manchester, N. H., Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 416 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded in the past year to the State of Pennsylvania, as Gov. Curtin, in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the title of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The land is level and beautiful. Oil is on the lands on each side, Cherry Creek running directly through, and a rich underseam Coal vein on one side. Every twelve feet of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable wells have been bored. Here the State of Penn. well flowed 1000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked with from 10 to 100 barrels per day. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for $2,000, and a hundred barrel, and a sixty barrel will sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that has not been sold, is equal to the Flats by Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a source of profit. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells. Producers frequently refine 40 barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $2,000 to pump it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other farms I have visited, and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands on the three great Oil valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Boston, we shall have a number of wells and flowing wells. The flowing wells would sell for large sums of money, and the pumps would be good for good sums of money. Titusville, would be of incalculable value. There is abundant room on each acre for 12 wells, and on the Farm for twenty wells. I have made computation of the cost of so many wells, and the yield and profit on the whole in a year, if they prove productive, as they are expected to be, and the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. The lands are not expect any such results, but merely state fact let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right upon this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. Enough about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the derrick that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Fraser well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 220 barrels per day ever since.—They have not dared to puff out the enforced yield, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. Below this well on the same Creek, another fine well has been struck, and above, is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Fraser well, and great expectations rest upon it. In sight of the spouting wells, and between the Fraser and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On WEST PIT HOLE, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with a successful show of oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 115 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

ESTABLISHED
FACTS AND REASONS
FOR USING
DR. S. O. RICHARDSON'S
BLOOD-ROOT ELIXIR!

FIRST. The extraordinary curative effect of the Blood-Root Elixir was discovered by a regularly educated Physician: and the present proprietor also is a graduate from one of the highest Medical Colleges in New England.

SECOND. The Elixir is not alcoholic, contains no minerals, and may be relied upon as being composed of strictly vegetable substances; and no ingredient is intermixed that can unfavorably affect the most delicate constitution.

THIRD. The extensive and successful use of the Blood-Root Elixir, during the past year, proves it to be, without any qualification, the best and most valuable medicine that has ever been prepared for family use.

FOURTH. Medical science and skill have never been able to produce a cathartic medicine of equal power and effect, which contains so many desirable qualities. Its superiority as an aperient consists in its sure and thorough action, operating equally through all parts of the Bowels. It never produces griping pains in its operation; never occasions nausea; its flavor is pleasing and agreeable: and it will not be rejected by the most fastidious child. It may be safely used in all cases where laxative medicine is required. It will promote the comfort and health of both sexes, and of all ages: it will safely relieve during all infantile changes; it will, during the anxious hours of a mother's life, hasten and assuage her maternal pangs; it will render her happy in the ingoing days of the aged and venerable. And when the Elixir is once introduced into any household, it will thenceforth supercede all other laxative medicine.

FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, has continued by unsolicited testimonials, which in number and extended results exceed any estimate our most sanguine hopes ever had anticipated,—therefore we are fortified by unrefutable evidence, that our estimate of the efficacy and value of the Blood-Root Elixir has not been exaggerated.

SIXTH. In examining certificates received during the past year of its successful results, we are gratified in believing that our medicine has not failed in any case where it has been tried, to cure the most stubborn and chronic cases of COSTIVENESS.

SEVENTH. Most grateful manifestations have also been evinced by patients who have been relieved from LIVER COMPLAINTS of long standing. Also it has been effectual in curing CUTANEOUS ERUPTIONS OF THE SKIN; and in eradicating MALIGNANT DISEASES. And many afflicted with deep seated incurable SCROFULA, have been greatly benefitted by a moderate use of the Elixir.

EIGHTH. In cases of COUGHS and COLDS it has proved successful beyond any assurance we have ever expressed; and those who have thoroughly tested its effect, believe it to be superior to all other cough preparations.—the Elixir, by its physical properties, equalizes the circulation of the Blood, and relieves congestion. It also, when used as a gargle, or swallowed slowly, heals and soothes the irritated and inflamed membranes, from which the cough arises.

NINTH. Many persons suffer periodically from JAUNDICE, which is occasioned by a morbid and inactive state of the Livers. The Blood-Root Elixir is a sure relief from the despondent feelings and painful symptoms which are peculiar to that disease.

TENTH. DYSPEPSIA is an aggravating and disheartening disease, often leading to dangerous results. A limited use of the Elixir, according to the directions, will regulate the stomach and bowels with unerring certainty, and restore digestion to a natural and healthy action.

ELEVENTH. RHEUMATISM the Blood-Root Elixir will readily relieve; its warm and quickening effect counteracts the cold and morbid condition of the fluids, which is the primary cause of all Rheumatic affections.

TWELFTH. Persons subject to HEADACHE will be relieved in a few hours by a single dose of the Elixir.

☞ Every person taking the Elixir should carefully read the printed pamphlet which accompanies each bottle.

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each.
$5000 in DIAMOND PINS in value from $25 to $50 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $400.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.

The Chronicle.

A NOVEL.
TO BE READ IN FIVE MINUTES.

VOL. I.

Moonlight evening—shady grove—
Two young people much in love;
Heroine with great wealth endowed,
Hero handsome, poor, and proud;
Truth eternal—hearts united—
Vows of changeless passion plighted;
Kisses—quarrels—sighs—caresses,
Maiden yields one of her tresses;
Obstacles to be surmounted,
Happy hours pass by uncounted.
Ugly rival, old and stale,
Overhears the tender tale.

VOL. II.

Morning in the East looks ruddy:
Scene—Young lady's father's study.
Hero, with his hat in hand,
Comes her ditto to demand;
Angry parent storms—abuses—
And at once consent refuses;
Maiden faints beneath the blow—
Mother intercedes—no go;
Shrieks—hysterics—protestations,
Mixed with old man's execrations.
Exit lover midst the din—
Ugly rival enters in.

VOL. III.

Time—A Moonlight night once more,
Scene—Outside the lady's door.
Lover, with half broken heart,
Swears he'd rather die than part.
Garden—flowers—umbrageous shade—
Manly accents—serenade.
Chamber window opens wide—
Debut of expectant bride;
Little dog most kindly mute—
Tears—rope-ladder—flight—pursuit;
Gallant steeds—too late—night's screen—
Triumph—marriage—Gretna Green.
Old man's rage—disowns forever—
Ugly rival—scarlet fever.

VOL. IV.

Old man sickly—sends for child—
All forgiven—reconciled;
Young man making money fast—
Old man's blessing—dies at last.
Youthful couple prove probate—
Get the money—live in state—
Family mansion—jewels, plate.
Mother's wishes crowned with joy—
Doctors—nurses—little boy.
Time proceeds—their ties endear—
Olive branches year by year.
Blessings on the good attend—
General gladness—moral end.

London Paper.

WHAT IS FAME?—The Portland Press of Wednesday says:

We understand that a riot occurred in Portsmouth on Monday afternoon, and the office of a democratic newspaper, the Stars and Stripes, was cleaned out. It is stated that the building was destroyed and one man was killed.

The building was not destroyed, no man was killed, and the paper was not the *Stars and Stripes* by a long chalk, either in name or tone,—but the editor got into trouble on account of his delay or unwillingness to display the Stars and Stripes or the old United States flag. He has been so manifestly under other colors, that the boys have nicknamed his paper the Stars and Bars.

SUPREME JUDICIAL COURT, April Term.—This Court commenced its session at Exeter on Tuesday, Nesmith, J., presiding.

Wm. R. Preston of Portsmouth, was appointed Foreman of Grand Jury.

Case No. 66, Nat. Bachelder vs Chas. W. Sargent was about to be commenced in the afternoon, but was postponed to Wednesday. This is an action to recover for money paid to obtain the nomination of Mr. Sargent by the Democracy of Epping, as a member of the General Court. Case has been once tried by an Auditor who reported in favor of the deft. Smart for plf. Frink for deft.

A motion was made by the Solicitor of the County, that the trial of case State vs Young be arraigned for Monday of the third week. The hearing of this matter was delayed until Monday next. The Court adjourned at 4 o'clock, without commencing the trial of any case.

— General Picket, who caused the execution of twenty-eight loyal North Carolinians for the crime of having enlisted in the Union army, and who were captured at Plymouth last summer, is one of the officers embraced in the capitulation of Lee's army. Picket himself deserted to the rebel cause without the formality of having refused his commission in the Federal service. [This Gen. Picket should be arrested and tried by a jury of North Carolina citizens and soldiers.]

— At Portland, on Tuesday, Superintendent Latham, of the Grand Trunk Railroad, who tore the U. S. flag from a train on Monday, was waited upon by a great mob, and conducted through the city dressed in a soldier's uniform and carrying a flag which he was obliged to salute, and also to make patriotic speeches. Finally the flag was nailed to the house.

WHAT IS A
FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that 1 quart of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices every dollar saved is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding a little Saleratus or Sugar, biscuit can be made fit to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS,
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WESTS, BRADLEY & CARY, (late J. I. & J. O. West,) SOLE PROPRIETORS and MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
THE WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt, are experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and Home Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all Fashionable Stores in the City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.
INQUIRE FOR THE DUPLEX ELLIPTIC SKIRT. 17t—s4

CORKS
Of all sizes, for Bottles, Jugs, &c., for sale by
mch28 N. F. MATHES,
48 Market street.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Put up your pen and pencil rating, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work like a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleansed my bottles of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prot. Ure's Recipe, (made of Aleppa and Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and my pupils say it gave it great praise. *It is a good Ink*, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *once* and it now flows just freely at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, C. W. ROLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. Lt. Artillery.
Kewanee, Henry Co., Illinois, Feb. 28, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but not not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and it is a quality of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servant,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company, Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it, that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company, Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's, Maynard & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, *free* of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawfm

ARCANA WATCH.
An Elegant Novelty in Watches.
The case of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jime Watch Company of Europe, and are superbly finished, having engraved plates, fancy reserve, bridges, adjusting regulator, with gold balance, and the improved jewelled action with fine diamond stone hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 15, 1865.

HOW PEACE IS COMING.—"There is one feature of the capitulation of Lee's army that is worthy of particular note."—says the Newburyport Herald, viz. "the terms of the parole. The officers were allowed to go out with their side arms and private property—there was no attempt to humiliate or disgrace them; and all the capitulating army were to return to their homes, to be no more molested while they obey the laws of the land. Now since the rebels have no prisoners to exchange and never can have any, these terms are substantially a full amnesty for officers and men. We must remember, too, that President Lincoln was near the seat of action, and that Gen. Grant undoubtedly represented his views in what he did, and when he declared that the one great object sought was peace. We regard this as indicating the policy which the President means to pursue for the restoration of the Union and its complete pacification, and upon that basis he will find sympathy with the South, and raise up a party there as true to the Union and Constitution as are the people of New England.

To this, it must now be added, that orders are to be sent to our Generals everywhere, to open communication with the commanders of the rebels in their front, and offer the same terms which were accepted by Gen. Lee.—The wisdom of this course, in President Lincoln and Gen. Grant, is obvious to all intelligent people, and will be appreciated and honored by the Nation.

☞ A copperhead paper says:—

All will now wait to hear from Mr. Lincoln. There has been no time within the last two years when he might not have secured as good a settlement as he can get now.

It is bad enough for any writer to be a liar:—but he need not talk like a fool, unless he is really so. Two years ago the leading rebels and copperheads were alike defiant: now they are alike puzzled to know what to do or where to go.—Circumstances alter cases; and Gen. Lee understands it:—but of the Northern allies of the rebellion who are still blatant, it may be truly said, Though you bray a fool in a mortar with a pestle, yet his foolishness will not depart from him

☞ There has been quite a nice little scheme laid for a convention of noted Virginia rebels at Richmond, with the Billy Smith Legislature, on the 25th of April. But Perley telegraphs from Washington on Friday as follows:

The news received from the Journal's correspondent at Richmond indicates a change in the administration of affairs there. Gen. Weitzel has been superseded by Gen. Patrick, and the old State Rights politicians will find their attempt to gain control of Virginia nipped in the bud. The call for a convention at Richmond on the 25th will probably be squelched.

SHERIDAN IN BATTLE.—One of the army correspondents says that "mounted on his black pony, the same which he rode at Winchester, Sheridan galloped everywhere, his flushed face all the redder, and his plethoric figure all the more obsjutious. He galloped once straight down the rebel front with but a handful of his staff. A dozen bullets whistled for him together; one grazed his arm, at which a faithful orderly rode; the black pony leaped high, in fright, and Sheridan was untouched, but the orderly lay dead on the field, and the saddle dashed afar—empty."

— In New York on Sunday evening, three men called at the house of Mr. Gerardus De Forrest, No 121 West Thirty-ninth street, and asked if Mrs. Gale lived there. Mr. De Forrest answered in the negative, when he was seized by the men, carried up stairs, and his eyes and mouth bandaged with a sheet. The thieves then opened his private apartments and secured $3000 in gold and $1000 in greenbacks.—They escaped through a rear door, but dropped $600 in the hall, which was recovered. Mr. De Forrest is 85 years of age; and had not learned the danger of losing money from a dwelling-house by robbers.

— Mr. Lincoln has told his "little story" in Richmond. While seated in the parlor of the fugitive Confederate President, some one related to him the circumstances of Davis' flight. He said it reminded him of the negro, who, when his preacher told the congregation there were only two roads, one leading to hell and the other to damnation, exclaimed, "Den dis nigger take to de woods."

NO GOLD BOARD in New York on Good Friday. In Boston only $40,000 sold, at 145 1-2 to 145. Under the effect of the new orders from the War Department, the gold brokers will find their business dull and declining.

— Secretary Stanton anticipates there will be no more serious fighting. His retirement from the Cabinet on the declaration of peace is currently reported.

— Men of straw do not make the best "bricks."

SECRETARY STANTON telegraphs from the War Department, Washington, April 13:—

The Department after mature consideration and consultation with the Lieut. Gen. upon the results of the recent campaigns, has come to the following determinations, which will be carried into effect by appropriate orders to be immediately issued:

First, To stop all drafting and recruiting in the loyal States.

Second, To curtail purchases of arms, ammunition, quartermasters and commissary supplies, and reduce the expenses of the military establishments in its several branches.

Third, To reduce the number of generals and staff officers to the actual necessities of the service; forthwith to remove all military restriction upon trade and commerce, so far as may be consistent with public safety.

As soon as these measures can be put in operation, it will be made known by public orders.

— The Traveller's Washington dispatch of Friday states that Gen. Weitzel has been removed.—Gen. Butler's commission expires to-day, 15th, and he returns to Lowell to follow his profession.—Gen. Lee was in Richmond on Thursday. He has promised to go South and urge Johnson to surrender.

— The War Department is completing the arrangements to diminish its expenses.

GEN. WEITZEL, at Richmond, April 11, issued this order:

Protection is hereby extended to all churches and places of public worship; religious services may be continued without interruption as in times of profound peace. This protection must not, however, be perverted for utterance in any form of worship of treasonable sentiments or expressions. When thus perverted it will be withdrawn. In all churches where prayer heretofore has been offered for the so-called President of the Confederate States, a similar mark of respect is hereby ordered to be paid to the President of the United States.

☞ Some curious cattle of African breed, imported by Gen. Wade Hampton, consisting of a bull, cow and calf, were captured on his plantation near Columbia, S. C. and were delivered over to Gen. Meigs, who forwarded them to New York to be placed in Central Park.

On the same plantation was captured a band of minstrels, consisting of thirteen slaves, among whom are two white brothers, all of whom now travel with Gen Logan, their deliverer, for the amusement of himself and friends.

— Gen. Palmer is at Eminence, Ky., for the purpose of receiving the surrender of all the Confederate forces in the State, including Col. Jessie's command. Those who will not surrender will be declared outlaws, and people called upon to hunt them down. A Lieutenant and 71 men surrendered to Gen. Hobson.

— The Richmond Whig, commenting on the address to the people of Virginia, says it is understood that the invitation has been put forth in pursuance of the plan of proceeding assented to by President Lincoln. At all events it will be hailed by the great body of the people of Virginia as the first steps towards a reinstatement of the Old Dominion in the Union.

— A general strike of the men employed at the Brooklyn Navy Yard took place on Tuesday last. Business is almost entirely suspended. They could not have struck in a better time—for the government; for their is no great hurry about their work now. We know nothing of the case; but presume they could have had a better remedy for their complaint, in some other way.

— Chaplain William Griffith, who was arrested at Nashville on the charge of purloining soldiers' letters and sanitary goods, while on the way from prison to the Court House on Friday escaped from the guard, and running to the river, plunged in and sank to rise no more. He had previously attempted to drown himself. It is said the proof of his guilt was overwhelming.

— Advices from the army about Mobile are to the 4th inst. They state that water communication between Spanish Fort and Mobile has been cut, and a battery established above the fort. Rebel communication with Mobile is now entirely suspended. The siege progresses favorably.

— Col. Gambel, commanding the Union forces at Fairfax Station, has received a message from Moseby, in which the latter says he does not care for Lee's surrender, and that he is determined to fight so long as he has a man left.

— It is said the late rebel Gen. Lee has expressed a desire to depart for Europe with his family at an early day. He is much affected by his defeat. Davis has deserted him and is retreating on his own account.

— The Post's special Washington correspondence says information has been received at the French Embassy of the dangerous illness of the Emperor Napoleon.

— The reported capture of Selma and Forrest's entire rebel force is, according to the National Republican, now considered by Gen. Thomas to be reliable.

— The Vicksburg Herald confirms the capture and burning of Selma, Ala., and says that Forrest narrowly escaped capture.

— It is said that before the last draft was ordered, there were 1,244,000 men on the pay rolls of the War Department.

A DROP LETTER. *Lexington, Mass., April 11.* The first man who thought to invertise his waves by defacing the picturesque in nature or the grand in art, and who covered the Pyramids of Gizeh with an invitation to, "try Warren's Blacking," at least had the credit of originality, and reaped an abundant reward for his outlay; but the host of imitators has now become so great as to turn the thing into a positive nuisance. Go where you will, our pleasures are em *bitter*-ed by certain mysterious letters daubed upon rocks, trees, fences, wharves and bridges; and we are truly "unfortunate" that medicines for such are thrust under our very noses when we are well, and feel more inclined to throw physic to the dogs than to take it ourselves. New Hampshire's law will partially protect her tourists in this respect, and should be imitated by all the New England States. Not but many of the articles thus heralded are meritorious in themselves, but there is such a thing as dealers unseasonably pressing wares upon the public, until their drugs become a bore.

Col. Blaisdell, the agent for the purchase of locomotives for Government, has in his grapery here, a crop that will be ready for the market next month, estimated at over a ton. The grapes present a handsome appearance, the darker varieties already showing their ancestry in the color of their cuticle, and will net a handsome sum at the rate they are expected to bring—$2 per pound. This is amateur gardening to some purpose. The expense of heating the grapery the past season has been a dollar per night.

A forenoon spent in the Massachusetts General Hospital, Boston, a few days since, if replete with what sensitive people would consider horrors, was not without interest and instruction, and gave the mind a fuller appreciation of this great charity, whose mercies are thrice blessed—in that the poor receive kind usage and skillful surgical treatment, while at the same time a large number of students and physicians derive the benefit to be obtained from the study of the great variety of cures treated here. Beside the chemical lecture, I was present at more than a dozen different surgical operations, and it did seem, from the conduct of the patients, that the more shattered and useless this poor human hulk of ours becomes, the more strongly we cling to the wreck. Theoretically, one would suppose the deeper we quaffed of the cup of life and tasted the bitterness of its dregs, the more willing we should be to let it pass from our lips. We shall see if the rebels are satisfied with their vintage of blood, now that Grant has drawn off its very Lees.

Fast day was observed almost universally in Boston, and passed off as became the day, on account of our recent great triumphs. The good people went to church, and judging from the crowds that emerged from the doors, the attendance was very large; the worldly people played billiards and tenpins, smoked, walked, rode and drank whiskey, but the amount of intoxication up to a late hour in the afternoon, must have been very slight, as we saw no one in the streets who appeared inebriated. Flags floated to the breeze from flag-staffs and windows, from cross lines and doorways, and many buildings were tastefully decked with tri-colored festoonings, the most conspicuous that came under our notice being Chickering's salesrooms. The fountain on the Common threw its vast funnel of spray up to glitter in the sunshine, and the faces of the people wore a joyous look, that told they felt a great deal of thanksgiving for the good that had been granted before their united supplications had been blended to implore Divine mercy and interposition in behalf of the right.

On Wednesday afternoon Dr. Huntington delivered a very suitable address on their duties as Christian professors, to fifty-eight candidates who were confirmed on Thursday evening.

One of the most tedious rides in this vicinity is that from Lexington to Boston, the time consumed in making the distance of eleven miles being forty-five minutes, in this age of steam, and the number of stops made being fourteen. Referring to this latter fact, a friend remarked that "the Lexington Railroad was worse than the Great Organ."

The propensity of great concerns to increase to still larger proportions, is shown in Boston by the immense new office of the Adams Express Company on Court street, and in the report that the Parker House is to be extended from its present site to Tremont street. The new dwellings in the vicinity of the Public Garden and the Mill Dam are erected and furnished in a style that a few years since would have been deemed a realization of the wonders wrought through the agency of Aladdin's lamp. Brown stone and drab stone, granite, marble and brick, are hewn, hammered, chiselled, wrought and turned into all sorts of beautiful, grotesque and fantastic shapes, to beautify, adorn and disfigure the residences of our merchant princes, petroleum and shoddy nabobs; and every clime and every sea is ransacked for articles unique, useful and ornamental wherewith to decorate the interior of these same buildings. To a poor man who visits among the private palaces the question is apt to intrude—"Is it possible that a person can honestly acquire the means wherewith to make such a bewildering show?" ION.

NEW LIFE.

Spring comes again, and uncuils bud and leaf,
And every bare brown twig puts forth new shoots;
Things, seemingly quite dead, find quick relief.
While crowning splendors flush from unseen roots!

And I, like them, feel in my soul some stir—
Some hidden movement of the will of God!—
For surely His love only can confer,
This glory, trailing, wreathing, all the sod!

His love, beneath the earth, gives flowers strength,
Goes through dark places with its strange, sweet might;—
And so I wonder, "will it come at length,
Into my darkness—give me help and light?

Through folds of earth it drops down, mutely—still—
And gifts each small brown seed with wondrous power;
The vigorous sap goes creeping up, until
In upper air there shines the perfect flower!

Dear God—while giving dulses their new life,
Regard my soul with pity and with care!
Its little seeds of good, half choked by strife,
Though often struggling, still lie buried there!

I dare not dream of what their growth may be,
But watch in trembling; yet in hours like this,
With all the earth refreshed and glad through Thee,
Shall I alone, Thy holy helping miss?

I only, with more knowledge than the flowers,
Though not their sweetness!—Father, let me live,
With larger trust, in coming harvest hours;
More hope, to this, my little seedtime give!

A rarer hope, that through these crusts of care
My seeds, in feeling for the light, may break;
And touched by Thee, lift whitely, pure and fair,
In upper words, their blossoms, for Thy sake!

☞ The Old Folks Choir will have a Rehearsal at Mercantile Hall this (Saturday) evening at half-past 7; and it is hoped that every member will be present, and join in this concert, for so good a cause.

Would inform the citizens of Portsmouth and vicinity, that he has taken that part of
The Store of Mr. H. S. Bodge,
No. 1 Congress Street,
formerly occupied by Mr. F. W. HAM, and is now prepared to give his attention to the various branches of
Watch Repairing and Adjusting.
Having enjoyed unusual facilities for acquiring a practical knowledge of the art of
Watch Making and Adjusting,
and being provided with all the engines and tools requisite for the execution of the finest and most delicate work, he does not hesitate to
GUARANTEE FULL SATISFACTION
with every Watch entrusted to him.

Chronometer Balances and Isochronal Balance Springs applied to Fine Watches and accurately adjusted to extremes of *Heat and Cold* and to *Position.*

Plain Watches Jewelled, full or in part. Escapements proportioned and otherwise improved at a moderate cost.

CLOCKS and Musical Boxes repaired thoroughly and promptly.

That Portsmouth may have a
TIME STANDARD
of its own, he has ordered and received from E. HOWARD & CO., the celebrated Boston Clock Manufactures, one of their splendid
ASTRONOMICAL CLOCKS,
of the same style and quality as the one made by them for the observatory at Cambridge, which is set up in the Store for the benefit of our customers and the public, and by it gentlemen are invited to regulate their Watches, as it will always be kept to Portsmouth mean time by transit observations.

WATCH REPAIRING done for the trade on liberal terms. **JOHN H. CARTER,**
With H. S. BODGE,
No. 1 Congress Street,
mar18 Opp. front of North Church.

STEP INTO
THACHER'S NEW DRUG STORE,
Corner Congress & Vaughan Sts.

Special Notices.

NOT ALONE

As a beverage, but as pure diuretic stimulant, Dunstor's old London Dock Gin stands unrivalled. Sold in large bottles at a low price, by druggists and grocers generally, and by the sole agent, C. A. RICHARDS,
99 Washington Street, Boston.

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7s6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

☞ **A Physiological View of Marriage**:—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free on receipt of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch13—3mdawsn

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN,
Station D, Bible House,
624sndaw New York City.

No vocabulary can furnish language sufficiently strong in commendation of that excellent and indispensable article known as the J. Monroe Taylor Gold Medal Soap. The lady having aught to do in any household department, from the wash tub to the finest needle work, should not fail to supply herself with a year's stock. It only requires a person to use it once to use it their whole life. Most of the grocers sell it. 127

Local.

☞ Fast Day was generally observed in this city by closing stores and cessation of labor; and the audiences in some churches were larger than usual on fast day; the pastors generally taking due notice of our national affairs. Rev. Mr. Patterson spoke in Newcastle. The day was one of almost Sabbath stillness here. Work did not cease on the Navy Yard, where the Maine Fast will be kept next Thursday.

☞ We have only to say now, in respect to the Old Folks Concert, that the music passed off well, considering the limited rehearsal of all together. The chorus was heavy, but there were many members of the choir among the audience or absent elsewhere. The duett for cornets was marred by the breaking of a valve just at the wrong moment. Mr. B. B. Davis sang a bright and pleasing song composed for the occasion, which was encored to a repetition. The praceeds of the Sunday evening Concert, it will be seen, go to the Soldiers, who will need Aid for a long while yet. A full house will net them a good sum.

☞ Mr. F. W. Rogers has furnished Uncle Toby with lots of *Factory Kindlings*—very handy—and informs him that the price of Wood has fallen a dollar or a dollar and a half on a cord:—not bad news for light purses.

☞ The audience at the Fast Night Concert probably numbered just about 1400; so that with the large Choir, there were no doubt between 1500 and 1600 people in the house, all told,—which appeared to fill nearly all the standing room even. But every person there could have been *comfortably seated*, if there were ever any general disposition evinced in such cases to accommodate anybody but self. There were just about 1300 tickets taken at the door; and probably 100 who went in without tickets, or children who represented half tickets.

The cash receipts were about $325—the cash expenses will amount to nearly $300 we should say, without seeing all the bills yet. Not a chance for a fortune there, eh? well, nobody wants to make money out of Old Folks, here, that we now of—except the Soldiers' Aid Society, and expenses will be kept down for them, and the free-ticket list must be very much lessened—while we hope the receipts will be kept up to concert pitch.

IN BOARD OF ALDERMEN this week, John H. Bailey resigned the office of Street Commissioner.

Boyd's road so called was accepted as a highway, provided the petitioners furnish a plan.

A joint resolution appropriating $500 for the celebration of the day to be appointed by the President for rejoicing for victories, sent up from the Common Council, was laid on the table till next meeting.

Benj. W. Curtis was appointed Chairman of the Board of Health.

The two Boards disagreeing on the Salary Ordinance, a Committee of Conference was appointed.

In Convention, George T. Vaughan, John N. Frost, and John A. Yeaton were appointed Port Wardens.

☞ Some of the friends of the Portsmouth Old Folks Choir feared that Father Kemp's Concert would take the wind out of ours. Father Kemp himself "knew better" than that, as did we also; and the event proved us correct, the audiences comparing about in proportion of three to one.

As to the merits of the two: his choir was too small and too light to give any chorus with effect, or render most of the old tunes as they should be; though the playing and the song and quartet singing were fine. Some of the dresses, too, were very rich and beautiful, and the whole costuming very handsomely done, and would be an interesting feature under some circumstances; but the whole matter of trifling and buffoonery, while performing *sacred* music, must be condemned in toto, as in bad taste, if not sacrilegious or worse, by every person of good sense and sound sentiment—no matter how much the rabble, far or near, may applaud and patronize it.

☞ The L. S. A. S. held one of their private social Levees on Wednesday evening last, over the capture of Richmond,—on the occasion of their regular weekly meeting. Everybody enjoyed themselves, we should judge; and all hope for speedy Peace, so they may try it again.

ANTIQUES.—The lines "Sunday Concert" and "Old Folks Choir," in the bills for the Concert, and similar lines in the papers, are actually printed from Scotch types a century or more old—not the *styles*, but the letters themselves. They were formerly in the office of John Melcher, esq., and are in a perfect state of preservation, and doubtless are the only specimens in the country.

Those bills were set up, too, by Uncle Toby, who we believe is the oldest editor in the State, and perhaps the oldest printer.

And the Conductor of the Choir learned to sing under old Holyoke, of "Continental" celebrity. Who says *Father* Kemp?

INTERESTING EXHIBITION.—We are requested to state that Dr. Burleigh's first-class Entertainment *this Evening*, at the Temple, promises to be among the most interesting, recherche, and fun-provoking of the entire season. April 15.

☞ We are requested to state that a subscription in aid of Mr. Magraw, is open at the store of Mr. N. P. Thacher, as also at one or two other stores.

THE CHRISTY MINSTRELS.—This inimitable troupe of melodists will appear at the Temple on Tuesday and Wednesday evenings, April 18th and 19th. Their unprecedented excellence in delineating the singular peculiarities of the negro character, together with their unquestionable talent both as actors and musicians, fully justify the applause that is unanimously bestowed upon their performance everywhere. The style of entertainment, too, commands a certain amount of success by its novelty and completeness. To those who have not yet heard the Christy Minstrels, there remains a treat of the richest and rarest description. The entertainments abound with melody in the strictest meaning of the term, and an immense quantity of mirth stirring peculiarities. The celebrated Dwarf Japanese Tommy appears at each exhibition, in several side-splitting acts of negroism. He is only thirty-two inches in height, and is 35 years of age. If you wish a hearty laugh, visit the Christy's on Tuesday evening. COM.

LEGERDEMAIN.—We notice that Prof. Fabian, the arch illusionist, is to appear at the Temple for a short season, commencing Thursday evening next, April 20th, in his great feats of legerdemain. The Professor (it is said) possesses a pleasing address, and performs his deceptions with a neatness truly superior. There is one thing in relation to the distribution of presents what he *promises* he *performs*; he gives away each evening good and substantial articles, such as a chamber set, value $40, ice-water pitchers, &c., &c. On Thursday evening there will be distributed a very handsome chamber set, together with 149 other presents. The Professor challenges any person to produce the first instance where he is not true to the advertisement in the distribution of gifts. It

BOSTON & OHIO RIVER PETROLEUM CO. Although the stock has been but a short time in the market, we are told it is being rapidly taken by those who appreciate the superior advantages which are offered, and the extraordinary inducements to purchase. The reader will find in their advertisement, on the 4th page, a somewhat full and explicit explanation of their operations. Certificates of stock are issued at only one dollar per share, and applications may be made at their office, No. 46 Washington St., Boston, personally or by mail.

DEATHS.

In Newburyport, April 12, AMOS H. HOWARD, aged 20 years, son of Caleb H. Howard.

In Epping, SALLY JOHNSON, widow of the late Benjamin Johnson, aged 75.

At Sanbornton Bridge, Professor H. A. EASTMAN, aged 24.

CARD.

The Officers and Members of "GRANITE STATE" Engine Co., No. One, tender their thanks to Messrs. S ADAMS & CO., for the bountiful supply of Refreshments furnished them at the late fire. Per order.

THE PIER CO. present their thanks to the Fire Department for staying the fire on their premises on Thursday afternoon.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and *its exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

A Great Improvement.

THE NEAT LITTLE DRUG STORE OF
Thacher's,
13 CONGRESS ST., CORNER OF VAUGHAN.

From the Portsmouth Journal.

THE FAST NIGHT CONCERT, by the Old Folks Choir and Concert Band, was an immense success. The Temple was full to overflowing, an audience of 1500 being present, and crowds unable to gain admittance. The music was sublime in chorus, and some fine solo and quartet singing and playing was given.

B. B. Davis, esq., of Concord, sang in charming style, a beautiful song, "The Flag of the Free," the music composed for this occasion by Prof. Morey of Concord; with chorus by a fine quartet of voices—one of the prettiest things we have heard for a long time.

We have only space now to invite attention to the fact that another similar concert (in aid of our soldiers,) will be given on Sunday evening, with change of programme—in which Mr. Davis, the Band, and all will again appear, and a feast be offered even superior to the other.

Next Sunday being Easter Sunday, the Concert will commence with Father Billings' grand old Easter Anthem, "The Lord is risen indeed, Hallelujah."

FIRE.—On Thursday afternoon at two o'clock Mr. Broughton, of the firm of Samuel Adams & Co., discovered smoke issuing from the building on Pier Wharf where Messrs. A. & Co., had stored shingles, pickets, lime, sand, &c.; and upon entering the building found the shingles on fire close by a broken window near to where the Navy Yard steamer had shortly before landed passengers. The discovery was a few minutes too late, and before sufficient water could be brought to bear upon the fire the building was in flames. On the wharf adjoining the building was piled a large stock of long lumber to which the fire communicated. The upper story of the west end of the building was occupied by Messrs. Thomas and Luther B. Martin as a joiners' shop, which was burnt but not entirely destroyed.

The loss to Messrs. Adams & Co., is between three and four thousand dollars. About 5000 feet of long lumber, and 150,000 shingles, together with most of the other stock were destroyed. Their insurance is as follows:—Home Co., $1600; Howard Co., $1800; Arctic Co., 1500; Ætna Co., $1000.

The building was owned by the Portsmouth Pier Co., and was not insured.

Messrs. Martin lose in tools and stock about $300—no insurance.

The Steam Fire Engine was promptly on hand with the rest of the Fire Department. This was its first practical trial, and it gave the best of satisfaction—throwing four hours two continuous streams of water, and doing the work of four or more hand engines.

This is the third fire which has touched this building during the last fifteen years.

THE NEW ENGLAND SOLDIERS' AID ASSOCIATION, Rooms 400 Chesnut street, Philadelphia, and 36 Lowell street, Boston, make an appeal, probably for the last time, for the means to aid the maimed, wounded, and sick soldiers, who have shed their blood for the Union, and won our recent glorious victories, but who now languish in our hospitals. We owe these men more than we can pay; and while the nation rejoices, let us remember these sufferers. Being near the scene of conflict, large number of sick and wounded are sent to Philadelphia, and their hospitals are being filled with them. Many of these are from New England, and look to us for sympathy and relief. To effect these objects, this Association was formed, and has hitherto been supported by New England generosity. Without immediate help their work must cease.

Father Kemp's Old Folks closed their performances at the Temple on Wednesday evening. They had a very full house. They are good singers. The exhibition of the various costumes of the last 200 years, is indeed a rare treat, and with good music added everybody is satisfied. Their next appearance will be in Haverhill on the 20th Sept. next.

PROMPT.—On Monday at 6 P. M., we found on our table a photographic view of the scene in Daniel-street that afternoon, even before the crowd had all dispersed. Mr. Minerth is prompt in such matters. He has sketches taken at four different times in the afternoon which may be obtained at his rooms.

For the Portsmouth Journal.

Portsmouth, April 12, 1865.

Messrs. Editors—Permit me through the medium of your paper, to tender my most profound and grateful thanks to Provost Marshal DANIEL HALL, for his determined and persistent bravery in my personal behalf and defense, and in the protection of my property during the riot of last Monday. He stood for nearly an hour in the brunt of the fight in my office, firm and unflinching, withstanding the madmen who were demanding my life, with the evident intention of taking it. He coolly, but in terrible earnest, told the infuriated mobocrats that they must walk over his dead body first. Several times was he violently forced from his position, but only to resume it again in a moment, until at last, being overpowered by numbers, further resistance was utterly vain and futile, and he reluctantly withdrew. Had he been properly supported by the local authorities, the wanton destruction which followed might have been avoided. I feel that I owe him a lasting debt of gratitude, and he may be assured that his efforts will be promptly reciprocated should the occasion ever require it at my hands.

J. L. FOSTER.

Mr. Alfred Speer, of New Jersey, produces a superior wine, designated for sacramental and family use. Mr. S. has been engaged in experimenting on the improvement of the Portugal Sambuco grape and its manufacture into wine by a peculiar method of fermentation. The latter has now become a scientific process, requiring four years for its completion, and the experiment is deemed an entire success by physicians, committees of Agricultural Societies, &c., who have investigated the matter.—*Newark Daily Advertiser.*

The above wine is extensively used among families and invalids and sold only by first class dealers.

WARD ONE.

THE STATE OF NEW-HAMPSHIRE—ROCKINGHAM, SS.

To the Inhabitants of Ward No. ONE in the City of Portsmouth, in said County, qualified to vote for Senators

[L. S.] *in said State.*

YOU are hereby notified to meet at the Ward Room in Elm street, in said Ward, on TUESDAY, April 18th, at ten o'clock in the forenoon, for the following purposes:

To choose by ballot one Alderman, to fill the vacancy occasioned by the resignation of Nathaniel G. Weeks.

Given under our hands and seal this 31st day of March A. D. 1865.

THOMAS L. TULLOCK,
JOHN H. SLAYTER,
WILLIAM R. MARTIN,
Selectmen of Ward No. One in the City of Portsmouth.

100,000 - - - - SHARES
$50,000 - RESERVED WORKING CAPITAL.
$5.50 - PAR VALUE AND SUBSCRIPTION PRICE.

No Personal Liability or Future Assessments.

President.
JOHN S. BARRY, of Boston.

Treasurer.
LEVI H. STRAW, of Boston.

Directors.
John S. Barry, Boston, V. J. Messinger, Canton, S. Johnson, Charlestown, Seth B. Brown, Boston, J. S. Shaller, Roxbury, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 648 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Shannon* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhiny farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by Jos. W. DAVIS, Banker, No. 3 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

3mdawmh23 LEVI H. STRAW, Treasurer.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the consideration of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board or lodging.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has on hand for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.—

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has so devoted his attention to the treatment of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice the care of Private Diseases, and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eodwly

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his long-tried and much feeling in correspondence with the most eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubos, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotes, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married State, are invited to consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in situations very part of this country, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. He resides at the address above, that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent free to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, Marriage, Disease and Disorder—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Talbot's Celebrated Male Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

LOMBARD & GORE,

BOSTON

PETROLEUM AND COAL STOCK EXCHANGE,

99 STATE STREET,

BOSTON,

Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.

We believe we can offer superior inducements to all persons wishing to invest in

Petroleum Stocks,

Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.

Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiased account of the standing and prospects of the various companies on the market.

Enquiries by mail will receive prompt attention.

Subscriptions received to all first-class Companies upon the most favorable terms.

Receipts and Certificates will be forwarded in exchange for available funds, without charge, and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.

We would call special attention to the following Companies, viz:—

THE HAMILTON

OIL AND COAL COMPANY.

CAPITAL $1,000,000.

100,000 Shares, par value $10.

Subscription Price $5 per Share.

20,000 Shares reserved for Working Capital

PRESIDENT—HON. WM. G. STEELE, M. C.
VICE PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.

This Company has secured 2218 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.

BOSTON

PETROLEUM OIL COMPANY.

Capital, - - - - $300.000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.

This Company is organized under the General Laws of Massachusetts. The property consists of

Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,

all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.

PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.

MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in locating Oil Lands and sinking wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, experienced in the business of the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and Colonel Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Clarke, Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the 1096 acres of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the best year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a Boston lawyer of Boston and Pennsylvania Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and E. A. Wilcox, Esq., a lawyer of 20 years' standing in Titusville, went out to see to the titles of lands, and make farther examinations. They came to the same conclusion the others had come to, viz: that if there were any flaws in our

The Chronicle.

THE END OF THE REBELLION.—The Newburyport Herald makes the following plain statement:—

It is but one year since Grant took command of the army of the Potomac for a movement on Richmond, and as the grand director of military measures. That year has been the most eventful in the history of America. Step by step he has moved on, making no mistakes and never yielding one foot gained. Lee has fought long and well, but it was against superior numbers and against destiny. The walls have closed upon him; all his hopes have perished; the bubble of the new confederacy has exploded; the victory is full and complete. All that remains now in the way of war is to remove the debris of the rebellion. The flood has come and subsided, and the wreck of matter alone is to be removed. After that is the better work for which all should prepare their heads and hearts—to *heal the wound* the contest has caused, and restore a better state of feeling than existed before the rebellion, by showing the people of the South that they have mistaken our character and been shamefully *deceived by their leaders*,* upon whom rests all the responsibility, † for the crimes and suffering of the last four years, and these are enough to sink their names in infamy forever.

*And by their contemptible allies, the pro-slavery venal presses and demagogues of the North.

†Not *quite all* of it: the people, the presses, the pulpits, that apologized for the wickedness, and even defended the *wrong* as if it were *right*—are also responsible. U. T.

☞ Prentice is jubilant over the fall of Richmond. From late numbers of the Louisville Journal we select a few of his spicy paragraphs:

The Richmond papers are stopped.—The world's stock of impudence and insolence is reduced one-half.

The Richmond Whig said, with almost its last breath, that the Southern people must have "a dictator." How would "old Abe" suit them?

For the capture of Richmond we ought to have such an illumination throughout the country as shall make the man in the moon think that the old earth is on fire.

Richmond and Petersburg are both Federal cities. How the tightening folds of the big anaconda are making the rebellion's bones crack!

The citizens of Richmond will now behold an unaccustomed sight. They may not admire the spectacle of the blue coats, but they will certainly rejoice in the appearance of the greenbacks.

NEW HAMPSHIRE ITEMS.

—— We learn from the Morning Star that Dr. A. J. H. Buzzell, Surgeon of the 3d N. H. Regiment, died quite suddenly of fever at Wilmington, on the 28th ult. He was a citizen of Dover and a worthy and prominent member of the First Freewill Baptist church. His family had not heard of his sickness when his corpse arrived in town.

—— Mr. Joseph D. Weeks, agent of the individual relief department of the U. S. Christian Commission at Washington, writes the Independent that it might aid inquiry after the missing son of Dr. Livingstone, if it were known that he enlisted under the name of "Rupert Vincent," in Co. H, 3d N. H. Regt.

—— Asa Freeman, Esq., the venerable and respected Register of Probate for Strafford County, delivered a Temperance lecture in Dover on Monday evening at the City Hall. It was first delivered by him before a Temperance Society in 1832, in Dover.

—— The Memory of Major Brown deserves a more extended notice than the mere record of the fact that he is dead and buried. A circular has been issued from the Adj. Gen.'s office in Concord, announcing the death of Maj. Wm. I. Brown, 18th N. H., giving a brief account of his services, and expressing deep sorrow for his loss.

DAVIS, MASON AND SLIDELL.

"When shall we three meet again
In thunder, lightning, and in rain.
When the hurley-hurley is o'er and done,"
If the battle's lost we'll run.
Should General Grant conquer Lee,
To some distant land we'll flee.

GENUINE ELOQUENCE.—"If you are in want," said a person to a poor Irishman, "why don't you beg?

"Sure, and it's begging I am, your honor!"

"You didn't say a word!"

"Ov coorse not, yer honor, but see how the skin is speaking through the holes of me trousers, and the bones crying out through me skin! Look at me sarken cheeks, and the famine that's starin' in me eyes! Man alive! isn't it beggin' that I am with a hundred tongues?"

— Miss Maria Macarty, formerly an actress of considerable repute, died at the Insane Asylum, Indianapolis, on Monday morning, of congestion of the brain. She had been an inmate of the Asylum for nearly two years.

FRUIT, CONFECTIONERY,
—AND—
CIGARS.

WHAT IS A
FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonfuls of Sugar, biscuit can be made fit to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

Crockery Ware.

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC SPRING SKIRT.
WESTS, BRADLEY & CARY, (late J. I. & J. O. West,) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
THE WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenading, at home Duplex, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
Lady Purchasers will enjoy the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards be disposed to dispense with their use. For Children, Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all First-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.

mh28 N. F. MATHES,
48 Market street.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDER
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not gum up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—We get your pen dry without using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.

Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company: Gents: I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.

MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful article which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppo Galls, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one seems to give it great praise. *It is a good Ink*, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used*. This is no puff. Some in my inkstands froze up *solid twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.

Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.

Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all*.
I have introduced it into my school in this place, and had a quantity of it. It would find ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.,
GEO. W. PARKER.

Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing*.—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.

Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most inks of to-day. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.

Brookline, N. H., March 19, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used
Yours respectfully, G. E. STILES.

PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

ARCANA WATCH.
An Elegant Novelty in Watches.
The case of this watch are an entirely new invention, composed of six different metals combined, rolled together and plated, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are offered at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Pain Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are superbly finished, having engraved plates, fancy carved bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are in all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

MONDAY, APRIL 17, 1865.

ASSASSINATION PRES'T LINCOLN.

From a condition of general joy at our late success, and the near prospect of enduring peace, the whole country was startled and shocked on Saturday morning, by the news that President Lincoln and Secretary Seward had been assassinated.

On Friday night, at Ford's theatre in Washington, about 20 minutes before eleven o'clock, a man entered Mr. Lincoln's private box and shot him, and jumping upon the stage disappeared through the scenery, with which he seemed familiar, and escaped. With a knife gleaming in his hand he ran into a side alley, mounted a horse and rode like lightning up Tenth street.

The assassin's ball entered the president's brain, lodging in the skull; making his condition hopeless, and inflicting a wound of which he died on Saturday morning about 7 1-2 o'clock.

About the time when President Lincoln was shot, a man gained entrance to Mr. Seward's house and stated to the attendants that he had been sent by a physician with a prescription, which he must take immediately. The stranger rushed in spite of opposition into Mr. Seward's room, wounding Mr. Frederick Seward and an attendant with a bowie knife, and then wounded the Secretary as he lay in bed. Maj. A. H. Seward, son of the Secretary, being in the house, rushed toward the chamber, when he met the assassin, who wounded Major Seward severely in the face and escaped. It was found that Secretary Seward's throat had been cut and he was supposed to be in a dying condition. The assassin rode away swiftly and in a northerly direction, on horseback, as he came.

It appears that Mr. Seward's wound is not mortal, but his condition was such in consequence of his previous injuries, that his case is considered very precarious.

On Friday night in Washington reports were prevalent that Chief Justice Chase had also been killed, but there is no foundation for it.

Gen. Rawlins telegraphed instantly for Gen. Grant to return from Philadelphia, he having left in the afternoon's train. It is supposed the assassin intended to have shot Gen. Grant also, as it had been extensively announced in the papers that he would attend the theatre with Mr. and Mrs. Lincoln.

Major Robert Lincoln, the President's son, and Major Hay, Private Secretary, were at the White House during the transaction.

Mrs Lincoln is in a distracted state, and the utmost distress pervades the city and the whole loyal country so far as the terrible tragedy is known.

It appears that the assassin of the President is J. Wilkes Booth, the actor, who is known to have expressed the most violent secession sentiments. The other murderer was a companion of his, whose name is not known, but whose description is so clear that he can hardly escape.

It appears from a letter found in Booth's trunk that the murder was planned before the 4th of March, but fell through then because the accomplice backed out until Richmond could be heard from.

Booth and his accomplice were at a Livery stable at 6 o'clock, and left there with their horses about ten o'clock or shortly before that hour.

It would seem that they had for several days been seeking their chance, but for some unknown reason it was not carried into effect until Friday night.

— Lieut. Gen. Ewell, and the six rebel Major Generals captured with him, were forwarded by railroad to Fort Warren Friday evening. Gen. Lee had asked that they might be paroled, but Secretary Stanton and Gen. Grant refused the request.

☞ Jeff. Davis' proclamation to the late rebel Confederacy, published in the Raleigh Confederate of the 7th, says the temporary evacuation of Richmond was a mere piece of strategy on the part of Lee to enable *him* to *strike* the Yankees a severe blow at some other point; that all would yet be well with the Confederacy. Gen. Grant says Gen. Lee is now a zealous advocate of peace.

— In New York city on Saturday morning, a number of persons who presumed to express satisfaction at the assassination of President Lincoln were roughly handled, and in Trenton, N. J., a rebel sympathizer was mobbed.

— President Lincoln was 56 years old.

By Telegraph—Sunday noon.

WASHINGTON, April 15th.

The President is lying in state at the White House. No one is allowed to approach within two squares except privileged persons. The man Springe, who held Booth's horse at the door of the theatre, has been arrested.—The evidence which has been elicited during to-day points beyond all doubt to J. W. Booth as the assassin of the President and the ringleader in the plot;—those who have been shrown into Booth's company, days, represent him as laboring under very strong mental excitement. He came from a farm at Budd's Ferry on Lower Potomac four days ago, and took up his old quarters at the National Hotel. About 8 o'clock he passed into the theatre: soon after he went out and brought his horse to the front of the theatre. Booth was noticed to go into the theatre past the dress circle, on the side where the President was seated; he had considerable trouble to reach the box. On reaching there he was halted by the sentinel who is placed to prevent intrusion on the President. To the sentinel he mentioned the name of a distinguished gentleman who desired to see Mr. Lincoln, and was allowed to pass. The shooting then occurred. Booth mounted his horse and fled; and at this hour, (9 A. M.) that is the last seen of him. His motive seems to be traced to his rebel sympathies, of which he freely boasted. His accomplice is not so well known, but is thought to be a notorious desperado named Muratt.

Later.—Up to midnight no news of the whereabouts of the assassins has been received.

Sec. Seward is very comfortable to-night, but is not believen that Fred. Seward will live till daylight.

N. Y., 15th.—A private dispatch to Mr. Seward's nephew in this city from a member of the family says: "I have just left Mr. Seward's house; his wounds are not mortal; he has lost much blood, but no arteries are cut. Fredk.'s skull is fractured badly in two places about the temple. He is insensible; fear he will die."

WASHINGTON, 2 A. M., 16th.—Sec. Seward is apparently in comfortable condition. Fred'k remains insensible, with less favorable symptoms than his father. Sec. Seward retains his full mental faculties. He is made aware of the death of the President.

A strong military guard has been placed around the residences of the Cabinet officers and the executive mansion.

The day of the funeral of the President has not yet been fixed. The remains will be taken to Springfield, Ill.

President Johnson signifies wishes for all the members of his Cabinet to remain with him.

LATEST.—Boston, 4 1-2 P. M.—Booth, the assassin, has been arrested, and is on board a steamer in James River. Sec. Seward is more comfortable. His son Frederick is still unconscious.

☞ It is said that on the fatal night, the President and Mrs. Lincoln did not start for the theatre until 15 minutes after 8 o'clock. Speaker Colfax was at the White House at the time, and the President stated that he was going, although Mrs. Lincoln had not been well, because the papers had announced that he and Gen. Grant were to be present, and as Gen. Grant had gone North he did not wish to disappoint the audience. He went with apparent reluctance, and urged Mr. Colfax to go with him, but that gentleman had made other arrangements, and with Mr. Ashmun of Massachusetts, bid him good bye.

☞ It is reported that Genls. Grant and Lee made an arrangement by which Grant was to go to Washington and urge the stopping of recruiting and the issue of an amnesty proclamation, while Lee would go to Raleigh and urge Johnston to surrender. And that Gen. Grant made the announcement on his way to Washington that he would demonstrate to the Government that our military expenses may now be reduced one million dollars per day, without infringing at all upon the neccessary efficiency.

THE BRITISH HOLDERS OF REBEL BONDS.—The "bonds" of the master race of the South appear to have come to naught, as well as the chains of their chattels. It is said that five hundred millions of dollars rebel bonds are held by British subjects, the interest upon which was paid in cotton and tobacco while the rebels held Wilmington, N. C. Now that Richmond as well as Wilmington, has passed into our hands, they will have to wait patiently for their dividends. No doubt these rebel sympathizers had been led to believe, that even in the worst event for their friends, the loyal people of the North would recognize the rebel debt for the sake of peace; but they will be deceived when they read the fate of Davis, Lee & Co., and their deluded followers. In their reflections they may console themselves individually with the old adage—that "a fool and his army are soon parted."

☞ A Richmond correspondent of the N. Y. Tribune, date of 6th inst., says that at the taking possession of that city, "Maj. Stevens of Weitzel's staff, Lieut. Wm. J. Ladd (of Portsmouth) of Deven's staff, and Maj. Brooks of the 8th Vermont, were the first in the city—by virtue of the excellence of their horses."

— The last signature made by Mr. Lincoln was written at 9 P. M., Friday, and is in the hands of Hon. George Ashmun.

"Sic Semper Tyrannis," was the exclamation of the assassin, when he had murdered President Lincoln. But no ruler on earth was ever less a tyrant than Abraham Lincoln, whose lenity has been frequently blamed, and whose deference to the people's will, as expressed by their voice and vote, has been most exemplary. The murderer has indeed destroyed a human life, precious and valuable, and sent sorrow into more homes and hearts than could be made sad by any other single death. If his aim was to create distress and wreak vengeance, his act was successful; but if he aimed to destroy the government, change times and laws, and defeat liberty, the act is a failure, total and fatal.

Andrew Johnson became President by the silent action of the Constitution; he was at Washington; he has a military guard; and he assumes at once the duties and responsibilities of the office. He is a firm, decided, earnest man for the country, for liberty, and for the suppression of the last vestige of rebellion. His administration in Tennessee, and his whole course during the rebellion, shows this.

The Government, the People, the Union, are all sad, afflicted, cast down—but not destroyed. God is ruler when earthly rulers fail: he lives on when they die; and he reigns too, even when men disregard or forget him.

This dreadful event may and will nerve the National arm to just and wholesome severity, and strengthen while it saddens the National heart. It will convert thousands of undecided men to the belief that strong restraint on known rebels, and a strict watch over suspected traitors, are steps in the path of duty and safety. And it will raise a feeling of indignation against the plotters of rebellion, treason, assassination and murder, such as we have not yet seen.

The assassin's motto is that of the State of Virginia—*"Sic Semper Tyrannis,"*—and he might perhaps suppose he was carrying out the abstraction of State *Supremacy*, especially the supremacy of *that* State. But the mistake is as great as the crime; and God will doubtless overrule the dreadful event for good—as he has overruled and will overrule the dreadful storm of war, bloodshed and suffering through which we have been passing for four years.

☞ Gen. Sherman advanced upon the rebel Gen. Johnson on the 9th,—and Johnson evacuated Raleigh. An expedition of U. S. forces went up the Chowan river and captured Winton and Murfreesboro'. The ram which the rebels were building at Halifax, N. C., has been destroyed. The ram Albemarle has been raised by our men, not seriously injured. It is reported Gov. Vance will call the North Carolina Legislature together to repeal the secession ordinance. Raleigh was sacked and the stores robbed by the poorer people, as soon as the rebel army left. A magazine in the rebel Fort Spanish, near Mobile, exploded the 4th.

Mobile papers of the 4th announce the capture of Selma, Ala., with 23 pieces of artillery and a large amount of Confederate property.

Gen. Weitzel has been sent with his colored troops to Petersburg. Gen Ord takes command in Richmond.

— The Maine papers record the marriage in Sweden, in that State, March 26th, by Rev. S. Sanderson, a lad of the same town, aged sixteen years, to a widow lady of Lowell, aged thirty-eight. She is the owner of a farm, and has "taken the boy home." The lady had previously lost her husband and son, for whose loss she deeply mourned.

—Maj. Gen. Augur, commanding the Department of Washington, has offered a reward of $10,000 to the party or parties arresting the murderer of the President and the assassin of the Secretary of State and his son.

— Carleton, writing from Richmond says among the papers left behind by the Secretary of the rebel Treasury is the correspondence had with the British Government in regard to employment of bank note engravers. They were hired from the British Government—What will the London Times say to that neutrality?

—The Boston Transcript says Mr. Addison A. Latham, who tore a flag from a railroad train in Portland recently, performed a similar feat about four years ago. He was Conductor on the Grand Trunk Road, at that time, and cut away with an axe, a flagstaff which the engineer of his train had improvised, and from which waved the American Flag. For this act he was discharged by Superintendent Corser, and has kept his name out of the newspapers until the present time, when he is mentioned again as the perpetrator of similar outrage. He seems to be a consistent copperhead of "long standing," but after his experience this time—he having been dressed in soldier's uniform and "run" thro' the city, and forced to salute the flag and make a speech—he will probably never again commit any outrage against the national ensign.

LOCAL ITEMS.

☞ Immediately after the reception at the Navy Yard, of the sad news on Saturday, all work was ordered to be suspended until further notice.

☞ While every loyal heart is mourning over the sad calamity which has so recently befallen the nation, there are a few despicable traitors who exult over the event. Such an one expressed himself as "glad of it," "served him right," &c., on hearing the news. We learn that this individual is a seaman having a month or two to serve, and is at present employed on the little steamer Fox.

REAL ESTATE AUCTION SALES.—Mr. Wendell sold on Saturday, the house and lot 91 1-2 Water street, for $740,—to Mr. Eben. N. Odiorn.

Mr. W. H. Hackett sold the "Packer Pasture" so called, on South Road, 20 acres more or less, for $76.50 per acre —$1530,—to Frank W. Miller.

☞ By reference to the advertisement, it will be noticed that Professor Fabian will give a series of his grand magic *soirees de fascination*, to commence Thursday evening, April 20th. The Professor does his feats with ease and good nature, keeping his auditors all the time in good humor and receiving hearty applause. He makes his entertainments attractive, not only by his slight-of-hand performances, but also by the numerous and valuable presents given to his audience.

One hundred and fifty presents will be distributed nightly. On Thursday evening next there will be given away a splendid Chamber Set, valued at $45, together with 149 other gifts. The Professor challenges any person to produce the first instance where the distribution of gifts is not in accordance with his advertisement. 1t

— Important modifications of trade regulations with rebellious States had been prepared, but upon consultation with Gen. Grant it is decided not to promulgate them at present, as the speedy pacification of the country may render them useless.

— The Secretary of the Navy has commenced the work of retrenchment. Vessels which were purchased for the blockading squadron, and have become somewhat out of repair, are to be sold.

— In New York city on Saturday, the Gold Room, Broker's Board, and other places of trade were all closed.

PUBLIC MEETING.

The citizens of Portsmouth are invited to assemble on MARKET SQUARE this (MONDAY) Morning, April 17, at 10 o'clock, to consult together in relation to the horrible murder of the President of the United States,—to unite in the expression of their admiration for his distinguished public services and private virtues, and their grief at the Nation's irreparable loss; and to declare anew their unswerving loyalty to the Government, and their unshaken faith in the Divine Disposer of human events, and in the perpetuity of those principles for the maintainance of which our chosen leader has become a martyr.

The citizens are requested to close their places of business during the meeting.

JOHN H. BAILEY, Mayor.
Portsmouth, April 17, 1865.

☞ On Saturday forenoon, when the President's death was announced in this city, the Bells commenced tolling, and continued most of the day; business was generally suspended, and the stores closed. The flags were almost immediately dropped to half mast, and most of them draped with black; public and private buildings were dressed in mouring; and the great mass of our people exhibited in proper ways, the great sorrow and deep gloom that oppressed the public mind.

☞ Would it be believed, that any sane, sober man could rejoice at the assassination of a Nation's elected ruler? We should hardly have imagined it—but so it proves. The telegraph brings reports of copperhead exultations in various quarters, and of quick retribution in some cases—though we can't approve of lynch law even in this most extreme of cases, and a loyal man must bite his lip and endure the treason, or run from it.

Even in this city, there were manifestations of joy and exultation, at the greatest calamity which ever befel the nation, or the cause of free government the world over.—It is said (we hope not truly) that the sad tidings were received with cheers at a certain ship-yard in Portsmouth! An Irishman on Market Square having said he was "glad of it," came near being lynched by the infuriated, outraged crowd; and was only preserved by the City authorities.

And one of the ballot-box smashers in a neighboring town-meeting recently,—a former office-holder under Buchanan, is reported to have said in a store here, that he rejoiced at our President's death! But, says the store-keeper, what will the South or their cause gain by getting Mr. Johnson? Oh, *we'll* fix *him* too! was the infernal reply. We believe the fellow (we had almost written felon) was not kicked from the store, but he ought to have been, and booted out of town, and forbidden to return.

A reporter also mentions another case, of a man now in Government employ—and there were plenty more. But it is pleasant, on the other hand, to see draped in fitting emblem of mourning, the stores of some who have been among the most bitter of the "opposition" to the Administration—but who have sense enough to see the difference between legitimate discussion and a contest at arms.

The entertainment of electrical experiments, &c., announced for Saturday evening at the Temple, was not opened. The bells were tolled and not rung, for church, on Sunday; most if not all the churches were draped in mourning, and all the other services, as well as music, made appropriate to the crushing event—at the, Episcopal Church, the jubilant songs arranged for Easter being exchanged for those of an entirely different character, and the evening service dispensed with.

The City Council took due notice of the Nation's affliction,—of which report will be found elsewhere.

The Concert for Sunday evening by the Old Folks Choir, being for a charitable and National object, and quite a number of performers being in the city from out of town to take part in it, and its postponement, to take place at any future time, being very difficult if not impossible—the Managers decided to change the programme into a Dirge Service, opened with prayer (by Rev. Mr. Patterson,) and the Band playing funeral marches, and all the singing being of a like character—which was done, to the grateful acceptance and we have no doubt sanctifying consolation of the large audience who were present. Certainly *we* never enjoyed any of their Concerts, except perhaps that at which the orchestra played Mozart's Requiem, so much as this rich selection of the grand old minors and sublime chorals. The invocation and benediction evidently came from the earnest, grief-stricken pastor's inmost soul, and could not fail to touch the hearts of all.

CITY COUNCIL.—At a special meeting of both Boards, held on Saturday evening, the following joint resolutions were unanimously adopted:

WHEREAS, Our City has been plunged into sudden and deep grief by the murder of our beloved fellow-countryman and honored Chief Magistrate, ABRAHAM LINCOLN,—

And Whereas, We desire to make a record of our admiration for his distinguished public services and private virtues,—

And Whereas, We desire to give an expression of our sympathy in the great bereavement of our whole land, therefore be it

Resolved, That in the death of our President we have lost a ruler, who, by his uncompromising spirit of justice, unshaken love of liberty, unyielding integrity, and unfaltering faith, has added new glory to the office which Washington first filled, and has endeared himself to every truly American heart.

Resolved, That we shall ever hold sacred his irreproachable example in public life, joining prudence with power, firmness with leniency, patriotism with humanity, wisdom with religion.

Resolved, That we deplore the murderous assault upon our distinguished Secretary of State, the Honorable WILLIAM H. SEWARD, to whom our Nation has looked with so much confidence in his ability, integrity, and eminent statesmanship, and we earnestly hope that he may yet be spared to render further public service to his grateful Country.

Resolved, That with new ardor we pledge our property, our time, and our lives to the cause which has now laid new obligations upon us by the precious blood it has gained.

Resolved, That in the cry for punishment which goes up all over our land, it shall be our effort to temper vengeance by mercy.

Resolved, That casting ourselves on the protection and guidance of the Infinite Ruler of events, we pray that through unknown ways He may turn our loss into gain, and at this sacred season of the Christian Year, that we may give back to Him the souls of the departed in the faith of him who is "the Resurrection and the life."

It was further

Resolved, That the City Rooms be draped in mourning, and that the members of the City Council wear crape on the left arm for thirty days.

Resolved, That the City Council will take measures in relation to the proper observance of the day fixed upon for the funeral of the late President of the United States, and that a Joint Committee be appointed for the purpose of arranging a suitable demonstration on the part of the City Government on that occasion.

The Committee appointed in accordance with this resolution are Ald. Shannon, Foster, and Ham, and Councilmen Henderson, Cheever, Davis, French and Kimball.

In Board of Aldermen, a resolution was passed requesting the Mayor to call a Public Meeting of the citizens this (Monday) morning, at 10 o'clock, to express the feelings of the people of Portsmouth in relation to the great national bereavement.

In Common Council—the President William H. Hackett, esq., addressed the Council as follows:

Gentlemen—We meet to-night to commemorate, in our official capacity, the National bereavement which has to-day, plunged our whole country into mourning. Our loss is not only a public calamity, but an individual one, and falls with painful severity upon every heart. Yesterday the skies of our political horizon were bright with the bow of promise; but to-day, joy gives place to grief, and hope is succeeded by solemn doubts and forbodings!

It is suitable that this event should be marked with every token of respect to the memory of the distinguished dead. A communication relating to our loss as a people in this unexpected stroke of affliction, will soon be received from the Honorable Board of Mayor and Aldermen and laid before you, and in the concurrence of their proceeding in the premises, you will be requested to join.

The Resolutions received from the Board of Aldermen were read and passed, every member rising.

PHILHARMONIC SOCIETY.—The regular Weekly Rehearsals are held on Wednesday Evenings, at Mercantile Hall, at half past 7. All good Singers, desiring to join, are invited to attend.

Why Mrs. C., how nice and clean your clothes always look! What kind of soap do you use? Well, Mrs D., it gives me great pleasure to say that I use the Gold Medal Soap, manufactured by J. Monroe Taylor, 112 Liberty street, New York, and as long as he keeps the quality as good as now, I shall never use any other. Every one who will try it, will say just what I am telling you. Try it and be convinced. 128

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

☞ A gem of a place—Thacher's new Apothecary Store, corner of Congress and Vaughan Streets.

☞ Save your rags and old papers! Every family can supply themselves with a good newspaper from the proceeds of such savings. Mr. URIAH BLAISDELL advertises to buy them.

FOR SALE at the City Farm.
mh11 B. NORTON.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable *semi-annually* by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " " $100 "
Ten " " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

PETROLEUM OIL AGENCY.

The California Petroleum Company.

In the Summer of 1864, Professor B. Silliman, Jr., examined this locality, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.

The property covers an area of 18,000 acres in one body, on which are at present at least *twenty Natural Wells*, some of them the largest size. Artesian Wells can be put down, 25 miles in extent. The Ranch is an old Spanish Grant of four leagues, and perfect title.

WELLS, FARGO & CO. say that "those who wish to invest in this class of security need not hesitate to present where to place their money;—here is a good, honest, reliable concern—one which in our judgment will pay."

Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.

The property consists of 100 acres, in *fee simple*, on Two Mile Run, near Oil City—a double lease of the Clapp Farm above Oil City, and four acres in fee simple on Pithole Creek, in the heart of the Oil Regions.

Capital $300,000. Shares $3. Par Value $6.

Sheffield Petroleum Company.

This property consists of 225 acres on the Tionesta, free of every-thing else in the same vicinity. This property is cut through by the ten mile run, a branch of the Tionesta, and the Sudbury & Erie Railroad. This property is considered of great advantage in the market.

Capital $300,000. Shares $1. Par Value $2.

Everett Oil Company,
OF BOSTON.

The property of this Company consists of 200 acres of land owned in fee simple, and two leases as follows: The land is located on Oil Creek, near Centreville Depot. The Oil Creek Railroad passes through this land. It has a river front of over one quarter of a mile. It is rich in oil.

Capital $300,000. Subscription price $5.

President Petroleum Company.

A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. It contains 3,400 acres, very valuable in Oil, Coal and Timber.

New York and Newark
PETROLEUM CO.

The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil district of Pennsylvania (Venango County), and lays in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Allegheny River, one piece being on that river.—The Company have a (twenty years' lease for one-half the Oil.

It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON E. TOWLE is Engineer and Superintendent of this company.

Capital $500,000. Shares $1.

All the above Stock for sale at the AGENCY, **No. 47 Congress Street, Portsmouth,** where Maps, Drawings and Pamphlets are ready for distribution.

I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.

Call and examine for yourselves.

JOHN S. HARVEY, AGENT.

Directors.
John S. Barry, Boston, V. J. Messinger, Canton, S. Johnson, Charleston, Seth B. Brown, Boston, J. S. Shaller, Roxbury, W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements without with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

3mkwmh23 LEVI H. STRAW, Treasurer.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nearly 20 years, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to effect a speedy and alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for any one to cure themselves of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female constitution. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding and accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Price $1 and a red stamp.

Boston, April 7, 1865. eodkwly

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be consulted and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in constant receipt of the latest publications of the Physicians of the Old World,) of obtaining the safest as well as the latest remedies for those diseases, other treatments to be found in the shortest time and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Pimples on the Face, Blotches, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines and have been treated with more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find no Impostor's nostrum, and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, broken down in health, and rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will not admit of a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body—treating on delicate diseases. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—Price 25 cts. (Sent to all ages, sealed, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—A complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vaughan's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid these last pills. The accompanying directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice the address all letters to

Petroleum!

LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK EXCHANGE,
99 STATE STREET,
BOSTON,

Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.

We believe we can offer superior inducements to all persons wishing to invest in

Petroleum Stocks,

Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.

Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiased account of the standing and prospects of the various companies on the market.

Enquiries by mail will receive prompt attention.

Subscriptions received to all first-class Companies upon the most favorable terms.

Receipts and Certificates will be forwarded in exchange for available funds, without charge; and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.

We would call special attention to the following Companies, viz:—

THE HAMILTON
OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital

PRESIDENT—HON. WM. G. STEELE, M. C.
VICE-PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.

This Company has secured 2218 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.

BOSTON
PETROLEUM OIL COMPANY.
Capital, - - - $300,000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.

This Company is organized under the General Laws of Massachusetts. The property consists of

Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,

all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.

Books for Subscription are open at our office. Only $300 Shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the Stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.

ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.

No personal liability. No further assessment.

To be organized under the General Laws of Massachusetts.

PRESIDENT—HON. LINUS CHILD.
TREASURER & CLERK—HENRY F. SPENCER.

DIRECTORS.

Hon. Linus Child, Hon. John A. Goodwin.
E. H. Sawyer, Esq., F. E. Gregory, Esq.,
Leyl C. Barnes, Esq., Henry R. Merrill, Esq.,
Emerson Leland, Esq.

This property consists of valuable Rights in the very best Oil lands in the country, situated on Oil Creek, Pennsylvania, and Bell and Cow's Creeks and Rawson's Run, West Virginia. Property in the vicinity of Rawson's Run has increased largely in value within a few months, on account of the numerous successful developments. There are many wells now going down upon this property, or being put in working order under the management of an able superintendent.

A map and prospectus of the different properties belonging to this Company, may be had upon application at our office

SUFFOLK
PETROLEUM AND COAL CO.
OF BOSTON.

In a short time Subscription Books will be opened at our office only for a portion of the Stock, due notice of which will be given.

Full information will be furnished in regard to the above, and all other Companies in the market, upon application at our office, personally or by letter.

P. S.—Parties remitting funds to us will please send by express, except when drafts can be obtained, in which case we will bear the charge of forwarding. In this manner they can obtain reliable receipts.

Office, No. 5, Smyth's Block.
MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of the Company, who has been selected the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominently identified with the company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the property herein offered. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the best in the region. On the land. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not more than one point to the East of Oil Creek and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The Hon. Charles Marsh, D. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, Hon. Isaac N. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on both sides, the Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 3000 barrels per day—the Fountain Ann—the Parker 200—and scores of wells are now doing worthy of mention from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is now supposed to be equal to the flats below Titusville. Coal in that section is worth $18 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs about $600 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. Prof. Hall, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other I have acquainted with; and I have spent much time during the last two months in examining and selecting Oil Territory in Venango, Warren and Crawford Counties, in all of which I have made considerable investment.—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Bates, of Mr. Hall, the flowing and pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 15 wells, and on the Farm for one hundred. Just make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as those that have expected. Five only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is of the numerous successful developments. There are many wells now going down upon this property, or being put in working order under the management of an able superintendent.

A map and prospectus of the different properties belonging to this Company, may be had upon application at our office

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 200 barrels daily. The Array that flows 500, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm adjoins the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eights full of machine oil, it has flowed 250 barrels per day ever since.—Than the Frazer well, and great expectations rest upon it. In eighteen of the adjoining wells, and between the Frazer and the one which has raised 80 high boxes, is the Byles Farm, all low land, and every rod of it for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some way removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 75 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored on the farms immediately now for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as lively as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that some of the oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome per centage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten Cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each.
$5000 in DIAMOND PINS, in value from $25 to $50 each.

Daily Morning Chronicle

VOL. XXVI. PORTSMOUTH, N. H. TUESDAY, APRIL 18, 1865 : 108. No. 88.

The Chronicle.

☞ Everybody knows a prominent man was badly hurt the other day, by jumping from his carriage when the horses were running away. It seems that the coachman was closing the door, when the team started and got away from him. Well, now why was not there a footman, to take care of the doors, and so forth, and leave the driver to look out for the team?

It is also said that the ladies, who remained in the carriage, were landed safely at their house; and on this, many writers go on to say how astonishing it is that people will jump from a carriage, in such cases, when it usually proves so much safer to stay where you are, &c. But that depends altogether on the circumstances of each case,—how agile the person is, how fast and whither the horses may be running, &c.—Now we have seen no reference to this matter, but it is not at all probable that any man would be clown enough to jump out and leave ladies alone in their danger; but he doubtless intended to stop the horses—and miserably failed, as must most men in such an exigency. As to the "greater decorum" and the "innate superiority of the fair sex," which our friend of the Newburyport Herald tells about, in referring to this matter—at the risk of being ungallant, we must say, that's mere fudge, since all experience proves that almost all women as well as men will wear or do anything, or nothing, as fashion dictates.

☞ A coppery print of April 11 says: "In the first place, there has been some reason to suppose, for some time past, that Gen. Lee had not much hope of the establishment of Southern Independence."

Perhaps not; but the Northern traitor sheets have held out the hope to their deluded readers. The same paper says: After the fall of Richmond, the alternative presented was to do what he has done, or to engage in a guerrilla warfare. That he still had the men and the means to prosecute such a war indefinitely we have no doubt.

Pooh, pooh, says Uncle Toby, Lee had only the alternative to have his army cut to pieces or to surrender. He wisely chose the latter. Nobody supposed Lee would become a guerrilla, and he probably never dreamed of it. It has been threatened by Richmond papers, and echoed by their allies at the North, that the rebels would all turn guerrillas and fight us many years, if we *dared* to do certain things. But the American army and people don't see it; and they keep on doing things which were to fire the Southern heart.

JOHN TODD, D. D:—The Pittsfield Sun (Copperhead) has the following local paragraph:—

The Fast-Day Proclamation of Governor Andrew was not read in the First Congregational Church on Sunday, the Pastor, Dr. Todd, not wishing to pain the assembly by hearing it read. It has been the custom at this church for a great many years, to read the Annual Proclamation, however objectionable, on the Sabbath preceding Fast-Day, and on this occasion the congregation would doubtless have borne the "infliction" with great resignation.

The Berkshire Eagle in alluding to this omission, says:—

The congregation of Dr. Todd were some of them indignant and all of them surprised last Sabbath morning at his treatment of the Fast-Day Proclamation of Gov. Andrew, and which he refused to read because it contained no allusion to our Saviour.

Dr. Todd is a Trinitarian, and a peculiar, set man. We believe, however, that other trinitarians as sound as he, do not scruple to use the *Lord's Prayer*, though it contains no allusion to the Saviour, except "the Living God who is the Saviour of all men." U. T.

☞ A newspaper writer lately said "The Editor of the —— is sometimes charged with inconsistency, and quite sensitive under the charge."—To this the editor nobly responds:—This is a great mistake. We have *not* always been consistent. We neither expect nor desire to be. To be strictly consistent, in the vulgar sense, one must be careful never to be wiser than he has been. We, on the other hand, strive to increase in wisdom daily.

— The Philadelphia Press has the following: Passing along one of our streets in which the lowest prices to the lowest classes, we looked into a store—a dark, dirty, begrimed den, filled with rags and scraps of iron—in fact, a sort of receptacle of decayed refuse of every kind—and through the smoky panes of the window we read these significant words: "Cash paid for Confederate bonds"—in other words, here was a good market for the rags with which Jeff. erson Davis has been trying to cover the hideous nakedness of the rebellion.

WHAT IS A
FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonsful of Sugar, biscuit can be made it to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

Crockery Ware.

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC or DOUBLE SPRING SKIRT.
WM. WENTWORTH, BRADLEY & CARY, (late J. I. & J. O. West,) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
The WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded assemblies, Churches, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the skirt can be folded, crushed in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children's Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all first-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.
INQUIRE FOR THE DUPLEX ELLIPTIC SKIRT. 17t—s4

CORKS
Of all sizes, for Bottles, Jugs, &c., for sale by
mch28 N. F. MATHES,
48 Market street.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
This Fluid put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, that is ink enough for a single day. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company - Gents: I wish heartily to thank you for the beautiful ink which you have given to the public. I have used ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa nutall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid twice and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without it. I remain, yours, GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced, but none of it was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected at all.
I have introduced it into my school in this place, and had a quantity of it. It would hold a ready sale. Inclosed you find a dollar for a sample of the powder, and myself for such a discovery, I remain, very respectfully, your obedient servt,
GEO. W. FARGO.
Deering, March 1, 1865.
To the American Ink Company:—I hasten to certify that I have given your Ink Powder a trial, and it is the best I have ever used. It works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works like a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Ridout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale* it to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

ARCANA WATCH.
An Elegant Novelty in Watches.
The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and plated, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful and gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imier Watch Company of Europe, and are superbly finished, having engraved plates, fancy carved bridges, adjusting regulator, with jewelled balance and the improved jewelled action with fine dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GERARD W. DEVAUGH & CO.,

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 18, 1865.

☞ A Washington dispatch says:—

The assassin of Secretary Seward is believed to be a man named Sattack, a noted Maryland rebel. At least six persons were engaged in the conspiracy, four of whom neglected to perform their parts. The murderers have probably escaped across the Potomac and joined Mosby.

The following is the copy of a note sent to Vice-President Johnson last Friday, but which was only found yesterday among other papers:—

"I do not wish to disturb you, but would be glad to have an interview.

J. Wilkes Booth."

Mr. Johnson was out at the time and never saw the note till yesterday.

The wounds inflicted on Secretary Seward's face have greatly reduced the inflammation and pain caused by the fracture of his jaw by the accident.

A dispatch from Secretary Seward's family in Washington, Monday morning, signed C. A. Seward, says:—

I have great hopes of Fred this morning. He has recognized me with voice and eyes. The medical testimony is concurrent as to the favorable character of the change in his condition. Will send you word later as to the Secretary.

The late Traveller says, from Washington, that there is strong evidence that Booth is in Lower Maryland trying to escape that way. At Gen. Augur's headquarters at noon Monday, there was very confident hope that Booth would soon be arrested.—The restriction on travel is still maintained.

Another Cabinet meeting was held at 10 A. M., Monday, at the President's Rooms in the Treasury building. Gen. Grant was present.

Thirty thousand dollars ($30,000) reward is now offered for the arrest of the Washington assassins—$20,000 by the Common Council and $10,000 by the War Dept.

☞ Joseph H. Borland, a boot and shoe merchant of Pittsburg, Penn., for stating that he was acquainted with John Wilkes Booth's intention to kill the President, was arrested in Boston on Saturday. He repeated his declarations that Booth had told him within a short time that he meant to shoot the President, and also that he was, since that time, in company with him at Edward's pistol gallery, where he (Booth) was practising pistol firing in difficult positions, etc. After his incarceration in the Tombs, Borland changed his story, denying that he had ever seen John Wilkes Booth, or that he ever knew there was such a person. These statements are manifestly untruths, for he was known to have been a friend and an associate of the murderer.

The authorities at Washington were notified of his arrest, and telegraphed back orders for his detention until a government officer takes charge of him.

— The N. Y. Commercial's Washington dispatch says we have ascertained from a source perfectly reliable, that during a conversation on Friday, among the members of the Spanish firm, it was stated that on Saturday, the greatest news would be received that had yet been made known to the public. The fact of the statement was communicated to Gen. Peck Saturday morning by a clerk of the establishment.

☞ There was great excitement in and about Exeter on Monday, on account of reports that a man resembling Booth the assassin had passed through Newburyport in a wagon; and Mr. C. D. Towle is said to have started with a wagon and pair of horses on the run, to carry a government detective to Concord.

THE PRESIDENTIAL SUCCESSION.—In case of the Removal of the President from Office, of his Death, Resignation, or Inability to discharge the Powers and Duties of the said Office, the same shall devolve on the Vice-President, and the Congress may by Law provide for the Case of Removal, Death, Resignation, or Inability both of the President and Vice-President, declaring what Officer shall act accordingly, until the Disability be removed, or a President shall be elected.—*U. S. Constitution Article II. Sec. I.*

By the act of 1792, in case of vacancy in the offices of President and Vice-President, the President of the Senate, and if there be none, the Speaker of the House of Representatives assumes the duties of President until the election be had.

At the recent extra session of the U. S. Senate, Hon. L. S. Foster of Connecticut was chosen President *pro tem.*

"HUSBANDS AND HOMES" is the attractive title of a new domestic Novel by the charming and popular authoress, Marion Harland, just published by Sheldon & Co., New York. For sale by J. H. Foster, in this city. Beyond doubt, well worth reading.

GOLD, in New York, Monday, opened at 153, under the effort of the bulls to make a little money out of the assassination; but it declined steadily down to 148 1-2 before dinner.

— In New York, on Sunday morning, fire broke out in the extensive cooperage of A. F. Briggs on Water street, which was destroyed together with four bonded warehouses and contents, and a lumber yard.—The total loss is estimated at $1,500,000

PRESIDENT JOHNSON'S SPEECH.

On Saturday, at Washington, the several Secretaries of War, Treasury, Navy and Interior, the Postmaster General and Attorney General, gave Vice President Johnson a formal notice of the President's death, and said:

By the death of President Lincoln, the office of President has devolved, under the Constitution, upon you. The emergency of the Government demands that you should immediately qualify according to the requirements of the Constitution, and enter upon the duties of the President of the United States.

When an assembly had convened, Mr. Johnson remarked:

GENTLEMEN:—I must be permitted to say that I have been almost overwhelmed by the announcement of the sad event which has so recently occurred. I feel incompetent to perform duties so important and responsible as those which have been so unexpectedly thrown upon me. As to an indication of any policy which may be pursued by me in the administration of the government, I have to say that it must be left for development. As the administration progresses, the message or declaration must be made by the acts as they transpire. The only assurance that I can now give of the future is reference to the past. The course which I have taken in the past in connection with this rebellion must be regarded as a guarantee of the future. My past public life which has been long and laborious, as I in good conscience believe, upon a great principle of right, which lies at the basis of all things. The best energies of my life have been spent in endeavoring to establish and perpetuate the principles of free government; and, I believe, that the government, in passing through its present perils, will settle down upon the principles consonant with popular rights more permanent and enduring than heretofore.

I must be permitted to say, if I understand the feelings of my own heart, I have long labored to ameliorate and elevate the condition of the great mass of the American people. Toil and honest advocacy of the great principles of free government have been my lot. The duties have been mine, the consequences are God's. This has been the foundation of my political creed. I feel that in the end the Government will triumph and that these great principles will be permanently established.

In conclusion, gentlemen, let me say that I want your encouragement and countenance. I shall ask and rely upon you and others in carrying the Government through its present perils. I feel, in making this request, that it will be heartily responded to by you and all other patriots and lovers of the rights and interests of a free people.

Whereas, We the citizens of Portsmouth, under the affliction which has fallen upon our country in the assassination of the great and good man who presided over the councils of the nation, have this day assembled at the call of our municipal authorities, therefore be it by

Resolved, That it having pleased Almighty God, in the hour of victory to take away from us the President of the United States, and thus change the day of rejoicing to one of mourning, we bow in submission to his divine Providence who doeth all things well.

Resolved, We believe that though men die, principles are immortal, and we hereby tender to our National Government, and especially to him who is now our chief magistrate for the future as for the past, our most hearty, cordial and earnest support, pledging as our fathers did, life, fortune and honor in its defence, until the flag which has protected us from our birth shall float over every section of our beloved country.

Resolved, That in the terrible calamity which has overtaken us, we recognize the cause which has produced the present unholy rebellion and trace it to the barbarism of slavery.

Resolved, That our united sympathy is felt for the family of our late President, and our prayer is that they may find that consolation which God only can give.

Resolved, That we fully recognize the eminent services of WILLIAM H. SEWARD, Secretary of State, and earnestly pray that he may soon recover from the effects of the atrocious attempt to assassinate him.

Resolved, That by every means in our power the rebellion shall be crushed, whether skulking in our midst or defiant on our borders; and the great truth which our fathers proclaimed, that "all men are born free and equal," shall be forever maintained.

CAPTURE OF MOBILE.—A special dispatch from Cairo says our forces occupied Mobile on the 9th inst. Spanish Fort was captured. Five thousand prisoners and 300 guns were captured in Mobile.

The garrison fell back up the river on gunboats, and by way of Chickasaw Bayou. Gen. Wilson has captured the whole of the rebel Gen. Rodney's command.

—At Havana, the steamer Eagle brought the news of the fall of Richmond with colors flying and her machinery decorated. As she rounded Moro Castle she fired 13 guns. Union men rejoiced exceedingly and the rebels looked gloomy. A secessionist named Conner has been sentenced to 10 years' imprisonment for drawing a pistol on a coachman in an altercation. There is no truth in the report that Maffit has been imprisoned in Moro Castle.

The blockade runner, Little Harrie, without clearance papers, tried to run out on the 5th, but was forced to return by a water battery.

— Quin, the actor, being asked why there were more women than men in the world, replied: "It is in conformity with the arrangements of nature; we always see more of heaven than earth.

— The man who should like to send to a seance. The man who knows how to hit the medium.

N. H. SOLDIERS' VOTE.—Official returns of our soldiers' vote for Members of Congress, show this result:—

No. 1, Marston 742, Marcy 41.
2, Rollins 498, Clark 60.
3, Patterson 639, Bingham 45.

These figures add 706 to the plurality of Gen. Marston, 548 to that of Mr. Rollins, and 592 to that of Mr. Patterson. Had our soldiers been permitted to vote for Governor, Mr. Smyth's majority would have been increased by 1,846 votes, which, added to his plurality on the home vote, (6,059) would give a grand total of 7,905—a Republican majority large enough for all practical purposes. The vote of one Company of the Heavy Artillery and the 2d Brigade Band at Hilton Head, (which have been set aside for informality in the returns) would, if counted, swell the Republican majority to just about 8000. We may as well call it that for short.

The Monitor says the returns were a great improvement in point of neatness and regularity on those of last November.—There were only four scattering votes in the entire army. In what other country would an army in the field know how to pause in the career of victory and record its suffrages for our national rulers? The education which fits our soldiers to exercise this right is no less wonderful than the spirit of these institutions which concedes it to them.

THE WELFARE OF OUR SOLDIERS.—The Monitor says Col. Larkin D. Mason writes to Gov. Gilmore, under date of April 9th:

"By having an assistant competent to do office duties in my absence, I have been enabled to devote two entire weeks to the care of our New Hampshire men at Annapolis and at the front. As soon as the movement commenced before Petersburg, I sent forward thirteen boxes of supplies, and followed myself to render any assistance in my power. I am happy to state that for once our N. H. Regiments have escaped the terrible fate so many have shared. Maj. Brown and one other were all that were killed in the 18th regiment. One has since died. The 6th, 9th and 11th had not lost a man last Monday morning; but they had gone so far front I could not see them.—The 18th were on the march, but halted and gave three cheers for the Governor of New Hampshire and his representative agents. I found the 13th quartered in Richmond, doing provost duty. The 2d, 10th and 12th were just out of the city as a guard. Neither of the above had lost a man, killed, and but very few wounded.—The 5th was at the front, so I did not see them. A few of them were wounded, and in the 2d Corps Hospital. I could not learn that any of them were killed. Several of the officers of the regiments near Richmond are occupying responsible positions. I left our supplies with Miss Dame for future emergencies."

☞ The Boston Herald understands that at Charlestown Navy Yard, there was a man in the bolter's gang, who, when he heard of the assassination of President Lincoln, said he "was d—d glad of it." He at once received the punishment of his loyal fellow workmen, and was soon after summoned before the Admiral, who, after reprimanding, dismissed him from further employment on the Navy Yard.

— At Swampscott, Mass., last Saturday morning, when the sad news came, a man called George Stone, said in public it was the best news we had received for four years, and gave three cheers. The citizens and soldiers of Swampscott took him by force, tarred and feathered him, and dragged him through the town in a boat, compelling him to hold the American Flag over his head. Upon promising to buy an American flag and keep it up at half-mast during the mourning for the President, he was then set at liberty.

WASHINGTON ITEMS.—At the close of President Johnson's brief inaugural remarks, the President received the kind wishes of the friends by whom he was surrounded. A few minutes were devoted to conversation, all being deeply impressed with the solemnity of the occasion, and the recent sad occurrence that caused the necessity for a speedy inauguration of the President.

Mr. Johnson is in fine health and has an earnest sense of the important trust confided to him.

William Hunter, chief clerk in the State Department, has been appointed Acting Secretary of State.

The steamer George Leary, from City Point, Va., Friday afternoon, brings down a report of the surrender of Johnston to Gen. Sherman, but this needs confirmation.

Gen. Grant has ordered the arrest of Judge Campbell, Mayor Mayo, and others at Richmond for complicity in the murder of the President.

Gen. Ord has forbidden the assembling of the rebel legislature of Virginia and of convention proposed at Richmond. This is right.

Official dispatches confirm the report of the capture of Mobile and the forts Spanish and Blakely.

— An army chaplain, one Tomlinson, preached a copperhead sermon to his regiment, not far from Washington, last Sunday, insulting the memory of Pres. Lincoln, and suggesting the murder of Pres. Johnson. He was very properly imprisoned.

Local.

"CHRISTY'S MINSTRELS" announce to open at the Temple to night; and we presume they will offer a programme as well adapted to the times as they can—patriotic and national; and we have no doubt their performances will be affected by the great grief of the people—for no man with music enough in his soul to sing at all, could fail to be a sharer in the nation's woe.—Usually we regard the man who amuses or entertains the public, as a benefactor,—often actually more so than even he who instructs; and even now, a little harmless mirth will be found a benefit as well as pleasure, amid all our troubles.

PROFESSOR FABIAN will open his Gift Exhibition on Thursday evening next at the Temple. The Professor will introduce for the first time here, his great exposure of the Davenport Brothers, "The Tramp of Hades," allowing any person in the audience to tie him securely with a rope, and he will free himself immediately after, in plain sight of the audience. In connection with the entertainment, there will be distributed 150 gifts, some of which are valuable. On Thursday evening the leading prize will be a handsome chamber set, valued at $45, together with 149 other presents. 1t

☞ At the Advertising Agency of Mr. S. R. Niles, in Boston, the other day, we noticed a copy of "The Play Bill," a new Daily and Weekly paper published in New York, giving information in all matters theatrical and musical, and also containing much matter of interest to the general reader. It is a publication of considerable merit, and will find a place in the current of daily life. Mr. Niles is Agent for the "Play Bill."

— A flag of truce came in from Imboden on Saturday, the object being, it is understood, to surrender his forces as part of Lee's army. The rebel Gen. Rosser refused to comply with the terms of Lee's surrender, but his troops deserted him en masse, and he went to join Johnston. Many of Lee's men have reached their homes in the Valley.

☞ From a paper in the Penny Magazine of 1833, we read: "The ancient privilege of the 'compositors' (type-setters) of all countries to wear swords, still forms a matter of pride with printers of the present day; for it affords a proof that their art was considered a liberal one, and that men of birth and education were accustomed to practice it.

Local.

THE PUBLIC MEETING of the citizens of Portsmouth, called by the Mayor, was held Monday forenoon on Market Square, where an assembly of some thousands convened. Ex-Gov. Goodwin was called upon to preside, and did so with his usual dignity and propriety.

A stand was erected in front of the Athenæum, and very tastefully draped with mourning emblems—black and white festoons below, with a portrait of Mr. Lincoln, surmounted by a shield above, and the mottoes, "The Lord gave, and the Lord hath taken away," and "We mourn our beloved and honored Chief Magistrate, Abraham Lincoln."

Prayer was offered by Rev. Mr. Adams; followed with fine singing by a select choir. Rev. Mr. De Normandie read a selection from the Scriptures. Resolutions expressing the sense of the meeting were presented and read by Alfred W. Hasen, Esq., who made a speech in their support; at the close of which these resolutions were unanimously adopted:

Speeches were also made by Rev. Messrs. Waterhouse, Canovan, Lane, and Patterson, expressive of the Nation's grief at the loss of an honest, virtuous and able Chief Magistrate, its indignation at the authors of the murder, and determination to crush the nest out of which such a brood of vipers has been hatched.

The speeches were followed by two verses of the hymn set to America, sung in that tune by the assembly, which was then dismissed with the benediction pronounced by Rev. Mr. De Normandie.

The services were interspersed with solemn music by the Portsmouth Cornet Band. The stores were closed, and business generally suspended.

☞ Most of our city Churches were appropriately clad in mourning for the President, on Sunday; and the sad event properly noticed.—The floor of the Universalist Church was completely filled with a sympathising audience, who listened to a national discourse from the pastor, duly honoring the deceased president, and exhorting all to trust in God and earnestly perform our duty to the country and humanity. It was announced that the lecture on the Flag and the Cross, will be repeated next Sunday evening, with changes suggested by the events of the week.

☞ We state, by request, that three cheers were *not* given in a shipyard in this city on Monday, at the news of the President's assassination. An Irishman named Lannehan, who was employed in the Dock, when the news came said, "We ought to give three cheers;" but the foreman promptly checked him, and *no* cheers were given.

A member of the family of a prominent joiner at the West End, put a draped flag on the house; which the proprietor of the premises took down. This caused a crowd to visit him, or rather we believe to force him to accompany them to his home, (and to cheer with them the flags they passed as they went,) and salute the banner which had been again put on his house by some of the Regulators. It was reported that it was again removed,—but we hope he will be wise if not loyal enough to let it remain.

☞ We are pleased to notice that our townsman, Capt. Matthew Thornton Betton, of the 13th N. H. Regiment, entered Richmond in command of the 81st N. Y. Vols.; and was assigned to duty as Military Commandant of Libby Prison and Castle Thunder—he having the honor of raising the Stars and Stripes of his regiment over the same.

☞ An Election of one Alderman is to be held in Ward 1, THIS DAY. Polls open at 10 o'clock. Capt. John Davis is the Union Republican nominee, and we do not anticipate any opposition.

☞ We are informed that our City Government is having a Funeral Car built, under the direction of Alderman Foster, to be used in the coming Funeral Ceremony.

☞ We regret to learn that Mr. Charles Whitehouse of Dover, who was injured by the falling scuttle at the printing office riot, is very low,—of inflammation of the brain.

☞ It is reported that Hon. Joseph B. Adams has been appointed Postmaster of this city, in place of Joseph P. Morse, esq., whose term has expired.

☞ We learn that the Grand Jury at Exeter failed to indict any of the Stars and Bars rioters—or the Greenland Selectmen.

☞ We are under repeated obligations to Laws' Express, for early Boston papers.

☞ We are indebted to Mr. W. W. Hanscom of San Francisco, for a copy of the "Report of the Mechanics' Institute" of that city, last Fall—a thick pamphlet, showing the resources of that mighty State.—Also for a copy of Rev. Horatio Stebbins' Thanksgiving discourse—an eloquent and patriotic sermon, timely for the times.

— The Herald's Winchester correspondence says the soldiers are greatly incensed at the assassination, but were counselled to calmness.

The President's Funeral.

By a vote of the Committee of the City Council, it is decided to have a Procession, and Address on Market Square, on the day of the Funeral of our late beloved Chief Magistrate.

The Citizens of Portsmouth and adjoining towns, and all organizations as such, are requested to take part in the exercises.

It is desired that Societies intending to join the Procession should report as early as possible, Capt. ROBERT LEFAVOUR has been appointed Chief Marshal.

By order of Sub-Committee,
L. G. DAVIS, *Chairman.*

The President's Funeral.

Citizens of Portsmouth and other towns in ranks also a full assortment of fons.

The several Bodies and Associations are requested to report to the Chief Marshal at 10 A. M., as follows:

The 1st Division will form on Pleasant Street, the right resting on Market Square.

The 2d Division will form on State Street, the right resting on Pleasant Street.

The 3d Division will form on Congress Street, the right resting on Market Square.

The Procession will move at 11 A. M., *precisely*, passing through Market, Deer, Vaughan, Congress, Islington, Cabot, Middle, State and Pleasant Streets; Countermarch and return through Pleasant, Washington, State, Chapel and Daniel Streets, to Market Square, where religious services will be performed.

At the close of the services, three volleys will be fired by the military, and the whole dismissed by a Benediction.

The Citizens of Portsmouth and the neighboring towns are particularly requested to join the Procession, and to be prompt to the hour.

Citizens generally are invited to drape their dwellings and places of business.

ROBERT LEFAVOUR,
Chief Marshal.

Portsmouth, April 19th, 1865.

City of Portsmouth.

In order for a more perfect observance of the Funeral Solemnities of our lamented President, the people of Portsmouth are hereby requested to close their places of business throughout the day, on WEDNESDAY the 19th inst. JOHN H. BAILEY, *Mayor.*

April 17th, 1865.

CITY OF PORTSMOUTH, N. H.

Joint Resolutions of the City Council.

WHEREAS, Our City has been plunged into sudden and deep grief by the murder of our beloved fellow-countryman and honored Chief Magistrate, ABRAHAM LINCOLN,—

And Whereas, We desire to make a record of our admiration for his distinguished public services and private virtues,—

And Whereas, We desire to give an expression of our sympathy in the great bereavement of our whole land, therefore be it

Resolved, That in the death of our President we have lost a ruler, who, by his uncompromising spirit of justice, unshaken love of liberty unyielding integrity, and unfaltering faith, has added new glory to the office which Washington first filled, and has endeared himself to every truly American heart.

Resolved, That we shall ever hold sacred his irreproachable example in public life, joining prudence with power, firmness with leniency, patriotism with humanity, wisdom with religion.

Resolved, That we deplore the murderous assault upon our distinguished Secretary of State, the Honorable WILLIAM H. SEWARD, to whom our Nation has looked with so much confidence in his ability, integrity, and eminent statesmanship, and we earnestly hope that he may yet be spared to render further public service to his grateful Country.

Resolved, That with new ardor we pledge our property, our time, and our lives to the cause which has now laid new obligations upon us by the precious blood it has gained.

Resolved, That in the cry for punishment which goes up all over our land, it shall be our effort to temper vengeance by mercy.

Resolved, That casting ourselves on the protection and guidance of the Infinite Ruler of events, we pray that through unknown ways He may turn our loss into gain, and at this sacred season of the Christian Year, that we may give back to Him the souls of the departed in the faith of him who is "the Resurrection and the life."

IN BOARD OF ALDERMEN, April 15, 1865. Passed unanimously.

JOHN H. BAILEY, *Mayor.*

IN COMMON COUNCIL, April 15, 1865.—Passed unanimously.

WILLIAM H. HACKETT, *President.*

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7.30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

Subscriptions will be received by the

DR. URANN,

PRACTICAL PHYSICIAN,

Who has made so many wonderful and instantaneous cures in Boston, New York Hartford, Springfield, and more recently in New Hampshire and Vermont, has taken

ROOMS FOR THE PRESENT AT THE
FRANKLIN HOUSE,
PORTSMOUTH, N. H.

DR. URANN'S treatment is such that by it

All Curable Diseases

are affected in one or two treatments, and many are entirely cured by one, as the following will testify:—

W. P. HOMER, 50 and 52 Federal Street, Boston, for many years was troubled with Heart complaint so bad that at times he was unable to attend to his business; after one treatment he was able to run up stairs, work in his garden and attend to his business; has since gained 12 pounds.

MRS. ELLEN COREY, of Cambridgeport, Mass.—Sciatica; so lame that she could not walk without assistance; after one treatment of fifteen minutes was well as ever, and could walk a mile free from pain.

MRS. SARAH P. STILES, Lowell, Mass., had Fever Sores on both legs of twelve years standing, her right ankle measured eighteen inches, and was as blue as indigo; she could not move her foot; after one treatment it was reduced one-half, she could move her foot freely and is getting well rapidly, her left ankle all healed.

Prof. G. M. LARRON, 1 Dix Place, Boston, troubled with Spinal difficulty, was in much pain; relieved by one treatment.

Miss HANNAH COOL, Campton, N. H.—Spinal difficulties; was unable to walk but a short distance or do any kind of work; perfectly cured and is now the picture of health.

Miss C. FROTHINGHAM, Boston, Portrait Painter, was troubled with great depression of spirits, at times was unable to attend to her favorite employment; was entirely cured, and she expresses herself, is "made over anew."

Mrs. J. BROWN, Boston, a severe cough and pains through her lungs, cured.

Capt. W. H. LAMPSON'S child, Lowell, Mass. The child was pronounced by physicians as hopelessly idiotic. The child could neither walk or sit alone, and took no notice of anything. After one treatment he began to improve, and has so far gained as to be able to walk alone, can talk, takes notice of everything, laughs and sings, and appears perfectly well.

Mrs. HINCKLEY, wife of A. T. Hinckley, of State Arsenal, Hartford, Ct., troubled with hip complaint and contraction of the cords of the legs; could not get her heel to the floor within four inches; had to be brought down stairs in arms; after one treatment of twenty minutes was able to run up and down stairs with ease, and is now able to walk the streets.

Mr. J. TURNER, Hartford, Ct., troubled for many years with loss of memory; could not attend to business; had been under the best medical treatment in England with no beneficial effect; after one treatment was perfectly restored.

Miss MARTHA ST. JOHN, Simsbury, Ct., was confined to her bed from spinal difficulty and prolapsus uteri; had not been dressed for more than a year; in twenty minutes she was enabled to dress and walk out to one of the neighbors, a distance of about a half mile; she has since been to Hartford and to church, and is improving daily.

Mrs. HENRY LOOMIS, Southwick, Mass., troubled with fits and spinal difficulties, could not walk without much difficulty, perfectly cured by one treatment.

Mrs. WM. JENKINS, Unionville, Conn., troubled for over two years with chronic liver complaint and rheumatism, had a large lump on her side which was very painful; was unable to lie down. Cured by one treatment, and is as well as ever.

JOSEPH H. ELDRIDGE, formerly of the Hartford Police, more recently on Hartford and New Haven Railroad, was obliged to give up his business on account of a severe cough and bleeding, perfectly cured and can now do a good day's work.

LYDIA L. FULLER, of East Wallingford, Vt., had entirely lost the use of her limbs after a severe attack of diptheria, was restored by one treatment, and is as well as ever.

FANNY DAVIS, of Moretown, Vt., had been confined to her bed for more than five years—was not able to stand—after one treatment of less than an hour, was enabled to walk around the room, and is now quite well.

Miss HUTCHINSON, daughter of Judge Hutchinson of West Randolph, Vt., was troubled with fits, having some days from fifty to one hundred. She was unable to eat anything but liquids—was not able to stand. After one treatment she began to improve, until now, she is the picture of health, able to walk as well as any one, eats hearty and has no fits.

SOUTHWICK, Mass., July 21, 1862.

DR URANN,—Dear Sir:—I suppose it is even a pleasure to you to learn the convalescent state of your patients; notwithstanding my long three years of almost absolute confinement to my bed, unable most of the time to converse with or see any company, and for over two years unable to feed myself—yet with this painful picture of human wretchedness which made life almost a burden, since your treatment of my spine, on the 7th day of June, I have been able to take my meals at the table, with my family, ride out daily, and converse freely with all; and without some new misfortune befalls me, I shall soon be able to interest myself in the labors of my profession, at least to preach one sermon a Sabbath. Without flattery, in my honest judgment, there is no better treatment in the hands of men for the Spinal Disease than the one which you honor, and as my heart beats with sympathy with all Spinal sufferers, I only wish they knew the wonderful utility of your treatment, and avail themselves of the same. Yours with respect and gratitude,

M. H. RISING.

DR. URANN'S TERMS

Are such that all can avail themselves of his treatment.

☞ Persons at a distance who are unable to visit the Doctor, by sending particulars of their cases, with one dollar enclosed, will receive advice and learn whether their cases can be treated at a distance. In all cases, state age and sex.

Portsmouth, Feb. 22, 1865.

Morning Chronicle.

COTTON.—The Washington correspondent of the New York Tribune has the following statement:

A gentleman who arrived here to-day from Georgia says there is no one resource of the South so little understood and so greatly under-estimated as the amount of cotton still held there. He thinks there must be at least 1,500,000 bales in Georgia and 1,000,000 bales more in Alabama. He has personal knowledge of hundreds of bales which have been buried in the sand for more than a year. He predicts that cotton will sell for 10 cents per pound in Savannah as soon as the Government removes the restrictions upon its coming in, and his integrity and sound judgment are vouched for by gentlemen of the highest character in this city.

ARREST BY IMPERIALISTS.—The Mazatlan Times of December 24th says:—

On the 13th instant General James Shields and Colonel C. E. Norton, of Cosala,* and S. F. Bowman of Mazatlan, were arrested by the military authorities of this place. It seemed that these gentlemen desired on the day previous to go to the Presidio in search of some lost animals. It being prior to the order issued on Monday against any one leaving here for the interior, they nevertheless called upon the Commandante Superior to notify him of what they desired to do; but the Commandante being busy when they called, and time being precious with them, they concluded to go without seeing the Commandante. So on Monday afternoon they went to the Presidio and succeeded in getting a portion of the animals. On arriving at Garita, Tuesday afternoon, the three gentlemen named were arrested and taken to jail. General Shields was released the same evening, but Bowman and Colonel Norton were detained. Each of the latter named made a statement in writing, which was translated and submitted to the Commandante Superior. Bowman and Norton were set at liberty on Wednesday afternoon, and next morning Norton left for the interior.

Petroleum!

LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK EXCHANGE,
99 STATE STREET,
BOSTON,

Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.

We believe we can offer superior inducements to all persons wishing to invest in

Petroleum Stocks,

Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.

Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiased account of the standing and prospects of the various companies on the market.

Enquiries by mail will receive prompt attention.

Subscriptions received to all first-class Companies upon the most favorable terms.

Receipts and Certificates will be forwarded in exchange for available funds, without charge; and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.

We would call special attention to the following Companies, viz:—

THE HAMILTON
OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital.

PRESIDENT—HON. WM. G. STEELE, M. C.
VICE PRESIDENT—JOSEPH TRYAT.
TREASURER—S. L. WOODHOUSE.

This Company has secured 2318 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.

BOSTON
PETROLEUM OIL COMPANY.
Capital, - - - $300,000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.

This Company is organized under the General Laws of Massachusetts. The property consists of

Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,

all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.

PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.
SECRETARY—CHARLES M. PIERCE.
ATTORNEY—JOSIAH RUTTER, ESQ.
MANAGING AGENT—F. A. WILDER.

DIRECTORS.

C. S. WHITEHOUSE, J. W. FARMENTER.
CHARLES SMITH, JOHN BOSTON DEAN.
JAMES F. BRIDGE, GEO. E. SMITH.

Books for Subscription are open at our office. Only 3300 shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the Stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.

ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.

No personal liability. No further assessment. To be organized under the General Laws of Massachusetts.

Office, No. 5, Smyth's Block.
MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in the **Oil Lands** in boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, and experienced in the business of Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel S. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the state of Pennsylvania, as Gov Curtin says in his Message, *fifty-six millions* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, F. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see for themselves the lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are now described:

THE MATTISON FARM.

This Farm contains 54 acres and is near the confluence of Cherry Creek and East Oil Creek. The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through and the whole underlaid by Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil Belt where the Oil Wells, from which such immense fortunes have flowed. Here the Steele & Mead well flowed 3000 barrels per day—the Fountain Jet—and Parker Stimpson and scores of wells are being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this Farm are a success, and a barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five rods of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $18 per ton, and if the vein of coal should be the well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. One well of 60 barrels per day is what it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more oil and perfect character than any other that I have acquainted with, and have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MATNAN and SHEPARD, Geologists of enthusiasm equal to any of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Vice President Wm. G. Steele, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money and the pumping wells, is as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 15 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the expectations of the whole in a year, if the wells are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm would be over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The reports about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Cogent Well that flows 250 barrels daily, the Jersey that flows 200, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Fraser well is on it. It began to flow about the middle of February, and with its sucker rod in, and its pipe seven-eighths full of machine oil, it has flowed 250 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2300 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is sinking down a well that looks already better than the Fraser well, and great expectations rest upon it. In sight of the spouting well, and between the Fraser and the one which has raised no high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring lously.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends. This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be the best quality, yielding 80 gallons of oil to the ton, and worked in the mine, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as is many companies do, at a subscription price, which is usually unreal. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$6000 in DIAMOND RINGS, in value $25 to $500 each.
$6000 in DIAMOND PINS, in value from $25 to $500 each.
$6000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $300.

The Chronicle.

SOBER THOUGHTS.—These timely questions and hints are offered in the Boston Journal, on the sad events of Saturday:

What in that pure and blameless life could have aroused such diabolical passions? What insanity could have imagined that any cause would be profited by the cold blooded assassination of the two first officers of the Government? Far be it from us to say one word to inflame the terrible feelings which we know are to-day burning under a nation's grief; but men will see in this atrocious deed the natural sequel of that spirit which has plunged the country into a sea of bloodshed, which has murdered thousands of helpless prisoners and hesitated at nothing in the annals of crime. Was the loyal country in danger of losing sight of this cancer of wickedness, and becoming disposed, out of regard to the cheering future, to heal it over with misjudged leniency? Was eternal justice in danger of being forgotten? May a merciful God let this awful blow fall upon docile hearts, that we may through it learn His purposes and obey His will!

But the same Providence that gave us Abraham Lincoln, has watched over his removal, and, if we are worthy of it, will provide that it is not to our injury. His successor in office is a man of great virtues, sullied by a single blot in the past. We learn on unquestionable authority that he has retrieved that error so far as is possible by taking the pledge never to indulge again in intoxicating drinks. He will keep it; and impressed, as he must be, with this awful dispensation which has opened to him the hights of power and responsibility, will be faithful and efficient in the arduous duties for which the main events of his life have so well prepared him.

AN INCIDENT.—It is said of the viper, that when surrounded and unable to escape, it will sting itself to death. The genus Northern Copperhead appears to have a like temper. As the Rev. Mr. Loring, the agent of the Am. Tract Society, was canvassing this town this week, calling at a house he was invited in. In a few minutes the woman of the house, as was her custom, began to denounce the government, the President, our armies and the war, as wicked and causeless—calling it the Devil's war, condemned by God and all good men, and urging as evidence that four years expenditure of blood and treasure had accomplished nothing.

The Rev. gentleman attempted to correct her mistake in regard to what had been accomplished, and spoke of the prospects of the early fall of Richmond. At this the woman in great anger declared that Richmond could never be taken by the Union armies; that God would never suffer so great wickedness. In the midst of this declamation came along a messenger shouting "Richmond is taken! Richmond is ours!" The woman was silenced. The clergyman proposed to close the interview with prayer. "No!" said she, "you can't pray in my house. I'd rather have the Devil pray." The Copperhead was surrounded.—*Wolfboro' News.*

☞ At Fall River on Saturday morning, on receipt of the melancholy news of the assassination of the President, and while a large crowd of citizens were gathered around the bulletin boards reading the dispatches and giving expression to their deep and most heartfelt sorrow, a notorious Copperhead, secesh sympathizer and liquor dealer, named Leonard Wood, was heard to declare that it was the best news he had heard for forty years. He had no sooner uttered this atrocious sentiment than he was seized by the indignant bystanders, struck, booted about the streets and compelled to go into a store to procure an American flag, unfurl and salute it with three cheers. He then rushed to his store and locked himself in, but the crowd surrounded his place and were making preparations to break in, when the Mayor and City Marshal appeared and escorted him to the Lock-up, where he is now confined.—The crowd then returned to his store, stove in the windows and smashed things generally. They then visited other Copperheads, compelling them to show the American flag.

—Freedmen are pouring into Charleston. Col. Wm. Gurney, the post commander, has issued an address to them, telling them that the black man, equally with the white man, must earn his bread by the sweat of his brow; that only by labor can they secure independence and comfort for themselves and their families; that government will provide them with some land to cultivate; that the labor of the white man has made him strong and great; and that it is their duty to go to raising rice, corn and vegetables.

CURIOUS SAFE FOR DEEDS.—A sum of twenty thousands pounds is in litigation in Scotland, and depends upon a marriage contract, which being declared by one of the barristers to be buried with the male party to the contract, Hans George Leslie of Banff, orders have been given by the judge to have the grave opened and the coffin searched for such a document.

FRUIT, CONFECTIONERY,
—AND—
Cigars.

WHAT IS A FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonsful of Sugar, biscuit can be made fit to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

Crockery Ware.
JOHN SISE has on hand a large assortment of
Crockery, Glass & China Ware, Table Cutlery and Plated Ware, Tea Trays and Plated Castors,
which he offers for sale at the lowest prices, at

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WESTS, BRADLEY & CARY, (late J. I. & J. G. West,) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, durable and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
The WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and close Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all First-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, south America, and the West Indies.

ESTABLISHED
FACTS AND REASONS
FOR USING
DR. S. O. RICHARDSON'S
BLOOD-ROOT ELIXIR!
FIRST. The extraordinary curative effect of the Blood-Root Elixir was discovered by a regularly educated Physician; and the present proprietor also is a graduate from one of the highest Medical Colleges in New England.
SECOND. The Elixir is not alcoholic, contains no minerals, and may be relied upon as being composed of strictly vegetable substances; and to be prudent is to be assured that can unfavorably affect the most delicate constitution.
THIRD. The extensive and successful use of the Blood-Root Elixir, during the past year, proves it to be, without any qualification, the best and most valuable medicine that has ever been prepared for family use.
FOURTH. Medical science and skill have never been able to produce a cathartic medicine of equal power and effect, which contains so many desirable qualities. Its superiority as an aperient consists in its sure and thorough action, operating equally through all parts of the Bowels. It never produces griping pains in its operation; never constipates; unless its favor is pleasing and agreeable; and it will not be rejected by the most fastidious child. It may be safely used in all cases where laxative medicine is required. It will promote the comfort and health of both sexes, and of all ages: It will assist Nature during all infantile changes; it will, during the anxious hours of a nursing life, hasten and assuage her maternal pangs; it will render joyous and happy the ensuing days of the aged and venerable. And when the Elixir is once introduced into any household, it will therein supersede all other laxative medicine.
FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, are combined by unsolicited testimonials, which in number and extended results exceed any estimate our most sanguine hopes so early had anticipated, therefore we are fortified by unrefutable evidence, that our estimate of the efficacy and value of the Blood-Root Elixir has not been exaggerated.
SIXTH. In examining certificates received during the past year of its successful results, we are gratified in believing that our medicine has not failed in any case where it has been tried, to cure the most stubborn and chronic cases of CONSTIPATION.
SEVENTH. Most grateful manifestations have also been evinced by patients who have been relieved from LIVER COMPLAINTS of long standing. Also it has been effectual in curing CUTANEOUS ERUPTIONS OF THE SKIN; and in eradicating HUMORS OF THE BLOOD. And many afflicted with deep seated incurable SCROFULA, have been greatly benefitted by a moderate use of the Elixir.
EIGHTH. In cases of COUGHS and COLDS it has proved successful beyond any assurance we have ever expressed; and those who have thoroughly tested its effects, believe it to be superior to all other cough preparations.—the Elixir, by its physical properties, equalizes the circulation of the blood, and removes congestion. It is also when used as a gargle, or swallowed slowly, heals and soothes the irritated and inflamed membranes with which it comes in contact.
NINTH. Many persons suffer periodically from JAUNDICE, which is occasioned by a morbid and inactive state of the Liver. The Blood-Root Elixir is a sure relief from the despondent feelings and painful symptoms which are peculiar to this disease.
TENTH. DYSPEPSIA is an aggravating and disheartening disease, often leading to dangerous results. A limited use of the Elixir, according to the directions, will regulate the stomach and bowels, and consequently will restore digestion to a natural and healthy action.
ELEVENTH. RHEUMATISM the Blood-Root Elixir will readily relieve; its warm and quickening effect counteracts the cold, and restored condition of the fluids, which is the primary cause of all Rheumatic affections.
TWELFTH. Persons subject to HEADACHE will be relieved in a few hours by a single dose of the Elixir.
☞ Every person taking the Elixir should carefully read the printed pamphlet which accompanies each bottle.
For sale by Apothecaries and Dealers in Medicines, and at the Doctor's office.
91 Hanover Street, Boston.
PRICE $1.50 PER BOTTLE. m9

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all obstructions of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Displacements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Side and Back.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 33 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Offers arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 33 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and recovery observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. Tthsly
DR. J. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, 33 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost your nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

ARCANA WATCH.
An Elegant Novelty in Watches.
The case of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing the exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lever, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imier Watch Company of Europe, and are superbly finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balance and the improved jewelled action with blue diamond and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of gold will be sent by Mail or Express for $25 00. Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, APRIL 19, 1865.

PRESIDENT LINCOLN'S FUNERAL.

The Acting Secretary of State has issued the following address:

To the people of the United States:

The undersigned is directed to announce that the funeral services of the late lamented Chief Magistrate will take place at the Executive Mansion in Washington, at 12 o'clock, noon, on Wednesday, the 19th inst. The various religious denominations throughout the country are invited to meet in their respective places of worship at that hour, for the purpose of solemnizing the occasion with appropriate ceremonies.

TO THE PEOPLE OF N. HAMPSHIRE.

BY HIS EXCELLENCY, THE GOVERNOR.

A PROCLAMATION.

WHEREAS, Wednesday, the 19th of April, (a day of deep significance in the history of our Nation,) has been set apart for the funeral obsequies of ABRAHAM LINCOLN, the late Chief Magistrate of the United States; and it seems but fitting that the people of New Hampshire, crushed by the terrible calamity of his untimely death, yet fired with righteous indignation at its unholy cause, and sustained by unfaltering trust in the Wisdom and Justice of Almighty God, should participate in the sad solemnities of the occasion:

I do hereby instruct the municipal authorities of the several cities and towns of this Commonwealth to cause the bells of all the churches within their jurisdiction to be tolled, and minute guns to be fired from eleven to twelve o'clock, on the day above designated.

And I would earnestly request the people of New Hampshire to close their several places of business on that day; drape their stores and dwelling-houses with the appropriate emblems of that grief which has already found expression in the heaving breast, the tearful eye, and the quivering voice of millions; and assemble in their accustomed places of worship at 12 o'clock, to give utterance to their sorrow, and seek inspiration for their hopes, in a manner becoming a Christian Nation.

Let humble prayer be offered, through the merits of Him who gave his life not for a Nation only, but for the world, for the sorrowing household of our beloved President; for a nation in deep affliction; and especially for him who has been so sadly and so suddenly called to assume the chair of State—that divine wisdom, patriotic devotion and fervent reliance on the sustaining Grace of God may enable him to conduct this nation through the dangers which threaten it, to a peace which shall be lasting and glorious, because hallowed by the approval of Eternal Justice, Truth and Right.

Given at the Council Chamber, this 17th day of April, in the year of our Lord one thousand eight hundred and sixty five, and of the Independence of the United States the eighty-ninth. JOSEPH A. GILMORE

By His Excellency, the Governor:
B. GRANTER, JR., Secretary of State.

☞ The stability of the Government, even on the day when the nation was mourning the assassination of its head, is significantly indicated by the fact that the subscription to the Seven Thirty Loan on Saturday were over $3,700,000. Political assassination is the height of folly as well as crime when directed against the President of a Republic. Its object cannot money is to overturn a government by the death of an individual or family; but the safety of free States does not depend on individuals or families, and there can be no difficulty in obtaining a Chief-Magistrate.

☞ A Washington dispatch says it is reported that the assassin who entered Sec'y Seward's house, has been arrested. It is certain that one of the assassins, probably Surratt, has been taken.

Samuel Mattam, of Hookstown, Md., the one who wrote the letter found in Booth's trunk signed "Sam," has been arrested.

A man, supposed to be J. Wilkes Booth, was arrested by Provost Marshal Coulter, at Greensburg, and is held for identification. The Mayor of Pittsburg has sent on a person acquainted with Booth to identify him.

— No doubt now exists that the assassin of Sec. Seward has been captured. He tried in vain to leave Washington and went back to one of his old haunts, where he was arrested on Tuesday night. His name is Payne.

— Both Secretary Seward and his son at 10 P. M. Monday were improving.

The remains of President Lincoln will probable be conveyed from Washington Thursday morning to Illinois by way of Baltimore, Philadelphia, New York, Albany Buffalo, Cleveland and Toledo. About one week will be occupied in reaching Illinois.

— Secretary Seward is represented as being better on Monday.

— Post Master Dennison has suspended all business in the Post Offices, and closes them from 11 to 3 Wednesday.

REQUIEM

FOR OUR LATE PRESIDENT.

BY ALBERT LAIGHTON.

Toll, oh death-bells, sad and slow;
Muffled drums, your dirges play;
Freedom's Martyr lieth low,—
And a Nation weeps to-day.

Silent be the busy mart;
Midway droop, oh flags, in air,
While the country's bleeding heart
Sobs its bitter grief in prayer.

God of Nations, as our tears
In this hour of darkness flow,—
Hush our murmurings, calm our fears;
Lift the crushing weight of woe.

Let us feel thine arms beneath,
Oh, Thou Holy One and just;
Teach our trembling lips to breathe,
"In the Lord we put our trust."

LEXINGTON HOUSE, Apr. 15.

THE NATIONAL GLOOM.—*Dear Chronicle*:—I write you, not so much that I have any thing of interest to communicate, as that I seek relief in occupation from the scene of depression that the horrible news of today has caused in this house. This house—where but last night all were so merrily dancing in honor of our recent great victories, and of the raising of the old flag over Sumter,—This house—where the school-girls sported shields, bows, rosettes and shoulder-knots of our National tri-color: This house—where to-day the bright colors are discarded, and the shoulder knot is made of black crape: This house—last night resonant with the step of many feet keeping time to the sound of stringed instruments, while the lights of the hall were shamed by the glances that flashed from the bright eyes of exultant dancers: This house—where all was light and innocent gayety—is painfully quiet and lies under a shadow; for, aside from the fact that the victims were men whose greatness and goodness had been proved by trial, the blow that deprived them of life was a dastardly one at the political life of the republic.

Our National banner floats at half-mast over the first battle-field of the American revolution, but its stars and stripes are enshrouded with black. But how little nature sympathizes with occurrences that stir society to its very foundation; the grass grows as greenly, the birds sing as melodiously, the breeze fans our cheek as softly and the sun shines as brightly as though this great calamity had not befallen the nation—teaching us to "look from Nature up to Nature's God," to Him who has ever been with us as a nation, and who most assuredly will not desert us if we call upon Him in this our time of trouble. IOX.

☞ The Manchester Mirror of Monday, has this startling item:

That Lincoln was to be Assassinated was Known.—During the last Presidential canvass, men offered to bet that Lincoln would never be re-inaugurated, though they were unwilling to bet that he would not be re-elected; showing that they expected he would be murdered before the 4th of March. That was the programme, no doubt. Certain copperheads seemed to be in the secret, and talked and acted very knowingly. Last Friday, it was reported all over the city, in our mills and workshops, that Lincoln had been assassinated—shot. Many supposed Saturday morning, that the report was only a renewal of the one on Friday. How did the report get about? Did some one know he was to be assassinated on that day, but supposed it was to come off earlier? It looks like it. This is a fact that may call for a public investigation.

In connexion with the above, we may state, that Booth, the assasin was in Boston no longer ago than Monday week, and on that day, and perhaps on previous days, visited the shooting gallery, and practiced with a pistol, firing with the weapon under his leg, behind his neck, and in other odd positions. The Mirror says, very pertinently, "It is supposed that some one from Manchester must have seen him at that time, and learned from him his diabolical crime."

☞ The N. Y. Tribune's Washington dispatch of Sunday, April 16, says Gen. Butler returned on that day, in answer to a telegraphic summons, it being just four years to a day since he was commissioned a Major-General. He had prepared his resignation, but upon being assured from a very high quarter that he may yet be serviceable to the country, he has concluded to withdraw its tender for the present.

☞ An intended raid by rebel robbers from Canada, is reported, to fall on Rochester and Ogdensburg, N. Y.—The 54th Regiment has been put on duty, in consequence.

— Two columns of Yankees are moving on Columbus, Miss. The rebel steamer Gertrude with a cargo valued at $2,000,000 was sunk in Spanish river near Mobile on the 31st ult., by collision with the Natchez.

— The guerrilla Chief, Major W. Taylor, Captain Taylor, and five of his men who surrendered themselves under the late order of Gen. Palmer, arrived at Louisville, Ky.

— The N. Y. Herald's Newbern correspondence of the 13th, gives a report that Johnston was about to surrender. A State convention to consist of delegates from all the counties is called for the 14th of May.

— A despatch from Paducah announces the surrender of the rebel Gen. Lyon to Gen. Meredith.

Local.

☞ We understand that Rev. James Pike has been appointed by the Methodist Conference (which has just closed its session at Dover,) to officiate as pastor of the M. E. Church in this city during the coming year. Mr. Pike was formerly Colonel of the 16th N. H. Regiment, and has hosts of friends including many in this city.

FABIAN GIFT SHOW.—Fabian, the Imperial Illusionist, will appear next Thursday evening, April 20th, at the Temple, for a short season. And if we are to judge by the flattering notices of the Western Press, it will be a rich treat. The Commercial Advertiser, Oswego, N. Y., says:

An immense crowd watched Fabian as he performed his feats of necromancy, and wondered how he managed to deceive them so. A merry little soul is Fabian, and benevolent also. When he had done his presidigitatorian, he began to distribute his gifts. Bags of flour, salt, starch, clothes-pins, washboards, baskets, silver cups, silver call-bells, silver castors, silver ice pitchers, etc. One old lady drew a splendid chamber set, another a bag of flour. Fabian is something of a public benefactor, and the Mayor will be relieved in dispensing bounties to the poor, if he keeps on giving away things as he did last evening.

Also can be seen on exhibition in the window next to Laws' Express Office, on Congress street, a splendid Tea Service valued at $42, which is to be given away one night this week. 1t

☞ At the suggestion of Mayor Bailey, Christy's Minstrels decided to forego their Concerts announced for Tuesday and Wednesday evenings, on account of the funeral of the President; and it will be seen that they announce one Concert only — for Thursday evening. While we have the highest authority, that "it is better to go to the house of mourning, than the house of feasting," it is also true that at the proper time "it is better to laugh than be sighing" —and also beyond question, that there *is* a time to laugh. We presume it is beyond question, that the Concert will be a good one.

PHILHARMONIC SOCIETY.—The regular Weekly Rehearsals are held on Wednesday Evenings, at Mercantile Hall, at half past 7. All good Singers, desiring to join, are invited to attend.

WASHINGTON ITEMS.—Numerous arrests of suspected parties took place Tuesday. Reports prevail that Surrat is among the number, but this is not true.

On Monday a grey coat stained with blood was found near Fort Bunker Hill. In the pocket was a false mustache, a pair of riding gloves, and a slip of paper, upon which was "Mary E. Gardener, 419." This coat is supposed to have been worn by the assassin that attacked Secretary Seward.

Tuesday morning detective Kelley and officers proceeded to the house of Nellie Turner, and arrested all the inmates, eight in number. They are to be held as witnesses. This is the house where Booth spent much of his time.

Among other arrests Tuesday were several men in female apparel.

RICHMOND ITEMS.—Saturday evening about 9 o'clock, Gen. Ord and Gens. Ould and Mulford were settling up in the Spottswood Hotel, when a telegram was handed in, announcing the assassination of the President. Ould exclaimed "that is the worst blow the Confederacy has yet had. Lee's surrender is nothing to it."

Senator Hunter left the city post haste, and Judge Campbell expressed the desire to leave. Lee spent the night in close reticence.

The rebel prisoners in Libby had a meeting declaring they were soldiers and applauded the assassination. A number of citizens who could not conceal their delight at the event were arrested. The Union troops wanted a victim and thought of the fiend Dick Turner of Libby prison infamy. Prompt action on the part of the Commandants saved him from the indignant soldiers.

Gen. Halleck and staff are making preparations to visit Richmond.

— Mosby has proposed to Gen. Hancock to surrender himself and command by Tuesday under the same terms accorded to the Army of Northern Virginia. The conditions proposed by Mosby are under consideration.

— It appears by an order issued by Gen. Sherman, announcing to his army the surrender of Lee, Sherman has reached Smithfield, where he dates the order April 12.

— Europe has lost one of her great men, and the United States one of her best foreign friends, by the death of Richard Cobden, which occurred at London on Sunday, the 2d of April.

MARRIAGES.

In Exeter, Mr. HENRY LITTLE to Miss MARGARET JOHNSTON.

DEATHS.

In North Adams, Mass., April 16th, LUCIUS CUSHMAN ELLIS, aged 9 mos. 5 days, son of Lucius A. and Caroline Cushman Ellis.

In North Hampton, Mrs. HARRIET J. BACHELDER, wife of Andrew J. Bachelder, aged 19 years, 10 months.

In South Newmarket MARY E NEAL, daughter of Asa D. and Emily Jane Neal, aged 7 years 5 months.

In Rochester, Mrs. SARAH HURD, wife of Joseph D. Hurd, 74.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Sch Col Jones, Bill, old Philadelphia 14th for this port.

☞ In the S. J. COURT at Exeter last week, the case of Dr. Nath'l Batchelder vs. Charles A. Sargent—was first in order for trial. Action is brought to recover of the defendant the sum of $137,50—alleged to have been expended by plaintiff, to secure the nomination and election of Sargent as a Representative from the town of Epping for the year 1862. The Jury after a few hours deliberation awarded the plaintiff $50. Samuel Noyes of Atkinson was Foreman of this Jury.

A number of criminal cases will be tried during the term, including the second trial of Dr. Young of Deerfield, for the murder of Sarah M. Atwell, alias Fanny Morgan—tried at the January term, and in which the jury failed to agree.

George Fredson v. Richard Waldron. Action of trespass to recover damages for an assault upon plff. by deft. during the "Portsmouth Riot," in the Summer of 1863.

The intelligence of the assassination of President Lincoln was announced during this trial on Saturday morning, and after the reading of the published dispatches, the Court adjourned to Monday.

— A rebel woman, who says she is a niece of James Madison, lately proposed, in the Mobile News, that the young ladies of the South should give their hair to be sold in Paris, and the proceeds used to pay the confederate debt. She thought there was nearly hair enough in the South to cover the whole debt. But the confederacy has fallen, and the debt is covered by the ruins.

THE VOICE OF THE PEOPLE.—Liberty is one of the dearest blessings which our forefathers handed down to us. It was purchased by the blood of many a valiant revolutionary hero; has been gladdened by a Washington, a Jefferson, a Clay, and a Webster. But dearer still to the hearts of the people is the world-renowned remedy, known as Coe's Cough Balsam. It cures like magic the most violent attacks of croup, and is indispensable in every family of children. Colds, sudden coughs, sore throat, hoarseness, and inflamed lungs, are speedily and surely cured by its timely use. No cough mixture has ever been known that equals it, which accounts for its great popularity with all classes. The young and the old—the rich and poor—physicians, druggists—and all who have ever tested it speak in the highest terms of its merits. We say to our readers—give it and try it. It costs but 40 cents the bottle, contains twice as much medicine as you can obtain in any other way at the same cost, and all our drug stores keep it. ap11dawlm

Special Announcement.

E. & H. T. ANTHONY & CO.,
Manufacturers of Photographic Materials,
WHOLESALE AND RETAIL,

NEWTON'S PILLS.

(Anti-Bilious.)

Composed of highly Concentrated Extracts from

ROOTS AND HERBS

Of the greatest medical value, prepared from the original prescription of the celebrated DR. NEWTON, and used by him with such remarkable success for twenty years in all parts of the United States, are an infallible remedy in all

DISEASES OF THE LIVER,

OR ANY DERANGEMENT OF

The Digestive Organs.

THEY CURE

Diarrhœa, Dysentery, Dyspepsia, Biliousness, Scrofula, Liver Complaint.

The well-known DR. WARREN of Boston says of these pills, "They have the finest effect upon the Liver and digestive organs of any medicine in the world, and are the most perfect purgative which has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, and being purely vegetable are free from any risk or harm.

The most remarkable feature of these pills is the perfection with which they act in extremely dissimilar chronic diseases. THE SAME DOSES cure Diarrhœa or Dyspepsia, in either case restoring the organs to a healthy and natural condition, which cannot be said of any other medicine in existence."

They create pure blood and remove all impurities from the system, hence are a positive cure for

Fevers, Headache, Piles, Mercurial DISEASES, AND **Hereditary Humors.**

Portsmouth, N. H., April 15th, 1865.

Will be sold at Public Auction,

AT THE NAVY YARD,

On TUESDAY, April 25, at 12 o'clk M.,

25 CORDS MANURE,
4 OLD BOATS.

By order of Rear Admiral T. BAILEY, Commandant. M. F. WENTWORTH,
Naval Storekeeper.

House and Land at Auction.

On SATURDAY, April 29th, 1865, at 12½ o'clock M., on the premises,

By virtue of a License from the Hon. Judge of Probate for the County of Rockingham,

The Real Estate of WILLIAM WARBURTON, late of Portsmouth, deceased, viz: A certain LOT of LAND with the DWELLING HOUSE thereon, situated on ISLINGTON ROAD, in said Portsmouth, and bounded and described as follows: 320 feet more or less on said Islington Road; 308 feet by land now or late of L. L. Flood; 449 feet more or less by land of the heirs of Samuel Treat, deceased; and 100 feet more or less by land of the Eastern Rail Road in New Hampshire.

Said Estate is subject to a mortgage of $300, with interest, from Nov. 14, 1859. The sale will include the whole of said Estate, and also the reversion of the Widow's Dower, and the right of redeeming said mortgaged Estate.

CONDITIONS—Cash on delivery Deed. Possession to be given as soon after the sale as possible. J. M. EDMONDS, Administrator.

Portsmouth, N. H., April 13, 1865.

Portsmouth, N. H., April 7, 1865.

JOHN H. CARTER,

PRACTICAL WATCHMAKER,

Would inform the citizens of Portsmouth and vicinity, that he has taken that part of

The Store of Mr. H. S. Bodge,

No. 1 Congress Street,

formerly occupied by Mr. F. W. Dabl, and is now prepared to give his attention to the various branches of

Watch Repairing and Adjusting.

Having enjoyed unusual facilities for acquiring a practical knowledge of the art of

Watch Making and Adjusting,

and being provided with all the engines and tools requisite for the execution of the finest and most delicate work, he does not hesitate to

GUARANTEE FULL SATISFACTION

with every Watch entrusted to him.

Chronometer Balances and Isochronal Balance Springs applied to Lever Watches and accurately adjusted to extremes of *Heat and Cold* and to *Position.*

Plain Watches Jewelled, full or in part. Escapements proportioned and otherwise improved at a moderate cost.

CLOCKS and Musical Boxes repaired thoroughly and promptly.

That Portsmouth may have a

TIME STANDARD

of its own, he has ordered and received from E. HOWARD & CO., the celebrated Boston Clock Manufactures, one of their splendid

ASTRONOMICAL CLOCKS,

of the same style and quality as the one made by them for the Observatory at Cambridge, which is set up in the Store for the benefit of our customers and the public, and by it gentlemen are invited to regulate their Watches, as it will always be kept to Portsmouth mean time by transit observations.

WATCH REPAIRING done for the trade on liberal terms. JOHN H. CARTER,

With H. S. BODGE,
No. 1 Congress Street,
Opp front of North Church.

Best English Hay.

DR. TERBETTS'
Physiological Hair Regenerator.
The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TERBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7sr.6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

☞ **A Physiological View of Marriage**—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of health and disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. ☞ Disabled Soldiers are invited to take part in the Procession, and to report themselves at the City Rooms at 10 o'clock, where conveyances will be provided for their accommodation.

The invited guests are also requested to meet at the City Rooms at 10 o'clock.

Per order Com. Arr.

The President's Funeral.

By a vote of the Committee of the City Council, it is decided to have a Procession, and Address on Market Square, on the day of the Funeral of our late beloved Chief Magistrate.

The Citizens of Portsmouth and adjoining towns, and all organizations as such, are requested to take part in the exercises.

It is desired that Societies intending to join the Procession should report as early as possible. Capt. ROBERT LEEAVOUR has been appointed Chief Marshal.

By order of Sub-Committee,
L. G. DAVIS, *Chairman.*

City of Portsmouth.

In order for a more perfect observance of the Funeral Solemnities of our lamented President, the people of Portsmouth are hereby requested to close their places of business throughout the day, on WEDNESDAY the 19th inst.

JOHN H. BAILEY, *Mayor.*

April 17th, 1865.

☞ The customary salute of one gun every half hour between sunrise and sunset, is being fired from the receiving ship Vandalia, in token of respect to the late President of the United States.

☞ We are requested by Capt. Murray, Executive Officer at the Navy Yard, to state that there will be no more work on the Yard until Friday, the 21st inst., when labor will be resumed as usual.

☞ In accordance with the recommendation of the National, State and City Governments, we shall close our office to-day; and there will be no Daily Chronicle on Thursday.

☞ The black goods used in draping the Chronicle flag at this sad time, was also used for a similar purpose at the death of Daniel Webster.

☞ We publish no Market Reports this morning, as there is little or no change from last week's prices. In fact, there is little if any market or trade of any sort; as nobody has any heart for business or pleasure,—if they possess any heart at all.

☞ An English laborer at Fisher's Brewery in this city, named John Wood, was fatally injured on Tuesday, by a barrel of syrup falling on him from hoisting apparatus. His skull was fractured, and his body badly bruised, and he died in the afternoon. He leaves a wife and five children.

☞ The following are the Resolutions passed by the Citizens' Mass Meeting in this city on Market Square, on Monday:

Whereas, We the citizens of Portsmouth, under the affliction which has fallen upon our country in the assassination of the great and good man who presided over the councils of the nation, have this day assembled at the call of our municipal authorities, therefore be it by us

Resolved, That it having pleased Almighty God, in the hour of victory to take away from us the President of the United States, and thus change the day of rejoicing to one of mourning, we bow in submission to his divine Providence who doeth all things well.

Resolved, We believe that though men die, principles are immortal, and we hereby tender to our National Government, and especially to him who is now our chief magistrate, for the future as for the past, our most hearty, cordial and earnest support, pledging as our fathers did, life, fortune and honor in its defence, until the flag which has protected us from our birth shall float over every section of our beloved country.

Resolved, That in the terrible calamity which has overtaken us, we recognize the cause which has produced the present unholy rebellion and trace it to the barbarism of slavery.

Resolved, That our united sympathy is felt for the family of our late President, and our prayer is that they may find that consolation which God only can give.

Resolved, That we fully recognize the eminent services of WILLIAM H. SEWARD, Secretary of State, and earnestly pray that he may soon recover from the effects of the atrocious attempt to assassinate him.

Resolved, That by every means in our power the rebellion shall be crushed, whether skulking in our midst or defiant on our borders; and the great truth which our fathers proclaimed, that "all men are born free and equal," shall be forever maintained.

THE SCHOOL TEACHERS.—At a meeting of the Public School Teachers, held on Monday, at the High School, the following preamble and resolutions, offered by A. M. Payson, Esq., were unanimously adopted:

WHEREAS, The Public Schools of this city, in common with the fellow citizens, feel overwhelmed with the deepest sorrow at the sudden death, by assassination, of our honored and illustrious President, ABRAHAM LINCOLN, therefore

Resolved, That we feel in his death, that we have not only lost one of the best earthly Rulers that ever presided over Nations, but also a patron in principle and practice, of all that truly exalts, ennobles and adorns human society; that in his firm integrity and true love of liberty, his humanity, uncompromising and unconquerable sense of justice, he has stood second to none,—and that his virtues are worthy of imitation by all the teachers and schools of the land.

Resolved, further, That it is the duty of all teachers of public schools to inculcate the principles of true patriotism, justice, humanity, and an unconquerable love of liberty, with *renewed zeal and earnestness*; and labor to instil by their instructions and example an undying hatred to everything that would enslave and debase the human mind.

E. A. JOY, Chairman.
G. T. WIGGIN, Secretary.

Portsmouth, April 17, 1865.

☞ We are very glad to be able to deny, on the authority of Mr. Jas. Lenahan himself, the statement made to us by the foreman of the ship yard (who we thought ought to know) that he proposed three cheers for the President's death; which he says, and we have no reason to doubt, was an utter and entire mistake and misconception, as he was referring to the Brooklyn strikers, and did not then even know of Mr. Lincoln's death. Mr. L. says he is a democrat, but claims to be always a loyal man to his adopted Government, and we do not doubt him a bit, nor do any who know him.

The stories about our old friend, the West End joiner, (which we hardly believed at the time, and only published at the request of several,) also prove to have been much distorted, if not utterly without foundation. Mr. N. had united with his family in desiring a flag put up at his house; but they got and put out one so small that he said it was hardly fit for the front door, and taking it down, requested some one to put it up on any other part of the house, and said he wished he had a larger one. From this blameless act, grew all the hue and cry—for which we have the fullest assurance of his son-in-law, there was not the slightest reason. In these times, people cannot be too careful how they use their tongues as well as pens, respecting their neighbors.

☞ A woman in Newington is said to have run up a red flag, when she heard of the death of the President. She ought to be run up herself, if there were only a law to do it—and if there is not, doubtless she, and many a traitor like her about here,—he and she, *might* be sent to prison for spoken treason, as has just been done in New York, and ought to be done everywhere. It is about time rebels at home were squelched, as well as those down South.

☞ On Monday, it being a day of leisure with them, two workmen in the tannery of Moses H. Goodrich, esq., took a boat belonging to their employer, for fishing, and a sail up river: but by misfortune and mismanagement the boat capsized near Frank's Fort, and both the men were drowned. Their names were Henry Firbush and Augustus Tucker; both were young married men, aged about 26 years; and both highly esteemed by their employer.

☞ Capt. John Davis was on Tuesday elected Alderman in Ward One, to fill vacancy caused by resignation of Capt. Weeks No opposition—and only 25 votes thrown.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

The California Petroleum Company.

In the Summer of 1864, Professor B. Silliman, Jr., examined this locality, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.

The property covers an area of 18,000 acres in one body, on which are at present at least *twenty Natural Wells*, some of them the largest size. Artesian Wells can be put down, 3 miles in extent. The Ranch is an old Spanish Grant of four leagues, and perfect title.

WELLS, FARGO & CO. say that "those who wish to invest in this class of security need not hesitate a moment where to place their money;—here is a good, honest, reliable concern—one which in our judgment will pay."

Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.

The property consists of 100 acres, in *fee simple*, on Two Mile Run, near Oil City—a double lease of the Clapp Farm above Oil City, and four acres in fee simple on Pithole Creek, in the heart of the Oil Regions

Capital $800,000. Shares $3. Par Value $6.

Sheffield Petroleum Company.

This property consists of 225 acres on the Tionesta Creek—seventy-five acres in the same vicinity. This property is cut through by the ten mile run, a branch of the Tionesta, and the Sudbury & Erie Railroad. This property is considered of great value in the market.

Capital $800,000. Shares $1. Par Value $3.

Everett Oil Company,
OF BOSTON.

The property of this Company consists of 200 acres of land owned in fee simple, and two leases as follows: The land is located on Oil Creek, near Centerville, on the Oil Creek Railroad passes through this land. It has a river front of over one quarter of a mile. It is rich in oil.

Capital $800,000. Subscription price $5.

President Petroleum Company.

A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. This contains 1,400 acres, very valuable in Oil, Coal and Timber.

New York and Newark
PETROLEUM CO.

The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil District of Pennsylvania (Venango County), and lays in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Alle-hany River, one piece being on that river.—The Company have a twenty years' lease for one-half the Oil.

It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON E. TOWLE is Engineer and Superintendent of this company.

Capital $500,000. Shares $1.

All the above Stock for sale at the AGENCY, **No. 47 Congress Street, Portsmouth;** where Maps, Drawings and Pamphlets are ready for distribution.

I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.

Call and examine for yourselves.

The properties of this Company consist of 642 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps, and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the health, and unfits the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the Female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston, having accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

Twine and Morocco Bags.

J. F. SHORES, Jr., No. 1 Congress Block, has just received an assortment of TWINE SCHOOL BAGS and MOROCCO TRAVELLING BAGS.

Morning Chronicle.

— A clerical friend in Kennebec, writes to the Portland Press upon the jubilation in his town, and says: "When the first gun was fired on Sumter, I called the people together and preached to them upon this subject upon the Sabbath; and as often as once a month, I have preached a discourse to my people upon the subject of the rebellion—nor am I done yet. I will preach *loyalty* to the government, and *love of country*, whatever may be the consequences to me personally. Nor have I lost *friends* or *supporters*! My *country* has been a good *mother* to me and mine, and with the Bible in my hand, and the love of God in my heart, I will sustain my country to the end of life."

— The New York Tribune's Washington correspondence says that Secretary McCulloch, in view of the great losses sustained upon the Government cotton sent to New York, will permit parties to remove the three-quarters in kind, of any Southern staple, leaving one quarter with the Treasury agent —in lieu of the present rule of requiring a sale to be first, and the Government's portion paid in money and subjected to the present enormous expenses.

— Since the Federal occupation of Richmond, many citizens have made their appearance who have not been seen in public before for two or three years, having fled or hid themselves to avoid conscription.—The risks which these men have run, and the privations which their families have endured, are almost inconceivable.

— There is a peculiarly forcible kind of whiskey lately come in vogue in London, branded L. L., and when a cockney says, "come and 'ave a dram of double bell," he undoubtedly gives the right title to it.

— Jeff. Davis has sent in a petition for "leave to withdraw." This is rather contrary to the general rules—many people, however, would approve of a *suspension* in his case.

— Irreverent English journalists call the Encyclical a mad "bull."

— Hon. Josiah Quincy says that C. S. A. means now, "Can't Secede Again."

— Pity without relief is like mustard without beef.

OUR MAN —Sher-man.

S. INGERSOLL LOVETT, of Boston.

PHILIP WADSWORTH, of Philip Wadsworth & Co., Chicago.

JESSE A. LOCKE, of Boston.

J. H. WINSOR, of Oil City.

L. M. GORDON, of Oil City.

CHAS. E. HODGES, of Hodges & Richardson, Boston.

Superintendent.

W. W. WHITE, of Oil City.

This stock is *bona fide*, full paid, with no possibility of future assessments and no personal liability. The absolute value and actual cash cost of this property are so great as to preclude its being offered with the allurement of a reduction from a nominal par value.

It has been selected, at different times during the past year, by several oil and experienced oil workers and residents of Oil Creek, who are familiar with the history, progress and value of every well and piece of property in that region.—Several of the principal interests were originally acquired for the purpose of holding as private investments and sources of regular income.

These gentlemen have, however, been induced to combine their various interests, with additional property, into one strong, sound, and reliable company. Each of them will retain an interest as stockholders, and hold their stock as a permanent investment. Residing in the oil region, and directly concerned in the success of the company, they are pledged to look closely after its operations; thus affording a guaranty of watchful supervision, and faithful and energetic management possessed probably by no other oil company ever formed. Two of these gentlemen are on the board of Direction, and one Superintendent of the Company.

The stock is sold to pay for the property, and to furnish a working capital to open up the large and promising tracts yet waiting to be developed.

The managers start with the intention of paying dividends *quarterly* and from actual earnings only. Paying quarterly affords time to sell the oil produced to the best advantage, and is believed to be in all respects the soundest policy.

The dividends will beyond question, be not only immediate, but regular, permanent and remunerative. We wish to avoid holding out any inducements not warranted by the same moderate and reasonable calculations that would be made in embarking in any legitimate business enterprise. We believe, however, to secure subscribers of handsome quarterly dividends from the present wells of the company; which will, moreover, we confidently believe, be very largely increased by new developments to be rapidly made upon our extensive and valuable properties.

We invite attention to, and the most careful examination of, the following list of properties, lands, and leases, the locations of which are all shown upon the map; believing that none more valuable and promising have ever been offered upon so small a capital, and none that have given greater assurance of permanent value and large returns. We invite subscriptions to an investment, and guarantee the most energetic and skilful efforts to develop the property thoroughly, as well as careful and faithful management.

Summary of Properties.

Two tracts of good boring land, one hundred and one hundred and four acres respectively, *in fee*, situated south of Oil City, in Venango county, in the immediate neighborhood of the Adamantine, Lee, and other large wells just struck on the East Sandy and Alleghany rivers.

Important interests and leases on the best and most carefully selected properties on Oil Creek,—on the Hassan Flats,—Complanter Run,—Rynd Flats,—Cherry Tree Run,—Clapp & Hassan, Widow McClintock, Foster, and two lots on the celebrated Hyde & Egbert Farm.

In all, fifteen wells, five of them producing seven down to two to five hundred feet and still boring, and three just commencing, with room on the leases for several more wells.

Also a good Refinery, in complete working order, capable of refining 130 barrels per day, at a profit of one to five hundred dollars.

Also engines, tools, tubing, tanks, and improvements, the actual cost of which was $66,500, and worth to-day $75,000.—the whole comprising a property unsurpassed for present value and prospective increase.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Hon. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was in the employ of the gentlemen from the start in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was satisfied to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the Mirror, of Manchester, and Jos. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the most productive and paying wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty per cent. on dollars.* The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make farther examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The bay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have been made. Here the Steele & Read well flowed 1000 barrels per day—the Fountain 100—the Parker 200—and scores of wells are now being worked from 10 to 50 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for $20 000, and a thirty barrel, and a sixty barrel will sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm will be found to be good for coal, is equal to the Flat below Titusville. Coal in that section is worth $18 per ton, and if the vein of coal underlies the oil it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $600 to sink a well to the depth of 700 feet, and few go lower than that. It costs 90 per day to work it after it yields oil. N. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than those on the Oil Creek Flats. Since I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Professor Shepherd of Yale College, and Mr. Bates, at will have pumping wells and flowing wells. The flowing wells would sell for a large sum of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room for such wells on the Farm, and on the farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit of a single one, and if they are as large as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm will be over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Farmerville, and runs from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the Jersey that flows 200, the Maple Shade and other proved flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod, forcing they had not sufficient tools to bore the oil. The tanks they now have will hold 3,500 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther south the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod for a well. It is specially indicated. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm and realize handsomely on our investment. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $600 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now boring, bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is now boring in Dawson's 25 acres, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet, a good show of oil at 115 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

M. PROUT, Manchester, N. H.

SAMUEL CHASE, Manchester, N. H.

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of diffusing their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.

$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.

$5000 in DIAMOND RINGS, in value $25 to $500 each

$5000 in DIAMOND PINS, in value from $25 to $250 each.

Daily Morning Chronicle

VOL. XXVI. PORTSMOUTH, N. H. FRIDAY, APRIL 21, 1865: 110. No. 90.

The Chronicle.

☞ On Sunday evening a squad of patriotic young men visited the house of Mrs. John Tyler, widow of the ex-President, on Staten Island, and demanded and obtained a rebel flag which had long been hanging in her parlor. Ex-Mayor Lewis of Savannah, a violent rebel, was present but kept quiet. The parlor of Mrs. Tyler is where the secessionists have often met during the war, and was the head-quarters of a rebel sewing society. The flag was sent to Gen. Dix. The lady herself should have been sent to Richmond three years ago. Several secessionists are reported to have been beaten by Unionists on hearing the comments on the assassination made by the fiends. An inflamatory placard was posted around N. Y. Monday morning, concluding with "Death to traitors." "The Union, one and indivisible," "Strike often," "No more parley."

THE PRICE OF COAL.—There is every indication at present of a speedy decline in the price of coal. The final closing of the war, the fall in gold, and the increased shipments from the Pennsylvania mines furnish sufficient evidences to warrant the supposition that the cost must soon be lessened; and when we take into consideration that the largest purchaser, the government, will probably in a short time leave the market, it will not be considered preposterous to predict that coal will be furnished during the coming summer for little over one-half the price demanded in 1864. The Potteville (Pa.) Journal of Saturday last says: "The shipment is heavy this week, and the consequence is that the demand is slackened off to some extent again, and prices favor buyers. Those few who advanced wages on the 1st have found it necessary to suspend their collieries at present for want of orders."

— Chaplain Albert Griffith, who was supposed to have drowned himself in the Cumberland river, at Nashville, it now appears did not do anything of the kind, but bribed his guard to let him escape and report that he had committed suicide. He afterwards attempted to pass himself off as a rebel deserter, but was detected and is now undergoing trial for his stealings from the soldiers and the Sanitary Commission.

TO FARMERS AND EMPLOYERS.—A Washington correspondent states that persons wishing to employ help upon farms and other departments of labor, can be supplied on application to Captain Camp, of that city. Many hundreds of deserters and refugees pass through his office weekly, seeking employment in the North. They are mainly farm hands, though many of them can turn their attention to other vocations.

☞ We are indebted to John S. McDonald, formerly of Co. K. 2d N. H. Regiment, for a copy of the Richmond Whig, Apr. 7, from which we cut this item:

Died—Confederacy, Southern.—At the late residence of his father, J. Davis, Richmond, Va., Southern Confederacy, aged 4 years.—Death caused by strangulation.—No funeral.

— The N. Y. Commercial's Washington despatch says Lee turned over in round numbers thirty thousand men. Our losses probably do not exceed ten or eleven thousand. Johnston has surrendered his entire army to Sherman. The rebel generals express a desire to submit to the United States authorities.

— It is stated, on what appears good authority, via C. E. Fulton of the Savannah American, that on Monday, the 10th, Jeff. Davis was at Macon, Ga. At Havana Mr. Fulton learned from a bank officer that Jeff. Davis had on deposit in one of the banks there $160,000 in gold.

— Madrid papers state that the Portuguese Government acceded to the American Minister's demand for the removal of the commander of Fort Belen for firing on the frigate Niagara after the Federal commander had signalized to him that he understood his summons.

— The pirate Shenandoah was still at Melbourne on Feb. 23d. Capt. Waddell threatens to report to Richmond the conduct of the Australian authorities in refusing to furnish his vessel with supplies. So says the late Foreign News.—Alas for Capt. Waddell, his commands only excite laughter now.

— Among the important reports from Richmond, is one that Brig. Gen. Anderson, C. S. A., proprietor of the Tredegar Iron Works, who has made $14,000,000 since the war begun, is opposed to confiscation!

— Rev. J. W. Alleton, pastor of the colored Episcopal Church in Philadelphia, was forcibly expelled from a horse car in that city last week because he is a black man.

FRUIT, CONFECTIONERY, —AND— Cigars.

WHAT IS A
FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Baised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonsful of Sugar, biscuit can be made fit to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing—Try one.
E. A. STEVENS.

Crockery Ware.
JOHN SISE has on hand a large assortment of
Crockery, Glass & China Ware, Table Cutlery and Plated Ware, Tea Trays and Plated Castors,
which he offers for sale at the lowest prices, at

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WEBB, BRADLEY & CARY, (late J. I. & J. O. Webb,) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade street, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Durable Spring ever used. They seldom bend or break like the Single Springs, and consequently Preserve their Perfect and Beautiful shape Twice as Long as any other Skirt.
The WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all First-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.

ESTABLISHED
FACTS AND REASONS
FOR USING
DR. S. O. RICHARDSON'S
BLOOD-ROOT ELIXIR!
FIRST. The extraordinary curative effect of the Blood-Root Elixir was discovered by a regularly educated Physician: and the present proprietor also is a graduate from one of the highest Medical Colleges in New England.
SECOND. The Elixir is not alchoholic, contains no mineral, and may be relied upon as being composed of strictly vegetable substances; and so in gredient is intermixed that can unfavorably affect the most delicate constitution.
THIRD. The extensive and successful use of the Blood-Root Elixir, during the past year, proves it to be, without any qualification, the best and most valuable medicine that has ever been prepared for family use.
FOURTH. Medical science and skill have never been able to produce a cathartic medicine of equal power and effect, which contains so many desirable qualities. Its superiority as an aperient consists in its mild and thorough action, operating equally through all parts of the Bowels. It never produces griping pains in its operation; never occasions nausea; its flavor is pleasant and agreeable; and it will not be rejected by the most fastidious child. It may be safely used in all cases where laxative medicine is required. It will promote the comfort and health of both sexes, and of all ages: It will assist Nature during all infantile diseases; it will, during the anxious hours of a mother's life, hasten and assuage her maternal pangs; it will render joyous and happy the aging days of the aged and venerable. And when the Elixir is once introduced into any household, it will therein supersede all other laxative medicine.
FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, are confirmed by unsolicited testimonials, which in number and extended results exceed any estimate our most sanguine hopes so early had anticipated,—therefore we are forcible evidence, is unerring, that our estimate of the efficacy and value of the Blood-Root Elixir has not been exaggerated.
SIXTH. In examining certificates received during the past year of its successful results, we are gratified in believing that our medicine has not failed in any case where it has been tried, to cure the most stubborn and chronic cases of CONSTIPATION.
SEVENTH. Most grateful manifestations have also been evinced by patients who have been relieved from LIVER COMPLAINTS of long standing. Also it has been effectual in curing CUTANEOUS ERUPTIONS OF THE SKIN; and in eradicating HUMORS OF THE BLOOD. Many afflicted with deep seated incurable SCROFULA, have been greatly benefitted by a moderate use of the Elixir.
EIGHTH. In cases of COUGHS and COLDS it has proved successful beyond any assurance we have ever expressed; and those who have thoroughly tested its effect, believe it to be superior to all other cough preparations—the Elixir, by its physical properties, equalizes the circulation of the blood, and removes congestion. It also, when used as a gargle, or swallowed slowly, heals and soothes the irritated and inflamed membranes, from which the cough arises.
NINTH. Many persons suffer periodically from JAUNDICE, which is occasioned by a morbid and inactive state of the Liver. The Blood-Root Elixir is a sure relief from the despondent feelings and painful symptoms which are peculiar to that disease.
TENTH. DYSPEPSIA is an aggravating and disheartening disease, often leading to dangerous results. A limited use of the Elixir, according to the directions, will regulate the stomach and bowels with unerring certainty, and restore digestion to a natural and healthy action.
ELEVENTH. RHEUMATISM the Blood-Root Elixir will readily relieve; its warm and quickening effect counteracts the cold and morbid condition of the fluids, which is the primary cause of all Rheumatic affections.
TWELFTH. Persons subject to HEADACHE will be relieved in a few hours by a single dose of the Elixir.
☞ Every person taking the Elixir should carefully read the printed pamphlet which accompanies each bottle.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
F. S.—Those who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

ARCANA WATCH.
An Elegant Novelty in Watches.
The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcania, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Levers and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imier Watch Company of Europe, and are superbly finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balanced and the improved jewelled action with fine dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 21, 1865.

☞ A Baltimore dispatch of the 18th says:

It is understood that the party under arrest here states that the original design of the conspirators was merely to capture President Lincoln some time back, make him a prisoner and in this way compel a general release of all the rebel prisoners then held by the United States. When the general exchange of prisoners was commenced this project was abandoned, and he says he refused to have anything further to do with it and endeavored to induce others to give up their designs upon the life of the President. The man is a well-known resident of Baltimore.

A young man named Samuel Arnold, at Fortress Monroe, was apprehended Tuesday morning on suspicion of being implicated in the assassination of President Lincoln and Secretary Seward, and has been taken to Washington. Arnold denies any knowledge of the plot to assassinate the President, but confesses he was concerned with Booth and others, about seven in all, in a plot to kidnap the President and deliver him to the Richmond authorities previous to the arrangement of the cartel for exchange of prisoners by Gen. Grant. He says he withdrew from the gang, when Booth threatened to shoot him. An altercation ensued; but the difficulty was settled by Booth apologizing. Since then Arnold says he has had nothing to do with Booth, but letters and other documents found in his possession, signed "Sam," prove to the contrary.

The Norfolk (Va.,) correspondent of the New York Herald mentions the arrest of three parties at Fortress Monroe, on Tuesday, supposed to be implicated in the assassination at Washington.

☞ From all quarters, the reward for the arrest of the assassins of President Lincoln now amounts to $40,000. The condition of Secretary Seward and son is still improving, on Thursday. A dispatch from Reading, Pa., Wednesday says:—the extra train did not overtake the regular train, but arrived at Pottsville after it. The conductor informed the party that the man, who was suspected to be Booth, got off at Port Clinton. The train returned, but the man had left,—which way or how no one appeared to know.

☞ Secretary Stanton offers $100,000 reward for the assassin Booth and two accomplices; viz. $50,000 for Booth, and $25,000 each for G. A. Atzert alias Port Tobacco, and David C. Harold. This is in addition to rewards by States and cities.—Liberal rewards will be paid for any information that shall conduce to the arrest of either of the above named criminals or their accomplices. All persons harboring or secreting the said persons, or aiding their concealment or escape, will be treated as accomplices in the murder of the President and the attempted assassination of the Sec. of State, and will be subject to trial before a Military Commission and the punishment of death.

—— The Manchester Mirror of Tuesday says:—

The most diligent inquiry fails to find out how the story started here Friday that the President was shot. It is traced up to as early as 7 o'clock Friday morning.

☞ The Ballot says the excitement and rumors at Exeter, (as elsewhere) about the assassin, &c. didn't amount to anything.

THE PLAGUE IN RUSSIA.—The British Government having telegraphed to its officials in Russia for information relative to the epidemic in that country, the Embassador at St. Petersburg, in a telegram dated the 5th, says the fever is contagious and in England is called the relapsing or famine fever, also the remittant or bilious fever. It was unknown in Russia till eight months ago. A Berlin item of a late date says the plague continues at St. Petersburg. The number of deaths had reached twenty thousand. There were one hundred cases a day. Forty physicians had died. The Ismailoff barracks had been turned into a hospital. Precautionary measures were being taken at Moscow, where the food and lodgings of the laboring classes were being inspected by the police. It is not the cholera, but the plague with diluted pupils, carbuncles, &c.

Lord Napier reports from Berlin on the 5th that an unknown disorder had appeared along the Vistula, but the Prussian government is not aware that it came from St. Petersburg.

The London Times suggests that medical officers be sent from England to study the disease.

A Paris letter says several medical students who went from France to investigate the epidemic, had fallen victims.

☞ Ten men were injured on Thursday morning, in Charleston Navy yard, by the explosion of a 1000 pound shell; four of the men died soon after. The men were at work on a large lot of shells just arrived from Charleston; and had strict orders not to use force to wrench out the fuses—but they did use it, even a steel punch, and as might be expected, the explosion ensued.

GOLD in Boston, Thursday, 147.—In New York, being Fast Day, no brokers board was held.

"Our hearts like muffled drums
Are beating funeral marches to the grave."

NEW YORK, April 16.

A Nation weeps. Our President is dead! A score of millions of hearts wrapped up in grief find unison in sad pulsations. The Commander-in-Chief has gone to join his army of the Dead! "Close his eyes; his work is done." The Angel of Life has closed the book; a loving and grateful people have clasped its folds with their own good seal of approbation. It stands complete—the central figure of our national history—the record of an honest man, God's Kingship of Nobility!

Pen fails—tongues falter—hearts are dumb! The frailty of our mortal eye, seeing only the present, dreams only with dim vagueness into the mists of the future. We struggle, as one well nigh saved, with the last wave between us and the shore.

A chain broken from its staple,—a storm-swept ship, rudderless,—pilgrims deep in tangled forests, robbed of their guide.

Just as the white, flowery robes of Peace were fluttering around us,—just at the dawn of day, the streaming of the light beyond the woods, the spreading of the rosy-hued tidings of victory: he whom we would all have desired to live to see the complete glory of the successes he has so much aided in securing,—he so gentle and kind, prudent and wise, genial and lenient, has fallen a victim to the unholy passions of the hour.

After having given, through four wearisome years, the labor of his heart, his head and his hands, he has cast his *life* into the treasury of his country. He has fought a good fight; dying he *lives*—for through him God and Destiny uttered to four million souls, the mighty words, "BE FREE!"

Must it needs be that this affliction come? Were we becoming too lenient, too charitable,—untrue to ourselves and our hallowed dead—over-just to our foe?

If this was the lesson his life-blood brought, it is well heeded.

The foot-lights of the stage gleaming upon that bowie blade—the fit emblem of Southern brutality—flashed a call for vengeance to the whole nation! and the hot breath of a whole people cries for BLOOD! cries "havoc! and let loose the dogs of war!" and as Bull Run came to light the torch of patriotism throughout the land,—as the sufferings of our brave boys in prison nerved those without to fight still harder on; so this is sent to admonish us that realities still exist, that there is stern work yet to be done. Look to it, every American, look to it that it is *well* done!

"*Forgive them, for they know not what they do!*"
He said, and so went shriven to his fate—
Unknowing went, that generous heart and true.
Even while he spoke the slayer lay in wait,
And when the morning opened Heaven's gate,
There passed the whitest soul a nation knew.

Henceforth all thoughts of pardon are too late;
They, in whose cause that arm its weapon drew,
Have murdered MERCY. Now alone shall stand
Blind JUSTICE, with the sword unsheathed she wore.

Hark, from the eastern to the western strand,
The swelling thunder of the people's roar:
What words they murmur—FETTER NOT HER HAND!
SO LET IT SMITE, SUCH DEEDS SHALL BE NO MORE!

☞ The Head-house of the Eastern Railroad Station in Boston, was tastefully draped in mourning on Wednesday. In the inside of the building were also placed portraits of our late President, and appropriate mottoes and extracts from Mr. Lincoln's speeches. No train was allowed to arrive or depart from the Station from 12 to 2 o'clock, and the 12-15 train to Portsmouth was, in consequence, discontinued, while the Portland train due at a 1-4 to 2 o'clock, was kept back until 2. There was very little travel to or from Boston on Wednesday,—The whole country being absorbed in the solemnity of the day.

SALISBURY, N. C., the place where the rebels starved and murdered our friends who were their prisoners of war, was captured by the U. S. cavalry and other forces under Gen. Stoneman, April 12th. Gen. S. captured 8 stands of colors, 19 pieces of artillery, 1165 prisoners, 1000 stand of arms and accoutrements, 1000 rounds fixed ammunition shells, 60,000 pounds of powder, 75,000 complete suits of clothing, 350-000 army blankets, 20,000 pounds bacon, 100,000 pounds salt, 20,000 pounds sugar, 29,000 pounds rice, 10,000 pounds saltpetre, 50,000 bushels wheat, 100,000 dollars worth medical supplies and 7,000 bales cotton.—Thirteen pieces of artillery were brought away, and all other stores not needed for our immediate command were destroyed. The greater part of these supplies had just been received from Raleigh. One large arsenal, with machinery complete, six depots, two engines and trains, several bridges between Goldsboro and Danville, and also some on the other side of Salisbury, with several miles of railroad track, were destroyed.

— The capture of Columbus, Ga., by Thomas' cavalry, after a severe fight with Forrest, is announced. 400 or 500 of Forrest's men were captured at Ufonla and Montgomery, Ala.

— A secessionist was expelled from Brookfield, Mass., Saturday, for expressing joy at the death of President Lincoln. He was threatened with a coat of tar and feathers, obliged to give three cheers for the flag, and sent off with an admonition never to return.

THE GRAND JURY came in on Monday in Exeter; reported twenty-two indictments, and were discharged. The Ballot reports the following arraignments made:

Erastus Goodell—Breaking and entering the shop of Josiah Bachelder in Exeter, and stealing therefrom. Plea, not guilty.

John Brown—Breaking and entering dwelling house of Abigail M. Hanson in Epping, and stealing therefrom. Plea,—guilty.

Mary A. Brown—Breaking and entering market of Garland Conner, and stealing therefrom. Plea, *nolo contendere*.

Joseph R. Staples—Entering dwelling house of Charles E. Warren in Exeter, and stealing therefrom. Plea, not guilty.

Joseph R. Staples and Mary A. Brown—Entering shop of Frank M. Davis in Exeter, and stealing therefrom. Staples pleaded not guilty, Brown, *nol. con.*

To an indictment for entering store of Albert Janvrin in Exeter, and stealing therefrom. Staples pleaded not guilty, as also to an indictment for breaking and entering dwelling house of William P. Moulton in Exeter, and stealing therefrom. Mary A. Brown, indicted with Staples, was not arraigned on either of these two indictments.

Joseph R. Staples and Mary A. Brown—Breaking and entering dwelling house of Charles Haley, and stealing therefrom. Staples pleaded not guilty, and Brown, *nol. con.*

Moses D. French—Assault upon Frank Randall, and stealing from that person. Plea, not guilty.

Charles H. Fish—Stealing treasury notes and bank bills from Samuel Bassett at Portsmouth. Plea, not guilty.

Fanny Cusick—stealing bank bills and Treasury note at Portsmouth. Plea, guilty.

John C. Collins—Stealing $56 in Treasury notes, and $59 in bank bills from Wm. Alton of Portsmouth. Plea, guilty.

Mary Cressell—Stealing $200 in bank bills and $105 in Treasury notes; the property of Wm. Wagner of Portsmouth. Plea, not guilty.

Michael Hoffman—Entering shop of David D. Badger, and stealing therefrom. Plea, not guilty.

George Bilbrook—Fornication. Plea, not guilty.

John Donovan—Disorderly house. Plea, not guilty.

Martin Garrity—Disorderly house. Plea, not guilty.

The following arraignments were made on Tuesday afternoon:—

Almira Robinson—House of ill fame, Portsmouth. Plea, not guilty.

George E. Brackett—Taking and carrying away the ballot box at the Greenland annual election. Plea, not guilty.

Charles A. Jordan—Breaking a table, the property of the town of Greenland, at the last annual election. Plea, not guilty.

Moses D. French retracted his plea of not guilty, pleaded guilty of stealing from the person, and was sentenced to four years hard labor in the State Prison.

N. H. METHODIST CONFERENCE.—The following are the appointments of preachers in this vicinity:—Presiding Elder of Dover District, A. C. Manson: Dover, O. H. Jasper: Great Falls, High St., D. C. Babcock: Great Falls, Main St., F. K. Stratton: Rochester, E. R. Wilkins: Union Village, S. Beedle: New Market, G. W. H. Clarke: So. New Market, E. Smith: Greenland, S. Green: Portsmouth, James Pike: Rye, G. W. T. Rogers: Hampton, N. L. Chase: Seabrook, H. B. Copp: Kingston, to be supplied: Raymond, R. J. Donaldson: Epping, A. Folsom: Candia and Auburn, Jas. Adams.

MOSBY AND HIS FORCE SURRENDERED. The N. Y. Herald has news from Winchester, Va., stating that the rebel chief Mosby surrendered his force to Gen. Chapman at Berryville on the 17th, after arranging the terms with Gen. Hancock, which were similar to those granted to Lee. It is understood that Gen. Rosser has also asked that his command be included in the cartel. Mosby's men number probably 700.

Great numbers of Lee's soldiers are coming into our lines. They scout the idea that any portion of their army has gone to Johnston, and say when it is fairly understood by Johnston's men that they can go to their homes they will go.

GEN. SHERMAN captured Raleigh on Thursday of last week. Johnston's rebel army retreated without battle, and keeps on retreating. Gov. Vance of N. C. is a prisoner in Gen. Sherman's hands. It is said Jeff. Davis and family have joined Johnston at Hillsboro', which is about 30 miles west of Raleigh.

THE MEN CAPTURED FROM LEE.—It has been stated that Gen. Lee had turned over only eight thousand men, and it was supposed that the best portion of his army had been sent to Johnston before the completion of the negotiation for surrender. This statement is now said to be incorrect. He has turned over under the articles of capitulation over thirty-five thousand men, with a hundred and fifty pieces of artillery, and ten thousand stand of arms.

— Powell Hardeman, a noted leader of a band of guerrillas, was captured at Pulaski a few days ago, by Col. W. E. Gilmore, whose plantation was visited by Hardeman some months ago, and $9000 worth of property destroyed. He was tried by court martial and sentenced to be hanged, which has been approved by the General Commanding.

— "We are soldiers, and applaud no assassins," was the expression of rebel inmates of the Libby Prison on receiving the news of the murder of President Lincoln. The telegraph erroneously attributed to them directly the opposite sentiment.

☞ We are informed that an unsuccessful attempt was made by some unknown copperheads, to prevent the tolling of the bell in Newington on Wednesday. The windows of the meeting-house were found nailed down, and the key could not be obtained. Some patriotic young men, however, effected an entrance, and tolled the bell for one hour.

☞ We understand Wm. H. deRochemont has been appointed Postmaster of Newington, in place of Darius Frink, resigned.

☞ William B. Morrill esq., has been re-appointed Postmaster of Exeter, for four years from the expiration of his former term.

☞ The engravings in Peterson's Magazine for May, are Wild Flowers, and a humorous wood cut, The Children have been to see the Juggler.

☞ Godey's Lady's Book for May, has engravings of May Day, Good News, Fashions, &c.

WARREN & CO'S

Celebrated Bone Polish,

For Cleaning Windows, Mirrors, &c. &c.

PATENTED MARCH 28TH, 1865.

This Polish is BONE AND IRON, a composition entirely new. For CLEANING and POLISHING it has no equal. If the public will give this one trial they will be satisfied that it is the most economical, as well as the best article now in use.

NO WATER, NO SOAP, and the labor performed in one third of the time; the clearness produced by the use of this Polish cannot be excelled.

NEWTON'S PILLS.

(Anti-Bilious.)

Composed of highly Concentrated Extracts from

ROOTS AND HERBS

Of the greatest medical value, prepared from the original prescription of the celebrated DR. NEWTON, and used by him with such remarkable success for twenty years in all parts of the United States, are an infallible remedy in all

DISEASES OF THE LIVER,

OR ANY DERANGEMENT OF

The Digestive Organs.

THEY CURE

Diarrhœa, Dysentery, Dyspepsia, Biliousness, Scrofula, Liver Complaint.

The well-known DR. WARREN OF Boston says of these pills, "They have the finest effect upon the Liver and digestive organs of any medicine in the world, and are the most perfect purgative which has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, and being purely vegetable are free from any risk or harm.

The most remarkable feature of these pills is the perfection with which they act in extremely dissimilar chronic diseases. THE SAME DOSE cures Diarrhœa or Dyspepsia, in either case restoring the organs to a healthy and natural condition, which cannot be said of any other medicine in existence!

They create pure blood and remove all impurities from the system, hence are a positive cure for

Fevers, Headache, Piles, Mercurial DISEASES, AND Hereditary Humors.

☞ *Price One Dollar per Box. Trade supplied, or sent by Mail, post paid, to any part of the United States or Canadas, on receipt of Price, by*

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7sr6md

CLOCK'S
Excelsior Hair Restorer

is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

OBSEQUIES OF PREST. LINCOLN.

The Funeral Procession in honor of our late lamented President, on Wednesday, was an imposing demonstration, and reflected no little credit upon the city, as well as upon those who designed and conducted the arrangements. The programme was very fully carried out, and unusual promptness characterized the affair. Seldom, if ever, have we had so extensive a turnout here, and fortunately no accident occurred to mar the solemn ceremonies in honor of our departed chief. The order of the Procession was as follows:

FIRST DIVISION.

The Chief Marshal was Robert Lefavour, with Daniel Hall and Samuel W. Webber as mounted Assistants; and John H. Jackson, A. J. Hill, Wm. O. Sides, A. J. Beck, C. C. Jackson and James A. Blaisdell as Aids, on foot.

Company C, of the Governor's Horse Guards, Capt. M. Eldredge, performed escort duty, and were out with full ranks, considering the short notice.

Then came the Portsmouth Cornet Band, eloquently discoursing mournful music.

The military escort of the 1st division was composed of Companies from the Forts and the Navy Yard, the whole being under command of Col. Jones, of the Marine Barracks. The Companies from Forts McClary and Constitution, under command of Capt. Wells, looked finely, as did also the Company of Marines, under command of 1st Lieut. Henry J. Bishop.

Then came carriages containing City Officers, ex-Mayors of Portsmouth, etc.

Immediately following these was the elegant Funeral Car, which had been designed in the most appropriate and tasteful manner under direction of Mr. J. H. Head. On each side of the car was richly emblazoned the name of "Lincoln," while the trimmings were of black crape and purple velvet, arranged in a fitting and superb manner. The car was drawn by six fine black horses, driven in hand, and each also led—the animals' heads being surmounted with heavy black plumes, as was also the car. A large amount of labor and skill, and no little expense, had evidently been expended in this direction, and very appropriately, and with entire success, for this car was beyond question the most elegant and elaborate thing of the sort ever seen here, and would do credit to almost any city. The Pall-Bearers were Wm. H. Y. Hackett, Wm. M. Shackford, John Dearborn, Wm. Simes, Joseph B. Upham, Wm. L. Dwight, James F. Shores, and Ichabod Rollins.

Next followed the city Clergy in carriages; Officers of the Army and Navy in uniform, in good number, among whom were Rear Admiral Bailey, Capt. A. Murray, and Chief Engineer Bartleman, of the Navy Yard,—which, with a number of Civil Officers of the United States Government, completed the first division.

SECOND DIVISION.

The second division was led by the Band from Fort Constitution, following which were the Knights Templar, St. Andrews Lodge of Free Masons, (H. G. Tanton, W. M.,) and the St. John's Lodge, (B. F. Webster, W. M.;) the Piscataqua and New Hampshire Lodges of Odd Fellows, together with Strawberry Bank Encampment, (J. N. Wilson, C. P.)

Then Portsmouth Division Sons of Temperance, Meshach Bell, Marshal; Sagamore Steam Fire Engine Company, No. 2, Hiram C. Locke, Foreman; Granite State Engine Co., No. 1; Garibaldi Hook and Ladder Co.; Atlantic, No. 6; all under the lead of Chief Engineer John H. Moran.

THIRD DIVISION.

The Third Division (with Christy's Minstrels' Band, volunteered, for music,) was escorted by the High School Cadets,—a neat Company of boys, under the direction of their teachers.

Carriage containing the designer and workmen on funeral car.

Following these was a car containing disabled veterans, private citizens in carriages, and a large number of our citizens on foot, together with delegations from Kittery, Newcastle and surrounding towns, under their respective Marshals.

An interesting feature of the procession was the car containing maimed soldiers and sailors, the names of whom we give as a matter of record:—Henry C. and Robert E. Rich, brothers, each of whom lost the left leg at about the same time, although hundreds of miles apart—Robert being in the Army of the Potomac as a soldier, and Henry a sailor in the West Gulf Blockading Squadron; James McKnight, Edmund Whalley, Washington Sweat, Daniel Hatch, each of whom has lost a leg; John Perkins, lost left arm; Henry Palmer, Wm. Lolley, C. Dwight Hanscom, John Dooley, Patrick Sullivan, James Burnham, and Robert C. Ransom.

The Procession, for a wonder, started promptly on time; and having gone over the route laid out, returned to Market Square—where the following very interesting exercises were gone through with, tho' the high wind was somewhat uncomfortable, especially to speakers. As we presume the whole exercises on this occasion will of course be officially recorded in print by the city, we attempt no present detail of them here.

Prayer by Rev. Mr. De Normandie.
Singing, Original Requiem, by Albert Laighton.
Reading of Scriptures by Rev. Mr. Davies.
Singing, Original Funeral Hymn by E. P. Nowell
Eulogy by Rev. Mr. Patterson.
Prayer by Rev. Mr. Adams.
Singing—"America."
Benediction by Rev. Mr. Holman.

At the close of the services, three volleys were fired by the military, and the whole dismissed by a Benediction.

The most intense interest was manifested by everybody in the solemn proceedings—of which we give as much detail as our own engagements would allow. All business was suspended, and the streets, houses, public buildings and stores were very generally draped in mourning—some very elegantly. People of all parties manifested all due respect and honor to the nation's magistrate; and no single mishap or other accident occurred to mar the sad enjoyment of the occasion. Portsmouth has done herself honor, and the City Government will receive—in fact has received—the support and countenance of all good citizens, for their prompt and efficient action in the matter.

☞ The Police have succeeded in closing one den of infamy, in this city, called the "House of Blazes," situated near the corner of High and Hanover streets, and the following named persons are permitted to change their places of abode and manner of living, as follows:

Sarah Spinney plead guilty—fined $5,-47, and sentenced to three months in the House of Correction.

Olive Hammond was dealt with in the same manner.

As was also Nellie Stover.

But Catharine Brogan in consequence of pleading not guilty, thus aggravating the offence, got 4 months in the H. of C., besides a fine of $5.74.

Ida Barney, the matron of the above named establishment, plead guilty to the charge of keeping an idle and disorderly house. Bound over in the sum of $300. Mittimus issued.

Margaret Shean plead guilty to the charge of night walking. Sentenced three months in the House of Correction.

Wm. Mooney plead guilty of making a brawl and tumult. Fined $6,86.

James Devine for similar conduct received the same sentence.

☞ The Ballot says the Stars and Bars man was at Exeter last week, attempting to secure indictments against some persons engaged in cleaning out his office; but so far as we have heard, the grand jury have given him no satisfaction. And also that on the conclusion of the Judge's charge to the jury on the "Portsmouth riot" case on Tuesday afternoon, the Court adjourned to Thursday morning.

☞ The Portland Press states that "at a meeting of pew proprietors of the First Parish (Unitarian) held on Monday last, it was voted to extend a call to Rev. James DeNormandie of Portsmouth, to become their pastor." We are told that the salary is $5000, and the Society hold but one service on the Sabbath; and the inducement of a year in Europe will be offered. Mr. DeNormandie's removal would be a great loss to his Society and our city, and we trust we shall not have to part with him.

☞ Rev. Mr. Patterson will by request repeat his Lecture on the "The flag and the cross," at the Universalist Church next Sunday evening at 7 1 2 o'clock. A Collection will be taken for the relief of our Soldiers wounded in the recent battles.

☞ The Rite of Confirmation will be administered by the Right Rev. Bishop Chase, in St. John's Church, this [Friday] evening, at 7 1 2 o'clock.

PROFESSOR FABIAN—the arch Illusionist and unrivalled Enchantromandi, will give a series of his magic entertainments in this city, commencing this (Friday) evening, at the Temple. He is pronounced an accomplished professor of legerdemain, and performs feats as incomparable as they are pleasing. In connection with the entertainment we may mention that a large number of valuable gifts will be disposed of as presents to the audience in a strictly impartial manner. The Professor's arrangement of distributing his presents is the most impartial and honest of the many Gift Shows that have appeared in our city. Such articles as he advertises as gifts, he means to give *bona fide*, with no intent to have them returned. There is no hood-winking about it; what he promises he performs. This evening, he will distribute 150 presents, the leading prize being a very handsome Chamber Set, valued at $45. The Professor challenges any person to show the first instance where the distribution of gifts does not perfectly agree with the advertisement.

☞ We are desired to call special attention to the notice of Mr. J. A. Jackson, Boston—of Spring Hats, which will be found among our new advertisements this morning.

PORTSMOUTH
Mutual Fire Insurance Co.

Notice is hereby given, that to meet the liabilities of this Company up to Jan. 14, 1866, at which point of time the Company ceased to be in force, by a vote of the Directors, duly authorized by the members of the Company at a legally called special meeting, held on the 19th of Dec., 1864,—the directors have ordered an assessment on the Premium Notes on hand as follows:—

Those dated prior to Nov. 8, 1863.....12 per cent.
" " from Nov., 1863, to July 23, 1864.....1½ " "
" " from July 23, 1864, to Jan. 14, 1865.....2½ " "

Members are particularly requested to take up their Notes at this office without delay. All persons having claims against the Company are requested to present them for adjustment.

a6—tf W. L. DWIGHT, Secretary.

Rockingham Bank,
PORTSMOUTH, N. H.

Notice is hereby given, that a meeting of the stockholders of this Bank, held on the 1st day of April, 1865, it was voted

"That the Directors of said Bank be and they hereby are fully authorized, at such time as they shall deem proper and expedient, to organize said Bank into an association for the purpose of carrying on the business of Banking under the laws of the United States.

The Directors of said Bank have procured the authority of the owners of more than two-thirds of the capital stock, to make the certificate required by the laws of the United States, and they have now voted to organize as such association

JOHN J. PICKERING, Cashier.

Excellent Toilet Soaps

AT THE NEW DRUG & MEDICINE STORE,
Corner Congress & Vaughan Streets.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " $500 "
20 " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

Subscriptions will be received by the

NEW HAMPSHIRE ITEMS.

—— A fatal accident took place in Sandown on Saturday, April 8th. As Mr. Stephen Webster, a young man of about 22 years, son of Capt. Elihu Webster of Kingston, was passing through Mr. A. J. George's Mills, his coat caught in the cogs and he was drawn in upon the jack, and one of his legs and his body were crushed before the machinery could be stopped. He lingered until one o'clock the next morning, when he died.

—— Ex-Mayor Alonzo Smith, of Manchester, died there on Monday, aged 57.—The Manchester Mirror says of him, "scarcely any person will be more missed among us. He was greatly interested and took an active part in all matters which concerned the public welfare. He was remarkably warm and social in his disposition, and had a kind and benevolent spirit. He was one of the first members of the Universalist society and one of its active supporters.

—— Among the acts of justice and clemency performed by President Lincoln in the last day of his life, was the restoration to work and position of Paymaster Geo. F. Folsom of Dover, N. H., at the request of Ex Senator Hale and Representative Rollins. It is understood that Maj. Folsom does not desire to remain in the Paymaster's Department, but that his friends claimed his restoration as an act of justice. Mr. Lincoln, after hearing the case stated, directed that papers be made out.

— In England, the Lock Out in the iron trade has ended.

J. H. WINSOR, of Oil City.
L. M. GORDON, of Oil City.
CHAS. E. HODGES, of Hodges & Richardson, Boston.

Superintendent.

W. W. WHITE, of Oil City.

This stock is *bona fide*, full paid, with no possibility of future assessments and no personal liability. The absolute value and actual cash cost of this property are so great as to preclude its being offered with the allurement of a reduction from a nominal par value.

It has been offered, at different times during the past year, by several old and experienced oil workers and residents of Oil Creek, who are familiar with the history, progress and value of every well and property in that region. Several of the producing interests were originally acquired for the purpose of holding as private investments and sources of regular income.

These gentlemen have, however, been induced to combine their various interests, with additional property, into one strong, sound, and reliable company. Each of them will retain an interest as stockholders, and hold their stock as a permanent investment. Residing in the oil region, and directly concerned in the success of the company, they are pledged to look closely after its operations; thus affording a guaranty of watchful supervision, and faithful and energetic management possessed probably by no other oil company now formed. Two of these gentlemen are on the board of Direction, and one Superintendent of the Company.

The stock is sold to pay for the property, and to furnish a working capital to open up the large and promising tracts yet waiting to be developed.

The managers start with the fixed intention of paying dividends *quarterly* and from actual earnings only. Paying quarterly affords time to sell the oil produced to the best advantage, and is believed to be in all respects the soundest policy.

The dividends will beyond question, be not only immediate, but regular, permanent and remunerative. We wish to avoid holding out any inducements not warranted by the same moderate and reasonable calculations that would be made in embarking in any legitimate business enterprise. It is safe, however, to assure subscribers of handsome quarterly dividends from the present wells of the company, which will moreover, we confidently believe, be very largely increased by new developments to be rapidly made upon our extensive tracts, and adjoining farms.

We invite attention to, and the most careful examination of, the following list of properties, lands, and leases, the locations of which are all shown upon the map; believing that none more valuable and promising have ever been offered upon so small a capital, and none that have given greater assurance of permanent value and large returns. We invite subscriptions to an *investment*, and guarantee the most energetic and skilful efforts to develop the property thoroughly, as well as careful and faithful management.

Summary of Properties.

Two tracts of good boring land, one hundred and one hundred and four acres respectively, in *fee*, situated south of Oil City, in Venango county, in the immediate neighborhood of the Adamantine, Lee, and other large wells just struck on the East Sandy and Alleghany rivers.

Important interests and Leases on the best and most carefully selected properties on Oil Creek,—on the Hassan Flats,—Cornplanter Run,—Rynd Flats,—Cherry Tree Run,—Clapp & Hassan, Widow McClintick's Farm, and two lots on the celebrated Hyde & Egbert Farm.

In all, fifteen wells, five of them producing seven down from two to five hundred feet and still boring, and three just commencing, with room on the leases for several more wells.

Also a good Refinery, in complete working order, capable of refining 120 barrels per day, at a profit of one to five hundred dollars.

Also engines, tools, tubing, tanks, and improvements, the actual cash cost of which was $56,000, and worth to-day $75,000,—the whole comprising a property unsurpassed for present value and prospective increase.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with the same caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the Mirror of Manchester, J. S. Gregg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 410 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Sandy Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., Two of the Directors, and a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The land is beautiful for Oil Wells, high lands on each side, Cherry Creek running directly through, and a rich underlaid Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to two miles wide. The Mattison farm is one and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now boring, some of which will yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for ten thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judge that every rod of the seventy-five acres of the Mattison Farm, at this place, is not good for less than a Flat below Titusville. Coal in that section is worth $3 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs less than $400 to sink a well to the depth of 700 feet, and few go lower than that. It costs $50 per day to work it after it yields oil. N. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other lands I have examined. Lands that have spent much time during the last few months in examining and selecting Oil territory in Venango, Crawford and Warren Counties, all of which I have made considerable investments.—Professors MATHAND and SHEPHERD, Geologists of Boston, have spent some days in regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the conclusions of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 15 wells, and on this farm four good wells would make computation of the cost of so many wells, and the yield and profit on the whole is a year, if they were as good as they are expected if they yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. I mention this not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road leading from Franklin to East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately made a well upon the edge of this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums of money. To assure the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Cooper. Well that flows 700 barrels daily, the Jerry that flows 300, the Magee Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Fraser well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe connected with its machinery, it has flowed 250 barrels per day ever since.—They have not dared to pull out the sucker rod for fear that they had struck a fissure that would let the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same farm, a well has been sunk and the oil rises above it in a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Fraser well, and great expectations rest upon it. In sight of the spouting wells, and between the Fraser and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it proportions, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 114 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have without an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles;

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value from $25 to $500 each.
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $600.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $600.
$5000 in solid SILVER TEA SPOONS, from $10 to $18 per set.
$5000 in LADIES' FUKS, in sets from $50 to an American Sable Fur Cape at $600.
$5000 in Ladies' BLACK SILK or FANCY SILK DRESSES, at from $50 to $75 each.
$5000 in GENTS' FULL SUITS OF CLOTHING, at from $60 to 75 each.
$5000 in Gents' DRESS HATS, at $10 each.
$5000 in Ladies' DRESS HATS, at $10 each.
$5000 in Ladies' SIRAW BONNETS, at $10 each.

The Chronicle.

☞ It is reported that the First National Bank of Attica, N.Y.,—an entirely new institution, with a capital of 50,000,—has failed, with liabilities to the amount of $250,000. This is the first failure under the National Currency law. As the circulation of all national banks is secured by a deposit with the U. S. Treasurer, of Government bonds to the amount of one hundred dollars for every ninety of bills issued, a suspension of one of them in times like these causes no anxiety among the bill-holders. Depositors, who are, of course, not entitled to that protection which all wise banking laws have endeavored to extend to the bill-taking public, and stockholders who are by implication supposed to be somewhat responsible for any maladministration of their bank, have no better security against loss now than in the days of State banking. Many banks have recently been established in localities having no legitimate demand for such institutions, and placed in the hands of men notoriously unqualified for their management. Bankruptcy will sooner or later dispose of them.

☞ When the news of Pres. Lincoln's death reached San Francisco, on Saturday evening, public indignation rose high, and a mob rushed into two copperhead printing offices, called the Union and American, and destroyed everything they found there in a very few moments. A dispatch says of the event, "It was the sudden outburst of long pent up indignation at their opposition to the government all through the war. It was executed with such rapidity that the authorities were unable to prevent it." It is reported that two democratic papers at Marysville and Grass Valley have been mobbed.

☞ At San Francisco, on Sunday a public meeting

"*Resolved*, That the great, capacious, manly heart of Abraham Lincoln was generous enough to have embraced all within the forgiveness of its loving nature, and in their madness they have killed him. Before his death peace was possible—all the atmosphere was filled with generous emotions and kind sympathy. Now peace means subjugation. God have mercy on the souls of the rebel chiefs."

A COPPERHEAD DISMISSED.—At Lowell, Saturday, the Courier says:—

It was reported that Otis Wright, Supt. of the Horse Railroad, had made remarks expressing his gratification at the President's death. The report soon spread over the city, and a large crowd gathered in front of the office of the Company, demanding Mr. Wright. The Mayor and several policemen were soon on the ground, using their efforts to keep back the crowd, which was attempting to rush up stairs. Finally the Mayor came out upon the awning and stated that Mr. Wright would make an explanation, the latter making his appearance with an American flag in his hand.

The crowd refused to hear him at first, but finally the Mayor secured for him a hearing, when Mr. Wright denied that he had made the statement attributed to him. This did not satisfy. A gentleman came forward and stated that Mr. Wright said to him when informed of the President's death, "Who's fool enough to kill the d——d old fool?" The crowd then gave Mr. Wright half an hour to leave the city and ere that time he was on his way to the New Hampshire line. The Company gave notice that the connection of Otis Wright with them has ceased.

—On Saturday evening last a body of men waited upon Elijah Arnold of East Braintree, at his home, forced him to come out, make a speech, wave the American flag, and give three cheers for the Union.—He had uttered treasonable sentiments, and was compelled to retract them.

— Mrs. Hiram George, a young lady residing in Stoneham, R. I., has lost a husband, three brothers and a brother-in-law in different battles in the present rebellion. The husband belonged to the Fifty-ninth Massachusetts Regiment, and was killed about four months ago. She is now called upon to mourn the loss of her two little sons, twins, about three years old, who died on Saturday last from scarlet fever and throat distemper, and were both buried on Monday in the same coffin. Another child of hers, a girl five or six years old, is very sick with the same disease and it is thought she will not recover.

Our fellow citizen, Mr. Jeremiah Hacker was in the express office yesterday, inveighing, as usual, against "this wicked government," when he was asked the question, "Why do you live under it? Why not go somewhere else?"

"Where shall I go?"

"To the Devil, where you belong."

This ended the conversation.—*Portland Press.*

It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pans thoroughly, grease a little, pour in the batter, and bake about half an hour in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonsful of Sugar, biscuit can be made fit to set before a King. We have sold some of these Roll Pans in about one year, and the sale is still increasing.—Try one.

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WESTS, BRADLEY & CARY, (late J. I. & J. O. West,) SOLE PROPRIETORS AND MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided lightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful Shape Twice as Long as any other Skirt.
THE WONDERFUL FLEXIBILITY and Great Comfort and Delicacy so any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all first class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South and America, and the West Indies.
INQUIRE FOR THE DUPLEX ELLIPTIC SKIRT. 17t—a4

The Old Established Hospital
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World) for obtaining the safest as well as the latest remedies for these diseases offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system are speedily under the direct control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
TO YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER'S great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Valle'ez' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and as a powerful agence o every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. The receipt is $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or exposure.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in offering this property to the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain profits can be made at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received at the JOS. W. PEIRCE, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

ARCANA WATCH.
An Elegant Novelty in Watches.
The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and plaished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are superbly finished, having engraved pallets, finely cut ruby bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $22 00; will reach you safe, three times their cost. We are sole agents for this watch in the United States, and none are genuine without our name on the Trade mark. Address GERARD W. DEVAUGH & CO.,

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 22, 1865.

MAXIMILIAN AND MEXICO.—The New York Herald's Paris correspondence says Maximilian's Minister in London has resigned, declaring that he is satisfied the Mexican Empire is collapsing and that Maximilian will soon abdicate and return to Austria, being disappointed in his two most important expectations,—the reorganization of the United States and the support of the Pope and Mexican clergy. As a confirmation of this report, it is stated Maximilian has retracted the renunciation of his family rights to the throne of Austria, made before leaving Europe. [We do not give entire credence to all this: some parts of it are plausible,—but it seems absurd for Maximilian to expect support of the pope and his clergy while he tolerates all religious bodies, and takes the church funds for the maintenance of the State.]

☞ It is now said, the report that Booth was seen on the Reading Railroad in Pennsylvania is a canard. It was started to throw the authorities off his track. Evidence shows beyond all doubt a large number engaged in the plot. No credence is placed in Booth's letter. Those who knew him intimately do not believe he ever wrote it. The aggregate amount of reward offered for his apprehension is now $110,000.

☞ It appears that the paroling of the rebel Gen. Lee's late army was completed on the 13th inst. The official report puts the number of men at 26,115, 159 pieces of artillery, 71 stand of colors, 15,918 stand of small arms, 1100 wagons, caissons, &c., and 4000 horses and mules.

— Rebel paroled prisoners are now forbidden to come to Washington. This is a precautionary measure which speaks well for the vigilance of President Johnson's new administration.

PEACE, *if you behave well*: PUNISHMENT *if you don't*. We have labored long and earnestly, (says the Tribune,) to produce a state of feeling favorable to conciliation and kindness toward the defeated Rebels, which a miscreant's murderous hand has in one moment overthrown; and now all is lost but the good intention which is never utterly fruitless. We know nothing of President Johnson's purposes; but, in the present state of public feeling, he could not do with safety what President Lincoln might easily have done a little week ago. And, though the Military power of the Rebellion is broken, its spirit is untamed; and that spirit, still burning in many bosoms, will have been intensified and embittered by the tragedy of Friday night and the *consuming wrath* which that tragedy has excited throughout the Loyal States. The Rebellion will be, must be, suppressed: its visible, tangible presence will soon have ceased to scourge our country; but the genuine Peace which we had hoped to see established has faded like a vision. We have before us the slow and difficult task of *treading out* the embers of a dying but desperate Rebellion. What, then, of him under whom this task is to be achieved?

Andrew Johnson is emphatically a self-made man, with the energy, self-reliance and courage befitting that character. He believes in the Republic, venerates the Union, and has learned to hate Slavery and the Rebellion with his whole soul. As the director of a great war, we believe he has qualities superior to those of our late President; if he orders a General to move, who nevertheless stands obstinately still, he will give the order again, but to another man. We know him some years ago when acting with him in behalf of Free Homes: he was then too good a Land Reformer to be a hearty devotee of the Slave Power. Born and reared a Poor White of the South, he knows how and why his class are kept down there; and of all anti-Slavery men we have found these the most radical and inflexible There is no more danger of his making any compromise or peace that will leave a vestige of Slavery on the continent, than that he will agree to establish the Inquisition.—He has decided ability, earnest patriotism and undoubting faith in our National destiny. If any Rebel ever thought it would be well for his clan to have Andrew Johnson in the White House rather than Abraham Lincoln, he is bitterly mistaken.

☞ Rev. Mr. Steer, of the Universalist Church in Lewiston, Maine, in a discourse, Sunday, said the assassination of the President did not indicate what we are coming to, but rather what we are going from. It is not anarchy and blood we are coming to, but slavery and blood we are going from. The evil civilization is behind us and not before us. The murder of Mr. Lincoln is a fitting conclusion of the career of slavery and rebellion. It was the last thing which remained for it to do in order to fill up the measure of its infamy.

— Dispatches from Memphis say the secessionists there deprecate the assassination, and keep very quiet.

GOLD, Friday, 147 to 148.

New Zealand Correspondence.

PORT CHALMERS, Otago, N. Z., Jan. 17.

Dear F.:—If the Chronicle and the country still exist, I wish them "a Happy New Year;" and if they are gone, I hope to hear the evil news from some other source than the "Otago Daily Times" or the "Weekly Witness"—copies of which I send you for inspection. These publications (like all other British papers I read) have killed the Federal Generals, deposed "Old Abe," defeated the Navy, and utterly destroyed the Union, so many times during the last three years, that I am beginning to suspect that they don't know much more about the matter than you do in "the States." My N. H. Gazette comes with a most regular irregularity: every three months I get a lot of papers, the news of which upsets all the labor of Times, Witness, & Co., for that quarter, at least in my prejudiced mind.

One thing in particular the aforesaid wellwishers of America take great pains to impress upon the minds of all readers; and that is, that Uncle Sam is bankrupt—not worth a rap. But this new year of 1865 has dawned upon them with new light, by the aid of which they have discovered that the wealthy, gold-producing, peace-enjoying New Zealand is even worse off—she can't even raise "greenbacks" to pay her police, pilots, and (worst of all) legislators—the two former classes of employees have been without the sinews of war for three months. They can't borrow money, as they have no security to offer,—and on the whole, they are in quite as delightful a fix as the American one, over which they have been so jubilant for a year or two back. I'm not a vindictive man, but I sincerely hope they'll have lots of trouble to get mighty small money, just to give them an idea how nice it is to owe a feller money and not have it to pay him when he asks for it.

The mighty Maori war is over; the valor of Britain's troops has hurled the rebels to pot in all directions, (sometimes—not very often;) and the blood-thirsty, treacherous, aimless insurgents, (who have been fighting against British "annexation,") have been compelled to acknowledge the rightful sovereignty of the Island Queen:—that is, unless the said Maori takes it into his benighted noddle that his land belongs more to himself (who was born on it) than to the Queen, (who orders him to clear out) and concludes to fight a few years longer; in which case he will probably do it, for Her Majesty's troops can't stop him, nor always whip him, neither.

They are a powerful, daring race, and in many hand-to hand encounters with the English troops, have shown themselves a foe not to be despised. Armed with old condemned muskets, (with a few captured rifles) with inferior powder, no cannon, and many of them fighting with only the native club and wooden spear, they have held their rudely-constructed forts for days against rockets, Armstrong guns, and howitzers; and when driven out at last, by some skillful subterfuge or bold dash, have escaped almost unscathed, to be found next day within gunshot, prepared for another siege.

Not an inch of ground has been given up without a fight; and even what has been captured and dealt out to "military settlers," is by no means safe, requiring numerous blockhouses and strong garrisons of regular soldiery to protect the laborers.

By the way, this English system of "indemnity" and "military settlement" comes terribly near the 'tyrannical inhumanity" of Federal "confiscation,"—but the difference lies in a nut-shell. "Indemnity" is a just punishment, inflicted by a paternal government upon wicked rebels against lawful (British) authority. "Confiscation" is a moral and religious outrage, administered in a spirit of disbolical vengeance by a baffled and disgraced nation, upon a brave and chivalrous people, whose only fault is bravely and successfully defending themselves against the cruelty and tyranny of their oppressors—tyranny carried to such an extent that one "Grow" (I think) said, "No slave-driver shall crack his whip over my head!" while the whole people of the North acted as if they believed Slavery to be of less importance than Liberty, or even Religion and the Bible.

The Alabama and Kearsarge battle is an old story with you by this time, but the good people out here have hardly recovered from the shock yet—that the hero of a hundred fights should be beaten in an hour—a British ship and a British crew sunk by a mere Yankee gunboat, of no superiority of metal or men—oh! horrible! The mourning is widely extended, but not universal, as I, for one, am in no wise sorry that the pirate's glorious (?) career has been brought to an end.

Secession is gaining ground in this part of the world—the provinces to the northern island of the group being in a flourishing state, as all the trade of the war with the Maories goes to them, while the southern provinces have to pay all (or nearly all) the war bills, and not a soldier or a man-of-war look near them. If it should come to a separation of the Provinces, the war will probably not exceed the American rebellion in duration and carnage.

America has big rivers, big lakes, big mountains and big plains; but New Zealand has the big bird, (what's left of him) compared with which the ostrich is merely a little chicken. This bird, from numerous bones found all over the surface of the country, is supposed to have become extinct at no very distant period—indeed, some very old Maories say that they were seen alive when they were boys. The bird has been named the "Moa," and was from 16 to 18 feet in height—at least so say those who are wise in such matters. Five guineas he'd be, if he was only alive, which he isn't. We have got parroquets and cawcaws, (the last about the size of a crow,) but excepting these and any amount of wild pigs, that more resembled greyhounds (as to running,) and bull dogs (as to fighting,) than the genuine article, we never saw any game in the Islands, though I *have* heard of ducks being killed on some of the up-country lakes. Song-birds are few and very far indeed between, and there is nothing in the shape or character of a squirrel in all the forests—but then there are no snakes to bite you, or, what's worse, scare you all the time.

The cattle in this part of the world are much thinned by a pulmonary disease called Pleuro-pneumonia, a mixture of liver complaint, consumption, and inflammation of the stomach, I believe—at any rate it can't be cured when it once gets hold of an animal, so on its first appearance the butcher is called in, who soon cures the diseased, to act into prime beef, for her Majesty's lieges. I am a vegetarian myself, and eat nothing but cabbage, potatoes, mutton and puddings.

There! I think you must have a pretty fair idea of the manners and customs and natural products of this favored land: if you haven't, I can only pity, but not help you. Wishing you and yours peace and prosperity, I remain, yours truly, ICE.

☞ The Boston Advertiser says that the services at the Berkeley St. Church, on the occasion of the President's Funeral, were very impressive. The selections of Scripture read by the pastor, Rev. H. M. Dexter, were peculiarly appropriate. There was no sermon preached, but addresses were made by Stillman B. Allen, esq., and Rev. J. P. Warren.

Mr. Allen began by saying that four years ago to-day, as Massachusetts men marched through Baltimore, they were fired on by the crowd, and the first of a long line of noble spirits laid down their lives for their country. The cry which went up from those blood-stained streets echoed through the South with insane exultation, and through the North with horror, calling forth a stern resolve to maintain the national integrity.

When that monster slavery first raised its snaky head to sting the bosom of the Union, where, alas, it had too long been nursed, then its twin sister Secession arose from its smoky pit, to destroy our fair land. Then the old flag of our fathers was torn down by traitor hands, and Sumter, and Charleston, and Norfolk, and Pensacola, and New Orleans passed into the hands of rebels, and rebel cannon frowned from a long coast; rebel bayonets glistened from every hill and valley, and rebel cries rang through the land. Mr. Allen then spoke of our many vain attempts to find a leader, and finally of God's leading us to Abraham Lincoln, and compared our trials with those of the Jews three thousand years ago, when they were led to David, the son of Jesse.

He then said, in speaking of Mr. Lincoln, that it was hard to speak of him to-day. To-day, while those lips which never opened but to speak kindly, are silent forever; while the form we have loved lies cold, and pale, and still; while the great, generous heart in which the nation trusted, has forever ceased to beat, well may all our cities and villages drape themselves in mourning, and bow down and weep; well may the tolling of bells, and solemn minute gun echo over the land; for the gentlest and the best of all our number,—the man whom we loved, the leader whom we trusted,—is gone—gone as the great Jewish leader and emancipator passed from Moab's mountain in sight of the fair land of peace, which he had won for others, but might not enter. Let us thank God that he lived so long. He understood the cause of the war from the beginning, and his emancipation proclamation, if he had died then, would have made him immortal.

But he lived to see our country regenerated, to see a hundred thousand contrabands marching with the firm tread of freemen in our ranks, to walk as honored guest in the streets of Richmond; to see Lee, the pride of the South, and his great army surrender; to order all drafting and recruiting to cease; to see the old flag again floating over Sumter;—and then, while he stood with almost more than mortal love and gentleness between an enraged North, whom they had insulted and tormented with a fiendish ingenuity known only to those who have lived in the den where slavery lives, at the close of the last Cabinet meeting, where he had been speaking most kindly of Lee and others in the confederacy on the evening of the day when drafting ceased, when the red sun had looked lovingly on the old flag again waving over Sumter, he died at the hand of the slave power. Insane, unreasoning, mad to the last, it struck down its best fried.

Mr. Allen concluded with an allusion to Mr. Johnson, and asked that he might be remembered in our devotions and receive our firm support.

THE PRESIDENT'S GRAVE.—Mr. Lincoln's family have decided that his remains shall rest by their Illinois home,—that city which was the cradle of his greatness and the arena of his earlier efforts as a lawyer and legislator. Fifty months have passed since he left it, in the pride of manly strength and vigor, to enter upon that career as President, which will permanently fill a bright and memorable page in the world's history; he returns to it a bleeding corpse, surrounded by his stricken family and by a tearful, adoring people. The following words of farewell to his neighbors, on leaving them, Feb. 11, 1861, have now a fresh and mournful interest:

My Friends: No one not in my position, can appreciate the sadness I feel at this parting. To this people I owe all that I am. Here I have lived more than a quarter of a century; here my children were born, and here one of them lies buried. I know not how soon I shall see you again. A duty devolves upon me which is, perhaps, greater than has devolved upon any other man since the days of Washington. He never would have succeeded except for the aid of Divine Power, upon which he at all times relied. I feel that I cannot succeed without the same Divine aid which sustained him, and on the same Almighty Being I place my reliance for support; and I hope you, my friends, will all pray that I may receive that Divine assistance, without which I cannot succeed, but with which success is certain. Again I bid you all an affectionate farewell.

— The Springfield Republican says *Hon.* Henry F. French, President of the Agricultural College of Massachusetts, received $4000 for selling the State Agricultural script, whereas any broker in State street would have been glad to perform the service for $1000. It was supposed that Judge French—being the chief officer of the Institution—would have made the transfer for merely his personal expenses.

— The Boston stockholders of the Webster Bank, have voted to organize under the National law. There are but two banks remaining in Boston not organized under this law, viz: the Revere and Traders.

— The clothing lawyers should wear—Chancery suits.

PETROLEUM OIL AGENCY.

The California Petroleum Company.
In the Summer of 1864, Professor B. Silliman, Jr., examined this locality, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.
The property covers an area of 18,000 acres in one body, on which are at present at least *twenty Natural Wells*, some of them the largest size. Artesian Wells can be put down, 25 miles in extent. The Ranch is an old Spanish Grant of four leagues, and perfect title.
WELLS, FARGO & CO. say that "those who wish to invest in this class of security need not hesitate a moment where to place their money;—here is a good, honest, reliable concern—one which in our judgment will pay."
Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.
The property consists of 100 acres, in *fee simple*, on Two Mile Run, near Oil City—a double lease of the Clapp Farm above Oil City, and four acres in fee simple on Pithole Creek, in the heart of the Oil Regions.
Capital $300,000 Shares $3. Par Value $6.

Sheffield Petroleum Company.
This property consists of 225 acres on the Tionesta Creek—seventy-five acres in the same vicinity. The property is not bought by the ten mile run, a branch of the Tionesta, and the Sudbury & Erie Railroad. This property is considered of great value in the market.
Capital $300,000. Shares $1. Par Value $2.

Everett Oil Company,
OF BOSTON.
The property of this Company consists of 200 acres of land owned in fee simple, and two leases as follows: The land is located on Oil Creek, near Centreville Depot. The Oil Creek Railroad passes through this land. It has a river front of over one quarter of a mile. It is rich in oil.
Capital $300,000. Subscription price $5.

President Petroleum Company.
A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. It contains 3,400 acres, very valuable in Oil, Coal and Timber.

New York and Newark
PETROLEUM CO.
The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil District of Pennsylvania (Venango County), and lays in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Allegheny River, one piece being on that river.—The Company have a twenty years' lease for one-half the Oil.
It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON & TOWLE is Engineer and Superintendent of this company.
Capital $500,000. Shares $1.

All the above Stock for sale at the AGENCY, **No. 47 Congress Street, Portsmouth,** where Maps, Drawings and Pamphlets are ready for distribution.
I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.
Call and examine for yourselves.
JOHN S. HARVEY, AGENT.
Portsmouth, March 15, 1865.

NEWTON'S PILLS.
(Anti-Bilious.)
Composed of highly Concentrated Extracts from
ROOTS AND HERBS
Of the greatest medical value, prepared from the original prescription of the celebrated DR. NEWTON, and used by him with such remarkable success for twenty years in all parts of the United States, are an infallible remedy in all
DISEASES OF THE LIVER,
OR ANY DERANGEMENT OF
The Digestive Organs.
THEY CURE
Diarrhœa, Dysentery, Dyspepsia, Biliousness, Scrofula, Liver Complaint.
The well-known DR. WARREN of Boston says of these pills, "They have the finest effect upon the Liver and digestive organs of any medicine in the world, and are the most perfect purgative which has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the usual ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into healthy action, and impart a healthy tone with strength to the whole system. Not only do they cure the everyday complaints of everybody, but are formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, and being purely vegetable are free from any risk or harm.
The most remarkable feature of these pills is the perfection with which they act in extremely disembiar chronic diseases. THE SAME DOSE cure Diarrhœa or Dyspepsia, in either case restoring the organs to a healthy and natural condition, which cannot be said of any other medicine in existence."
They create pure blood and remove all impurities from the system, and are a positive cure for
Fevers, Headache, Piles, Mercurial
DISEASES, AND
Hereditary Humors.
☞ *Price One Dollar per Box. Trade supplied, or sent by Mail, post paid, to any part of the United States or Canadas, on receipt of Price, by*

☞ A gem of a piece—Thacher's new Apothecary Store, corner of Congress and Vaughan Streets.

Local.

☞ Halloo! the Stars and Bars is actually out again,—"on the half shell," as well as hard-shell, this time. It is issued from the Daily Copperhead office, at Manchester, on a half sheet; and the editor says he "hopes to be able to resume publication in a very short time, at his old office"—that meantime he shall endeavor to procure its issue at some Democratic office in the State—and states that he shall give it up, if at all, only for lack of material means. He calls on the rioters and the City to make good his loss.

He also does us the honor to devote considerable space to this Chronicle—and we think *rather* misrepresents us, when he says we exult over his closing out, since we never felt nor expressed anything but regret at *any* riot. It is simply a lie,—his statement that we were "over the way," at the time; for we were busy about our own business in our own office, and saw not a bit of the row, (in fact, we are not in the habit of going to any such scrape,)—and had we joined in it at all, it would have been to try to stop the outlawry, as we *always* do. And further, if we were on a jury to try his case, we think *we* should certainly give him damages, but we doubted (and still doubt) if he can find a jury who will.

Without knowing or caring anything about the matter, however; we shall predict that the Stars and Bars will *never* again be issued "from the old office in Portsmouth," nor from any other place for a great while, if at all. The "lack of material means" we think will prevent; not to mention the employment of any other "means", including mesne process, to rid the county of so great a nuisance.

Once more: We *did* think the concern was dead, after this loss and the public manifestation of hatred to it; especially as we never could see how it was of any "profit" to anybody—pecuniary more than political. But as to *caring* whether the thing was published or not,—we never dreamed of such a thing, for it was of no more account as a business rival, than Puddle Dock is to the ocean—and we shouldn't care if it was: for if any man can get our business away from us, we are willing he should, and we will go at something else—especially seeing that we are doing twice as much as we want to, all along. But that poor fool needn't flatter himself that any such lazy lubber as *he* will ever be considered a rival for any "live" man, any how.

We will only add that we are in good company, under the Stars and Bars' denunciation—with most of the clergymen of the city, and our respected Br. of the Journal. Capt. Hall is the only man we pity—for the concern does actually praise him; which really causes us to question whether he *was* doing his duty in the fellow's premises, after all.

☞ Among the many public-spirited citizens who exerted themselves to render our City's tribute of respect to the Nation's ruler the grand success which it proved, (and in which everybody was desirous of aiding) we may perhaps mention Mr. Head, who hardly slept or ate during the construction of the superb Funeral Car designed and superintended by him—which was commenced at 4 o'clock Monday afternoon, and completed at half-past 10 Wednesday. The work proceeding day and night; and 15 men and 6 women were brought into requisition to perform it. The cost was about $250, we are told. Mr. Head and the workmen were paid for their severe application.

It was a rare sight also, for the Free Masons to appear in procession for a man not of the mystic tie himself; and it was only by Messrs. W. N. Isley and C. G. Pickering driving to Exeter about midnight of Tuesday, to procure a special "dispensation" for its allowance, that this departure from the rules of the Order was permitted.

To Mr. O. A. Frost (of the City Hotel) and Capt. Eldredge, who only procured a presentable detachment of the Horse Guards by a similar laborious drive to Great Falls,—was the procession also indebted for this prominent feature.

The most elaborate decorations we noticed were at the Rockingham House.

☞ Two of the Pall-bearers in the Lincoln procession in this city on Wednesday, were also in the funeral procession of Washington here in 1699, Dec. 31st—Messrs James F. Shores and Wm. M. Shackford.

☞ The Ballot finds fault with Provost Marshal Hall, for attempting to arrest the progress of the late printing office riot; but we think it is the duty of all law officers to use every exertion to maintain law and order, at all times, even though in so doing, they sometimes actually "undertake the protection of traitors."

☞ The North Parish at their recent annual meeting, added three hundred dollars to the salary of their pastor, making it eighteen hundred dollars. Mr. Adams also acknowledges a very valuable and gratifying present from the young men of his congregation.

☞ In the Police Court on Friday, Wm. Dunn was found guilty of drunkenness, and fined $3 and costs, $3,86.

☞ Rev. Mr. Patterson will by request repeat his Lecture on the "The flag and the cross," at the Universalist Church next Sunday evening at 7 1 2 o'clock. A Collection will be taken for the relief of our Soldiers wounded in the recent battles.

☞ The Journal says on Sunday morning the Rev. Mr. Adams delivered a most excellent sermon on the National calamity, from the text "How is the strong shaft broken, and the beautiful rod." By request, he will repeat it in the North Church on Sunday evening next, services at half past 7 o'clock.

☞ The funeral obsequies of President Lincoln were observed in Rye, with becoming ceremony. The Congregational Church was appropriately draped in mourning, while a fine portrait of the lamented President heavily draped with crape hung in front of the public. Rev. Mr. Otis delivered a most solemn and impressive address. He was followed by Rev. Mr. Rogers of the Methodist Church, who, after delivering a short address, closed with the benediction. At the close of the religious services fitting Resolutions were introduced by G. H. Jenness, and adopted by the audience.

MARRIAGES.

In Kittery, Me., April 19th, by the Rev. George M. Paine, M. V. B. STIMSON, esq., of Kittery, to Miss ALMIRA BOWDEN, of York, Me. No Cards.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Arr, sch Concord, Cassida, Portland.
" " Betsy Ellen, Thurston, Calais.

MEMORANDA.—A letter from the first officer of ship Daniel Marcy, of New York, dated Akyab Feb 12, announces the death of George B. Worth, Jr., of New Bedford, second officer of the ship, he having been stabbed through the heart in December by one of the seamen, and died in half an hour. The ship was in the Strait of Malacca at the time of the murder. The murderer had been sent to Calcutta to be hung Mr. Worth was a son of the late Capt. George B. Worth, of this city, and was 23 years of age.—*New Bedford Standard.*

The venerable Mrs. Partington once asked us if we believed that everything was foreordained before hand in advance. We were compelled to answer that sometimes we did and sometimes we didn't. She remarked that her son Isaac says he knows one thing was foreordained *sure*, and that is, that the J. Monroe Taylor Gold Medal Soap will supersede and run out every other kind of soap made. The old lady further remarked, that she believed so too, and was sure that there was no other so good, for she had tried it. 13t

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to make a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

PORTSMOUTH
Mutual Fire Insurance Co.
Notice is hereby given, that to meet the liabilities of this Company up to Jan. 14, 1865, at which point of time the Policies ceased to be in force, the Board of Directors, duly authorized by the members of the Company at a legally called special meeting, held on the 19th of Dec. 1864,—the Directors have ordered an assessment on the Premium Notes on hand as follows:—
Those dated prior to Nov. 8, 1863.....1½ per cent.
" " from Nov., 1863, to July 23, 1864.....1½ " "
" " from July 23, 1864, to Jan. 14, 1865.....2½ " "
Members are particularly requested to take up their Notes at this office without delay. All persons having claims against the Company are requested to present them for adjustment.
a6—tf W. L. DWIGHT, Secretary.

Rockingham Bank,
PORTSMOUTH, N. H.
Notice is hereby given, that at a meeting of the stockholders of this Bank, held on the 1st day of April, 1865, it was voted
"That the Directors of said Bank be and they hereby are fully authorized, at such time as they shall deem proper and expedient, to organize said Bank into an association for the purpose of carrying on the business of Banking under the laws of the United States.
The Directors of said Bank have procured the authority of the owners of more than two-thirds of the capital stock, to make the certificate required by the laws of the United States, and they have now voted to organize as such association.
JOHN J. PICKERING, Cashier.
Portsmouth, N. H., April 1st, 1865. 30ta3

Notice.
At a special meeting of the Stockholders of the BANK OF NEW HAMPSHIRE, holden this 7th day of March, it was unanimously voted to close the concerns of the Bank, in accordance with the requisites of the Statutes.

Excellent Toilet Soaps
AT THE NEW DRUG & MEDICINE STORE,
Corner Congress & Vaughan Streets.

U. S. 7-30 LOAN.
By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the]
Seven-Thirty Loan.
These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into
U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.
These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.
The interest amounts to
One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "
Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is
THE ONLY LOAN in the Market
now offered by the Government, and it is confidently expected that its superior advantages will make it the
Great Popular Loan of the People.
Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.
In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.
JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.
Subscriptions will be received by the
FIRST NATIONAL BANK, Portsmouth.

JOHN H. CARTER,
PRACTICAL WATCHMAKER,
Would inform the citizens of Portsmouth and vicinity, that he has taken that part of
The Store of Mr. H. S. Bodge,
No. 1 Congress Street,
formerly occupied by Mr. F. W. HAM, and is now prepared to give his attention to the various branches of
Watch Repairing and Adjusting.
Having enjoyed unusual facilities for acquiring a practical knowledge of the art of
Watch Making and Adjusting,
and being provided with all the engines and tools requisite for the execution of the finest and most delicate work, he does not hesitate to
GUARANTEE FULL SATISFACTION
with every Watch entrusted to him.
Chronometer Balances and Isochronal Balance Springs applied to Lever Watches and accurately adjusted to extremes of *Heat and Cold* and to *Position*.
Plain Watches Jewelled, full or in part. Escapements proportioned and otherwise improved at a moderate cost.
CLOCKS and Musical Boxes repaired thoroughly and promptly.
That Portsmouth may have a
TIME STANDARD
of its own, he has ordered and received from E. HOWARD & CO., the celebrated Boston Clock Manufactures, one of their splendid
ASTRONOMICAL CLOCKS,
of the same style and quality as the one made by them for the Observatory at Cambridge, which is set up in the Store for the benefit of our customers and the public, and, by it gentlemen are invited to regulate their Watches, as it will always be kept to Portsmouth mean time by transit observations.
WATCH REPAIRING done for the trade on liberal terms. JOHN H. CARTER,
With H. S. BODGE,

Morning Chronicle.

CHARACTERISTIC ACT OF MR. LINCOLN. Immediately after our army took possession of Charleston, the President wrote a letter to the commanding officer, directing him to inquire after the family of the late James L. Petigru, and to provide them with whatever they might need. He enclosed $50 as a personal contribution toward their wants, if they should be in a condition to require it. Special instructions were also given to secure them full protection and quiet occupation of their home. Mr. Petigru, it will be remembered, was one of the most distinguished lawyers of South Carolina, and stood firm and immovable, though almost alone, in his devotion to the Union, through all the madness of nullification in 1832, and of secession at a later day.—Like every other Southern Union man he was reduced to poverty by his course, but his high toned integrity and his unflinching devotion to principle, commanded the respect even of his most bitter political foes.

☞ The Boston Post has the following true item:—

Jeff. Davis it seems has feathered his nest most comfortably. In one of the banks at Havana $360,000 in gold rests subject to his order, and it is believed he is endeavoring to make that city a haven of rest for himself and family. All the prominent rebels have doubtless made provision for their support in foreign countries. Notorious Extra Billy Smith, who did a snug blockade-running business for a long while, has placed to his own credit in European houses large profits from the cotton he managed to emerge. The real suffering of the war, unquestionably falls upon the *people* of the South, who, *deluded* by their leaders, gave their savings for worthless bonds, and for other paper which flutters unheeded about the gutters of Richmond.

A USE FOR OLD HOOP SKIRTS.—Lay the discarded skirt upon one of your garden beds, plant a small pole, about as high as a lady, in the middle of it, and attach the skirt to the top of the pole by strings from the upper hoop; then sow seeds of the morning glory or some other vine at proper distances around it, and in due time you will have a lovely pyramid of living green or rainbow color at small trouble and less expense. Add the money saved in wooden trellises to your wife's allowance for dress, and she will find it a highly profitable speculation.

CHILDREN'S CARRIAGES.
Just received, a fine assortment of CHILDREN'S CHAISES, CABS, GIPSEYS and PERAMBULATORS. BOYS' CARTS, TOT GIGS and WAGONS, at No. 46 Market Street.

Arrandale & Co., Manufacturers' Agents, 167 BROADWAY, NEW YORK.
Announce that all the above list of goods will be sold for *One Dollar* each.
In consequence of the great stagnation of trade in the European manufacturing districts of Europe the war having cut off the supply of cotton, a large quantity of Valuable Jewelry, originally intended for the English Market, has been sent on for sale in this country, AND MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, ARRANDALE & CO., acting as agents for the principal European manufacturers, have resolved upon a GREAT GIFT DISTRIBUTION, subject to the following novel arrangement:
Certificates of the various articles are first put into envelopes, sealed up and mixed; and when ordered, are thoroughly shaken up and then sent out, and that, thus giving all a fair chance. On receipt of the certificate, you will see what you want to have, and then it is at your option to send the dollar and take the article or not. Purchasers may thus obtain a Gold Watch, Diamond Ring, or any set of Jewelry on our list for ONE DOLLAR.
Send 25 Cents for a Certificate.
In all transactions by mail, we shall charge for forwarding Certificates, paying postage and doing the business, 25 cents each, which must be enclosed when the Certificate is sent for. Five Certificates will be sent for $1, eleven for $2, thirty for $5 sixty-five for $10, and a hundred for $15.
AGENTS.—We want agents in every regiment, and in every town and County in the country, and those acting as such will be allowed 10 cents in every Certificate ordered by them, provided their remittance amounts to one dollar.—Agents will collect 25 cents for every Certificate, and remit 15 cents to us, the former in postage stamps. ARRANDALE & CO.,
mh21d1aw&w3m 167 Broadway, N. Y.

What the "Press" say of us.
GREAT GIFT DISTRIBUTION.—A rare opportunity is offered for obtaining watches, chains, diamond rings, silverware, etc., by Messrs. Arrandale & Co., at No. 167 Broadway. They have an immense stock of articles, varying in value, and all are offered at one dollar each. Each distribution is very fairly done—you agree to take a certificate of a certain article, enclosed in an envelope, and are required to pay your dollar unless you are satisfied with the article, which will certainly be worth more than that amount, and may be $50 or $100. An excellent means of investing a dollar.—*Sunday Times, N. Y. City, Feb. 19, '65.*

Messrs. Arrandale & Co. have long been personally known to us, and we believe them to be every way worthy of public confidence.—*N. Y. Scottish American Journal, June 11, 1864.*

We have inspected, at the office of Arrandale & Co.'s Agency for European Manufacturing Jewellers, a large assortment of fashionable and valuable jewelry of the newest patterns. We also noticed a large quantity of silver plate, and understand that the whole of these newly imported articles are to be disposed of on a novel principle, giving great advantages to buyers, and affording extensive employment to agents. We know the firm in question to be very respectable and thoroughly worthy of public confidence and recommend our friends to read their advertisement.—*N. Y. Leader, Sept. 5, 1864.*

By Messrs. Arrandale & Co.'s arrangement, the advantages must be on the customer, for he has everything to gain, and nothing comparatively to lose. Their advertisement will get for them a dollar beforehand, and he need not send it if he is not satisfied.—*N. Y. Weekly News, Aug. 6, 1864.*

EMPLOYMENT FOR LADIES.—The most eligible and profitable employment we have seen for ladies is the sale of certificates for the Great Gift Distribution of Arrandale & Co. A lady of our acquaintance has been very successful in this way, not only in filling her own purse, but also in doing a good turn to those to whom she sold the Certificates, as will seem from our advertising columns. Gentlemen can also be thus engaged.—*N. Y. Sunday Mercury, Aug. 14, 1864.*

In our columns, the reader will find an advertisement of Arrandale & Co.'s Gift Distribution of watches, jewelry, and silver-ware. In payment of that advertisement we received several sets of the jewellery mentioned, and we are interested in saying that, both in finish and quality, they quite exceeded our expectations. They turned out to be just what they had been represented.—*Free Democrat, (Lewistown,) Aug. 17, 1864.*

The British Whig of *Kingston, C. W.*, says, Nov. 26, 1864, one of our lady subscribers became an agent for Arrandale & Co., and by return mail, sent some twenty articles, sent as prizes for her agency, to this office for inspection, and without hesitation we can state that each and all of the articles were worth treble the amount of cost to the recipients, and some of them six times.

We have seen some very pretty specimens of Table and Tea Spoons, Gold Watches, Ladies' Chains, Pins, Bracelets, etc., which have been sent by Arrendale & Co., to this office for $1 each.—*Angelica Reporter, N. Y. State, Feb 15, 1865.*

BOXES * * * * * * * * * * * * OF
THE SPECIFIC PILL
is usually sufficient to effect a prompt and radical cure of SPERMATORRHŒA, or SEMINAL WEAKNESS, and is equally the SPECIFIC REMEDY for every species of *Genital or Urinary Irritability* Involuntary or *Nightly Seminal Emissions*, from whatever cause produced, or howsoever long standing, will be speedily relieved, and the organs restored to healthy action.
PROFESSIONAL OPINIONS.—"I have used your SPECIFIC PILL in many cases of *Spermatorrhœa* with the most *perfect success*."—J. MILTON SANDERS, M.D., LL.D.
"I have cured very *severe cases* with from six to ten doses of your SPECIFIC PILL."—B. KEITH M. D.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in making the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Nagle, Esq., of the firm of Fogg, Houghton & Coolidge, 24 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, Boston, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from any pointed reports of the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six wellsen* of dollars. The last of March, S. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on the south. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have been made, here the streets of Hood well flowed 4000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for twenty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judge that every rod of the seventy-five acres of the Mattison Farm, all that is not used for coal, is equal to the flat below Titusville. Coal in that section is worth $18 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs only one day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I have examined with, and I have spent much time during the last few months in examining and selecting oil territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, have given their opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Professor Shepard, and the report of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on this farm for 12 wells, and on this farm for over 900 wells, at most, computation of the cost of so many wells, and the yield and profit of the whole in a year, if they are as good, as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the mouth of Cherry Creek, one mile from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a large number of wells on this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek; directly east of the Cogent Well that flows 700 barrels daily, the Jersey that flows 200, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. The Fraser well is on it. It began to flow about the middle of January, and with its sucker rod in, and its eighteen inch of tubing not shinered, it has flowed 230 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had struck a fissure and might lose the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same farm, other flows have been struck, and there is above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north in the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and very rich for the yield. It is admirably located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we should find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs south of Titusville, known as Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On WEST PIT HOLE, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing so finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 117 feet; at 160 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.
The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have engaged an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the same, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.
The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:
$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each.
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $800.
$5000 in solid SILVER TEA SPOONS, from $10 to $18 per set.

The Chronicle.

GEN. LEE.—A Returned Prisoner, writing in the Boston Transcript takes due notice of the rebel Gen. Robert E. Lee. He says:

During a six months' confinement in Libby prison, Richmond, I had the best opportunity of learning the sentiment of a few Union men in the rebel capital. They were kind and considerate, and omitted no opportunity to alleviate our sufferings. The members of the medical profession were especially our friends, and often referred in indignant terms, to the treatment of Union prisoners. From repeated conversations with our humane visitors, I have no doubt, whatever, that but *one word* was needed from Gen. Lee to put an end to the terrible cruelties inflicted on Union prisoners.

A true soldier or really noble man, if he could not stop these outrages would have spurned all connection with a government that tolerated such inhumanities to sick and wounded captives. This criminal neglect of the military head of the rebellion will never be forgotten. Let him be pilloried in history for his official connection with crimes that have sent a thrill of horror throughout Christendom. Let any man who defends or compliments this noted and conspicuous traitor, be hissed and hustled out of sight. So long as Christian men and women shall read of the horrors of Belle Isle, Libby, Salisbury, Camp Ford, and Andersonville, so long will the name and memory of Robert E. Lee be execrated.

CURIOUS CIRCUMSTANCE.—Some nine years ago, Mrs. Henry Spencer of Bethlem, Conn., lost her pocket-book, containing between six and seven hundred dollars in notes and bills, while shopping in Waterbury, and nothing was ever heard from it until a few days ago, when she received a letter from a Catholic priest in Oil City, Penn., requesting her to describe the lost property, which she did. She was soon after rejoiced to have the same returned just as it was lost, excepting that a portion of the bills had been changed to greenbacks, at which she did not complain.

— Those who have raved and howled about arbitrary arrests, says the Transcript, and virtually argued that known or suspected rebels should be allowed to roam at large, throughout the North, can see in the assassination of the President, one of the results of their partisan cry. It is now clear that to leave at liberty a man of Booth's well-known character and sentiments, was about as wise as to trust a spy with a free pass in the Federal armies. Yet had he been put in confinement at any time during the last four years, those who now shed crocodile tears over the tragedy he has perpetrated, would have held him up as the victim of a tyrannical administration.

THE PLAGUE.—All Europe has been alarmed by the reported appearance of the Siberian plague at St. Petersburg, and its advance toward the frontier of Germany. A telegram from St. Petersburg states that it is committing fearful ravages, and that official returns as to the number of victims have altogether ceased. A semi-official organ of the Russian Government denies the correctness of these reports, which, however, the neighboring countries agree in accepting as true. The Austrian Government has sent a Medical Commission to St. Petersburg to examine into the nature of the epidemic, and the French Government has ordered all ships arriving from Russia, to be put into quarantine. The English Government has sent instructions to the consuls in Russia, and the ports of the Baltic, to collect all the information they could on the subject and forward it to England.—*Tribune.*

— Let us hope that this is the last affliction which may be needed to bring our whole people to repentence; our whole people North and South; for unlike some, we cannot believe that *all* the sin which has brought such heavy judgements upon our land, lies at the door of the South, or is chargeable upon our fathers.

— Three rebel armies have surrendered to Gen. Grant—that under Buckner at Fort Donaldson, on the 16th of February, 1862; that under Pemberton at Vicksburg, on the 4th of July, 1863; and that under Gen. Lee, on the 9th of April, 1865. He is the only one of our Generals who has ever induced a rebel army to surrender.

Stealing into a sick man's chamber and slashing with a bowie knife at his throat—that is the ugly symbol of the rebellion which will now be impressed on the European imagination. Those refined foreign gentlemen who have sympathized with Davis and his crew, as the real aristocracy of America, will be somewhat taken aback by having this image of treason thrust into their faces.—*Trans.*

— The production of the Springfield armory has been reduced from one thousand to five hundred muskets per day, as a large part of the machinery is to be remodeled for the construction of breech-loading rifles, and there is now a stock of nearly 350,000 muskets on hand.

FRUIT, CONFECTIONERY,

WHAT IS A
FRENCH ROLL PAN?
IS A QUESTION OFTEN ASKED.
It is simply a nicely made
IRON PAN,
Or rather a series of Pans connected in one, of such peculiar form that all parts of the material contained in them receive an equal amount of heat, thus insuring a very
QUICK AND LIGHT BAKE.
For Sponge or Drop Cake, Muffins, French Rolls, Corn Bread or Raised Flour Biscuit, these Pans are
Invaluable.
IN these days of high prices, it is worth while to
ECONOMISE
in any way. We give below a receipt for making a Cheap, Wholesome, and
PALATABLE BREAD:
"Stir into a pint of Cold Water sufficient Graham Flour to make a thin batter, adding a little Salt. Heat the Pan thoroughly, grease it a little, pour in the batter, and place it in a very hot oven in a hot oven."
By using Sweet Milk, instead of Water, as above, and adding 2 Spoonfuls of Sugar, biscuit can be made fit to set before a King. We have sold nearly a thousand of these Roll Pans in about one year, and the sale is still increasing.—Try one.
E. A. STEVENS.

Crockery Ware.
JOHN SISE has on hand a large assortment of
Crockery, Glass & China Ware, Table Cutlery and Plated Ware, Tea Trays and Plated Castors,
which he offers for sale at the lowest prices, at

NEW SKIRT FOR 1865
THE GREAT INVENTION OF THE AGE IN
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.
WESTS, BRADLEY & CARY, (late J. I. & J. O. West,) SOLE PROPRIETORS and MANUFACTURERS, 97 Chambers and 79 and 81 Reade streets, New York.
THIS INVENTION consists of DUPLEX (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible Elastic and Double Spring ever used. They seldom Bend or Break like the Single Springs, and consequently Preserve their Perfect and Beautiful shape Twice as Long as any other Skirt.
THE WONDERFUL FLEXIBILITY and Great Comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded, when in use, to occupy a small space as easily as a Silk or Muslin Dress.
A Lady having enjoyed the pleasure, comfort, and great convenience of wearing the "Duplex Elliptic Steel Spring Skirt" for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and Young Ladies, they are Superior to all others.
They are the Best Quality in Every Part, and Unquestionably the Lightest, Most Desirable, Comfortable, and Economical Skirt ever made.
FOR SALE in all First-class stores in this City, and throughout the United States and Canadas, Havana de Cuba, Mexico, South America, and the West Indies.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the afflicted of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the happy of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Lichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstruction in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a fee accordingly. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No student or boy employed. Notice this, address all letters to

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells on this Creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt a success. The officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Agent. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.
3m3wmh23 LEVI H. STRAW, Treasurer.

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDED ITSELF.
It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons to one lead 100 lbs. than any other paint, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat,* protecting wood from decay, and iron or other metals from rust or corrosion.
☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

ARCANA WATCH.
An Elegant Novelty in Watches.
The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imier Watch Company of Europe, and are nicely finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balanced and the improved jewelled action with blue and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express, for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

MONDAY, APRIL 24, 1865.

WHO ARE THE SINNERS?—We find the following sentence in article on the President's decease, which appears in a paper taking a loyal stand generally; though the sentence itself would grace the New York News or Boston Courier.

Let us hope that this is the last affliction which may be needed to bring our whole people to repentance—or unlike some, we cannot believe that *all* the sin which has brought such heavy judgments upon our land, lies at the door of the South, or is chargeable upon our fathers.

Now (says Uncle Toby,) we do not know *some*, or *any*, who believe or say, that "*all* the sin" of slavery, or any other sin, lies at the door of the people of the South. We certainly have never said or thought such a thing,—though our claim to have been an early and constant opponent of slavery will not be questioned. The Sin that has brought the judgment, lies at the door of the corrupt, selfish, and *barbarous oligarchy* who have ruled and duped the people of the South, both white and black, and also at the doors of those at the North, who for gain or office, or public favor, have crouched down and apologized for the wrong, and licked the hand of the slave power for fear of the lash. These craven souls who voted for the lying preamble, conquered their prejudices, and did the dirty work of their masters with alacrity, are in our view the chief of sinners at the North; and so far as the Northern people joined or consented with them, they are as so guilty. But it isn't fair in any writer, (as in the sentence copied above) to insinuate that anybody has charged the *People* of the South with the guilt of the Rebellion, or the Sin of Slavery.

Some apologists for the Institution have plead, in a sneaking way, that our fathers were chargeable with the guilt, &c. Doubtless they had enough sins of their own to answer for,—but when they adopted a law shutting out slavery from the West, their sons need not have opened the door to let it go in; and though the fathers were weak enough to concede several points without naming them, the sons need not, like Pierce, Buchanan and Taney, with Davis, Mason and Wigfall, do what in them lay, to make the "Institution" national, perpetual, and supreme. The oligarchs of the South and their subservient tools at the North, were the great sinners in this matter, and they deserve many stripes,—their dupes and followers are smaller sinners in the same thing, and as they know less, so their punishment should be lighter.

☞ Correspondence of our Army near Richmond April 17, says:

The announcement of the assassination of President Lincoln and the attempted assassination of Mr. Seward and his son, was received throughout this army with the utmost sorrow. Every man seemed to think it the greatest calamity that possibly could have happened just at this time. Should the assassins be found and turned over to the army, their punishment would be swift and sure, and such as to strike terror into the hearts of every sympathizer with treason in the United States.

Citizens living in the country here express their deep regret at the occurrence, and think it the worst thing that could have happened for the Southern people just at this juncture.

The larger part of this army are now concentrated at Burkesville Junction, and is taking a short rest. It is thought a movement of the main body of the troops will soon be made towards Petersburg and Richmond, the cavalry and colored divisions of the 25th corps already having gone in that direction. In fact, such a change will have to be made in a few days, as the capacity of the Southside railroad is wholly inadequate to supply so many troops with the necessary rations and the animals with forage. The latter have suffered much the past week.

Nothing has been heard here from Sherman, but news of Johnston's surrender is daily expected.

☞ It is said that ex President Millard Fillmore's house in Buffalo, displayed no mourning, on Monday, in striking contrast with other houses in that vicinity. The people gathered in a crowd and covered the front of the house with ink. [It seems incredible that Mr. Fillmore should commit such a sin of ommission—but then we perceive by the Concord Patriot that ex-President Peirce had not even a flag on his residence—and by his own remarks that he would not. The people did not cover his house with ink; and in this they acted wisely—but he has *covered himself* with a reputation that no loyal man can envy.—The two ex-presidents present a spectacle more worthy of pity than of imitation.]

KENTUCKY.—Gen. Brisbane in a recent report shows that 21,000 colored men have enlisted in Kentucky, 1000 of which were drafted and 2000 ran away from their masters and enlisted in Indiana, Ohio and Tennessee. Eleven new regiments are formed, which, when completed, will make a quota of 36,000 colored men for Kentucky. Gen. Brisbane hopes to fill up all the regiments now raising in 60 days. Over 100 negroes are enlisted daily.

SUICIDE OF A SUPPOSED CONFEDERATE OF BOOTH.—The Washington correspondent of the Philadelphia Press telegraphs the following to that paper:

"About ten o'clock Thursday a man attempted to pass the guard at Fort Thayer, and was ordered back. He attempted a second time to pass the guard, and was arrested and taken to the guardhouse, where he committed suicide by cutting his throat. He was a large man full face, light beard and brown hair. Fort Thayer is situated on the Baltimore and Washington Railroad, three miles from Washington."

— On Wednesday night a man endeavored to get through the picket lines north of Washington, at several places, and on being arrested cut his throat. Investigations show that it was Hospital Steward George B. Lowe, recently dishonorably discharged from the service for having demanded a percentage on all purchases made by him for sick men in the hospital to which he attached.

RICHMOND ITEMS.—It appears Gen. Halleck has been put in command there, and Gen. Ord sent to Charleston. Gen. Gilmore is transferred from Charleston to Washington for duty. Judge Canibell and Mayor Mayo were still at large on Thursday. Gen. Dent of Grant's staff has succeeded Gen. Shepley as Military Governor of Richmond. One Union soldier has been assassinated in Richmond, and several deadly assaults have been made on Union citizens. [Gen. Butler is wanted there, with full powers.]

— The N. Y. Herald's Washington dispatch says Gen. Sheridan, at City Point, was informed Thursday that Johnston had surrendered to Sherman. The Herald's Goldsboro' correspondent says Stoneman's forces are in such a position as to force the surrender of Johnston.

— The Tribune's Washington dispatch says the investigation of the conspiracy, now going on, shows that Mr. Lincoln's death had already been attempted by poison.

By Telegraph—Sunday noon.

WASHINGTON, April 23d.—The following is taken from Sec. Stanton's official dispatch, dated War Department, yesterday, 22d: "Yesterday evening a bearer of dispatches arrived from Gen. Sherman. An agreement for a suspension of hostilities and a memorandum of what is called a basis for peace, had been entered into on the 18th inst. by Gen. Sherman with the rebel Gen. Johnston. The rebel Gen. Breckenridge was present at the conference. A Cabinet meeting was held at 8 o'clock in the evening, at which the action of Gen. Sherman was disapproved by the President and every member of the Cabinet and by Gen. Grant. Gen. Sherman was ordered to assume hostilities immediately, and was directed that the instructions given by the late President must be carried out—they are as follows, and were written by Mr. Lincoln himself at a Cabinet meeting on the night of March 3d in reply to a telegram from Gen. Grant saying Lee had requested an interview to arrange for peace, and were approved by the Cabinet:

"*To Lieut. Gen. Grant*—The President directs me to say to you that he wishes you to have no conference with Gen. Lee unless it be for the capitulation of Lee's army, or on some minor and purely military matter; he instructs me to say that you are not to do, decide, discuss or confer upon any political question; such questions the President holds in his own hands and will submit them to no military conference, or convention. In the meantime you are to press to the utmost your military advantages.—Signed E. M. Stanton, Sec. of War."

"The orders of Gen. Sherman to Gen. Stoneman to withdraw from Salisbury and join him, will probably open the way for Davis to escape to Mexico or Europe with his plunder, which is reported to be very large, including not only the plunder of the Richmond Banks but previous accumulations. After the Cabinet meeting Friday evening, Gen. Grant started for North Carolina to direct operations against Johnston's army.

"In a dispatch dated Mobile, April 14th, Gen. Canby reports—We find in Mobile and defences over 150 guns and a very large amount of ammunition and supplies of all kinds, about 1000 prisoners and 3000 bales of cotton. Gen. Hancock reports that nearly all of Mosby's command have surrendered, including nearly or quite all the officers except Mosby himself. Sec. Seward was stronger and more comfortable at 9 o'clock last night. Mr. F. Seward's condition justifying and requiring it, a further removal of bone was made yesterday A. M. The operation was borne well, and has been productive of partial relief."

PHILADELPHIA, April 22d.—The funeral pageant arrived at 4.30 P. M. The procession occupied an hour and a half in passing through the streets. The corpse is now in Independence Hall, and to morrow will be opened to the public.

NEW YORK, April 22d.—Gold closed at 149 3-8. There will be no Evening Exchange Monday.

BIRDS.—Look to the birds, *all*—to protect them, not to destroy them. Don't let an idle boy be firing at the birds about your premises. There is hardly a bird but what does the farmer more good than injury.

Deferred Correspondence.

NORFOLK, April 5th.

Dear Chronicle:—Events are crowding themselves so fast before us that it is almost impossible to go into details. * * * Leaving these matters for you to take care of, I will attend to such events as have occurred here of late, which I think may be of interest to your readers.

Next to the capture of Richmond, the most important event that has occurred [this was written before the President's death,] is the reception of Vice Admiral Farragut. He stepped in upon us rather suddenly, and gave the people, however well disposed, no chance to give him a public greeting upon his immediate arrival. It took but a short time, however, to have matters arranged for a public welcome, which was given on Monday evening, in Mr. Glenn's Theatre, which was kindly offered by him for the occasion.

The building was crowded very early, with the *elite* of the cities of Norfolk and Portsmouth. As soon as the gathering was properly organized, by the appointment of a President, the usual quantities of Vice Presidents, Secretaries, &c., the curtain rose, and Mr. Porter made the congratulatory address to Vice Admiral Farragut. It was a fine effort, and did justice to the occasion. The Admiral, on conclusion of Mr. Porter's remarks, stepped forward and returned thanks in the following manner:—

Mr. Chairman, Gentlemen of the Union League, Fellow Citizens, and my Brother Officers of the Army and Navy:—I thank you for the kind remarks you have been pleased to make, and I wish that I had the language to express myself as I have heard others very near me express for four years me for, when we had our best speakers standing forth for the Union, and striving with all their rhetoric to persuade the people to desert from their unholy resolution and cast their votes for the Union. This meeting recalls to me the most momentous events of my life, when I listened in this place till the small hours of the morning, and returned home with the feeling that Virginia was safe and firm in her place in the Union. Our Union members to the Convention were elected by an overwhelming majority, and sent to Richmond, and we believed that everything was right.

Judge, then, my friends, of our astonishment on finding, a few days later, that the State had been voted out by a miserable minority, for the want of firmness and resolution in those whom we trusted to represent us there, and that Virginia had been dragooned out of the Union. What was the reason for this act? the President's call for 75,000 men. Why, our arsenals, Navy Yards, money in the mint at New Orleans, had been seized, and Sumter bombarded! Was it then remarkable that the Government of the United States should call for troops to sustain itself? Would Jackson have submitted to this? No! for I recollect that I myself had the honor to be sent to South Carolina to support his mandate, "the Union must and shall be preserved." (Great cheers.)

I was told by a brother officer that the State had seceded, and that I must either resign and turn traitor to the government which had supported me from my childhood, or I must leave this place. Thank God, I was not long in making my decision. (Loud cheers.) I have spent half of my life in revolutionary countries, and I know the horrors of a civil war, and I told the people what I had seen and what they would experience. They laughed at me, and called me "granny" and "croaker," (laughter,) and I said I cannot live here, and will seek some other place where I can live; and in two hours' notice I left, and I suppose the conspirators said, for my country's good; and thank God I did. (Immense cheering.)

I went from here with the few valuables I could collect. I was unwilling to believe that this difficulty would not have been settled, but it was all in vain; and as every man must do in a revolution, as he puts his foot down so it marks his life; so it has pleased God to protect me thus far, and made me some what instrumental in laying low at the feet of the rebellion. (Cheers.) I have been nothing more than an instrument in the hands of God, well supported by my officers and men, who have done their duty faithfully.

I hope, my friends, that this day, with its events, may prove the culminating point of our revolution; and I hope that before long all will be restored to that peace and reunion which has been sought by the government and desired by everybody; and then you, gentlemen, who have deserved so well of your country by your steady adherence to its government, will receive that reward which fidelity and honesty and unwavering loyalty deserve. (Loud and long continued applause.)

The attachees of Mr. Glenn's Theatre then sung "Rally Round the Flag, Boys," after which a set of Resolutions pertaining to the Admiral were read and adopted. A line being formed, the Admiral gave all a chance to take him by the hand, which every one seemed inclined to take advantage of. During the ceremonies a beautiful boquet was presented to the Admiral by Mrs. Patterson, which was neatly responded to by the "old Salamander." Every one seemed well satisfied with the manner in which the whole affair was conducted; and at an early hour the assembly retired to their quiet homes; and the Admiral at midnight, in company with Gen. Gordon and others, took a boat and went up to Richmond, from whence he returned this morning, having had the pleasure of taking a glass of wine in Jeff. Davis's house, and writing a letter to the Hon. Secretary of the Navy from the late Executive Mansion of the Southern Confederacy.

One word more in relation to the Admiral and I am done. On Saturday morning last he started to go over to the Navy Yard, in citizen's dress, to make a call on his old friend Constructor Hanscom; but on going to the ferry-boat landing, he found a boat in charge of a boatswain waiting for him. Supposing that there was to be some official demonstration, he put on his uniform and side-arms, and went to the Yard in the boat. On landing at the Yard, instead of being received by the Commanding Officer, he was met, by chance, by two commanding officers of vessels lying at the wharf for repairs. Rather an insult to such an officer: and as it will be talked about by the officers of the Navy and Army, I think it worth while to make a record of the facts as near as I can learn them.

Spring is already far advanced with us. Green peas are in bloom; radishes are almost large enough for a mouthful, and we are now beginning to live again.

F. K. Y.

☞ A rebel paper, the Jackson, Miss., News of the 9th, says Gen. Adams, with 1500 men, encountered a Federal force under Gen. Gresham, 2,500 strong, at Pleasant Ridge, Ala., and whipped them badly, killing 360, wounding and capturing a large number and taking all their artillery, wagons and pontoons. Adams lost about 300. (NOTE. Advices from Gen. Gresham's command, already published, give intelligence of the complete rout of Adam's forces.) Four hundred more of our wounded from Mobile arrived at New Orleans on the 15th.

NEWTON'S PILLS.
(Anti-Bilious.)
Composed of highly Concentrated Extracts from
ROOTS AND HERBS
Of the greatest medical value, prepared from the original prescription of the celebrated DR. NEWTON, and used by him with such remarkable success for twenty years by all parts of the United States, are an infallible remedy in all
DISEASES OF THE LIVER,
OR ANY DERANGEMENT OF
The Digestive Organs.
THEY CURE
Diarrhœa, Dysentery, Dyspepsia, Biliousness, Scrofula, Liver Complaint.
The well-known DR. WARREN of Boston says of these pills, "they have the best effect upon the Liver and digestive organs of any medicine in the world, and are the most perfect purgative pills that have ever been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are mild and pleasant to take, but powerful to cure. Their wonderful purgative stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart health by one vital strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time in diminished doses, the safest and best physic that can be employed for children, and being purely vegetable are free from any risk or harm.
The most remarkable feature of these pills is the perfection with which they act in extremely dissimilar chronic diseases. THE SAME DOSE cure Diarrhœa or Dyspepsia, in either case restoring the organs to a healthy and natural condition, which cannot be said of any other medicine in existence.
They create pure blood and remove all impurities from the system, hence are a positive cure for
Fevers, Headache, Piles, Mercurial
DISEASES, AND
Hereditary Humors.

A FIELD OF RYE.

A celebrated western physician once said that one good rye field contained medicine enough to cure all the colds and coughs in the world. C. A. Richard's Celebrated Extract of Rye is the best beverage or medicine either, that you ever used. Try it. For sale by grocers and druggists. 13

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors, Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. apr27-6md

CLOCK'S Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

Special Notice.

To the Readers of the Morning Chronicle, Portsmouth, N. H.

The undersigned would respectfully ask attention to the preparations known as

Hunnewell's Universal Cough Remedy

The Great Remedy for all Throat and Lung Complaints.

HUNNEWELL'S TOLU ANODYNE, A perfect relief for Neuralgia, all Nervous Complaints, and Loss of Sleep.

HUNNEWELL'S ECLECTIC PILLS, Declared to be the most perfect Cathartic and Family Pill; seldom requiring more than one for a dose, without *Griping*, and one that should be known to every family.

These preparations will be noticed each month, and originating from most potent questions in Medicine, enjoyed for ten years unbounded reputation, readers are invited to accept such notices as a true index of character, and give me their confidence to test them.

Local.

☞ It is expected that the force employed on the Navy Yard will be reduced nearly one-half during the coming summer, in consequence of a probable limited demand for the enginery of war. We presume, however, that this yard has attained that position, in point of merit, as to cause it to have an equal claim with other Navy Yards of the same class.

☞ The steamer Agamenticus, now lying at the wharf, near the Derrick, is nearly ready for sea. Her engines are being tested by a run of ninety consecutive hours at the wharf, after which they are to be submitted to a ninety hours trial at sea, and then if considered satisfactory by the chief engineer of the Yard, will be accepted. It is said that her machinery works admirably.

☞ We understand that Mr. Waterhouse, the iron-plater who was so severely injured in the recent riot, is very low, and it is feared may not recover. A collection for his pecuniary relief is to be taken among the Navy Yard workmen at an early day.

☞ Two soldiers deserted from the Agamenticus on Friday, but were secured by officers Johnson and Parks, and taken back to the ship on Saturday.

☞ The workman on the Navy Yard will be paid off this week, payments probably commencing to-day.

☞ Mr. Henry Booth, a workman on the Navy Yard, drew the Chamber Set, which was the leading gift at Prof. Fabian's entertainment, Friday evening, at the Temple. See the advertisement for another to-night, similar.

☞ Warren's Bone Polish, for cleaning windows, &c., as advertised in another column, is a first-rate article, and no mistake. Try it.

FABIAN AT THE TEMPLE.—This excellent performer is drawing crowded houses and all who witness him are unanimous in their praises of his really excellent entertainment. His liberal distribution of gifts is by no means the least attractive part of the entertainment. 150 elegant and useful articles, many of them quite costly, are given away at every entertainment, and the impartial manner of their distribution gives the utmost satisfaction to the audience. There is no humbug about it, but everything is done on the square. On Friday evening a beautiful Chamber Set was given to Mr. Henry Booth, No. 4 Sudbury St., and on Saturday evening Mr. C. H. Wyatt of No. 1 Hill St. was the recipient of a splendid Silver Tea Set.

To-night an elegant Chamber Set, worth $45, will be given away, with a great variety of other articles. Fail not to visit the Temple to-night.

BIG BLUNDER.—The veracious correspondent of the Daily Copperhead says:—

The Portsmouth Chronicle having stated that a Mr. Lenahan gave three cheers, and another man refused to put out a flag, now retracts both stories.

Very wide of the truth. We *never* stated that Lenahan *gave* three cheers, and of course could not retract that. What we did state on the best authority was, that he *called* for three cheers; and this he does not deny,—but pleads that he meant to cheer the carpenters' strike, and not the assassination;—Here was nothing to retract,—for our *statement* was confirmed by L. Again, we *did not* state that another man refused to put out a flag; but, truly, that he pulled it down—as he himself says; only he explains, as to the motive for so doing,—and we gave the explanation.

DESERTERS.—Quite a number of this class of persons, have been arrested within the last few days, by U. S. Detective Kent, —one of whom was outwitted in a very creditable manner. He was a resident of Massachusetts, and enlisted in one of the Cavalry Regiments of that State. He deserted last January, and his discription list was forwarded to Mr. Kent by Capt. Daniel H. Johns of Salem. The officer has been on the alert for him and at one time heard of such a described man at Centre Harbor, then at Wolfboro', Moultonboro', and subsequently at Salisbury, Mass. Finally he heard that a young man answering the description had bought a cow in the upper part of the State, and had ordered her to be sent to New Market Junction. The cow came, Kent was there—had considerable to say about the cow; in fact was especially interested in both the cow and the owner—found out that the owner was the deserter—and very quietly informed him that he would furnish him with transportation to Boston, where he could ride a horse instead of driving a cow. The last thing he said to the officer in Boston was,—"There is one thing that puzzles me; and that is, I don't see how you found out I had bought that cow."

— Andrew Atzeroth, who has been arrested as one of Booth's accomplices, is said to be a villainous-looking man, and a German by birth. He has been in this country about twenty years, and has resided most of that time at Port Tobacco, on the Potomac. He is on intimate terms with the Surratt family, and there is but little doubt of his criminality.

ANATHEMA,

TO THAT MAN OF ALL OTHERS ON EARTH.

Accursed be thy life! Darkness thy day!
Time, a slow agony; a poison, love.
Wild fears shoot then; wan despair above
Crushed hopes, like withered leaves, bestrow thy way;
Nothing that lives, lov'st thou: nothing that lives
Loves thee. The drops that fall from Heaven wave
'Neath the slant sun, are warmer than the flow
Of thy chilled heart. Thine be the bolt that rives;
Be there no heaven to thee; the sky a pall;
The earth a rock, the air consuming fire;
The sleep of death and dust thy sole desire—
Life's throb a torture, and life's thought a thrall.
And at the judgment, may thy false soul be
Doomed to eternal fire through all eternity.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement

THE VOICE OF THE PEOPLE.—Liberty is one of the dearest blessings which our forefathers handed down to us. It was purchased by the blood of many a valiant revolutionary hero; has been gladdened by a Washington, a Jefferson, a Clay, and a Webster. But dearer still to the hearts of the people is that world-renowned remedy, known as Coe's Cough Balsam. It cures like magic the most violent attacks of croup, and is indispensable in every family of children. Colds, sudden coughs, sore throat, hoarseness, and inflamed lungs, are insantly and surely cured by its timely use. No cough mixture has ever been known that equals it, which accounts for its great popularity with all classes. The young and the old—the rich and poor—physicians, druggists—and all who have ever tested it speak in the highest terms of its merits. We say to our readers—buy it and try it. It costs but 40 cents the bottle, contains twice as much medicine as you can obtain in any other way at the same cost, and all our drug stores keep it. apl1dawlm

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. The depot is 112 Liberty Street, New York.

Why, Missus, just look at these nice white clothes. I never had such soap to wash with before, and as long as you are my mistress, I hope you will never buy any other but the Gold Medal Soap, it is so nice and pure, and washes so easy—just think of it—I am three hours ahead of the usual time, my clothes never begun to look half so well before, and thanks to the J. Monroe Taylor Gold Medal Soap. Tell all your friends to try it, and they will never use any other. Most all the grocers have it to sell. 131

☞ Mr. Speer, having some property in New Jersey, turned his attention to the cultivation of the Sambuco, imported from Portugal. It bears a grape whose superior quality, juiciness and richness in saccharine matter is unexcelled by that of the Catawba. After numerous experiments in fermentation, Mr. Speer has produced a wine which will immortalize his name and prove a new honor to America.—[Boston Traveller.

This wine can be found at druggists, &c.

PORTSMOUTH Mutual Fire Insurance Co.

Notice is hereby given, that to meet the liabilities of this Company up to Jan. 14, 1865, at which point of time the Policies ceased to be in force, by a vote of the Directors, duly authorized by a majority of the Company at a legally called special meeting, held on the 19th of Dec., 1864,—the Directors have ordered an assessment on the Premium Notes on hand as follows:—

Those dated prior to Nov. 8, 1863.....12 per cent.
" " from Nov., 1863, to July 23, 1863.....(1) " "
" " from July 23, 1864, to Jan. 14, 1865.....2½ " "

Members are particularly requested to take up their Notes at this office without delay. All persons having claims against the Company are requested to present them for adjustment.

ad—tf W. L. DWIGHT, secretary.

Rockingham Bank,

PORTSMOUTH, N. H.

Notice is hereby given, that at a meeting of the stockholders of this Bank, held on the 1st day of April, 1865, it was voted

"That the Directors of said Bank be and they hereby are fully authorized, at such time as they shall deem proper and expedient, to organize said Bank into an association for the purpose of carrying on the business of Banking under the laws of the United States."

The Directors of said Bank have procured the authority of the owners of more than two-thirds of the capital stock, to make the certificate required by the laws of the United States, and they have now voted to organize as such association.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7.30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

No. 10 Market Square.

Portsmouth, N. H., April 7, 1865.

JOHN H. CARTER, PRACTICAL WATCHMAKER,

Would inform the citizens of Portsmouth and vicinity, that he has taken that part of

The Store of Mr. H. S. Bodge, No. 1 Congress Street,

formerly occupied by Mr. F. W. HAM, and is now prepared to give his attention to the various branches of

Watch Repairing and Adjusting.

Having enjoyed unusual facilities for acquiring a practical knowledge of the art of

Watch Making and Adjusting,

and being provided with all the engines and tools requisite for the execution of the finest and most delicate work, he does not hesitate to

GUARANTEE FULL SATISFACTION

with every Watch entrusted to him.

Chronometer Balances and Isochronal Balance Springs applied to Lever Watches and accurately adjusted to extremes of *Heat and Cold* and to *Positions.*

Plain Watches Jewelled, full or in part. Escapements proportioned and otherwise improved as a moderate cost.

CLOCKS and Musical Boxes repaired thoroughly and promptly.

That Portsmouth may have a

TIME STANDARD

of its own, he has ordered and received from E. HOWARD & CO., the celebrated Boston Clock Manufacturers, one of their splendid

ASTRONOMICAL CLOCKS,

of the same style and quality as the one made by them for the Observatory at Cambridge, which is set up in the Store for the benefit of our customers and the public, and by it gentlemen are invited to regulate their Watches, as it will always be kept to Portsmouth mean time by transit observations.

WATCH REPAIRING done for the trade on liberal terms. JOHN H. CARTER,

With H. S. BODGE, No. 1 Congress Street, Opp front of North Church.

Morning Chronicle.

AN ENGLISH CURE FOR DRUNKENNESS. There is a prescription in use in England for the cure of drunkenness, by which thousands are said to have been assisted in recovering themselves. The receipt came into notoriety through the efforts of John Vine Hall, commander of the Great Eastern steamship. He had fallen into such habitual drunkenness, that his most earnest efforts to reclaim himself proved unavailing. At length he sought the advice of an eminent physician who gave him a prescription which he followed faithfully for seven months, and at the end of that time had lo t all desire for liquor, although he had been for many years led captive by a most debasing appetite. The receipt is as follows: Sulphate of iron, five grains; magnesia, ten grains; peppermint water, eleven drachms; spirit of nutmeg, one drachm; twice a day. This preparation acts as a tonic and stimulant, and so partially supplies the place of the accustomed liquor, and prevents that absolute physical and moral prostration that follows a sudden breaking off from the use of stimulating drink.—*Scientific American.*

BLOWING OUT KEROSENE LAMPS. The danger of blowing out kerosene or carbon oil lamps from the top is greater than people generally suppose. There are several instances on record, it is said, where lives have been lost by the explosion of lamps from this practice. The following explanation of the causes that produce the explosion are worth considering and heeding:

First—The oil in the lamp is generally low, leaving more room for gas. Second—The gas is inflammable, and will always explode when ignited. Third—In blowing the blaze down it ignites the gas. The inference is, a lamp should never be blown out from the top. The wick may not perfectly fill the tube, and the flame may go down when the gas comes up. Fourth—The less oil in the lamp, the greater the danger.

— The Carlisle (English) Journal says that Beall, the rebel pirate who was hung on Governor,s Island, on the 24th ult., for his many crimes, was a descendant from Rob Roy, on his father's side, and from the great border chieftain, "Belted Will," on his mother's side—both noted thieves, and Beall did not disgrace the character of his ancestors.

— One of the most frequent quotations of J. Wilkes, Booth in conversation, was the following from his favorite play of "Richard III": "The daring youth that fired the Ephesian dome, outlives in fame the pious youth that reared it."

— An Irish couple with twenty-three children were among a party of emigrants that arrived in New London a few days since.

— Louis Napoleon has shaved off his imperial. The French people should shave off all that's imperial about him.

— The Paris Charivari has a picture of a pair of horses shying at the entrance to a hotel in which a horse-flesh banquet was recently given.

Jefferson Davis and Robert E. Lee starved the soldiers captured by them in war. In what particulars are they better than their confederate, J. Wilkes Booth?—*Universalist.*

Arrandale & Co., Manufacturers' Agents, 167 BROADWAY, NEW YORK.

Announce that all the above list of goods will be sold for *One Dollar* each.

In consequence of the great stagnation of trade in the Manufacturing districts of England, from the war having cut off the supply of cotton, a large quantity of Valuable Jewelry, originally intended for the American market, has been sent out for sale in this country, AND MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, ARRANDALE & CO., acting as agents for the principal European manufacturers, have resolved upon a GREAT GIFT DISTRIBUTION, subject to the following regulations:

Certificates of the various articles are first put into envelopes, sealed up and mixed; and when ordered, are then mixed without regard to choice, and sent by mail, thus giving all a fair chance—On receipt of the certificate, you will see what you are to have, and then it is at your option to send the dollar and take the article or not. Purchasers may thus obtain a Gold Watch, Diamond Ring, or any set of Jewelry on our list for ONE DOLLAR.

Send 25 Cents for a Certificate.

In all instances by mail, we shall charge for forwarding the Certificates, paying postage, and doing the business, 25 cents each, which must be enclosed when the Certificate is sent to us. Five Certificates will be sent for $1, eleven for $2, thirty for $5 sixty-five for $10, and a hundred for $15.

AGENTS.—We want agents in every regiment, and in every town and County in the country, and will allow a commission of ten cents on every Certificate ordered by them, provided their remittance amounts to one dollar.—We will select or open for you any Certificate, and remit 15 cents to us, either in cash or in postage stamps. ARRANDALE & CO.,

mh7 Diaw & W3m 167 Broadway, N. Y.

What the "Press" say of us.

GREAT GIFT DISTRIBUTION.—A rare opportunity is offered to purchasers of furnishing watches, diamond rings, silverware, etc., by Messrs Arrandale & Co., at No. 167 Broadway. They have an immense stock of the above, varying in prices, and all are offered at one dollar each. The distribution is very fairly done—you agree to take a certificate of the article, enclosed in an envelope, and are not required to pay your dollar unless you are satisfied with the article, which will certainly be worth more than that sum, and most may be $50 or $100. An excellent mode this of investing a dollar.—*Sunday Times, N. Y. City, Feb. 19, '65.*

Messrs. Arrandale & Co. have long been personally known to us, and we believe them to be every way worthy of public confidence.—*N. Y. Sentinel American Journal, June 11, 1864.*

We have inspected, at the office of Arrandale & Co.'s Agency for European Manufacturing Jewellers, a large assortment of fashionable and valuable jewelry of the newest patterns. We also noticed a large quantity of silver plate, and understand that the whole of these newly imported articles are to be disposed of on a novel principle, giving great advantages to buyers, and affording extensive employment to agents. We know the firm in question to be very respectable and thoroughly worthy of public confidence and recommend our friends to read their advertisement.—*N. Y. Mirror, Sept. 5, 1863.*

By Messrs. Arrandale & Co.'s arrangement, the advantages must be on the customer, for he has everything to gain, and nothing comparatively to lose. Whatever he may receive, will be a dollar beforehand, and he need not send it if he is not satisfied.—*N. Y. Weekly News, Feb. 6, 1864.*

EMPLOYMENT FOR LADIES.—The most eligible and profitable employment we have heard of for ladies is the sale of certificates for the Great Gift Distribution of Arrandale & Co. A lady of our acquaintance has been very successful in this way, not only in filling her own purse, but also in doing a good turn to those to whom she sold the Certificates, as will be seen from our advertising columns. Gentlemen can also be thus engaged.—*N. Y. Sunday Mercury, Aug. 14, 1864.*

In our column, the reader will find the advertisement of Arrandale & Co.'s Gift Distribution watches, jewelry, and silver-ware. In payment of that advertisement we received several sets of the jewelry mentioned, and we are warranted in saying that, both in finish and quality, they quite exceeded our expectations. They turned out to be just what they had been represented.—*Pro-Democrat, (Lexinstown,) Aug. 17, 1864.*

The British Whig of Kingston, C. W., says, Nov. 26, 1864, one of our lady subscribers received an agent for Arrandale & Co., and by request bro't some twenty articles, sent as prizes for her agency, to the office for inspection, and without hesitation we can state that each and all of the articles were worth treble the amount of cost to the recipients, and some of them six times.

We have seen some very pretty specimens of Table and Tea Spoons, Gold Watches, Ladies' Chains, Pins, Bracelets, etc., which have been sent by Arrandale & Co., to the place for $1 each.—*Angelica Reporter, N. Y. State, Feb. 15, 1865.*

BOXES OF THE SPECIFIC PILL

is usually sufficient to effect a prompt and radical cure of SPERMATORRHŒA, or SEMINAL WEAKNESS, and is equally the SPECIFIC REMEDY for every species of *Genital or Urinary Irritability* Involuntary or *Nightly Seminal Emissions, from whatever cause produced*, or however severe, will be speedily relieved, and the organs restored to healthy action.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to be one of the most prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and is invaluable to aid in inserting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, N. H. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegheny River, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt and the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *50p* six million of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to their interests and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek—the lay of the land is beautiful for Oil, high lands on each side, Cherry Creek running directly through, and a rich underlayed Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil bells run from east to west, or from north east to south west, and are from one to two miles wide. The Mattison Farm is over one a half miles in a direct line east of the great Oil Sate south of Titusville, from which innumerable fortunes have been made. On the Sate the Meed well flowed 2000 barrels per day—the Fountain 200—the Parker 120—and scores of wells are now being worked that yield from 10 to 100 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel will sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, and that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $18 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $600 to sink a well to the depth of 700 feet, and few go lower unless the first one is a good one, or to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I have seen with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the representations of Professor Shepard of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells produce a large amount of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room for another 200 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the expectations of the people in Yale College, if they are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your fortune is made. Oil alone is over one million of dollars. The Company do not expect any such results, but merely state facts, and let each people make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, on the Sate East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well just opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. Be more not about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 70 barrels daily, the Jersey that flows 200, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement about Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eights full of machinery, it has flowed 220 barrels per day ever since.—They have not dared to pull out the sucker rod for fearing they had not sufficient pipe to hold the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same Creek, another Company have sunk a well, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the Union Estate, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On WEST PIT HOLE, contains 23 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet, a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago, a well was sunk, which, for years, was for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the house, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half profit, and will be received that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.
$5000 in SILVER WATCHES, from $15 to $50 each.

The Chronicle.

SATAN REBUKING SIN.—The New York World, in an effort to show up the inconsistency of the New York Herald, says:

The horrible history of Good Friday, 1865, in Washington City, should have, at least, one wholesome effect upon the minds of men whose position enables them to influence public opinion. *It should rebuke and put an end to the loose, flippant and brutal trifling with the character of public men, which has grown visible and painfully common in use of late years.*

This reads strangely in a journal whose columns have teemed with the grossest abuse and the vilest insinuations in regard to the official and personal characters of the late President Lincoln and his successor, Andrew Johnson. The people will hardly be cheated by the stale dodge of crying "Stop thief."

A GLASS WEDDING.—Of late we have various kinds of weddings—wooden at the end of five years from the commencement of matrimonial life; tin in ten years; glass in fifteen; china or crockery in twenty; silver in twenty-five; gold in fifty; and diamond in seventy-five. It is not to be supposed that in this age anybody will live a century of married life, and therefore no provision is made for the 100th year. On Monday evening, a Glass Wedding, the first we ever heard of, came off at the house of Mr. Augustus Pearson, Newburyport, quite a party of friends and relatives having assembled for the celebration.

In the company was Rev. Dr. Spalding, who made some appropriate remarks upon the *brittle* thread of marriage as well as life, but hoped that the present couple would live happily within the chains of matrimony to even their golden anniversary. After passing from labor to refreshment and partaking of the latter, the company were shown into a room brilliant with glass presents, having tender joints or wide feet, of a perfect and easy fitting Boot or Shoe.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—Medical opinions and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted by the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All models of a Attorney to Washington, to procure a patent, and the usual great delay there are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Inclose five dollars and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having devoted his more attention to the female practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the subscriber, DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove obstructions, Eugorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail, addressed by a communication stating particulars, will receive prompt attention.
Office, No. 32 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 32 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TuSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

J. H. WINSOR, of Oil City.
L. M. GORDON, of Oil City.
CHAS. E. HODGES, of Hodges & Richardson, Boston.
Superintendent.
W. W. WHITE, of Oil City.
This stock is *bona fide*, full paid, with no possibility of future assessments and no personal liability. The absolute value and actual cash cost of this property are so great as to preclude its being offered with the allurement of a reduction from a nominal par value.
It has been selected, at different times during the past year, by several old and experienced oil-workers and residents of Oil Creek, who are familiar with the history, properties and value of every well and piece of property in that region.—Several of the producing interests were originally acquired for the purpose of holding or private investments and sources of regular income.
These gentleman have, however, been induced to combine their various interests, with additional property, into one strong, sound, and reliable company. Each of them will retain an interest as stockholders, and place their stock in permanent investment. Residing in the oil region, and directly concerned in the success of the company, they are peculiarly fitted to look closely after its operations; thus affording a guaranty of watchful supervision, and faithful and energetic management possessed probably by no other oil company ever formed. Two of these gentlemen are on the board of Direction, and one Superintendent of the Company.
The stock is sold to pay for the property, and to furnish a working capital to open up the large and promising tracts yet waiting to be developed.
The managers start with the intention of paying dividends *quarterly* and from actual earnings only. Paying quarterly affords time to sell the oil production to the best advantage, and is believed to be in all respects the soundest policy.—
The dividends will beyond question, be not only immediate, but regular, permanent and remunerative. We wish to avoid holding out any inducements not warranted by the same moderate and reasonable calculations that would be made in embarking in any legitimate business enterprise. It is safe, however, to assure subscribers of handsome quarterly dividends from the present wells of the company; which will moreover, we confidently believe, be very largely increased by new developments on the ample ground made upon our extensive and valuable properties.
We invite attention to, and the most careful examination of, the following list of properties, lands, and leases, the locations of which are all shown upon the map; believing that none more valuable and promising have ever been offered upon so small a capital, and none that have given greater assurance of permanent value and large returns. We invite subscriptions to an *investment*, and guarantee the most energetic and skilful efforts to develop the property thoroughly, as well as careful and faithful management.
Summary of Properties.
Two tracts of good boring land, one hundred and one hundred and four acres respectively, in the Farm of Nicholas Hall on Oil City, in Venango county, in the immediate neighborhood of Lamentine, Lee, and other large wells just struck on the East Sandy and Alleghany rivers.
Interests and Leases on the best and most carefully selected properties on Oil Creek,—on the Hassan Flats,—Cornplanter Run,—Rynd Flats,—Cherry Tree Run,—Clapp & Hassan, Widow McClintock, Foster, and two lots on the celebrated Hyde & Egbert Farm.
In all, fifteen wells, five of them producing seven down from two to five hundred feet and still boring, and three just commencing, with rotary tools for several more wells.
Also a good Refinery, in complete working order, capable of refining 130 barrels per day, at a profit of one to five hundred dollars.
Also engines, tools, tubing, tanks, and improvements, the actual cash cost of which was $56,500, and worth to-day $75,000,—the whole comprising a property unsurpassed for present value and prospective increase.
Subscription books for Stock at the office of the Treasurer,

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 25, 1865.

☞ A Baltimore dispatch says, the news from Gen. Sherman causes great dissatisfaction among the loyal people. We learn from Goldsboro' that the news of the President's assassination was received before the promulgation of General Sherman's order, but it was kept quiet for a day or two. When it did get out the feeling among the troops was very bitter, and a rebel citizen who expressed his approval of the deed was instantly killed by the soldiers who heard his remark. The armistice order was received very coldly by the army.

☞ The Washington Correspondent of the Boston Journal telegraphs "that Gen. Sherman's proposition to surrender everything for which the war has been waged, to the rebels, has met with unqualified condemnation here. President Johnson, in presenting it to his Cabinet, said: 'This proposition is not debatable, yet I shall be pleased to hear your comments on it.'" The correspondent of the Post states that "the protocol of Sherman is a counter-part of Jeff. Davis' resolution in the Nashville Convention of 1850."

— The N. Y. Herald's special Washington dispatch says Sherman's terms of peace meet with general reprobation and a universal expression of surprise. It is well known Mr. Lincoln could have made peace at Fortress Monroe if he would have entertained such terms as those proposed by Gen. Sherman. Gen. Sherman had not heard of the assassination of President Lincoln at the time. And it may be added, he did not know how the people feel toward the rebels.

☞ The N. Y. Times Washington despatch says Mosby secured a basis of agreement similar to Johnson. Mosby was to surrender on the terms Johnson did. If the latter surrendered, two days would be allowed to submit the agreement to Hancock. If Hancock agrees to them, ten days more were to be allowed to get an answer from Johnson. In the meantime no marauding should take place in Fauquir and Loudon counties; but if Johnston failed to surrender and got whipped, then Mosby was to surrender on the terms granted Lee. In the meantime. Mosby himself is said to have escaped, but his officers and men surrendered. The Boston Post's Washington correspondent says that Mosby *proposed* the above terms, but Gen. Hancock promptly *rejected* them.

The N. Y. World says a letter from Burkeville states that a portion of Lee's paroled army have already been guilty of acts rendering them liable to be shot if caught.

☞ Circumstances which have come to the knowledge of the government, render it nearly certain that Booth's horse fell with him on Friday night, the 14th inst., and caused the fracture of one of his legs. It is also reported that he has divested himself of his moustache. The likeness of Booth published in Harper's Weekly is said to be correct. The attention of surgeons is called to these circumstances. If Booth is lying concealed and wounded, the rewards offered and the detestation of his crimes by all loyal citizens will soon bring him to light. Sec. Stanton says the counties of Prince George, Charles and St. Mary's, have, during the whole war, been noted for hostilities to the government, and their protection to the rebel blockade runners, rebel spies and every species of public enemy. The murderers of the President were harbored there before the murder, and Booth fled in that direction. If he escapes it will be owing to the rebel accomplices in that region. The military commander of this department will surely take measures to bring these rebel sympathisers and accomplices in murder to a sense of their criminal conduct.

— By some persons it is now suspected that Booth, the assassin of President Lincoln, is concealed somewhere in Washington. If this suspicion is correct, he will not probably be able to keep himself much longer out of the hands of the officers of the law. If caught, he will be tried by a military commission, as it would be impossible to find twelve jurymen who had not expressed an opinion.

☞ The story that Booth the murderer, was soon to have been married to a daughter of Senator Hale of New Hampshire, is authoritatively contradicted.—Well it might be contradicted; we deemed it too improbable to give even as a report: for Booth was not a marrying man, but a lewd fellow of the baser sort.

MEXICO.—Matamoras advices to the 18th inst. are received. Cortinas and Manza are represented as having about 3000 men. Mejia sent an Imperial force against them. It is expected that the Liberals will attack Matamoras. Communication has been stopped for 100 days between Magdad and Matamoras by order of Mejia, who directed troops to be placed along the road to clear it of guerrillas.

THE REJECTED TERMS.

Our General Sherman has shown himself mighty in the field, able, faithful and successful. As a diplomatist, he has made a great failure. He agreed with the rebel Gen. Johnston, April 18, to the following terms:—

1st. The contending armies now in the field to maintain their *statu quo* until notice is given by the commanding general of either one to its opponent, and a reasonable time, say forty-eight hours, allowed.

2d. The Confederate armies now in existence to be disbanded and conducted to their several State capitals, there to deposit their arms and public property in the *State* arsenals, and each officer and man to execute and file an agreement to cease from acts of war, and to action of the *State* and Federal authority. The number of arms and munitions are to be reported to the Chief of Ordnance at Washington city, subject to the future action of the Congress of the United States, and in the meantime to be used solely to maintain peace and order within the borders of the States respectively.

3d. The recognition by the Executive of the United States of the several State Governments, on their officers and legislatures taking the oath prescribed by the Constitution of the United States, and where conflicting State Governments have resulted from war, the legitimacy of all such shall be submitted to the Supreme Court of the United States.

4th. The re-establishment of all Federal Courts in the several States, with powers as defined by the Constitution and laws of Congress.

5th. The people and inhabitants of all the States to be guaranteed, so far as the Executive can, their political rights and franchise, as well as their rights of person and property as defined by the Constitution of the United States and the States respectively.

6th. The Executive authority of the United States not to disturb *any* of the people by reason of the *late* war, so long as they live in peace and quiet, abstain from armed hostility, and obey the laws in existence at any place of their *residence*.

7th. In general terms, war to cease, and a *general amnesty*, so far as the Executive power of the United States can command, on condition of the disbandment of the Confederate armies and distribution of arms and resumption of peaceful pursuits by the officers and men hitherto composing said armies.

Not being fully empowered by our respective principals to fulfill these terms, we individually and officially pledge ourselves to promptly obtain the necessary authority and to carry out the above programme.

Signed, W. T. Sherman, and J. E. Johnston.

By the U. S. Cabinet, on reading the document, this proceeding of Gen. Sherman was disapproved of, for the following reasons:

1st. It was an exercise of authority not vested in Gen. Sherman, and on its face shows that both he and Johnston knew that he (Sherman) had no authority to enter into any such arrangement.

2d. It was a practical acknowledgment of the rebel government.

3d. It undertook to re-establish the rebel State Governments that had been overthrown at a sacrifice of many thousand loyal lives and immense treasure, and to place arms and munitions of war in the hands of rebels at their respective capitals, which might be used as soon as the armies of the United States were disbanded, and employed to conquer and subdue loyal States.

4th. By the restoration of rebel authority in their respective States, they would be enabled to establish slavery.

5th. It might furnish a ground of responsibility by the Federal Government to pay the rebel debt, and certainly subjects loyal citizens of the rebel States to pay the debt consummated by rebels in the name of the State.

6th. It puts in dispute the existence of the loyal State Governments and the new State of Western Virginia, which has been recognized by every department of the United States Government.

7th. It practically abolished the confiscation laws and relieved rebels of every degree, who had slaughtered our people, from all pains and penalties for their crimes.

8th. It gave terms that had been deliberately, repeatedly and solemnly rejected by President Lincoln, and better terms than the rebels ever asked in their most prosperous condition.

9th. It formed no basis of true and lasting peace, but relieved rebels from the pressure of our victories, and left them in a condition to renew their efforts to overthrow the United States Government and subdue loyal States whenever their strength was recruited and any opportunity should occur.

☞ The Savannah Herald of the 18th, says intelligence reached there on the 17th, which confirms the report of the fall of Montgomery, Ala. The place was occupied by the Federal troops on the 11th, the rebels evacuating and retreating in the direction of Columbus, Ga. The government stores were being removed from the latter place, the fall of which place was expected by the next news from Augusta.

A Savannah letter, says the receipt of the intelligence of the sad event that has befallen the Union cause cast a profound gloom over the city. Flags are suspended at half mast and other emblems of mourning are seen everywhere.

— A dispatch from Cincinnati says: "Junius Brutus Booth is in deep grief over the tragedy which involves his brother Wilkes as an assassin. He states that, if the reports are true against Wilkes, Edwin and himself will be compelled to leave the stage."

— The retreating rebel garrison of Mobile are on their way to Macon, Ga., with our forces in close pursuit.

— Schools for the education of colored children have been opened in Richmond.

NEW HAMPSHIRE ITEMS.

——FUNERAL OF EX-MAYOR SMITH. The funeral of Hon. Alonzo Smith took place in Manchester on Friday afternoon. A large number of the citizens were present, and the City Government in all its branches was well represented. The procession moved to the Valley Cemetery under the direction of Mr. N. E. Morrill. Hon. Moses Fellows, Hon. T. T. Abbott, David Bunton, Hon. E. W. Harrington, Hon. Frederick Smyth, and Hon. J. F. James, all ex-Mayors, officiated as pall bearers.

—— Rev. Dr. Bouton of Concord, who has recently completed the 40th year of his pastorate there, delivered last Sunday afternoon a most impressive, loyal and hopeful sermon, on the decease of the President. His church was filled with attentive hearers, who listened to a discourse worthy of his best days.

—— N. E. AGR. FAIR.—The Boston Maine and Eastern railroads have with their usual liberality offered to carry stock for the grand Exhibition of the New England Agricultural Society at Concord in September, free, and to carry visitors to the Exhibition at half price. All the roads but two in Vermont have made the same liberal arrangements. The indications now are that this will be the finest exhibition ever held in New England.

Mayor Humphrey, of Concord, has been appointed General Superintendent of the Fair, and the Executive Committee is as follows: Frederic Smyth, of New Hampshire; Henry Clark, of Vermont; John S. Anderson, of Maine; Paoli Lathrop, of Massachusetts; A. B. Chadsey, of Rhode Island; Burdett Loomis, of Connecticut.

——The steamer Chocorna commenced her trips on Lake Winnipiscogee on Monday 17th,—several weeks earlier than in former years.

J. D.—The Suffolk, Va., correspondent of the Herald states that the rebel officers who have arrived there report that the news of Lee's surrender reached Jeff. Davis at Danville three days after his proclamation, and Davis left at daylight next morning for Greensboro. He stated that if hard pushed he should go to Texas, where he was sure he could rally an army around him and make another stand, and that he should never leave the limits of the Confederacy. He issued orders for the cavalry to join him and to burn the bridges over the Meherin and Roanoke rivers, which is reported to have been done, and also for the evacuation of Weldon.

☞ The Washington correspondent of the Portland Press says Sunday was marked by one singular occurrence. A minister whose name is not known, having said in his sermon at the Mission Church, near Camp Fry, "*if Mr. Johnson follows in the footsteps of Mr. Lincoln in his treatment and hatred to the South, he will share the same fate, and that, too, shortly*, or something to that effect, was summarily ejected from the pulpit and house by some Veteran Reserve boys who were present, and was saved some rough treatment only by the interference of an officer. He was arrested and turned over to Col. Ingraham.—The arrival of some rebel officers also gave occasion for a furious commotion, which was quieted only by great exertion, Ex-Senator Hale and General Spinner addressing the crowd.

— It is stated that Jeff. Davis crossed the Mississippi at Turkey Bend, which was occupied by Texan cavalry, on the night of the 16th, escaping the observation of the naval forces. It is also reported that Kirby Smith is disbanding his army, and his troops are returning home.

—President Lincoln's funeral was on the anniversary of the battle of Lexington, the 19th of April. It was on that day of the month that the first blood of the Revolution was shed; it was on the same day of the month that the first blood was shed in the present war—the blood of the Massachusetts martyrs in the streets of Baltimore.

— President Johnson does not mean to have an extra session of Congress. This is an indication of no change in the cabinet, and no violent change of administrative policy.

— Booth complained the day before the assassination, of great losses in the oil business. He said he lost $6000 by the flood at Oil Creek.

— The James Mills, at Newburyport, have reduced the wages of their operatives 20 per cent., on account of the losses they have suffered from the decline of prices of cotton and cotton goods.

— The comb factories in Newburyport and West Newbury are going to suspend operations for the present till the markets become more settled.

☞ The Atlantic Monthly, and The Ladies' Friend, for May, are received from the publishers. Also Galzay's Pacific Monthly.

GOLD, Monday, 148 to 150: markets dull; speculators trying to keep up prices of goods, but not successful.

— One million two hundred thousand two-cent pieces were coined last month.

DR. LIGHTHILL,

OCULIST AND AURIST,

No. 20 Boylston Street, Boston,

WILL BE AT THE

ROCKINGHAM HOUSE, Portsmouth,

From MONDAY MORNING, May 1st, until SATURDAY 4 P. M., May 6th, where he can be consulted on DEAFNESS, DISCHARGES FROM THE EAR, NOISES IN THE HEAD, CHRONIC CATARRH, THROAT AFFECTIONS, AND DISEASES OF THE EYE.

☞ *Artificial Eyes inserted without Pain.*

—o—

SYMPTOMS OF CATARRH.

A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other, and occasionally on both, rendering respiration through it either difficult or impossible. The irritation in the nose produces a frequent desire to sneeze, and is accompanied with a discharge of either clear acrid water, or what is far oftener the case, a profuse, thick, yellowish, and extremely offensive matter, which forms one of the most characteristic features of the disease, and is a source of the greatest annoyance and danger—As the disease progresses, this secretion becomes pruruient, increases in quantity, and assumes an exceedingly fetid odor. It escapes not only by the nose, but passes into the throat, producing irritation there, and requiring frequent expectoration, hawking or scraping for its removal, as its passage into the throat is very much facilitated by a horizontal position of the body; sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi-recumbent position to obtain the necessary sleep.

Owing to the heat in the head the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking—a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgement. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones when small particles of that substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passage very difficult and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ear and hearing becomes quite thick or stopped up, but returns suddenly with something like a snapping sound. This phenomena may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated.

This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of fatigue and weakness.

Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by travelling downward, and producing throat affections, bronchitis, and finally consumption. It may be safely asserted that, after hereditary predisposition, catarrh is the most frequent and important cause of the fatal complaint.

The symptoms of catarrh vary some in different individuals, and the degree of their severity depends upon constitutional idiosyncrasies and various external influences. With some the complaint continues for a number of years in a mild form, and without causing any of the injurious results above mentioned, while with others all the worst effects are produced in a short space of time, and cases, apparently most harmless, may, through imprudent exposure, additional cold, or unfavorable changes of the weather, suddenly exhibit all the violence and malignity which characterises the severest ones. ap26

WAIT FOR THE

COLOSSAL GIFT SHOW.

Crowning Glory of the Amusement World.

Fabian & Co.'s

Great Metropolitan Gift Show.

The great sensation Exhibition of the time and the wonder of the nineteenth century, crowned with the laurel wreath of brilliant success, unrivalled and alone, above all competition. It stands the Metropolitan Gift Exhibition of the age, with

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors,
Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. sp7s6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

Local.

HORSE GUARDS.—At the Annual Meeting in January, it was proposed that the corps be regularly enlisted in the State militia—"thus entitling the members to sufficient pay to cover expenses, without incurring further military liability." We understand that Col. Henry O. Kent, in command, is to visit the three Companies this week, to consummate this arrangement, and fill up the uniforms, and awake new interest in this fine corps. The expected influx of returned officers and men from the field, and the pay attached to the new arrangement, ought to induce new enlistments. A meeting of Co. C., will be held at the Rockingham House, on Thursday evening, to meet Col. Kent; and all members and other gentlemen interested, are requested to be present.

TEMPORARILY DETACHED.—A letter from Petersburg, Va., states that Lieut. Frederick L. Dodge of the 18th N. H. Regt., (a Portsmouth boy,) has been detached from his regiment, and was assigned to the command of some four hundred men of different regiments, and was to proceed to Bunkersville, Va.

☞ Lieut. Commander Charles H. Cushing is detached from temporary duty at New York, and ordered to temporary duty at the Portsmouth Navy Yard.

☞ Mr. James Kehoe got the Chamber Set, which was the highest gift at Prof. Fabian's entertainment at the Temple last night.

☞ In the Police Court, Monday, one "John Smith" was accused of drunkenness, and fined $5.00 and costs $5.87.

SQUARED.—The Grand Jury of Rockingham county, have refused to indict both the copperhead rioters at the Greenland election, and the mob which destroyed the States and Union office at Portsmouth. So the Jury have made a square thing of it. *Rochester Courier.*

Not exactly, Br. Courier. The Grand Jury did *not* refuse to indict the Greenland rioters, but only the Selectmen. Some of the "rioters" *were* indicted,—for destroying the ballot-box, breaking furniture, &c., which is on the "square," we think.

GREENLAND.—The following is a list of officers chosen at Town the Meeting held Saturday, 22d, resulting in a complete Republican triumph, notwithstanding all the counter efforts and threats:

Moderator.—Howard T. Marston, cop, had 78. Charles W. Hatch, Un. 99.

Town Clerk—Simes Frink, cop, had 4. John E. Holmes, Un. 91

Selectmen—Enoch H. Clark, Joshua H. Weeks, George B. Bracket.

Assessors—Nathaniel P. Marston, Nathaniel White.

Auditors—James P. Packer, Moses Pearson Jr.

☞ Free. Whitehouse, the balladist, has mostly left musical notes for bank-notes.—He is cashier of the Gonic Nat. Bank.

☞ Our thanks to Mr. Joseph Fitzgerald, Harbor Master's Clerk at Savannah, for papers from that city.

— A dispatch from Gen. Sherman says Gen. Wilson held Macon, Ga., on the 30th, with Howell Cobb, G. W. Smith and others as prisoners.

— The English creditors of the defunct rebel government, have attached all the goods belonging to the concern now in the hands of its commercial agents in London.

—The extensive machine shop and U. S. arsenal, three miles below St. Louis, were burned last Friday night.

— Booth the murderer had a mistress in Washington, who has since attempted suicide by chloroform. Her name was Ella Turner. Her life was saved by medical applications, but she expressed regrets thereat. She had Booth's picture under her pillow.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob o'links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

☞ Warren's Bone Polish, for cleaning windows, &c., as advertised in another column, is a first-rate article, and no mistake. Try it.

It is but simple justice to the Manufacturer of the J. Monroe Taylor Gold Medal Soap, to award him the credit of being far ahead of all competitors in catering to the luxury of the ladies, who prize nice, clean, white clothes (and what lady does not?). Our wife says she could not keep house without it. It is decidedly the Soap of the world. It is a peculiar institution of itself, and such a luxury to use it, that after one trial it is always found to be one of the most useful articles in the household. Depot, 112 Liberty street, New York. 132

ARCANA WATCH.
An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lever, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Albans Watch Company of Europe, and are superbly finished, having engraved pallets, fancy cut bridges, adjusting regulator, with gold balance and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their value. We are agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. EVANS & CO.,

ONE PRICE.

Established in the year 1851.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

Subscriptions will be received by the

Morning Chronicle.

BELLIGERENT RIGHTS.—The Philadelphia Press has a correspondent in the field who writes excellent letters—Mr. J. Morris Chester. He is a tall, stout, muscular, yet unassuming man. He is a black man.—Entering the hall of the late rebel Congress, in Richmond, just after the surrender, he sat down in the speaker's chair and commenced writing on the desk. A rebel officer who had been paroled entered the room.

"Come out of there, you black cuss," shouted the officer, his teeth set and fist clenched.

Chester raised his eyes, calmly surveyed the officer, and went on with his writing.

"Get out of there, or I'll knock your brains out," the officer bellowed, pouring out a torrent of oaths.

Mr. Chester did not move. The officer rushed up the steps to collar him, but found himself tumbling heels over head over chairs and benches, knocked down by a well planted blow between his eyes, which Chester had given.

Chester said not a word, but sat down and went to writing as if nothing had happened. The officer sprang to his feet and called upon Capt. Hutchins of Gen. Devin's staff for a sword.

"I'll cut the fellow's heart out," said he.

"O, no. I guess not. I won't let you have my sword for any such purpose. If you want to fight Mr. Chester, I will clear a place here and see that you have fair play, but let me tell you that you will get a tremendous thrashing," said Capt. Hutchins.

The officer left the hall in disgust, while Mr. Chester continued his writing. "I thought I would exercise my rights as a belligerent," was his remark, as he told me the story, which is fully confirmed by Capt. Hutchins.—"*Carleton.*"

☞ All the real Democratic papers seem to be giving in their adhesion to President Johnson. This is well. There is no ground upon which an opposition party can now stand; and the questions that divided the people in the past have been settled. We enter upon a new era, where all should unite for the national good. New questions will arise in the future to create new parties, but let them be put as far distant as possible.

— General Custar is one of the best fighting men which this war has produced. His division of cavalry has never lost a gun, never lost a color, and has never been defeated. Within the past six months, the command has taken every gun which the rebels have opened upon it. During that time the captures foot up one hundred and eleven pieces of field artillery, sixty-five battle-flags, and upwards of ten thousand prisoners of war, including seven general officers.

— By way of Charleston a report comes that the expedition sent out by Gilmore, under Potter, to Somterville and Manchester, destroyed all the railroad bridges between Columbia and Florence, 1000 bales of cotton, 7 locomotives, 43 passenger cars, and brought in 2500 liberated slaves.

— Western papers state that the copperhead inhabitants of Marietta, Ind., fired a salute, shouted, danced, sang and gave other demoniac expressions to their joy at the assassination of President Lincoln; then made an effigy of Mr. Lincoln, parading it through the streets, and burned it.

— Of the two fugitives from human and Divine vengeance—Jefferson Davis and J. Wilkes Booth—which is the worst, the unsuccessful murderer of his country, or the successful assassin of the Chief Magistrate of the Republic? asks the Philadelphia Press.

— The Constitutional amendment abolishing slavery throughout the United States was unanimously ratified by both branches of the Tennessee Legislature on the 5th instant. Tennessee is the twentieth State that has adopted the amendment.

— A movement is on foot among the merchants of Boston, to collect one hundred thousand dollars to be presented to Mrs. Lincoln as a token of the respect and veneration felt by the people for the memory of our departed President.

—The Custom House at Richmond, being a stone edifice, escaped destruction on the morning of the evacuation of the city by the rebels. It stands alone uninjured in the burnt district.

— G. A. Atzerot, accomplice of Booth, has been captured by Sergeant Gammill of the first Delaware cavalry, and identified by the detectives.

THE MOTTO OF THE NEW PRESIDENT—"I desire to have it understood that I consider Treason to be the greatest of crimes, and not a mere difference of opinion."

— President Johnson's family resides at present in Nashville, Tennessee, and consists of his wife and four children—two sons and daughters.

—Brigham Young is a widower—at least to some extent, one of his many wives having lately died.

— It is stated, but we are not prepared to believe the report, that Booth was soon to marry a daughter of Senator Hale.

— Jeff. Davis is said to be running around loose in the South, occasionally issuing a proclamation.

— Gen. Ewell says the burning of a portion of the city of Richmond was the work of a mob.

TRUE W. JONES,

61 Market Street, 61

—DEALER IN—

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, energetic, and intelligent in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Mar. tin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Governor Curtin says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 78 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusion as the others, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek—The bay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed until the proper day—the Funk 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels each. Nine out of ten wells north of the oil flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel will sell for half a million.

It is believed by good judge that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $8 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning well like Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $600 to sink a well to the depth of 700 feet, and few go deeper than that. It costs $20 per day to work it after it yields oil. G. F. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more decided perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and testing Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professor Mather, of Massachusetts, a geologist of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 18 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they are expected, if they only yield the minimum average of the wells on the Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the Jersey that flows 500, the Maple Shade and other noted flowing and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its rocker rod in, and its pipe seven-eighths full of machinery, it has flowed 250 barrels per day ever since.—They have not dared to pull out the rocker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. Next to this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all level land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On WEST PIT HOLE, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 113 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding ten cents per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value from $25 to $500 each.
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.

RICHMOND FREE.—*By Henry Ward Beecher.*—It was a kingly day, when Weitzel led the army of black men into *Richmond!*

When Napoleon fled Paris, an illustrious career, in the interest of human progress, remained to history. But when Davis was ejected from Richmond he left the record of a bad man, inflamed by a currupt ambition, devoting eminent powers to the most disgraceful attempt to found a Slave Empire. For the worst purpose that could inspire the heart he has sacrificed, probably a million lives, desolated half-a-score of States, brought to bankruptcy innumerable prosperous households, filled half a continent with widows and orphans, polluted whole districts with murderous guerrillas, who will long keep life and property insecure; turned farms and orchards into a wilderness; and, when society itself, racked and weakened, was reeling with approaching anarchy, then, this dishonored, bad man, with pallid face, in the darkness of night, let go the reins of authority, and fled from his capital, ruined, wrecked, wretched!

How peaceful and bright a contrast was the entrance into Richmond of the honored President of the United States, Abraham Lincoln! Firm and faithful, vigilant and patient, the energies of his life have been given to the salvation of free government, to the welfare of a common people, to the emancipation and elevation of millions of slaves. He stood in the mansion that Davis had just vacated. What a contrast! He that would bind men had fled, he that would loose men then was come! He that would degrade manhood was gone, he that would ennoble it had come!

The conspirator gave place to the emancipator; and Moses again, by Divine Providence, triumphed over Pharaoh! A bold, brilliant, bad man, has measured forces, for three years, with a plain, single-minded, honest patriot. God has sent Craft to the dust, and Integrity triumphs!

In the long run, God is on the side of Honesty and Truth, and against Cunning and Cruelty!—*New York Ledger.*

"THE CRYING NECESSITY."—*An appeal from Wilmington.*—Rev. Horace James writes:

"I have been three days in Wilmington, and find a world of work to do in settling, clothing, feeding, and educating the colored people and refugees of this new district. We do not propose to collect these thousands of refugees into the town, nor put them into camps, but settle them on some fine, large, abandoned plantations of corn and rice, lying near the river, in the vicinity of Fort Anderson, some eight or ten miles down from Wilmington. We must set these people at work on these rich and ample plantations immediately. Government will provide for these people till their crop is secured, but no longer, if we give them now a lift in tools and material. Our first and crying necessity is tools and supplies. Wilmington is perfectly denuded of such things, and the Government has none on hand."—Gen. Hawley writes, "I think if you estimate for the wants of fifteen thousand laboring people, you will not get more than can be judiciously used."

— The Observatory on the historic High Rock, Lynn, built some twenty years since by the late Jesse Hutchinson, one of the first of the Hutchinson family of singers, was burned on Wednesday evening, between 9 and 11 o'clock, "in honor, we are told, of the fall of Richmond."

— The Rockland Free Press learns that Mr. James Pease, of Appleton, fell from his wagon while intoxicated, and, the wheels passing over his head, injured him so that there is little hope of his recovery.

— The Episcopal Church at Bellows Falls was mobbed the other day because the sexton, in pursuance of a standing rule not to ring the bell on secular occasions, refused to ring it for the fall of Richmond.

Special Announcement.

CARTER'S
Clarified Molasses Candy

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not gum up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.

Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. I make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.

MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made ink, for eight years past, from Fox's Ure's Recipe, (made of Aleppo Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black. It flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.

Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and have found, without any exception, it makes the best writing fluid I ever used. I would not be without it. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.

Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent me, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all*.
I have introduced it into my school in this place, and had a quantity of it. It could not be ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.,
GEO. W. FARKER.

Deering, March 1, 1865.
To the American Ink Company—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a nice priority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.

Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.

Brooklyn, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have writing to do, as the best ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Kilcourt's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.

PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2mawsm

Petroleum!
LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK EXCHANGE,
99 STATE STREET,
BOSTON,
Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.
We believe we can offer superior inducements to all persons wishing to invest in
Petroleum Stocks.
Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.
Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiased account of the standing and prospects of the various companies on the market.
Enquiries by mail will receive prompt attention.
Subscriptions received to all first-class Companies upon the most favorable terms.
Receipts and Certificates will be forwarded in exchange for available funds, without charge; and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.
We would call special attention to the following Companies, viz:—
THE HAMILTON
OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital
PRESIDENT—HON. WM. G STEELE, M. C.
VICE PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.
This Company has secured 2218 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.
BOSTON
PETROLEUM OIL COMPANY.
Capital, - - - - $300,000.
Par Value of Shares, - - - $10.
$33,000 Reserved for Working Capital.
This Company is organized under the General Laws of Massachusetts. The property consists of
Ten hundred and ninety-six (1096)
Acres of the very best Oil Lands,
all contained within the great Ohio Oil Belt, over 700 acres of which is IN FEE SIMPLE.
PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.
SECRETARY—CHARLES M. PIERCE.
ATTORNEY—JOSIAH RUITER, ESQ.
MANAGING AGENT—F. A. WILDER.
DIRECTORS.
C. S. WHITEHOUSE, J. W. FARMENTER.
CHARLES SMITH, JOHNSON BEAN.
JAMES P. BRIDGE, GEO. E. SMITH.
Books for Subscription are open at our office.
Only 3300 Shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the Stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.

ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.
No personal liability. No further assessment. To be organized under the General Laws of Massachusetts.
PRESIDENT—HON. LINUS CHILD.
TREASURER & CLERK—HENRY F. SPENCER.
DIRECTORS.
Hon. Linus Child, Hon. John A. Goodwin.
E. R. Sawyer, Esq., F. E. Gregory, Esq.
Levi C. Barnes, Esq., Henry R. Merrill, Esq.
Emerson Leland, Esq.
This property consists of valuable Rights in the very best Oil lands in the country, situated on Oil Creek, Pennsylvania, and Bull and Cow's Creeks and Rawson's Run, West Virginia. Property in the vicinity of Rawson's Run has increased largely in value within a few months, on account of the numerous 2 successful developments. There are many wells now going down upon this property, or being put in working order under the management of an able superintendent.
A map and prospectus of the different properties belonging to this Company, may be had upon application at our office

SUFFOLK
PETROLEUM AND COAL CO.

Portsmouth, N. H.

WEDNESDAY, APRIL 26, 1865.

☞ "*A Serpent will bite without enchantment, and a Babbler is no better*," says the wise author of the book of Proverbs. We are reminded of this scripture by an editorial item in the Portland Argus of Monday, reading as follows:—

It will be seen that Gen. Sherman and Gen. Johnston agreed upon terms of peace, which have been disapproved by our government, and the war ordered to go on. There appears to have been no attempt to obviate the alleged objections, some of which are ridiculously frivolous, but such a course pursued as would lead one to suppose that peace was not desired. At least so it now strikes us. It is a subject the people will ponder over. To put an immediate end to this dreadful war is not a result to be lightly thrown away.

Certainly, says Uncle Toby, it is desirable to end the war—but *how* shall we end it? Shall we do so by surrendering to the rebels every thing we have been fighting for? Shall we *give* them now, the power to rule the Union, which they *lost* by rebelling and trying to destroy it? The people say No!

Some of the *objections*, says the Argus, are frivolous; but others of them are *insurmountable*, unless we choose to let the defeated rebels, and their servants the copperheads, reconstruct everything on the platform of Breckinridge, Davis and Wigfall.

It is remarkable that the Argus finds no fault with the terms, but only with the objections. The "people," as "they ponder over this" fact, will perceive the item to be the genuine, unmistakable bias of the copperhead. To *obviate* the *objections* in part, and slur over the rest, would be to make a *treaty*, which cannot be made with the rebels without acknowledging the independence of their confederacy, which the people of this land will never do,—unless the rebels and copperheads gain a complete victory and turn the Nation upside down. Of this we see no prospect.

No! let the remaining rebels surrender or be crushed. One of these things they must do: so say the *people* now.

NORTH CAROLINA.—Despatches from Raleigh, N. C., Friday, 14th, state that the conference between Sherman and Johnston took place at Chapel Hill, fifteen miles west of Raleigh. Johnston's army, about 30,000 men, including Hampton's and Wheeler's cavalry, lay thirty miles from the city on the road running to Charlotte. At the second interview, Breckenridge, rebel Sec. of War, was present and participated in the drawing up of the memoranda of the terms of capitulation. He admitted the failure of the rebellion and declared peace at hand. The constitutional amendment, he said was strictly the legal way of abolishing slavery, and he predicted its ratification by more than two-thirds of all the States. It was understood that during this conference, which lasted two days, Jeff. Davis was at Hillsboro and in telegraphic communication with Breckenridge at Johnston's headquarters.

The rebel army, with the exception of now and then some officer, were anxious for peace and desired to go home.

Throughout North Carolina there have been exhibitions of loyalty. When our forces entered Raleigh, the papers there—the Standard and the Progress—were found to have been strong Union sheets for some time past. They continued their regular issues. No property was molested by our troops, and the citizens, including ladies, appeared as usual on the streets. Business was suspended.

The news of the assassination of the President reached Raleigh Wednesday.—That night a large meeting of citizens was held, at which resolutions were passed denouncing the deed and expressing sympathy for the nation and the people. The size of the meeting surprised the army, who stood aloof from it.

Gov. Vance skedaddled before our troops entered the place. The report of his capture is therefore untrue.

When this intelligence left Raleigh it was the opinion in the army that the terms of Johnston's surrender were *unconditional* submission. Among the generals of high rank, none others were known or even hinted at.

MOBILE.—The captures in Mobile are large—said to be $2,000,000 worth of ammunition and commissary stores and 140 cannon. Not a house, nor a bale of cotton, nor a pound of subsistence, nor particle of war material was burnt or destroyed by the retreating rebels. The entire Union loss in killed and wounded barely reaches 2000 men. Our navy sustains the loss of two monitors and five other vessels. We have captured one of the most important seaboard cities in the South, killed and wounded about 1500 of the enemy, killed one brigadier general, captured 3, 6000 prisoners, 17 forts, over 200 pieces of artillery, a vast amount of cotton, ordnance and subsistence stores, and put the remainder to flight, with a strong hope of surrounding it on all sides.

NATIONAL FAST DAY.—President Johnson has just issued the following PROCLAMATION, dated Washington, April 25th.—

Whereas, by my direction, the Acting Secretary of State, in a notice to the public on the 17th of April, requested the various religious denominations to assemble on the 19th of April, on the occasion of the obsequies of Abraham Lincoln, late President of the United States, and to observe the same with appropriate ceremonies; and, whereas, our country has become one great house of mourning, where the head of the family has been taken away, and believing that a special period should be assigned for again humbling ourselves before Almighty God in order that the bereavement may be sanctified to the nation;

Now, therefore, in order to mitigate that grief on earth which can only be assuaged by communion with our Father in Heaven, and in compliance with the wishes of Senators and Representatives in Congress, communicated to me by a resolution adopted at the National Capitol, I, Andrew Johnson, President of the United States, do hereby appoint Thursday, the 25th day of May next, as a day of humiliation and prayer, and recommend my fellow-citizens then to assemble in their respective places of worship, there to unite in solemn service to Almighty God, in memory of the good man who has been removed, so that all shall be occupied at the same time in contemplation of his virtues, and sorrow for his end.

GEN. SHERMAN'S FALL.—"Perley" telegraphs to the Boston Journal from Washington Tuesday, that it has been thought Gen. Sherman was led astray from duty by his father-in-law, Ewing of Ohio, of whom Pres. Lincoln said he was the only Northern statesman who had urged him to revoke the emancipation proclamation; and this, with old West Point associations and the hope of becoming President, had turned a head not always well balanced. But a letter in the London Times of April 5, written at Richmond March 4th by its special correspondent there excites fearful suspicions. It is devoted to Gen. Sherman, as destined within the next few weeks to be the greatest power on this distracted continent. "If," says the writer, "in the Armageddon which seems now approaching, Gen. Sherman once gets the South down it may confidently be predicted that his politics will be more in harmony with those of Gen. Lee than those of President Lincoln. Mr. Lincoln has found him hitherto a very valuable friend. It is possible that before the end he will find him a still more dangerous enemy." We now know that this same General Sherman, *two days after* he had learned of the assassination of Pres. Lincoln, put into operation his programme, which proves so admirably in harmony with that of General Lee.

☞ The Boston Herald, which has a large and varied exchange, says that as at present advised, the general tone of the press and the public is in censure of the great military genius who has so successfully carried out a brilliant winter and spring campaign through the Cotton States. Some are in doubt whether Sherman surrendered to Johnston, or Johnston to Sherman.—Others characterize the act as "Sherman's capitulation," while some go so far as to say that *Davis* and *Breckenridge* prepared the terms of surrender! However this may be, it is feared that the delay arising from the consideration of the terms has allowed the prominent and responsible leaders in the rebellion a chance to secure their personal safety, and given the rebel General time to remove his army beyond the immediate reach of his late antagonist.

— The Surgeon General reports, Tuesday, that Sec. Seward is convalescing rapidly. Frederick Seward speaks more distinctly and is better.

— A Baltimore dispatch says Joseph Shaw, editor of the Westminster, Carroll Co., Md., Democrat, was mobbed and the material of his establishment destroyed on the night of the murder of the President, for his disloyal sentiments. He fired upon the crowd, wounding a young man named Henry Bell. Upon this the enraged citizens fell upon Shaw and killed him on the spot.

— Camillo Urso plays a $20,000 violin, and plays it well, too.

— A compositor employed on one of the daily newspapers in Glasgow, Scotland, has just been denied the privileges of membership in the Free Church, of which he and his wife have long been members, simply on account of the fact that he is employed for a short time on Sundays.

— One of the recent London failures was for four and a half millions.

— Wood is selling in Richmond at five dollars a cord. A man brought in a quantity and asked nine per cord for it, but the threat of confiscation lowered the price.

— Pack your cares in as small a space as you can, so that you can carry them yourself, and not let them annoy others.

— A begging letter addressed to the Emperor Napoleon began: "Sire, I received under your uncle, two mortal wounds—one at Wagram, the other in the leg."

— The Federal military authorities have drawn a black line around Savannah. It is encircled by five thousand negro troops.

— Hunter, Wise, Letcher, and other Virginian rebels thought if they left the Union, it must fall to pieces, as they were such great spokes in the wheel. But the Union continued without them, and now these same fellows are anxious to be recognized in the return of the State to the Union. We hope those in Virginia who have remained true to the Union, will not allow any such rebels to again have place or power.

— A subscriber writes to Mr. Greely, of the N. Y. Tribune, "I have taken your paper fifteen or twenty years, and have never disagreed with it till now." To which Mr. G. replies, "we are very sorry to hear it; for, in the course of so many years, we must have been many times wrong, and you ought to have detected some of those errors."

— John T. Ford, proprietor of the theatre in which Mr. Lincoln was assassinated, has been arrested, and is now in the Old Capitol Prison.

— Gen. Wallace has addressed a circular to the clergy of Baltimore, in which he intimates that any disloyal sentiments at the present time would not only be in very bad taste, but also quite dangerous in the excited state of the public mind.

— Capt. Smith of the Brig J. Titus, at New York, from Bermuda, reports that the U. S. Consul there had learned that Dr. Blackburn, of Wilmington had collected four bales of infected clothing from the hospitals, which he intended to ship to New York for the purpose of spreading yellow fever in the city. The clothing was seized and burned.

— It is said that the exchange of 5000 more prisoners now going on at Darien, will take all the rebels hold, while we yet hold from 65,000 to 70,000.

— The Tribune's Washington despatch says it is believed there that Jeff. Davis will be able to reorganize a force of about 40,000 troops in Texas, with which he will move into Mexico, in the event of being pursued by the Union army.

— The Tribune learns from a gentleman from Havana that serious apprehensions exist there of an insurrection by the slaves. Deposits of arms have been found and several negroes arrested. The plot is said to embrace the slaves all over the Island.

— The N. Y. Herald says the popular grief at the assassination of President Lincoln has obliterated all party lines at the North, and united the country in a sentiment of loyal sorrow and patriotic indignation.

— In a town in Massachusetts, one of the clergy had his pulpit occupied on Sunday week by a brother clergyman on an exchange. This preacher made no allusion in his services to the national calamity, though the church was draped in black. At noon he was waited on by members of the parish and informed that his further services could be dispensed with. The parish had a social meeting in the afternoon instead of listening to a sermon.

— The N. Y. World, in considering the high price of meat, thinks there is but one course for the mass of food consumers to pursue. They must use less meat for a year to come. This is the only way to bring down the price. Meat is not necessary for more than one meal a day; indeed our people would enjoy better health if they consumed less animal food.

— The Lake City (Fla.) Columbian announces that Gov. Milton of Florida has committed suicide by shooting.

— It is stated, that the government has no idea of mustering troops out of service immediately, even if the rebel troops all surrender. The promise made by Gen. Sherman to his army that they would be able to return home in a few weeks was unwarranted.

— It is said President Johnson and Secretary Stanton betrayed a good deal of the "By the Eternal" temper of Andrew Jackson upon the receipt of Sherman's dispatches with the terms of surrender.

— The Belfast Age says, "a considerable number of fishing vessels are taking out licenses for the coming season, and the prospect of fares is said to be very good."

— The Rockland Democrat says that "a man has a right to thrust his arm into the fire if he chooses, but we would not advise him to do it. For a similar reason secession sympathizers might as well keep their mouths shut."

— The Savannah Herald says the news of Lee's surrender passed over the telegraph at Milton, Ga., last Wednesday, and was hailed with joy by many. The railroad between Macon and Columbus was cut the same day by our cavalry. The rebel troops refused to go out and meet our troops.

— The Augusta (Ga.) Constitutionalist says Jeff. Davis has either gone to the Trans-Mississippi Department or Europe, taking half a million in specie.

— Harvey Ford, an old man in New Haven, was much affected by the news of President Lincoln's decease, and after appearing much depressed all day, he dropped dead in the evening.

— Says the Washington Chronicle, "The statement that Booth made $20,000 a year in his 'profession,' every well-informed man knows to be false. His engagements were almost universally failures, and latterly no sagacious manager has dared to present him to the public. He failed in his profession."

— The instinctive feeling of every-body on reading the plan of Gen. Sherman's surrender of the principles and results of the contest was this: "The country has not sacrificed three thousand millions of dollars and half a million of lives for that."

The extensive stock of CROCKERY, CHINA and GLASS WARE, CUTLERY, CASTORS, PLATED WARE, and all other things usually kept in a Crockery Ware Store, will be sold at great bargains at No. 5 MARKET SQUARE, by

a25 JOHN SISE.

BERWICK ACADEMY,

South Berwick, Maine.

FOUNDED 1791.

THE SUMMER TERM

Of this Institution will commence on Wednesday, May 10th, under the instruction of

A. C. STOCKIN, A. M., PRINCIPAL,
MISS C. A. W. TOWLE, ASSISTANT.

Tuition: $5.00 per Term,
Payable strictly in Advance.

Board can be obtained on application to the Principal, at reasonable rates. Rooms can be obtained for those who wish to board themselves.

By the kindness of the Superintendents, those living on the lines of Railroads, can board at home and come and return on the trains—on the Great Falls and Conway Railroad, for one-third the usual fare, and on the Boston and Maine, and P. S. and P. Railroads, for one-half fare.

For further particulars inquire of the Principal, or H. H. HOBBS, Secretary.

South Berwick, April 26, 1865.

Wanted,

To ship for ONE YEAR, on Receiving Ship "Vandalia," one YEOMAN writing a desk, and at $30 per month; one QUARTER GUNNER, at $25 per month; two BOATSWAINS, at $25 per month; one MASTER-AT-ARMS, at $35 per month. No Bounty given.

1wa25 E. C. BOWERS, Capt. Commanding.

Notice.

The COPARTNERSHIP heretofore existing under the firm name of GEORGE S. LEACH & CO., is this day dissolved by mutual consent.

GEORGE S. LEACH,
STEPHEN HULL,
C. P. KNAPP.

Portsmouth, April 24, 1865—1w

☞ The 3 barrels of Flour which were the leading gifts at Prof. Fabian's entertainment at the Temple last night were drawn by Mr. E. Washington Brown, Court Place, Mrs. Geo. Dunbar, 44 Deer St., and Master Heman F. Eldredge, Rockingham House. The highest prize to-night is a fine Chamber Set, worth $50.

☞ Some miscreant attempted to throw a train off the track of the P. S. & P. railroad, last Saturday, in or near Wells. The attempt failed, as the cow-catcher threw the obstructions aside.

THE FENIAN BROTHERHOOD.—Mr. P. A. Collins, of Boston, will deliver a *free* Lecture, explanatory of the principles and designs of the Fenian Brotherhood, at Union Hall, No. 58 Market street, to morrow (Thursday) evening. The object of this Society is the Independence of Ireland, and all lovers of liberty should attend. 1t

☞ Harper's Magazine for May is received from the publishers, through J. H. Foster of this city.

NEW HAMPSHIRE ITEMS.

—— Mr. Matthew Perkins, formerly of Sanborntown, committed suicide in Boston last Saturday. He had been in low spirits for some time past, from some unknown cause, and had intimated to his wife that he might be tempted to take his life.

—— The Adjutant General has received an official list of casualties in the 5th Regt. from March 28th to April 10th. Lieut. Warren Ryder was killed, 4 officers wounded, 5 officers missing, 18 privates killed, 62 wounded, and 77 missing.

—— Rockingham Co. Conference Trinitarian congregational churches, will meet May 16th and 17th, at Chester.

☞ The New Hampshire "Telegraph," published weekly at Nashua, is offered for sale. It has a large circulation, good advertising and job printing patronage; and being one of the leading republican papers in the State, offers a fine opportunity for a capable young man to establish himself.

The first gold of any account found in this State, was discovered in Warren, Grafton county, by Messrs. Hasleton and Eaton, some time last fall. The deposit is located on the western side of Mount Carr, and in the basin of Hurricane brook. The parties kept the matter still until they were able to secure the title to extensive tracts of land in the basin and on the mountain. Dr. Jackson of Boston, has examined the specimens, and pronounces them equal to any found in California. A large number of men are now engaged in the "digging," and a company is being formed to carry on the work.—*Union.*

☞ The Chattanooga Gazette has rebel news of the movements of Gen. Wilson up to the 20th of April. West Point, Columbus and Griffin, and it is believed Macon, have fallen into our hands. The rebel Gen. Tyler was killed and 142 men were captured at West Point. The two bridges, railroad depot and all the rolling stock of West Point and Montgomery Railroad were destroyed at the former place. 1000 rebels were captured in Columbus and paroled.—Governor Brown has called out all the militia between the ages of 16 and 60 for the defence of the State. On the 19th, a body of the raiders were on the West Point and Montgomery Railroad, 43 miles south of Atlanta. Gen. Wilson apperred heading westward, probably for Savannah.—The rebel papers give the news of the assassination of President Lincoln, but make no comments upon it. They deny the surrender of Lee's army, and say he was all right on the 15th inst., and that Grant lost 6000 men in the battle of Amelia Court House.

— The Detroit papers say that, from careful estimates made by merchants, millers and others who have means of knowing, it is believed full half of last year's crop is still in the hands of farmers in Michigan and Illinois, and they have no disposition to sell at the present reduced prices.

☞ Rev. P. C. Headley has written the Life of Gen. Sherman, and the Harpers have just issued it in a handsome book, which cannot but be exceedingly interesting to all who love the history of our country and its heroes. For sale by J. H. Foster.

— The Transcript says General Sherman, at the close of his strange agreement with Joe Johnston, places his government on the same level with the fugitive thief who is now on his way to Mexico, with the specie of the Confederates. "Not being fully empowered by our respective principals," that is the language employed by our General to designate equally his government and the collapsed league of treason.

— In Sheldon, Vt., last Sunday, the pastor naturally preached on the death of the President; and an aged copperhead, after listening as long as he could to the scathing denunciation of traitors and assassins, got up and left the church. Just as he got to the door, the minister called out to him, "Don't stop, brother, till you get to Canada," which was responded to by a hearty amen from the whole congregation.

☞ President Lincoln's forte lay mainly in debate, or rather in the elucidation of profound truths, so that they can hardly evade the dullest apprehension. No other man ever so successfully confronted, before a prejudiced, negro-despising audience, the plausible fallacies of Senator Douglas' vaunted "Popular Sovereignty." His familiar exposition of that doctrine in his Springfield speech, opening the Senatorial canvass of 1858—"If A wants to make B a slave, C will not interfere"—was only paralleled in that passage of one of his replies to his great antagonist which reads:

"My distinguished friend says it is an insult to the emigrants of Kansas and Nebraska to suppose that they cannot govern themselves. We must not slur over an argument of this kind because it happens to tickle the ear. I admit that the emigrant to Kansas or Nebraska is competent to govern himself; but I deny his right to govern any other person, without that person's consent.

THE FLANKING PROCESS.—The Philadelphia Inquirer aptly says: "Gen. Sherman has met Gen. Johnston frequently on the field, and fought him, and flanked him, but in this arrangement at Durham's Station the victor is Johnston, who has clearly flanked Sherman this time. We can well suppose that these terms are dictated by Jeff. Davis, with the hope of obtaining an opportunity to escape to a foreign land, for which hegira he is well provided in the shape of specie, the plunder of Southern people.

There is no soap that will begin to compare with the J. Monroe Taylor Gold Medal Soap, and probably no other manufacturer begins to expend one-half as much money to make it known to the community, and the maker is richly deserving the patronage bestowed on him. It is a God-send to the world, and all who use it will agree with us that what we say is true. 133

ARCANA WATCH.
An Elegant Novelty in Watches.
The case of this watch are an entirely new invention, composed of six different metals combined, rolled together and plunished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lever, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imier Watch Company of Europe, and are superbly finished, having engraved pallets, fa cy carved bridges, adjusting regulator, with gold balance and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.
These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and these are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

U. S. 7-30 LOAN.
By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the
Seven-Thirty Loan.
These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into
U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.
These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.
The interest amounts to
One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "
Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is
THE ONLY LOAN in the Market
now offered by the Government, and it is confidently expected that its superior advantages will make it the
Great Popular Loan of the People.
Less than $600,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.
In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Morning Chronicle.

LEXINGTON, *Mass.*, April 20.

Boston nearly exhausted her stock of goods suitable for mourning decorations on the late occasion of President Lincoln's funeral. The gentleman charged with procuring material wherewith to drape the Unitarian Church in this town, found it impossible to fill the order in Boston on Wednesday. Jordan, Marsh & Co., took in and sold the decorations they had placed upon their retail house, replacing the same with alpaccas and high cost goods.

The day in its triple sanctity—1775, 1861, and 1865—was well observed here in the church that faces the spot where ninety years before, the scene of the first tragic act was laid in the drama of "Human Liberty," of which Baltimore and Washington have respectively furnished the second and third. But to describe at length a celebration which was so universal, would involve a book instead of a letter.

Leaving Boston, with its tolling bells, its draped flags, its closed stores, its mourning people and mourning houses; the same wind which blew the sound of the great guns from Fort Independence away from the city, carried our beautiful yacht down past the English steamer firing minute guns in respect to the deceased; down past the shipping, down past the forts, up by Deer Island and Point Shirley, to Winthrop. Some places are embowered in trees, some in hills, but from Winthrop a series of beautiful views radiate in all directions—views where the sublime in nature and the beautiful or wonderful in art are combined. The fine houses are few in number, and we noticed but one that was draped—that of our host, Mr. W. B. Davis, although Gen. Bartlett's mansion adjoins. But those who make a daily offering of life and limb to a course, need no outward symbol to prove their grief at the loss of its leader. With our rails double-reefed on the trip down from the city, we found the breeze so very stiff that we concluded not to attempt sailing in its teeth, and therefore took deck-passage in an omnibus to East Boston, a four mile route over a good road. ION.

— The Louisville Journal wants to have Booth hung so high that all the people on the Continent can see him with the aid of a telescope.

— A new Sunday paper is to be started in London, called the "Day of Rest." Its editorial gossip is to be called the "Whispering Gallery."

PETROLEUM OIL AGENCY.

The California Petroleum Company.

In the Summer of 1864, Professor E. Silliman, Jr., examined this property, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.

The property covers an area of 18,000 acres in one body, on which are at present at least *twenty Natural Wells*, some of them the largest size. Artesian Wells can be put down, 25 miles in extent. The Ranch is an old Spanish Grant of four leagues, and perfect title.

WELLS, FARGO & CO. say that "those who wish to invest in this class of security need not hesitate a moment where to place their money—here is a good, honest, reliable concern—one which in our judgment will pay."

Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.

The property consists of 100 acres, *in fee simple*, on Tarr Hill Run, near Oil City, adjoining the farm of the Clapp Farm above Oil City, and four acres in fee simple on Pithole Creek, in the heart of the Oil Regions.

Capital $300,000. Shares $3. Par Value $5.

Sheffield Petroleum Company.

This property consists of 225 acres on the Tionesta Creek—twenty-five acres in the same vicinity. This property is cut through by the ten mile run, a branch of the Tionesta, and the Sadbury & Erie Railroad. This property is considered of great value in the market.

Capital $500,000. Shares $1. Par Value $2.

Everett Oil Company,

OF BOSTON.

The property of this Company consists of 200 acres of land owned in fee simple, and two leases as follows: The land is located on Oil Creek, near Centreville Depot. The Oil Creek Railroad passes through this land. It has a river front of over one quarter of a mile. It is rich in oil.

Capital $300,000. Subscription price $5.

President Petroleum Company.

A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. It contains 8,430 acres, very valuable in Oil, Coal and Timber.

New York and Newark PETROLEUM CO.

The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil District of Pennsylvania (Venango County), and lays in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Alle hany River, one piece being on that river.—The Company have a twenty years' lease for one-half the Oil.

It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON E. TOWNE is Engineer and Superintendent of this company.

Capital $500,000. Shares $1.

All the above Stock for sale at the AGENCY,

No. 47 Congress Street, Portsmouth,

where Maps, Drawings and Pamphlets are ready for distribution.

I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.

Call and examine for yourselves.

JOHN S. HARVEY, AGENT.

Portsmouth, March 15, 1865.

—DEALER IN—

STOVES,

KITCHEN FURNISHING GOODS, FARMING TOOLS, &c.

THE MAGEE COOKING STOVE.

The subscriber would especially call the attention of the public to the CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes —of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above suspicion, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful in his search for the best Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel E. Lawrence, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Vein seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six millions* of dollars. The last of March, B. W. Harris, Esq., a well known lawyer of Boston and Federal Street Attorney, P. H. Burns, Esq., a shrewd business man, of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions as the other three, that the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 54 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil veins run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil fate south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 1,000 barrels per day—the Fountain 700—the Rynd 500, and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of ten wells bored in this vein are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Some in that neighborhood sold per ton, and if the vein of coal should work well it would be a fortune in itself. It is spendid coal, burning like a Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Oil Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and developing Oil Territory in Venango. Crawford and Warren Counties, in all of which I have made considerable investments.—Professor Martin Lewis Sarvanis, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. The Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and gushers, and perhaps both. Its fame will sound well for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 12 wells, and on this farm for over 900 wells. Just make computation of 12 wells for one, one up to the yield and profit on the whole in a year, if they are as good as they are expected, if they only yield the average of wells in the Oil Region, in that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not propose to sink wells, but simply state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell and lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. Its about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the Array that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 20 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they have built hold 3,200 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm; all low land, and every rod oil for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet Well, leased for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same Oil Belt as the other Farms. It has oil spouting on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends. This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $16,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each.
$5000 in DIAMOND PINS, in value from $25 to $50 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $600.
$5000 in solid SILVER TEA SPOONS, from $10 to $18 per set.

The Chronicle.

☞ We perceive by the Newark, N. J. Journal of April 15, that Edward N. Fuller, Esq., retires from the editorship of that paper, having been there eight years. He retires because he cannot satisfy the directors of the concern, which is "the property of the Democracy of Newark." Their complaint against him was, "that he raised the Standard of Democracy *too high*;" in other words he was too *openly* a copperhead.

He says in his parting address:

The failure of the Presidential election greatly dispirited the Democracy, the utterly *unprincipled* character of the campaign leaving this yet powerful party with scarcely a shred of their great principles to cover their nakedness. McClellanism was simply a *subterfuge* and a *sham*, devised by crafty politicians either to demoralize the States Rights Democracy, or to extend the principle of centralization through the miserable pretext of warring to establish the Union.

* * * It was only at the earnest solicitation of our warm and consistent friends that we still retained the editorship of the Journal, after the publication of McClellan's singular letter of acceptance, which we regarded as a virtual *insult* to the Convention that nominated him, involving a complete change of its already *tame, meagre* and spiritless platform of expediency, which yet contained a nucleus of some of the ancient principles of the Democratic party, sufficient in the estimation of some of its honest members, if cordially accepted by its candidates, to have redeemed the country, or at least to have left the defeated Democracy with a show of principle. But the interests of shoddy and the interest of capital invested in government securities prevailed over the demand for right and principle, and the great Democratic party fell, vitally wounded in the house of its own friends.

☞ A copperhead sheet before us, hisses out these miserable sentiments on the sham treaty of peace.

We regret exceedingly that Sherman's efforts have been overruled by the *Washington* authorities. Surely there is nothing disgraceful to us in the terms proposed, and the only fault to be found with them is that they do not sufficiently disgrace the South.

* * * Our brief time and space will not allow us to enlarge on the reasonableness of these terms, and there is no need; they are patent to every unprejudiced eye.

Patent to the eye of rebel, traitor and fool,—no others. The language of the above quotation is exactly that of the rebel papers. When speaking of the United States Government they call it Washington authority or the Lincoln Government. When they speak of the rebel horde they call it the South. These *reasonable* terms are merely a surrender of the nation's power into the hands of the rebels; and to this the wretched traitor says Amen.

— We call the attention of those of our readers who have gardens and orchards, to the necessity of doing something immediately, to prevent the destruction which threatens fruit trees, from the extraordinary quantity of caterpillars which are to be found on them. The apple and peach trees are the ones in danger; now is the time when, the limbs being bare, the nests can be easily discovered. The nests consisting of eggs only, will be found in the form of broad rings surrounding the branches. The other nests will be full of living worms, with a web spun around them, in the forks of branches.

— Fashion has gotten up a new freak over in Paris lately. A new thing in crinoline has come up. It is the substitution of silver for steel in the framework of the cage.

Special Announcement.

E. & H. T. ANTHONY & CO.,

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DOES NOT HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppo Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without it. Remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt'n.
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires any amount of writing.—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALBON M. GOREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none half so dark and handsome about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the best Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Sidcott's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE of a POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents in money.
AMERICAN INK CO.,

Petroleum!
LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK EXCHANGE,
99 STATE STREET,
BOSTON,
Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.
We believe we can offer superior inducements to all persons wishing to invest in
Petroleum Stocks.
Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.
Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiassed account of the standing and prospects of the various companies on the market.
Enquiries by mail will receive prompt attention.
Subscriptions received to all first-class Companies upon the most favorable terms.
Receipts and Certificates will be forwarded in exchange for available funds, without charge; and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.
We would call special attention to the following Companies, viz:—
THE HAMILTON OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital
PRESIDENT—HON. W. G. STEELE, M. C.
VICE PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.
This Company has secured 2218 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.
BOSTON PETROLEUM OIL COMPANY.
Capital, - - - $300,000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.
This Company is organized under the General Laws of Massachusetts. The property consists of
Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,
all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.
PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.
SECRETARY—CHARLES M. PIERCE.
ATTORNEY—JOSIAH RUTER, Esq.
MANAGING AGENT—F. A. WILDER.
DIRECTORS.
C. S. WHITEHOUSE, J. W. FARMENTER.
CHARLES SMITH, JOHNSON BEAN.
JAMES P. BRIDGE, GEO. E. SMITH.
Books for Subscription are open at our office. Only 3300 Shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.
ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.
No personal liability. No further assessment. To be organized under the General Laws of Massachusetts.
PRESIDENT—HON. LINUS CHILD.
TREASURER & CLERK—HENRY F. SPENCER.
DIRECTORS.
Hon. Linus Child. Hon. John A. Goodwin.
E. H. Sawyer, Esq., F. E. Gregory, Esq.,
Levi C. Barnes, Esq., Henry E. Merrill, Esq.,
Emerson Leland, Esq.
This property consists of valuable Rights in the very best Oil lands in the country, situated on Oil Creek, Pennsylvania, and Bull and Cow's Creeks and Rawson's Run, West Virginia. Property in the vicinity of Rawson's Run has increased largely in value within a few months, on account of the numerous successful developments. There are many wells now going down upon this property, or being put in working order under the management of an able superintendent.
A map and prospectus of the different properties belonging to this Company, may be had upon application at our office
SUFFOLK PETROLEUM AND COAL CO.
OF BOSTON.
In a short time Subscription Books will be opened at our office only for a portion of the Stock, due notice of which will be given.
Full information will be furnished in regard to the above, and all other Companies in the market, upon application at our office, personally or by letter,
P. S.—Parties remitting funds to us will please send by express, except when drafts can be obtained, in which case we will bear the charges of forwarding. In this manner they can obtain reliable receipts.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, APRIL 27, 1865.

THE SHERMAN ARMISTICE grows blacker and blacker.—The N. Y. World's Raleigh correspondence of the 19th says when Sherman and Johnston met they walked off arm in arm and had an interview alone, lasting several hours. None of Sherman's officers knew anything of the conversation. He was remarkably quiet, more so than usual. The Times' Washington despatch says Johnston at first proposed to surrender on the terms granted to Lee, but that Hampton objected, whereupon Sherman granted a delay for an opportunity to consult with Jeff. Davis. The next day another meeting took place, when the remarkable propositions, sent to Washington by Sherman, were presented. The Herald's Washington despatch says it is reported that Johnston, while negotiating with Sherman, marched off most of his troops toward South Carolina. The Times' special Washington despatch states there are proofs that Sherman expected political preferment and powerful position at the head of his department on notice of the surrender of Johnston.

GEN. GRANT snuffs out the Sherman treaty.—In an official dispatch from Gen. Grant, dated Raleigh, 9 A. M., April 24th, he says:—"I reached here this morning, and delivered to Gen. Sherman the reply to his negotiations with Johnston. Word was immediately sent to Johnston, terminating the truce, and information that civil matters could not be entertained in any convention between my commanders."

— A letter from a distinguished officer of Sheridan's army, says that the feeling among the rank and file of that army is that of disgust at the result of the conference between Sherman and Johnston.—"There is not a man in this army," the letter says, "who would not prefer to lay down his life sooner than see the disgraceful programme carried into execution. The whole army feels itself degraded."

— Gen. Sherman suffered the rebel Johnston & Co. to negotiate four days with him, and then gave them 48 hours respite besides the armistice! Of course the leading rebels made use of this week's delay!

DEMOCRATIC VIEWS OF SHERMAN'S CONDUCT.—The Boston Post thus expresses the democratic phase of the universal astonishment at Sherman's surrender of the principles and results of the contest:

The proposed terms of Johnston's surrender to Sherman, if correctly reported, are remarkable, and it is a matter of surprise that Sherman should have entertained them for a moment. The conditions Grant allowed Lee were generous; all that any Confederate officer should ask or receive. We believe the Government will concede as much as its honor, security and desire for pacification may justify; but the acceptance of Johnston's propositions would be, practically, a surrender of the Federal Government to the rebels, instead of their surrender to our forces. We think there must be some mistake in this business; but whatever may be the facts, Grant's presence will make all things clear and convince Johnston that he is fortunate if he can come off as well as Lee.

The President's plan (as it is understood) seems safe, reasonable, merciful, namely: to hold the mass of the rebels as prisoners of war on parole—let the loyal men reorganize their State Governments, fill the offices of trust and power, and then admit the rebels—except their principal leaders—to the privileges of citizenship as fast as they give satisfactory evidence of repentance and pledges of fidelity to the Constitution and the Federal Government. The loyal inhabitants of the Confederate States composed more than one-half of their population four years ago, and when they have ample Federal protection, will, undoubtedly, exhibit the same attachment again.—The slavery question may appear to be a formidable embarrassment to this consummation; but as it is apparent that no State tolerating it can now maintain harmonious relations with the Union, the wisest thing the South can do is to abandon it at once, voluntarily, before the Constitution makes it an obligation. In this manner we may regain all those worth having, leaving the refuse to such foreign shores as the tide of treason may float them, or to a harder destiny at home.

The reader will perceive that the Democratic view, taken as above in the Post, is exactly *opposite* to the Copperhead view which we have copied from other sources.

GEN. LEE'S FAREWELL ADDRESS TO HIS ARMY is just such a document as would satisfy the traitorous ambition of Jeff Davis. It proves Lee to be the same persistent rebel as ever, and shows that he is still animated by the spirit which originally impelled him to renounce his allegiance to the United States.

— The citizens of Carroll County, Md., lately met and formally resolved that such former residents in that region as had "elected to commit treason against the Government of the United States (as well as against the State of Maryland) by going South and taking up arms and serving the rebels," must never come back—their presence will not be tolerated.

— Rev Francis E. Hicks, pastor of the Second Universalist Church, died at his boarding-house on Merrimack street, Lowell, Monday, from a disease somewhat resembling the spotted fever.

NEW HAMPSHIRE ITEMS.

—— A series of Temperance Meetings began in Concord, on Sunday evening, and meetings are to be continued on successive Sunday evenings, in the churches in that city. The first meeting was held in the Universalist Church, which was filled, though six other meetings were held at the same hour.—A strong interest is waked up there on the subject by many sad occurrences of recent date: and it is hoped that a revival of Temperance may prevail through the State, checking and turning back the rising tide of vice.

—— SUDDEN DEATH.—Mr Dudley Cram, of Salisbury, N. H., died very suddenly Sunday morning, April 23d. He rose in apparent good health, breakfasted as usual and took care of his stock at the barn, but on returning to the house complained of pain about his heart, and immediately afterwards dropped dead upon the floor. The deceased was a respectable citizen and about seventy years of age.

—— Sarah E. Webber, charged with killing Alfred A. Tolman at a bowling saloon at Keene, N. H., in December last, was tried last week, and the jury returned a verdict of guilty of manslaughter.

—— At the session of the S. J. Court in Ossipee last week, three men named Durpin, Stillings and Glidden, all of Ossipee, having been indicted for liquor selling, plead *nolo contendere*, and paid their fines.

—— Hon. Frederick Smyth, Governor elect of New Hampshire, Senator Clark and Gen. Bartlett arrived at Washington Wednesday morning.

THE RIGHT TALK.—We like what the Ellsworth American says:—

This work of the assassination of the Nation's Chief Magistrate, is but part and parcel of the whole grand plot to destroy this nation, at any and all hazards. The mawkish sympathy expressed for the active leaders in the rebellion, should not be countenanced. Such traitors as Roger A. Pryor, who was in Charleston at the fall of Sumter, and who was one of the distinguished fiends that held high carnival over the degradation of the American flag consequent upon its being lowered to such a cause, should not be walking the streets of Washington and allowed to be feasted and feted within sight of the Capitol. Such arch-rebels as Lee cannot be thought of with clemency. War is not a pastime; treason is not a puny offence that can be forgiven any day before breakfast, and without any signs of repentance: and the sooner we learn this the better for the nation.

The assassins who struck down the President, and aimed the dagger at Mr. Seward's heart, were actuated by the same spirit that inaugurated the rebellion; and there is no such thing as taming it by honied words. Such evil spirits are not exorcised by ceremonies only.

A GOOD MOVE.—The U. S. Attorney General Speed, has made a highly important decision on the terms of capitulation of Gen. Lee, in reply to a letter from the Secretary of War, raising those points.

He decides, first, that the rebel officers who surrendered to Gen. Grant, have no homes within the loyal States, and have no right to come to places which were their homes prior to their going into the rebellion.

Second—Persons in the civil service of the rebellion, or who had otherwise given it support, comfort and aid, and were residents of rebel territory, certainly have no right to return to *Washington* under that stipulation.

Third—Rebel officers certainly have no right to be wearing their *uniforms* in any of the loyal States. It seems to me, he says, that such officers having done wrong in coming into loyal States, are but adding insult to injury in wearing their uniforms. They have as much right to bear the traitor's flag through the streets of a loyal city, as to wear the traitor's garb. The stipulation of surrender permits no such thing, and the wearing of such uniform is an act of hostility against the government.

☞ The National Intelligencer says that President Johnson and Cabinet have completed arrangements in reference to the government of the State of Virginia, and the process for her final restoration to the Union. Gov. Pierpont has been fully advised of the views of the Government, and is authorized and empowered to establish the new State Government of Virginia, at Richmond. He will proceed to that capital forthwith, and call together the loyal State Legislature already elected.

GEN. SHERIDAN routed Early at Waynesville about the middle of March, and put him individually upon a most tremend ous race, which concluded by E's bringing up in Richmond, attended by one of his staff, sans coat, hat, and almost everything. When Sheridan's column had swept by Richmond, Early was ordered back to Stanton, and was there at the time of the evacuation of that city. Upon hearing of this event, he hastened to Lynchburg, and thence towards southwestern Virginia, where, ranking Gen. Echols, he took command of the forces that were retreating before Stoneman and Thomas. When last heard from, being unable to withstand the forces in his front, and afraid of Gen. Grant in his rear, he had deflected to the right and was apparently making for the Kanawha Valley. It is doubtful whether he has yet become aware of the surrender of Lee.

His life was gentle, and the elements
So mixed in him that Nature might stand up
And say to all the world,—"This was a Man!"

NEW YORK, April 24.

There is a tribute more eloquent than words in the solemn, universal and heartfelt reverence of the millions over the whole land for their lamented President and Chief. Here, in the busy City, whose wonted tumult and activity so entirely gave way to quietude,—whose gayety was changed to grief, and its magnificence draped in the sable symbols of mourning,—this is especially observable.

New York from side to side, and through its whole extent, is hung with black. Stores, and residences on all the side streets and avenues, are universal in the observance; and not a single building on either side of Broadway, from the Battery to the Fifth Ave. Hotel, is without "the trappings and the suits of woe." The stages and cars carry mourning flags; every ensign is fringed with black, and floats at half-mast; and nearly every gentleman is wearing crape on the arm for thirty days, while ladies display a mourning badge, in ribbon or rosette. During the days of the death and burial of our late President, business was suspended, and stores and places of amusement closed by general consent throughout the city, and without official requirement.

The beautiful mourning decorations are deserving of detailed description, but I have time and you room for the mention of but a few. One marble store on Broadway (the former location of the well known house of C. W. & J. T. Moore,) has over *three thousand yards* of black and white muslin festooned over the front. Another house has nearly two thousand yards tastefully arranged. Stewart makes a fine display of black at his upper store, and of black and tri color at the lower. To the four large windows of Lord & Taylor is conceded the richest elegance;—the arrangement is of costly white and black watered silks, heavy lace and delicate muslins: in each are tablets covered with black lace, embossed with wreaths of *immortelles*, and an "L" in silver. The "St. Nicholas" and government buildings opposite "Metropolitan" and "New York" Hotels are handsomely draped—the pillars of the entrances being spirally circled with black. The street dome and arch of Fredericks' Gallery is also elegantly festooned, and has the inscription,—

In sorrowing tears the Nation's grief is spent;
Mankind has lost a friend, and we a President!

At Gurney's Gallery is the inscription,—

"A martyr to the cause of Man,
His blood is freedom's eucharist,
And in the world's great hero-list
His name shall lead the van."

At a well known dry goods house in Canal street, the decorations were in the form of a St. Andrew's Cross, eighty feet high, with the inscription,—

For the stars on our banner grow sudenly dim;
Let us weep in our sorrow, but weep not for him;
Not for him who departing leaves millions in tears,
Not for him who has died full of honors and years;
Not for him ascended Fame's ladder so high,
From the round at the top he has stepped to the sky!
—It is blessed to go, when so ready to die.

The jewelry establishments of Ball, Black & Co., and Tiffany, were tastefully draped: the latter had the following:

We loved him, yes! No tongue can tell
How much we loved him, and how well.
God loved him, too, and thought it best
To take him home, to Heaven—and rest.

The whole massive front of the Astor House was festooned with black and white, and had the words, "Only the actions of the Just, smell sweet and blossom in the dust." The City Hall bore the three words, "A Nation Mourns," and over five hundred other buildings had the same. The words, "Our Martyr President" were rather more numerous. I noticed among the various devices, a base, bearing the initials, "A. L.," surmounted with a broken column and a delicate wreath of bright green; also, simply a clock dial, with the index at twenty minutes past seven.

One front had the line, "God moves in a mysterious way, his wonders to perform." Another, "Justice, not Revenge," over the words, "Andersonville," "Libby Prison," "Fort Pillow," "Massacre at Lawrence," "Murder of the President."

Wallack's Theatre had the following beautiful extract:

He hath borne his faculties so meek, hath been
So clear in his great office, that his virtues
Will plead like angels, trumpet-tongued, against
The deep damnation of his taking off.
And Pity, like a naked new-born babe,
Riding the blast, or Heaven's cherubim, horsed
Upon the sightless couriers of the air,
Shall blow the horrid deed in every eye,
That tears shall drown the wind.

It is stated there were over five thousand inscriptions in the city.

I notice the omission of my usual signature at the close of my letter on the National Calamity, in your Friday's issue. The beautiful poetical extract at the close, containing the words,

"And when the morning opened Heaven's gate,
There passed the whitest soul a Nation knew!
Henceforth all thoughts of Passion are too base;
Thou in whose cause that arm its weapon drew
Have murdered MERCY! Now alone shall stand
Blind Justice, with the sword unsheathed she were—"

are from the pen of Stedman, and originally contributed to the N. Y. Tribune. N.

— The steamer Massachusetts, with a load of exchanged and paroled troops, collided with a small steamer acting as picket boat, near Blackstone Island, on the 25th, sinking her in about three minutes. The bows of the Massachusetts were badly stove in. About 50 soldiers were drowned.

GOLD, in New York, Wednesday, 152 to 151 1-2. In Boston, 151 to 150. Gen. Sherman's fall gave gold a little rise.

— The Ocean Steam Cotton Mill, Newburyport, has declared a semi annual dividend of 5 per cent. The York Manufacturing Company has declared a semi-annual dividend of five per cent, free of Government tax.

— Cotton and cotton goods continue their advance. There is a fair prospect that the factories may make up what they lost by the late fall of goods.

— The rebels lately submitted propositions to the Federal government. Now let them submit themselves to it.

— The subscriptions to the 7-30 loan are now large, exceeding four millions a day.

"A thing of beauty is a joy forever."

Martha Washington Hair Restorer

Is a perfect success—*Is not a Dye*—Will not color the skin,—Will restore Gray and Faded hair to its former Beauty—Change Dry, Harsh and Wiry Hair to a soft and silk-like appearance—Cure all humors and diseases of the Scalp—Remove dandruff and scurf—Prevent the hair from falling off—Promote a healthy growth, and cause it to grow on bald heads, where there is life and vitality at the roots, but if these are gone there is no hope of success. **PRICE $1.00.** SIMONDS & CO., Fitzwilliam, N. H. Proprietors.

☞ Sold in Portsmouth by WM. R. PRESTON and J. H. THACHER. ap27

ARCANA WATCH.

An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Levers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imer Watch Company of Europe, and are superbly finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO., 1mdawsl Importers, 15 Maiden Lane, N. Y.

Local.

☞ In the Police Court on Wednesday, George Wright was required to give a reason for assaulting Mary Danielson, and treating her in an ungentlemanly manner. Not being able to satisfy the Court of the purity of his intentions, he was fined $5,00 and costs $3.86, amounting to $8,86.

Deborah Warren, being possessed of the spirit of revenge common to her sex, did enter maliciously, willfully the garden of Thomas Roberts, and by divers blows from a weapon unknown, did kill and destroy a number of seed cabbage heads, valued at eighteen dollars in national bank currency." This offence being considered of so aggravated a nature as not to come within the jurisdiction of this Court, the said Deborah was directed to recognize in the sum of $100, for her appearance at the Fall term of the Supreme Judicial Court.

Patrick Bressney's Hibernian instincts prompted him to take revenge on Charles Johnson—a man whose misfortune it is to be of color, black,—because he believed Johnson to have been primarily the cause of the war, but though this is a free country, and free tolerance of opinion is allowed, yet the manner of expressing it was excepted to by the Court, and Pat was fined $5 and costs $3.86, amounting to $8.86.

Michael Carroll and Patrick Murphy—two more gentlemen of Celtic origin, went back on their own nationality by assaulting Patrick Berry, thereby subjecting themselves to the rigor of the law, which appeared to them in the form of $7.00 and costs $2.90 each, affording a shot in the State locker of the value of $19.80, after paying expenses.

☞ Died, at the Alms House in this city, Mrs. MARY JOHNSTON, aged 90 years, 5 months. This aged lady came to the House in 1857, and has not been out of the yard during the eight intervening years. She has enjoyed excellent health till within ten days of her death, she was always cheerful and appeared greatful for home, even in an Alms-house. She would, without the aid of glasses, up to the time of her sickness, do work with her needle, of which no young lady need to be ashamed.

☞ Lieut. C. B. Barlow, No. 6 Atkinson Street, was presented with the Chamber Set, at Fabian's Entertainment last evening, at the Temple. To-night an elegant Silver Tea Set, worth $45, will be given away, with a great variety of other useful articles.

☞ Horse Guards, and others interested in the corps, will remember the meeting at the Rockingham House this evening, at 7½.

☞ The Naval Rendezvous at Kittery Foreside has been closed by an order from the Navy Department.

HAMPTON.—A correspondent of the Newburyport Herald, writing from the Union House, at Hampton, says:

The Union House is indeed in the rural districts, kept by sagacious and hospitable landlords, in the beautiful town of Hampton—not a stone's throw from the Eastern Railroad depot, and located on the main road to Portsmouth, on the junction of the roads leading to Rye Beach and Boar's Head—from the latter less than three miles; than which location none more lovely, healthy, beautiful or pleasant can be found in New England. Here pleasure travellers to the beaches will find a beautiful and convenient stopping place of rest or resort for a week or month in a first-rate house, with an excellent table, newly furnished rooms, double piazza, and cupola, commanding a magnificent view of the ocean, Hampton beach and the surrounding country, at moderate and reasonable charges, with the best of company, and attention to every want.

— The rebel Col. Jessie and 28 of his guerrillas were captured near Elmirence, Ky., Monday morning, by Col. Buckley's men.

— One day last week 300,000 lbs. of sugar were taken out of the Boston Custom House warehouse for the market, the holders being afraid of the falling price.

— The Portland Advertiser says that a person, evidently disguised, was arrested on the train on the Grand Trunk Railroad at Paris, Me., on Monday, suspected to be an accomplice of Booth's.

— General Palmer, the commandant of Kentucky, has ordered that hereafter no more guerrillas shall be executed publicly. Hereafter all persons sentenced to death will be executed privately.

— A Washington dispatch says Payne, the assassin, has, since his confinement, attempted suicide by butting his head against the iron walls of his prison, reducing it almost to a jelly.

— It is said that among Mr. Lincoln's papers has been found a package of letters marked in his own hand-writing, "Assassination Letters." While many of them threatened his life, others warned him of plots to take it.

— The N. Y. Tribune's Washington dispatch states when the whole history of the diabolical plot of assassination is made public, the world will be astounded at the enormity, as well as our forbearance with, our Canadian neighbors, who have constantly furnished a safe asylum to the most infamous villians.

☞ The very beautiful tribute to the memory of President Lincoln, which we gave in the shape of a letter from New York last week, and which has been much admired, and attributed to various authors, should have been credited to our regular correspondent "N.," whose signature we regret was accidentally omitted by the compositor.

☞ Our unknown but always welcome Baltimore correspondent, "Rockingham County," sent us several days ago, an interesting account of the President's obsequies in that city; but after keeping it a while, in hopes of more room, we are compelled to omit it, as well as all details of similar popular testimonials to the Nation's bereavement, wherever the body passes.

THE MURDER OF CAPT. FRENCH OF SHIP WILLIAM TELL.—A letter from Charles A. C. Harris, mate of the ship William Tell, furnishes some particulars of the murder of W. W. French, the master of that vessel, off Pernambuco, on the 19th of March, already reported. Mr. Harris says he was awakened about half-past nine in the evening by heavy groaning in the forward cabin, and immediately running to learn the cause, found Mr. Forrester, the second officer, covered with blood. Without stopping to assist Mr. Forrester, he ran to Captain French, who was lying in his hammock in the after cabin, and shaking him, told him to get his revolver as quickly as possible, as Mr. Forrester had been badly cut, but to his great surprise discovered that he was dead, his breast and head being covered with blood. Securing his firearms, Mr. Harris ordered all away from the cabin, and then called up the sailmaker and carpenter, and, with their assistance and three of the crew, six of the watch were placed in irons. The vessel was steered for Pernambuco, where Mr. Forrester was placed in the hospital, the facts laid before the American Consul, and three of the crew put in prison on suspicion of being the murderers, the other three being released. At last accounts the vessel was still there, awaiting the trials of the supposed murderers. The only reason that can be assigned for the murder is a conspiracy on the part of some of the men to seize the vessel, as there was no personal difficulty between them and Capt. French. This appears from a letter that he wrote on the day of his death, in which he remarks: "I have a very fair crew now, and no trouble." Capt. French belonged in Newmarket, N. H., and leaves a wife and three children.—*Boston Journal.*

☞ Attention is invited to the advertisement of Berwick Academy, as an institution worthy patronage, and offering good advantages in character, location, &c.

— The loyal Legislature of Arkansas have passed the constitutional amendment.

All efforts to rival the J. Monroe Taylor Gold Medal Soap have signally failed; we do not hesitate to pronounce it the cheapest and best Soap in existence: it will take out grease, spots, or paint, will make nice soft soap, and make clothes of all grades look better after washing than any other article of the kind in the market; it will not injure the finest fabric. Try it,—their Depot is at 112 Liberty Street, New York. Most of the grocers sell it. 134

WILL BE AT THE
ROCKINGHAM HOUSE, Portsmouth,
From MONDAY MORNING, May 1st, until SATURDAY 4 P. M., May 6th, where he can be consulted on
DEAFNESS, DISCHARGES FROM THE EAR, NOISES IN THE HEAD, CHRONIC CATARRH, THROAT AFFECTIONS, AND DISEASES OF THE EYE.
☞ *Artificial Eyes inserted without Pain.*

SYMPTOMS OF CATARRH.

A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other, and occasionally on both, rendering respiration through it either difficult or impossible. The irritation in the nose produces a frequent desire to sneeze, and is accompanied with a discharge of either clear acrid water, or what is far oftener the case, a profuse, thick, yellowish, and extremely offensive matter, which forms one of the most characteristic features of the disease, and is a source of the greatest annoyance and danger.—As the disease progresses, this secretion becomes prurulent, increases in quantity, and assumes an exceedingly fetid odor. It escapes not only by the nose, but passes into the throat, producing irritation there, and requiring frequent expectoration, hawking or scraping for its removal, as its passage into the throat is very much facilitated by a horizontal position of the body; sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi-recumbent position to obtain the necessary sleep.

Owing to the heat in the head the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking—a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgement. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones when small particles of that substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passage very difficult and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ear and hearing becomes quite thick or stopped up, but returns suddenly with something like a snapping sound. This phenomena may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated.

This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of fatigue and weakness.

Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by travelling downward, and producing throat affections, bronchitis, and finally consumption. It may be safely asserted that, after hereditary predisposition, catarrh is the most frequent and important cause of the fatal complaint.

The symptoms of catarrh vary some in different individuals, and the degree of their severity depends upon constitutional idiosyncrasies and various external influences. With some the complaint continues for a number of years in a mild form, and without causing any of the injurious results above mentioned, while with others all the worst effects are produced in a short space of time, and cases, apparently most harmless, may, through imprudent exposure, additional cold, or unfavorable changes of the weather, suddenly exhibit all the violence and malignity which characterize the severest ones. apr5

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Corner Congress & Vaughan Streets.

Morning Chronicle.

KILLED WHILE DOING HIS DUTY.—The Portland papers state that on Saturday last, as the train for that city, on the Maine Central Railroad, was coming along about two miles this side of Winthrop, one of the trackmen, Mr. McCarty of Auburn, discovered a bar lying across the rails. Fearing the train would be thrown from the track, he sprang forward to remove the bar, but lost his balance and fell upon the rail. He was caught by the cow-catcher, and dragged nearly a quarter of a mile before the train was stopped. He was found dead.

GOLDEN HAIR NOT A NEW IDEA.—The rage for golden hair, which agitates Paris, just now, is no imperial novelty. Firenzuola, the early Italian writer, says, as if the point admitted of no dispute, that the proper color of a lovely woman's hair is golden; and the Venetian women are accustomed to annoint their hair and then sit upon the house-roof, allowing the blazing sun to stream down upon their heads, in the hope of catching the golden tint so loved by artists.

— Oliver Potter of Newport, R. I., has offered a thousand dollars reward for the apprehension of any party or parties who are residing there, if any, who consulted with Booth, the assassin, during his visit to that place on the 15th inst., or in any way assisted or countenanced his crime.

— Geo. S. Hillard, of Boston, one of the writers of the Courier of that city, rose to address an audience in Charlestown, Mass., on the occasion of services in memory of Abraham Lincoln, but the people wouldn't hear; they said they didn't want anything from the Boston Courier; so Hillard was obliged to sit down.

— Said, or rather wrote, Sec. Seward, recently: "This is only history repeating itself—all great revolutions have their assassins as well as their heroes."

— There has been an excitement at Melbourne, Australia, between the British officials and the rebel pirate Shenandoah. She was repairing, and must soon leave.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, for all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study, and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies which have never since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those consequent upon a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the Female Regulator, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

CEDAR CAMPHOR

TRUE W. JONES,
61 Market Street, 61
—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful in one of the richest farms and most productive wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel E. Lockwood, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other. And the Four Farms owned by this company within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of March, R. W. Harris, Esq., a well known lawyer of Northern Pennsylvania, District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusion as the others had done. Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek winding directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead Well produced 400 barrels per day—the Funk 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells sunk on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the flat below Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning like a candle.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs little more than $66.00 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. G. S. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties; in all of which I have made considerable investments." Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands and Cherry Creek and the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, and we think it will, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 12 wells, and on a farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they should prove as they are expected, if they only yield the minimum average of the well on Funk's Oil Belt, and your income from this Farm alone is over one million of dollars. The Company do not expect any such results, but simply state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and lower down than the Mattison Farm, where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A company well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 100 barrels daily, the Jersey that flows 200, the Maple Shade and other noted flowing wells, and pumping wells without number. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 220 barrels per day. They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. They think they now have will hold 5,200 barrels. Below this well, on the same Creek, another fine well has been struck, and above it a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has ruined so high hopes, is the Byles Farm, all low land, and very rod fit for a well. It is splendidly located. It abounds in coal rocks and indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On Water Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 160 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil will well be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each.
$5000 in DIAMOND PINS, in value from $45 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $600.

The Chronicle.

☞ At Richmond, a military order has been issued, designating the Powhattan Hotel as a place of entertainment of Confederate officers and soldiers. The Spottswood Hotel is forbidden entertaining all such, and those now stopping there are required immediately to vacate their rooms and leave. The Whig says "We are authorized to announce that by order of the military authorities, the Commissioners of Subsistence of the United States Army in this city will begin to-day to issue to all citizens bread at 6 1-4 cents per loaf of eighteen ounces." [Where can the people get a quarter cent ?]

KENTUCKY.—Gen. Brisbane has requested Governor Bramlett of Kentucky, to call the Legislature together, to pass an Amendment to the State Constitution, in order to restore the disturbed condition of labor by inducing the slaves to return and till the soil. He urges that they are now virtually free and are roaming about in idleness. The Governor replied concurring in the General's opinion. [Does any body remember the trash that used to ooze through the "conservative" press, about the slaves rushing to the North the moment they were freed ?]

— After Raleigh, N. C., had been formally surrendered to our forces, and while General Kilpatrick was marching through the town, an officer belonging to Wheeler's command, who, with some of his men was engaged in plundering a store near the Market House, rushed into the street and fired his revolver at Kilpatrick, who was riding at the head of his column ; the ball fortunately missed Kilpatrick, but wounded one of his staff. Chase was immediately made and the ruffian captured. In less than ten minutes he was swinging by his neck from a tree.

— A general order published in the Richmond Whig of the 25th, directs if among the paroled prisoners of the Confederate army, there are any mechanics who desire to remove to the North with their families, for the purpose of obtaining employment, they will, upon taking the oath of allegiance, be furnished with transportation to Philadelphia, New York, or Boston, as they may desire.

— The St. Paul Press gives an account of a murder in Sibley county, Minn. A Swede named Johnson chopped off the head of his son, a boy nine years old, with an axe. The murderer says the spirits told him to do the deed ; and he seemed also impressed that he could restore him to life again.

— The funeral obsequies of President Lincoln in New York, exceeded any thing of the kind ever before seen there. The cortege moved up Broadway to the City Hall, every window was crowded and every house-top covered, and the street densely thronged by a people who involuntarily uncovered as the corpse was borne by.

— A despatch, dated Cairo, April 23d, says : "Eight thousand Andersonville prisoners are at Vicksburg getting ready to return to their homes. Str. Henry Arts has taken 1300 for St. Louis. According to the dead roll, 1700 Federal soldiers were buried at Andersonville during one week.

— The St. John, N. B. Daily Globe says : "We have never seen our people so deeply moved by any occurrence, as they have been by the untimely death of of Mr. Lincoln; and their desire to exhibit the feelings by which they are moved, has been most intense."

— There are 300,000 houses in London, England, which if all set in a row, would reach across France, and over the Pyrenees. Land is in demand, and has been sold at the high price of a million dollars per acre.

— A number of empty bottles thrown into the sea on the west coast of Africa have been picked up on the Irish coast. One has been found after sixteen years, another after fourteen, and a third after ten years.

— All the paroled officers of Lee's army who are now in Richmond and wish to go to Europe, will, by direction of Gen. Ord, be furnished with passports and passage to Halifax.

J. H. WINSOR, of Oil City.
L. M. GORDON, of Oil City.
CHAS. E. HODGES, of Hodges & Richardson, Boston
Superintendent.
W. W. WHITE, of Oil City.
This stock is *bona fide*, full paid, with no possibility of future assessments and no personal liability. The absolute value and actual cash cost of this property are so great as to preclude its being offered with the allurement of a reduction from a nominal par value.
It has been selected, at different times during the past year, by several old and experienced oil-workers and residents of Oil Creek, who are familiar with the history, progress and value of every well and piece of property in that region.—Several of the producing interests were originally acquired for the purpose of holding the private investments and sources of regular income.
These gentleman have, however, been induced to combine their various interests, with additional property, into one strong, sound, and reliable company. Each of them will retain an interest as stockholders, and hold their stock as a permanent investment. Residing in the oil region, and directly concerned in the success of the company, they are pledged to look closely after its operations; thus affording a guaranty of watchful supervision, and faithful and energetic management possessed probably by no other oil company ever formed. Two of these gentlemen are on the board of Direction, and one Superintendent of the Company.
The stock is sold to pay for the property, and to furnish a working capital to open up the large and promising tracts yet waiting to be developed.
The managers start with the intention of pay ing dividends *quarterly* and from actual earnings only. Paying quarterly affords time to sell the oil produced to the best advantage, and is believed to be in all respects the soundest policy.
The dividends will beyond question, be not only immediate, but regular, permanent and remunerative. We wish to avoid holding out any inducements not warranted by the same moderate and reasonable calculations which have been made in embarking in any legitimate business enterprise. It is safe, however, to assure subscribers of handsome quarterly dividends from the present wells of the company; which will moreover, we confidently believe, be very largely increased by new developments to be rapidly made upon our extensive and valuable properties.
We invite attention to, and the most careful examination of, the following list of properties, lands, and leases, the locations of which are all shown upon the map; believing that none more valuable and promising have ever been offered upon so small a capital, and none that have given greater assurance of permanent value and large returns. We invite subscriptions to an investment, and guarantee the most energetic and skilful efforts to develop the property thoroughly, as well as careful and faithful management.
Summary of Properties.
Two tracts of good boring land, one hundred and one hundred and four acres respectively, *in fee*, situated south of Oil City, in Venango county, in the immediate neighborhood of the Adamantine, Lee, and other large wells just struck on the Island and Rynd farms, respectively.
Important interests and Leases on the best and most carefully selected properties on Oil Creek,—on the Hassan Flats,—Cornplanter Run,—Rynd Flats, and at the Widow McClintock, Egbert, Hassan, Widow McClintock, Foster, and two lots on the celebrated Hyde & Egbert Farm.
In all, fifteen wells, five of them producing seven down from two to five hundred feet and still boring, and others just commencing, with room on the leases for several more wells.
Also a good Refinery, in complete working order, capable of refining 130 barrels per day, at a profit of one to five hundred dollars.
Also engines, tools, tubing, tanks, and improvements, the cash cost of which was $56,500, and worth to-day $75,000,—the whole comprising a property unsurpassed for present value and prospective increase.

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS itself.
It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.
☞ It does not require grinding, and is warran to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

Arrandale & Co., Manufacturers' Agents,
167 BROADWAY, NEW YORK,
Announce that all the above list of goods will be sold for *One Dollar* each.
In consequence of the great stagnation of trade in the Manufacturing districts of England, thro' the war having cut off the supply of cotton, a large quantity of Valuable Jewelry, originally intended for the English Market, has been sent off to this country, and MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, ARRANDALE & CO., acting as agents for the principal European manufacturers, have resolved upon a GREAT GIFT DISTRIBUTION, subject to the following regulations:
Certificates of the various articles are first put into envelopes, sealed up and mixed; and when ordered, are taken out without regard to choice, and sent by mail, then giving all a fair chance—
On receipt of the certificate, you will see what you are to have, and then it is at your option to send the dollar and take the article or not. Purchasers may thus obtain a Gold Watch, Diamond Ring, or any set of Jewelry on our list for ONE DOLLAR.
Send 25 Cents for a Certificate.
In all transactions by mail, we shall charge for forwarding the Certificates, paying postage and doing the business, 25 cents each, which must be enclosed when the Certificate is sent for. Five Certificates will be sent for $1, eleven for $2, thirty for $5 sixty-five for $10, and a hundred for $15.
AGENTS.—We want agents in every regiment, and in every town and County in the country, and those acting as such will be allowed 10 cents on every Certificate ordered by them, provided their remittance amounts to one dollar. Agents will collect 25 cents for every Certificate, and remit 15 cents to us, either in cash or in postage stamps. **ARRANDALE & CO.,**
mh7Dlaw & W3m **167 Broadway, N. Y.**

What the "Press" say of us.
GREAT GIFT DISTRIBUTION.—A rare opportunity is offered for obtaining watches, chains, diamond rings, silverware, etc., by Messrs. Arrandale & Co., at No. 167 Broadway. They have an immense stock of articles, varying in value, and all are offered at one dollar each. The distribution is very fairly done—you receive by mail a certificate of a certain article, enclosed in an envelope, and are not required to pay your dollar unless you are satisfied with the article, which will certainly be worth more than that amount, and may be $50 or $100. An excellent mode this of invest ing a dollar.—*Sunday Times, N. Y. City, Feb. 19, '65.*
Messrs. Arrandale & Co. have long been personally known to us, and we believe them to be every way worthy of public confidence.—*N. Y. Scottish American Journal, June 11, 1864.*
We have inspected, at the office of Arrandale & Co.'s Agency for European Manufacturing Jewelers, a large assortment of beautiful and valuable jewelry of the newest patterns. We also noticed a large quantity of silver plate, and understand that the whole of the newly imported articles are to be disposed of on a novel principle, giving great advantages to buyers, and adding extensive employment to jewelry. We know the firm in question to be very respectable and thoroughly worthy of public confidence and cordially commend our friends to read their advertisement.—*N. Y. Albion, Sept. 3, 1864.*
By Messrs. Arrandale & Co.'s arrangement, the advantages must be on the customer, for he has the certainty of a gift, and nothing comparatively to lose. He knows what he will get for his dollar beforehand, and he need not send it if he is not satisfied.—*N. Y. Weekly News, Aug. 6, 1864.*
EMPLOYMENT FOR LADIES.—The most eligible and profitable employment we have heard of for ladies is the sale of certificates for the "Great Gift Distribution" of Arrandale & Co. A lady of our acquaintance has been very successful in this way, not only in filling her own purse, but also in doing a good turn to those to whom she sold the Certificates, as will be seen from our advertising columns. Gentlemen can also be thus engaged.—*N. Y. Sunday Mercury, Aug. 14, 1864.*
In our columns, the reader will find an advertisement of Arrandale & Co.'s Gift Distribution watches, jewelry, and silver-ware. In payment of that advertisement we received several sets of the jewelry advertised, and we are warranted in saying that, both in finish and quality, they quite exceeded our expectations. They turned out to be just what they had been represented.—*True Democrat, (Lewistown,) Aug. 17, 1864.*
The British Whig of Kingston, C. W. says, Nov. 26, 1864, one of our lady subscribers became an agent for Arrandale & Co., and by request bought some twenty articles, sent as prizes for her agency, to this office for inspection, and without hesitation we can state that each and all of the articles were worth treble the amount of cost to the recipients, and some of them six times.
We have seen some very pretty specimens of Table and Tea Spoons, Gold Watches, Ladies' Chains, Pins, Bracelets, etc., which have been sent by Arrandale & Co., to this place for $1 each.—*Angelica Reporter, N. Y. State, Feb. 15, 1865.*

CORKS
Of all sizes, for Bottles, Jugs, &c., for sale by
mch28 N. F. MATHES,
48 Market street.

The Chronicle.

☞ At Richmond, a military order has been issued, designating the Powhattan Hotel as a place of entertainment of Confederate officers and soldiers. The Spottswood Hotel is forbidden entertaining all such, and those now stopping there are required immediately to vacate their rooms and leave. The Whig says "We are authorized to announce that by order of the military authorities, the Commissioners of Subsistence of the United States Army in this city will begin to-day to issue to all citizens bread at 6 1-4 cents per loaf of eighteen ounces." [Where can the people get a quarter cent ?]

KENTUCKY.—Gen. Brisbane has requested Governor Bramlett of Kentucky, to call the Legislature together, to pass an Amendment to the State Constitution, in order to restore the disturbed condition of labor by inducing the slaves to return and till the soil. He urges that they are now virtually free and are roaming about in idleness. The Governor replied concurring in the General's opinion. [Does any body remember the trash that used to ooze through the "conservative" press, about the slaves rushing to the North the moment they were freed ?]

— After Raleigh, N. C., had been formally surrendered to our forces, and while General Kilpatrick was marching through the town, an officer belonging to Wheeler's command, who, with some of his men was engaged in plundering a store near the Market House, rushed into the street and fired his revolver at Kilpatrick, who was riding at the head of his column ; the ball fortunately missed Kilpatrick, but wounded one of his staff. Chase was immediately made and the ruffian captured. In less than ten minutes he was swinging by his neck from a tree.

— A general order published in the Richmond Whig of the 25th, directs if among the paroled prisoners of the Confederate army, there are any mechanics who desire to remove to the North with their families, for the purpose of obtaining employment, they will, upon taking the oath of allegiance, be furnished with transportation to Philadelphia, New York, or Boston, as they may desire.

— The St. Paul Press gives an account of a murder in Sibley county, Minn. A Swede named Johnson chopped off the head of his son, a boy nine years old, with an axe. The murderer says the spirits told him to do the deed ; and he seemed also impressed that he could restore him to life again.

— The funeral obsequies of President Lincoln in New York, exceeded any thing of the kind ever before seen there. The cortege moved up Broadway to the City Hall, every window was crowded and every house-top covered, and the street densely thronged by a people who involuntarily uncovered as the corpse was borne by.

— A despatch, dated Cairo, April 23d, says : "Eight thousand Andersonville prisoners are at Vicksburg getting ready to return to their homes. Str. Henry Arts has taken 1300 for St. Louis. According to the dead roll, 1700 Federal soldiers were buried at Andersonville during one week.

— The St. John, N. B. Daily Globe says : "We have never seen our people so deeply moved by any occurrence, as they have been by the untimely death of of Mr. Lincoln; and their desire to exhibit the feelings by which they are moved, has been most intense."

— There are 300,000 houses in London, England, which if all set in a row, would reach across France, and over the Pyrenees. Land is in demand, and has been sold at the high price of a million dollars per acre.

— A number of empty bottles thrown into the sea on the west coast of Africa have been picked up on the Irish coast. One has been found after sixteen years, another after fourteen, and a third after ten years.

— All the paroled officers of Lee's army who are now in Richmond and wish to go to Europe, will, by direction of Gen. Ord, be furnished with passports and passage to Halifax.

For One Column, in *Daily*, one insertion $10, one week $15, one month $25, one year $200. In *Weekly*, per year, $100.
Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.
☞ We will not send more than one copy of the Daily Chronicle per week to out-of-town Advertisers, unless paid for.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 28, 1865.

TWO MURDERERS CAUGHT, AND ONE KILLED.—Sec. Stanton telegraphs from Washington, Thursday morning, as follows:

J. Wilkes Booth and Harrold were chased from the swamp in St. Mary's county, Maryland, to Garratt's farm, near Port Royal, on the Rappahannock, by Col. Baker's force. The barn in which they took refuge was fired. Booth, in making his escape, was shot through the head and killed, lingering about three hours. Harrold was captured. Booth's body and Harrold are now at Washington.

BOOTH'S DEATH is described in dispatches from Washington. Booth probably fractured his leg when he leaped from the box, yet he rode off 30 miles without drawing bridle, when he stopped to have his limb dressed. Afterwards he crossed the Potomac, traversed the Northern Neck of Virginia, crossed the Rappahannock, and made his way towards Bowling Green.—Harrold accompanied him. Lieut. Baker, with 12 men, pursued him, and on Wednesday morning surrounded a barn in which he was secreted. The country was infested with guerrillas, who began to make signals. Booth, when summoned to surrender, refused to give himself up alive. Lieut. Baker then set fire to the barn in order to force the assassins to come out. Booth, on ascertaining this, swore he would not be taken alive and snapped a pistol at his own head. It missed fire, and ere he could make a second attempt at suicide, a Union bullet had pierced his head near the place where his murderous bullet entered the head of our martyred President. The wound was mortal, but he lived three hours. He confessed all, and as his end approached he endeavored to raise his partially paralyzed hands before his face, saying, "Blood! Blood! There is blood on them!" A complete diary of what has happened since he committed the fatal crime was found in his pocket.

The soldier who shot Booth is quite a lion in Washington. He exhibits the pistol he shot him with.

☞ A Washington dispatch to the Boston Herald dated Wednesday, says,—The military this evening seized the whole block on Pennsylvania avenue, between 11th and 12th streets, creating considerable excitement among an immense crowd who declared that Booth, the assassin, was secreted there. It is believed that nothing was developed.—Secretary Seward has so far recovered that he rode out to-day, and commenced to dictate his foreign dispatches.—Intelligence has reached here to the effect that Jeff. Davis is pushing rapidly for the Mississippi river, with a view of crossing into Texas and from thence to Mexico. The Washington correspondent of the New York Tribune states that the anticipated retreat of Jeff. Davis from Texas to Mexico, with a purpose of involving us in new difficulties, has been duly considered by the government, and the project is very likely to be environed with difficulties.

Everybody seems now to agree that there is one worse man in the country than Jeff. Davis, and that is John Wilkes Booth. We think if Jeff. Davis was in the hands of the Government, every one would consent to exchange.—*Concord Patriot.*

No, not *everybody*. Booth destroyed a precious, valuable life, and is verily guilty; but on the head of Jeff. Davis and his followers north and south, rests the guilt of slaughtering uncounted thousands.—Both struck at the nation's life and liberty; but these are immortal;—the martyrs died:—but their cause lives on; and the murderers are like Cain condemned to the living death of fugitives and vagabonds in the earth,—a punishment which Cain said was greater than he could bear. The living God rules now as then; and the modern Cains, who have slain their brother because their words are evil and his righteous, are to be rewarded according to their works; for verily there is a God who judgeth in the earth.

NEW HAMPSHIRE ITEMS.

—— The steamer Lady of the Lake commenced her trips on Winnipisaukie on Monday week.

—— Dr. J. Smith Ross, Surgeon of the 11th N. H. V. is now in charge of the depot Hospital at Concord, and charged with the supervision of the medical affairs pertaining to the military system of the State.

—— Gen. Joseph C. Abbott, formerly of the 7th N. H. Vols., is announced as the Commander of the port of Wilmington, N. C., which embraces Fort Fisher, in the capture of which the General's Brigade rendered so efficient a service.

—— Joseph R. Hanson, formerly of Lancaster, has been appointed Indian Agent for the Territory of Dakotah. Mr. H., like many an adventurous and sterling New Hampshire boy, has won his way to an honorable distinction in his new home, having prior to this been a member of the Legislature of the Territory.

— Numerous farms are being sold in Sullivan county, Missouri, at the low price of five to ten dollars per acre. The purchasers are from the Eastern states.

GEN. HALLECK telegraphs from Richmond Thursday morning to Sec. Stanton:

General Meade, Sheridan and Wright are acting under orders to pay no regard to any truce or orders of General Sherman respecting hostilities, on the ground that Sherman's agreement could bind his own command only and no other. They are directed to push forward regardless, of orders from any one except Gen. Grant and cut off Johnston's retreat.—Beauregard has telegraphed to Danville that a new arrangement had been made with Sherman, and that the advance of the Sixth corps was to be suspended until further orders. I have telegraphed back to obey no orders of Sherman, but to push forward as fast as possible.

The bankers here have information today that Jeff. Davis's specie is moving south from Goldsborough in wagons as fast as possible.—I suggest that orders be telegraphed through Gen. Thomas that Wilson obey no orders from Sherman, and notifying him and Canby and all commanders on the Mississippi to take measures to intercept the rebel chiefs and their plunder.—The specie taken with them is estimated here at from six to thirteen millions.

Alluding to this suggestion, Sec. Stanton says:—

Generals Canby and Thomas were instructed some days ago, that Sherman's arrangements with Johnston were disapproved by the President, and they were ordered to disregard them and push the enemy in every direction.

SHERMAN'S TREATY.—The Washington correspondent of the Boston Post says:

Information is received that Johnston's first letter to Sherman proposed the same terms of surrender as were granted to Lee. A meeting was held, at which Wade Hampton protested against the terms, and refused to surrender his cavalry—some three thousand. Sherman consented to a delay in order to give Johnston and Hampton an opportunity to confer with Jeff. Davis. At another meeting, held the next day, the remarkable protocol, lately made public was presented, and signed by Sherman. It is further known that President Lincoln's assassination was already known to Sherman.

GEN. SHERMAN'S CATASTROPHE has astonished thousands of loyal men,—but "Perley" says in a late letter:—

Gen. Sherman's conduct cannot have astonished those who have closely studied his character, as developed during the war. It is now some four months since Gov. Andrew of Mass., said: 'I dread the effect of Sherman's policy on the minds of the Gulf States. He is a great General—a Field Marshal—of clear sight and splendid administrative powers, within the strictly military range of vision and action. But I fear he stops there. One man cannot be everything—not even Gen. Sherman. I earnestly hope the Department will supplement him by the prompt employment of men fitted to carry out its own war policy.'

LONDON AND LIVERPOOL ITEMS,—April 15th. The fall of Richmond is the universal topic. The friends of the North are elated at Grant's success, and strengthened in the conviction that the final triumph of the North is near. Even those who manifested the strongest faith in the rebel cause, show unmistakable signs of despondency. The rebel loan has declined about 6 per cent., closing at 23 a 25, while Federal securities exhibit a decided improvement.—

The Globe says: "The fall of Richmond leaves the Confederates threatened on all sides. This is a tremendous price to pay for the luxury of pushing an army to Nashville and refusing until the eleventh hour to free and arm the negroes."

Many of the English journals condemn Judge's ruling in the case of the St. Albans raiders.

The Times has an editorial regretting that the people of Melbourne should have displayed so much sympathy with the crew of the Shenandoah, who are engaged in the destruction of ships coming upon errands of peace to their own distant ports. The Times says, however, it is an affair of the populace and not of the Government, with whose difficulties it sympathizes. It recommends the Colonists, as they are not prepared to bite, they should bark as little as possible.

THE WIDOW'S TESTIMONIAL.—In noticing the decorations in New York in honor of President Lincoln, the Evening Post says:

"From a window in New York hangs a crutch shrouded with crape, and inscribed with the words 'Our loss.' Thereby hangs a tale. A woman sits at the window who has given her all to the country. No panoplied catafalque covers the remains of her husband, yet she sorrows with the emblem most expressive of her loss. She gave him up for her country's sake, and he lies on Gettysburg's bloody field. With a leg gone he was slowly moving about, when he was stricken down again. Our late President, visiting the Hospital, saw his death struggles and heard his last words, 'Goodby, Carrie—meet me in heaven.' The President's heart was opened. He stopped a moment, and wrote a letter of consolation to 'the widow of John Dinsmore,' to be sent with his crutch, and fifty dollars from his own purse. The widow has a sacred right to mourn such a loss."

— The Baltimore City Council has passed a resolution, demanding that the rebel paroled prisoners leave that city, and that no more come there unless they give satisfactory proof of their repentance. The Council have also passed a resolution requesting the military authorities to close all churches and congregations whose pastors and congregations are known to be secessionists and sympathizers with the Southern cause.

☞ Hon. John P. Hale said in his speech at Dover the other day, that "During his long acquaintance with Mr. Johnson, the *first* time that he ever heard his name connected with intoxicating drink, was the fourth of March last; and he left him on the fifteenth of April, fully impressed and convinced that the people need have no apprehension that there is anything to fear on that subject in the future." Good so,—and we have no doubt of it; for all seem to agree that he was drugged or specially led away on that one sad occasion,—or, as some say, was poisoned.

SUPREME JUDICIAL COURT.—In the case of Fredson v Walden, the jury on Thursday returned a verdict for plaintiff for $2.50.

The trial of Joseph R. Staples on an indictment charging him with entering the house of Charles E. Warren in Exeter and stealing therefrom, in November last, occupied the remainder of the week. At nine o'clock Saturday evening, the jury, being unable to agree, were discharged.

On Monday morning the following sentences were pronounced:

Erastus Goodall, 2 years in State Prison.
John Brown, 2 " "
Fanny Cusick, 4 years House of Reform.
John C. Collins, 2 years in State Prison.
Michael Hoffman, 3 " "

The next case tried was that of Joseph Garland v Oliver Lane—assumpsit on a prommissory note for $22, signed by deft., payable to Ropes & Co., and endorsed to plf. Defence, that the note in suit was not stamped, and was given for spirituous liquors. A verdict was ordered for plf. for the amount of the note and interest, subject to the opinion of the whole Court.

William Harris v A. B. Wyman. Trespass on the case, wherein plf. claimed damages of the deft., who, as master of the brig Chesapeake, unlawfully, as alleged, removed the plf.'s trunk from said vessel, and deprived plf. of the possession of his trunk, containing valuables to the amount of $40. The jury returned a verdict for plf. for $50 damages.

A motion in behalf of the State was filed by the Solicitor for an attachment against Miles Durgin, a deputy sheriff for this county, for alleged improper interference with the jurors who were in deliberation upon the trial of the indictment vs Dr. William Young, at the last trial term of this Court. The motion was argued Tuesday morning.

State vs John Donovan—indictment for keeping a disorderly house in Portsmouth—was tried on Tuesday. The case was given to the jury Tuesday evening, who after sitting up with it all night without agreeing upon a verdict, were discharged Wednesday morning.

On Wednesday morning was commenced the trial of the indictment against Martin Garrity, of Portsmouth, for keeping a disorderly house.

It is understood that the session of the Court will terminate this week.—*Ballot.*

☞ The U. S. army of the Potomac is broken up. The Sixth Corps was lately put in march for Danville, in order to hold that point and guard Gen. Sherman's communications. The Fifth Corps is posted along the Southside Railroad, guarding that line; and the Ninth, which did that duty till lately, is on its way to the Capital, from which, report says, it will be trasported to a distant point of the rebel country. The Twenty fourth Corps is in march for Richmond, where the bulk of it now is; and the Second is waiting for orders.

☞ In Pennsylvania, it is reported the District Attorney of Franklin Co., will bring before the grand jury in that county, bills of indictment against Gen. McCausland, Harry Gilmore and other leading rebels, for levying war upon the inhabitants of Franklin County, for pillage, arson and murder. There can be no doubt true bills will be found, when Gov. Curtin will immediately demand the wretches from the Gov. of Virginia, for trial in Pennsylvania.

DESTRUCTION OF ONE OF THE "BENNINGTON CANNON."—We learn from the Lancaster Republican that:

One of the ancient iron 6 lb. cannon, captured by the N. H. troops under Stark, from the British at Bennington in the Revolutionary War, was completely destroyed on the night of the 13th inst. The regular detail for firing a salute in honor of the capture of Richmond and the surrender of Lee, had left the field, when Lt. John G. Derby and Lt. Frank L. Cross remained to give a final gun on their own account. The piece was loaded with a double charge and tamped with sand, and of course was shattered to atoms at the explosion, as no gun ever cast, could withstand such a strain. The fragments flew in all directions, endangering life, although happily no person was injured. One piece weighing 175 lbs. was found near the house of Fielding Smith, 30 rods distant.

Besides endangering life and destroying the public property, this freak has annihilated a valuable relic and trophy, which, with its fellow, had been ordered by the Legislature to be suitably inscribed and placed in the rotunda of the State Capital. The particulars of the firing were given by a person who received them of the parties engaged. A piece of the breech of the exploded gun, having upon it the Crown, and the letters "G. R." (Georgius Rex—George the King,) and the "broad arrow," which to this day is the royal stamp upon English public property, is retained as a relic of this famous old piece, at the Republican office.

☞ A paper before us reprints, in a column or two, some of Pres. Johnston's speeches and documents a few years ago, showing him at that time to be a pro-slavery Union man, of the democratic party.—Well: what of it? The earth has moved some distance within five years, and Mr. Johnson has gone with it.

GOLD, Thursday, 149 to 148.

We were never aware that there was so great a difference in the qualities of bar soap until after using the J. Monroe Taylor Gold Medal Soap; our advice to our readers is, go without delay to your grocer and get a supply, for it is a truly wonderful article, and will not injure the finest fabric; our experience is that it is the best and greatest dirt-extracter known among the many different brands in the market. Their Depot is 112 Liberty Street, New York. 134

☞ A gem of a place—Thacher's new Apothecary Store, corner of Congress and Vaughan Streets.

Local.

☞ Hon. J. B. Adams has accepted the appointment of Postmaster of Portsmouth, and it is said will enter upon his duties the first of May. Mr. Adams has been one of our live business men, and a prominent Republican politician—having filled to good acceptance various offices of high public trust: Alderman, Acting Mayor, Representative to General Court, Sheriff, Delegate to National Convention, &c.; and will without doubt give as good satisfaction in his new responsibilities.

In parting with Mr. Morse, we take great pleasure in testifying to his prompt and accurate performance of every duty, and the constant practice of all courtesy, toward us, during his term of office—and probably no one customer has "patronized" the P. O. more extensively than this Chronicle. And while it should be borne in mind that the great increase of the army and navy here, has thrown an amount of business upon this office several times larger than ever before, we think it will be generally admitted that, take it all in all, the arduous duties have been well performed.

And, indeed, for our part, we must say, that during our three or four terms of P. Ms., *our* P. O. business has *always* been well taken care of—as we have not the slightest doubt it will be hereafter, in the hands of Mr. Adams, and his successors—unless, forsooth, we should get appointed to some higher office ourselves; and as to that, we don't know what we should *regard* as "higher" than our own profession.

☞ The very eloquent, patriotic and brilliant Lecture on "The Flag and the Cross," recently twice delivered in the Universalist Church in this city, by the Pastor, Rev. A. J. Patterson, resulted in something more tangible than delight to most appreciative audiences, which greatly overflowed the spacious house on both occasions—a collection for the soldiers being taken on each occasion, the first amounting, we believe, to about $80, and the second to $63, which will be well disposed of by the Soldiers' Aid Society of that parish. The fine church was very beautifully and appropriately adorned, on these occasions, with "the flag," &c., and the whole services were of intense interest to the crowds of patriotic listeners.

We also learn incidentally, that this splendid discourse is to be given in Concord next Sunday evening, when a collection will be taken for our sick and wounded soldiers. It must be great satisfaction to the never-failing loyalty and patriotism of the devoted Pastor referred to—that his personal efforts have be so signally successful; for we understand that the soldiers collections taken at his lecture in various places during the winter, amount to $500 or more. The people as well as the soldiers, will all echo, "Well done, good and faithful servant."

In this connection, all concerned must regret that another Pastor, not less patriotic and devoted, who intended raising funds in a similar way, for the same blessed object, by a ticket-lecture—should have been advised out of carrying on his plan.

☞ Prof. George C. Hinman, author of a new system of penmanship, is in town, making arrangements to open a school for instruction in his new method. We have examined his monograms, and samples of penmanship before and after taking lessons, and are surprised at the improvement manifested after a course of lessons. His method is original, thorough, attractive and very successful. It consists in familiar lectures on the general principles of forming letters, in connection with illustrations and demonstrations upon the blackboard, combined with private lessons. Prof. Hinman has made instructions in this ornamental and useful art a speciality for years, is enthusiastic in it, and has a remarkable faculty of infusing this enthusiasm into his pupils.

His magical Monograms are the most remarkable productions of inventive skill in modern times. They have only to be seen to excite applause and admiration. By examining them with care, even for a few moments, a new light breaks in upon the mind, pleasing and instructive, and the investigator has obtained much practical valuable knowledge of penmanship.

Reported for the Chronicle.

WATCH AND ALBUM PRESENTATIONS. On Tuesday evening last, the members of the First Co. Heavy Artillery, stationed at Fort Constitution, assembled at the residence of their Captain, Benj. F. Wells, for the purpose of presenting his wife an elegant and costly Watch, as a slight expression of their esteem. The presentation remarks were delivered in a felicitous and acceptable manner by Mr. Josiah S. Kinerson, who very truly remarked that, "judging from the acquaintance we had formed with one, the town of Lisbon, N. H., produced the finest ladies in the State!" Mrs. Wells has won the regards of every member of the Company, and the gift was tendered her with heartfelt gratitude and the best wishes of all.

A splendid silver Watch and Chain, and Photograph Album, were also presented to Mr. Josiah S. Kinerson by Mr. Horace S. Gould, in behalf of the Company, for his perseverance while acting as agent for the Company when South the past year. Mr. K. hails from Manchester, and is a native of Peacham, Vt. A collation followed, and every one was in a most agreeable mood.

Fort Constitution, April 27th. *

☞ The Tribune's account of the death of Shaw, the copperhead editor who was killed in Maryland by an outraged as well as outrageous populace, says the viper "was mobbed and the material of his newspaper establishment destroyed on the night of the murder of President Lincoln on account of his disloyal sentiments. He had been warned away by the people, but returned again to Westminster; he was again waited upon by a delegation of citizens who knocked at his door. He appeared, and was ordered to leave the place forthwith. He then fired upon the crowd, wounding a young man; and upon this the enraged citizens fell upon Shaw and killed him on the spot."

This reminds us that a friend, a day or two ago, laughingly informed us that the Stars and Bars man had recommended us to commit suicide! Not so far out of the way for *him* to advise, perhaps—seeing that he has been for a long time committing political suicide himself; not to mention that the crowd of his loving fellow-citizens who visited and "moved" him so suddenly the other day, we were told actually designed and desired to help him to a *suspension* of breath, as well as of publication and hostilities to the Government—one of the mob, it is said, (we hope not truly,) having a rope with a slip-noose in his hand, waiting for our blatant hero to come out of his front door, while his "better part of valor" induced him to sneak from a back way.—Not to blame for that, perhaps; but a fellow who came so near stretching a rope himself, needn't be too handy with such advice to his "betters."

☞ "Civis", (whoever he may be,) who dropped an anonymous letter in our office entry on Thursday, is informed of what he would probably have known were he a subscriber of the Chronicle—that we take no notice of anonymous communications.—What a brave fellow that must be, who gets behind an editor of a paper, and throws missiles at other people!—And as to the subject matter which brings him out,—the Gift Show which so disturbs him—we must say we don't see any harm in it; or at any rate, not more than in any other speculation.

FABIAN.—At the Temple last evening the Silver Tea Set was given to Mrs. Henry Colson, No. 9 State Street.

To-night a Model Cook Stove valued at $45 will be the leading present.

This Entertainment has met with great favor in Portsmouth, and it is conducted in a perfectly fair and honorable manner. Go and see it. 1t*

ARCANA WATCH.

An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lovers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imer Watch Company of Europe, and are superbly finished, having engraved plates, jewel protred bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125.00. A single one sent in an elegant Morocco Case for $20.00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO., lundawsz Importers, 15 Maiden Lane, N. Y.

From MONDAY MORNING, May 1st, until SATURDAY 4 P. M., May 6th, where he can be consulted on

DEAFNESS, DISCHARGES FROM THE EAR, NOISES IN THE HEAD, CHRONIC CATARRH, THROAT AFFECTIONS, AND DISEASES OF THE EYE.

☞ *Artificial Eyes inserted without Pain.*

SYMPTOMS OF CATARRH.

A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other, and occasionally on both, rendering respiration through it either difficult or impossible. The irritation in the nose produces a frequent desire to sneeze, and is accompanied with a discharge of either clear acrid water, or what is far oftener the case, a profuse, thick, yellowish, and extremely offensive matter, which forms one of the most characteristic features of the disease, and is a source of the greatest annoyance and danger.—As the disease progresses, this secretion becomes prurulent, increases in quantity, and assumes an exceedingly fetid odor. It escapes not only by the nose, but passes into the throat, producing irritation there, and requiring frequent expectoration, hawking or scraping for its removal, as its passage into the throat is very much facilitated by a horizontal position of the body; sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi recumbent position to obtain the necessary sleep.

Owing to the heat in the head the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking—a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgement. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones when small particles of that substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passage very difficult and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ear and hearing becomes quite thick or stopped up, but returns suddenly with something like a snapping sound. This phenomena may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated.

This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of fatigue and weakness.

Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by travelling downward, and producing throat affections, bronchitis, and finally consumption. It may be safely asserted that, after hereditary predisposition, catarrh is the most frequent and important cause of the fatal complaint.

The symptoms of catarrh vary some in different individuals, and the degree of their severity depends upon constitutional idiosyncrasies and various external influences. With some the complaint continues for a number of years in a mild form, and without causing any of the injurious results above mentioned, while with others all the worst effects are produced in a short space of time, and cases, apparently most harmless, may, through imprudent exposure, additional cold, or unfavorable changes of the weather, suddenly exhibit all the violence and malignity which characterize the severest ones. sp26

ONE PRICE.

Established in the year 1851.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

Seven-Thirty Loan.

These Notes are issued under date of June 15th, 1865, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These bonds are now worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " $500 "
20 " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the Notes will be forwarded at once. This is

THE ONLY LOAN in the Market

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Morning Chronicle.

THE INCOME-TAX FOR 1864.—As the time for assessing the income-tax for 1864 is at hand, we print, for the guidance of our readers, the material parts of the law as amended by the last Congress. A very important feature of the new law is, that "personal service of the blanks is not necessary, the assessor's duty requiring him only to make public announcement in a newspaper in his county."

All incomes less than $5,000 are taxed 5 per cent.; all over that sum 10 per cent. Carriages are taxed from $1 to $10. Gold watches $1 if valued less than $100, and $2 if worth more. Pianos, $2. Yachts, from $5 to $100. Private billiard tables, $10. Gold plate 50 cts. per oz.; and silver plate 5 cents.

The blanks must be filled and returned to the assessors by the first of May. Every person failing to make returns by May 15th, will be liable to assessment, with 25 per cent. added, by the assistant assessor, from the best information he can obtain; and, in case of fraud, 100 per cent. is to be added by the assessor, and from such valuation there is no appeal.

The collector, after receiving the returns from the assessor, must advertise in some paper within the district, if there is one, and by posting up at four places within the district written or printed notices, stating the time and place at which he will receive payment of the tax due, adding ten per cent. to all sums not paid by June 30, as a penalty for neglect.

Deductions are permitted as follows:

1. Exempt by law, $600.
2. All National, State and local taxes paid within the year (which includes the deduction of the income-taxes actually paid in 1864.)
3. Losses on sales of real estate purchased within the year.
4. Interest paid out or falling due within the year.
5. Amount actually paid for rent of homestead, store or shop.
6. Insurance, repairs, fuel consumed in carrying on business, wages of employees, and interest on incumbrances.

The detailed statements of the form are comprised under six seven heads, covering all sources of income or profit for the year ending December 31, 1864. The following questions are to be asked by the assessor:

Had your wife any income last year?
Did any minor child of yours receive any salary last year?
Have you included in this return the income of your wife, and salary received by minor children?
Have you any stocks, and what are they?
Is your report made on the basis of gold?
Have you bought or sold stocks or other property?
Have you any United States securities?
Do you return the premium on gold paid you as interest on United States securities?
Have you kept any book account?
Is your income estimated or taken from your book?
Have not the expenses, &c., claimed as deductions, already been taken out of the amount reported as profits?
Did you estimate any portion of your profits in making your returns for 1863?

Was any portion treated as worthless, and, if since paid, have you included it in this return.

We see by these inquiries that a wife's income must be included, so must a minor child's, whether from real and personal property or from salary. The gains upon stocks or property sold must be included. The losses may be deducted. The premium on gold paid as interest on United States securities is part of income. The deductions allowed by law are $600 for expenses of family; house rent, if actually paid. Those living in their own houses do not deduct house rent; the interest upon the value of such homestead, which the Government would be entitled to have taxed if the house were rented, is an equivalent possessed by the owner for the rent. He cannot deduct both the income value of his house and a rent beside.

India Rubber Mats.

Just received, a case of RUBBER DOOR MATS—the cheapest and most durable of all Mats. They answer the purpose of both mat and scraper, and no dust can sift through them, as is the case with other mats. We have sold large quantities of them and they give entire satisfaction in all cases.

MANTILLA, JUTE, COIR and WOOL MATS constantly on hand. E. A. STEVENS.

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—OF the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Shaw, and others.

STOVES

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and Boring wells, was chosen by some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum region, and was requested to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the Mirror, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Governor Curtin says in his Message, *fifty six millions* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney of U. S. Bankruptcy, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, went personally to the lands, saw the leases, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The Oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain Rock—the Farmer's Delight and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this Farm are success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is sold at $8 per ton, and if the vein of coal should work well it would be a fortune in itself. It is spleudid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a much more perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and boring wells in Venango, Clarion, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors Hall and Swarzlander, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. The Farm connected up the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells will sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 18 wells, and on this farm for over 900 wells. Just make computation of the oil to be made up to the yard and profit on the whole in a year, if they are as good as they are expected, if they only yield the minimum average of the wells on the Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Company sunk their wells. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to roll or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 100 barrels daily, the Jersey that flows 800, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in it, and its pipe seven-eighths full of machinery, it has flowed 250 barrels per day since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 8,200 barrels. Below this well on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indicative of oil. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $60,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. N. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 115 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome per centage on their investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.

The Chronicle.

RAPID CHANGES.—A letter from Washington, 24th, to the Boston Journal, says:

This day fortnight we were jubilant over the overthrow of Lee's army and the evacuation of Richmond; last Monday we were sorrowful over the cruel assassination of President Lincoln by the agent of the Confederate authorities; and to-day we are indignant at the attempt of General Sherman to surrender the destinies of the Republic into the hands of the slave power. Freedom to the emancipated race was to be revoked with a few strokes of the pen; the hateful doctrine of secession was to be tenderly cared for; the rebels who have been conquered in the field, were permitted to be conquerors at the ballot-box: and yet it was evidently expected that Andrew Johnson would sanction this military outrage against human rights; this wholesale abrogation of the laws of the land; this repudiation of President Lincoln's proclamation.

Strange and deplorable as the conduct of some of our officers, who are graduates from West Point, has been on previous occasions, their exhibition of affection for old comrades in Benny Havens, O!" all sink into utter insignificance when compared with the "unconditional surrender" of Tecumseh Sherman. Like McClellan, he has doubtless been tempted by offers of the Presidency of a reconstructed Republic, made by old class-mates, and the glories of his comet-like career have been totally eclipsed near Durham Station. The unconquerable energy and adamantine will of the soldier have melted and been molded like wax by the treacherous Johnston.

☞ The news of the cowardly assassination of President Lincoln was received by the soldiers of Sherman's army with feelings of horror and indignation. A letter from the army says:—

There was a time on Monday evening when danger, that the citizens did not realize, impended over the town of Raleigh and the surrounding country. Soldiers, with stern, tearful eyes, and clenched hands, muttered threats of terrible retaliation and if by any chance Jeff. Davis had suddenly fallen into their hands, no power on earth could have prevented their consigning him to the fate which they think he deserves. There was an almost universal desire expressed that Johnston would prove obstinate and impracticable, and that the war would go on long enough to enable them to avenge the wicked murder that was done in Washington.

— Dr. W. P. Parr, recently a surgeon in charge of Camp Butler, Ohio, has six thousand acres of land in Tensas Parish, La., willed to him by Thomas J. Buck, a rebel prisoner of war, upon whom he attended for about a year, and who died recently at Camp Butler.

— Forty years ago the shakers at Canterbury, N. H., purchased a wood lot of seventy-five acres in Gilmanton, paying $1100 for it. Besides taking wood and timber enough from it to pay the interest of the investment, the Society has sold $7-000 worth of timber, clear of all expense, and much remains.

—The Lacrosse (Wis.) Democrat, a Copperhead paper, in its issue of August 29th, 1864, closed a fierce political leader against Mr. Lincoln's re-election with the following words: "It be is elected to misgovern for another four years, we trust some bold hand will pierce his heart with dagger point for the public good."

—The steamer New England, Fields, master, for Boston, while lying at her wharf at St. John, N. B., with a full freight, was burned to the water's edge Thursday morning. The fire was caused by the explosion of an oil lamp in the hands of one of her crew. Three persons are missing, and others on board barely escaped, losing everything.

☞ New Orleans advices to the 21st, state that four men were killed on the day the news was received in New Orleans of the assassination of President Lincoln, for rejoicing over his death. Flour was selling in New Orleans at $8 50a $8 75 for superfine. Gen. Banks passed Baton Rouge Apr. 19th, for New Orleans.

— The Toronto papers contain an affidavit stating that the notorious McDonald of that city, together with a member of the Toronto Council named Dennison, has been discovered preparing a vessel at Collingwood for a piratical expedition upon the lakes. The scheme has been frustrated by the seizure of the vessel.

— Charles Hunt, 4 workman in a machine shop at Worcester, was obliged to pack up his tools and leave by his fellow workmen, on account of an obnoxious display of disloyalty since the President's death.

— Rev. Brown Emerson, D. D., of the South Church in Salem, Mass., has been pastor there sixty years. Last Sunday he delivered an anniversary address. His age is 88, and he has had a colleague for some time.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and safe cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicle and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other complaints of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases and only, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible evils of
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage, should be read by all. It contains 125 pages. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. Price single Married and Single 25 cts. Payable. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains information of a secret, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, will secure a copy, or 5 cts. return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still continues the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to
J. TELLER, M. D.,

Arrandale & Co., Manufacturers' Agents, 167 BROADWAY, NEW YORK,
Announce that all the above list of goods will be sold for *One Dollar each.*
In consequence of the great stagnation of trade in the Manufacturing districts of England, thro' the war having cut off the supply of cotton, a large portion of Valuable Jewelry, manufactured for the English Market, has been sent off for sale in this country AND MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, ARRANDALE & CO., acting as agents for the principal European manufacturers, have received upon a GREAT GIFT DISTRIBUTION, subject to the following regulations:
Certificates of the various articles are first put into envelopes, sealed up and mixed; and when ordered, are taken out without regard to choice, and sent by mail, thus giving all a fair chance.—On receipt of the certificate, you will see what you are to have, and then it is at your option to send the dollar and take the article or not. Purchasers generally receive a Gold Diamond Ring, or any set of Jewelry on our list for ONE DOLLAR.
Send 25 Cents for a Certificate.
In all transactions by mail, we shall charge for forwarding the Certificates, paying postage and doing the business, 25 cents each, which must be enclosed when the Certificate is sent for. Five Certificates will be sent for $1, eleven for $2, thirty for $5 sixty-five for $10, and a hundred for $15.
AGENTS.—We want agents in every regiment, and in every town and County in the country, to sell certificates at 25 cents for each; allowing 10 cents on every Certificate ordered by them, provided their remittance amounts to one dollar.—A agent will collect 25 cents for every Certificate, and remit 15 cents to us, either in cash or in postage stamps. **ARRANDALE & CO.,**
mh7Dlaw&W3m **167 Broadway, N. Y.**

What the "Press" say of us.
GREAT GIFT DISTRIBUTION.—A rare opportunity is offered for obtaining watches, chains, diamond rings, silverware, etc., by Messrs Arrandale & Co., at No. 167 Broadway. They have an immense stock of articles, varying in value, and all are offered at one dollar each. The distribution is very fairly done—you agree to take a certificate of a certain article, enclose it in a envelope, and are not required to pay your dollar unless you are satisfied with the article, which will generally be found much more than the dollar, and may be $50 or $100. An excellent mode this of investing a dollar.—*Sunday Times, N. Y. City, Apr. 16, 1864.*
Messrs. Arrandale & Co. have long been personally known to us, and we believe them to be every way worthy of public confidence. — *N. Y. Sentinel, American Journal, Jan 11, 1864.*
We have inspected, at the office of Arrandale & Co.'s Agency for European Manufacturing Jewelers, a large assortment of Beautiful and valuable jewelry of the newest patterns. We also noticed a large quantity of silver plate, and understand that the whole of these very imported articles are to be disposed of on a novel principle, giving great advantages to buyers, and adding extensive reputation to agents. We know the firm in question to be very respectable and thoroughly worthy of public confidence and recommend our friends to read their advertisement.—*N. Y. Albion, Sept. 3, 1864.*
EMPLOYMENT FOR LADIES.—The most suitable and profitable employment we have heard of for ladies is the sale of certificates for the 'Great Gift Distribution" of Arrandale & Co. A lady of our acquaintance has been very successful in this way, not only in filling her own purse, but also in doing good turns to those to whom she sold the Certificates, as will be seen from our advertising columns. Gentlemen can also be thus engaged.—*N. Y. Sunday Mercury, Aug. 14, 1864.*
In our columns, the reader will find an advertisement of Arrandale & Co.'s Gift Distribution watches, Jewelry, and silver-ware. In payment of that advertisement we received several sets of the jewelry advertised, and we are warranted in saying that, both in finish and quality, they quite exceeded our expectations. They turned out to be just what they had been represented.—*True Democrat, (Lexington,) Aug. 17, 1864.*
The British Whig of Kingston, C. W., says, Nov. 26, 1864, one of our lady subscribers became an agent for Arrandale & Co., and by request brot some twenty articles, sent as prizes for her agency, to this office for inspection, and without hesitation we can state that each and all of the articles were worth treble the amount of cost to the recipients, and some of them six times.
We have seen some very pretty specimens of Table and Tea Spoons, Gold Watches, Ladies' Chains, Pins, Bracelets, etc., which have been sent by Arrandale & Co., to this place for $1 each.—*Angelica Reporter, N. Y. State, Feb. 15, 1865.*

SATURDAY, APRIL 29, 1865.

JOHNSTON'S REBEL ARMY SURRENDERED!—An official dispatch from Sec. Stanton says, "A dispatch from Gen. Grant dated at Raleigh, 10 P. M., April 26th, states that Johnston surrendered the forces in his command, embracing all from there to the Chattahoochie, to Gen. Sherman on the basis of Lee's surrender.

GEN. STONEMAN, it appears, has done some service since he was heard from, and before he was paralyzed by Sherman's fall. A Knoxville, dispatch of April 7 says:

Since the last intelligence from Stoneman's command, the following has been accomplished. One portion of the command, under Col. Palmer, moved down the Catawba River, dispersing parties going southwest from Johnston's army, and capturing upwards of 2000 prisoners and two pieces of artillery, and amongst other things destroyed was the immense railroad bridge across the Catawba River, 1125 feet long and 60 feet high. Then learning that a general armistic had been entered into between Sherman and Johnston, Col. Palmer ceased operations.

The other portion of the command under Gen. Gillen attacked and routed a rebel force under Maj. Gen. McCowan at Morgantown, taking one piece of artillery. Gen. Gillen afterwards forced the passes through the Blue Ridge held by the rebel forces under Gen. Martin, taking six pieces of artillery, and would have captured or dispersed the *whole force* had he not been met by Gen. Martin with a flag of truce bearing a letter from Sherman, *countersigned by Johnson*, and directed to Stoneman, ordering a general suspension of hostilities and the withdrawal of our forces under Stoneman.

☞ The Richmond Whig of Wednesday says, on the authority of a gentleman from Greensboro', N. C., that Davis started south from Greensboro' on the 14th with his cavalry escort. Governor extra-Billy Smith had returned to Danville. The Davis party spoke openly of their intention of making for the trans-Mississippi, and were confident that they could get there without interruption. The Whig does not agree with them. Trenholm, the rebel Secretary of the Treasury, refused to sell any gold to the citizens of Greensboro' for Confederate notes, though they offered to pay any price. Extra-Billy Smith, on the 12th, made a speech exhorting the people to flock to the banner of Johnston, but not one man flocked that way.

☞ The U. S. Gen. Lemoin has arrived at New Orleans, from Montgomery, 14th, and says the rebels under command of Dan Adams and Buford, commenced evacuating two hours before the arrival of the Union army. Buford, commanding the rear guard, ordered 25,000 bales of cotton to be burned, which was done despite the protests of the citizens. Our forces have destroyed the steamers King, Augusta and Nina, on the Alabama river, and the Little Cherokee was burned on the Talapoosa by parties unknown. Our forces destroyed all the rebel depots, workshops and rolling mills, leaving private property unmolested.

☞ The statement that President Johnson declines all precautions for his personal safety is erroneous. He approves the precautions taken by the authorities, which embrace the continuance upon duty of the late President's body-guard, commanded by Lieut. J. B. Jamieson, of Ohio, consisting of one select man from each county in Ohio, and numbering nearly one hundred men. A sufficient force of this guard is upon duty at all times, and in fact every reasonable precaution is taken to prevent any violence being attempted upon the President.

☞ In Philadelphia, on Thursday afternoon, Charles Ingersoll, brother of Edward Ingersoll, a sympathizer with the rebellion, went to Spring Garden Hall for the purpose of giving bail for his brother. On descending from his carriage, he was set upon by the populace and badly beaten. He took refuge in the hall, and was conveyed home. Several prominent secessionists proposed to visit the hall that afternoon, to consult with Ingersoll, the prisoner, but they were warned not to do so, and desisted. The excitement was high, and sympathizers with the rebels can hardly be said to be safe.

☞ At Harrisburg, Pa., on Thursday afternoon, William Young, who was arrested week before last by the Provost guard, for making obscene comments on the death of President Lincoln, was escorted through the principal streets of the city by a squad of the Veteran Reserve Drum Corps, who played the Rogue's March. The prisoner was elevated on a board, upon which were printed words descriptive of his offence.

— Parson Brownlow, after a tribute to President Lincoln, in his paper, refers to President Johnson as follows: "Whether the rebels will have cause to rejoice over or mourn President Lincoln's untimely end, will be seen in the future. We are greatly mistaken in the character of his successor, if they do not have occasion to call on the mountains and the rocks to hide them from his wrath."

BOOTH'S CAPTURE AND DEATH furnish material for many interesting items in the newspapers. The report that Booth attempted to shoot himself while in the barn is incorrect. He, however, in his parley with his besiegers, intimated that he would not be taken alive.

Harrold's capture furnishes highly important details of Secretary Seward's attempted assassination, quite different from what has been published. As more arrests are to be made, it is not deemed prudent to mention these developments.

B. and H. rode out of Washington together, and B. rode with his fractured leg till daylight, into Charles Co., Maryland, where Dr. Mudd dressed the fracture. The latter was arrested several days ago. From there they pushed on to a place called Swan's Point, and crossed the Potomac last Sunday night, disguised as rebel soldiers.—Before reaching Swan's Point they were secreted by inhabitants several days. When in Virginia, guerrillas furnished horses, and they rode thirty miles inland to Port Royal three miles from which place two brothers named Garrett resided: representing that they were paroled rebel soldiers, and Booth had been wounded. Crutches and other accommodations were furnished at their house till Booth could travel. When the reports of Union cavalry being near arrived, they hid in Garrett's barn, which was pointed out during Tuesday night as the hiding place of the criminals by one of the Garrett's. Detective Baker, accompanying the cavalry, boldly rapped on the barn about two o'clock A. M., and asked Booth to come out: the latter, supposing he was among friends, answered. He soon found out his mistake, and became very defiant. Harrold yielded most meekly, and begged Booth to give himself up. The latter let Harrold go out of the barn, upon condition of his leaving his weapons behind. After the barn had been burning three quarters of an hour, and when the roof was about to fall in, Booth, who had been standing with a revolver in one hand and a carbine resting on the floor, made a demonstration as if to break through the guard and escape. To prevent this, Sergeant Corbett shot, intending to hit Booth in the shoulder, so as to cripple him. The ball, however, struck a litte too high and entered the neck, resulting fatally.

☞ A Louisville, Ky., dispatch of Thursday says,—a train on the Memphis branch of the Louisville and Nashville Railroad from Clarksville was thrown of the track and fired into by 18 guerrillas, under Capt. Morrow, Wednesday afternoon. The guard and passengers returned the fire, wounding Morrow. Three of our men were wounded, supposed mortally. A fight occurred Wednesday near Brandenburg between our forces and Captain Bacon and some 20 guerillas, resulting in the capture of two-thirds of the guerrillas. The Louisville guerrilla, Capt. Straney, recently convicted by the military commission, was hanged at Louisville Thursday.

☞ The Boston Transcript says truly,—To abandon in whole or in part, the view the people take of the rebellion, and the policy they would have sternly carried out in dealing with it, is reason enough for censure of the greatest man on the Continent, wherever, at any precise moment, he may be. Whenever such a man yields to treason, it is himself, not the popular breath that dims the lustre of his laurels, that stains his hitherto unspotted fame. His grand achievements, as evidences of special abilities, will not be forgotten. But when he brings his mighty successes to throw them at the feet of the country's enemies, to purchase an ignominious, dishonorable peace, he by his own act, throws, himself headlong from his lofty place. Twenty millions of people cannot and will not stultify themselves, or ruin themselves as mere hero-worshippers. The universal condemnation, sad, but instantaneous, by men of all parties, of the negotiations in North Carolina, is a proof of this; and it is puerile in the extreme to talk of that condemnation as ingratitude or caprice, or forgetfulness of past victories.

☞ The Boston Courier animadverts on the action of a body with which it has been and still is in the heartiest sympathy. Let it be remembered that Copperheads and not Republicans are responsible in this matter:

The committee of the Common Council in New York, positively refused the colored people of that city any place in the funeral procession, in honor of the late President. Afterwards, arrangements were made to admit them. Surely, if any inhabitants of the country may well cherish the memory of Mr. Lincoln, it is those in whose behalf he had always shown the strongest sympathy; and they are properly entitled to be put at the head of any such demonstration as that proposed. It may justly be feared, however, that, as the war on their account has hitherto brought them only suffering and death, so their claims of whatever kind are likely to receive, when the war is ended, only the slightest consideration.

The war was not waged by the United States on *their* account, but the *rebels waged it* not only to keep *them in* slavery, but to rule the country by means of an aristocracy built on the back of the slave.

— Another blockade runner has run into Galveston. She was somewhat damaged by our gunboats.

NEW HAMPSHIRE ITEMS.

—— The Wolfborough News says it is reported that two additional "all-sloughshore" steamers will be set sailing upon Lake Winnipissogee the approaching season.

—— We learn from the Nashua Gazette that on Saturday, 22d, an insane man named Barnard entered the stable of Mr. Jefferson Coburn in New Boston, and killed a horse belonging to Mr. Coburn valued at $700. He had previously made an unsuccessful attempt to kill a boy.

—— The stockholders of the Indian Head Bank voted to adopt the National Banking system.

—— Abner Norcut of Strafford, openly expressed his joy at the assassination of President Lincoln, when the terrible tidings reached that place on the 15th. On the ensuing morning he was found suspended in effigy above the railway crossing, bearing upon his breast a placard inscribed "Abner Norcutt, the man who rejoiced at the assassination of Abraham Lincoln."

—— Gen. Joseph C. Abbott, formerly of the 7th N. H. Vols. is announced as the Commander of the port of Wilmington, N. C., which embraces Fort Fisher, in the capture of which the General's Brigade rendered such efficient service.

NEW HAMPSHIRE DELEGATION.—A large number of New Hampshire citizens paid their respects to President Johnson on Thursday morning last, and were introduced by General Gilman Marston, as follows:

Mr. President:—I have the honor to present to you the citizens of New Hampshire now sojourning in Washington. They have sought this opportunity to pay their respects to you, sir, with whose eminent public services they have long been familiar, and upon whom the office of Chief Magistrate of the nation has so suddenly devolved.—The people of New Hampshire loved and honored the late President. They had perfect confidence in his uprightness, his sagacity, and his entire devotion to the interests of the people who had honored and trusted him. He had guided the nation through four years of war, and when the Union arms were every where victorious, the fell spirit that had so long sought the life of the nation, sought and destroyed that of its reverend ruler. Never, never did the wail of a great people so quickly follow their triumphant shouts to the skies.

We come, Mr. President, to express to you the confidence with which our knowledge of your past public life, and your devotion to the interests of the people and their Government, have inspired us, that at your hands the Republic will receive no detriment. We come to tender to you all the support and aid which it may be in our power to render in the great work of restoring the States that have been in rebellion to their "former practical relations to the General Government," and establishing the Union on principles of justice and right, so that it may endure forever.

To which the President, frequently interrupted by applause, responded in a speech, of the same import as those he has made to other delegations, and the substance of which we have heretofore published.

GOLD, Friday, 147.

—. Gen. Banks assumed command of the Department of the Gulf on the 22d inst.

— A letter describes the Empress of France as having a large mouth. This enables her to swallow the flattery offered her.

— A camp for rebel prisoners has been established at Newport News. It is guarded by colored troops who rigedly hold to their orders.

—Erlanger, who married the Rebel Slidell's daughter, is one of the largest dealers in United States bonds at Frankfort, Germany.

—The Empress of Mexico rides in a phaeton drawn by six mules, and her husband rides in a car of Empire drawn by as many millions.

— The official, civil or military, who palavers with rebels in arms, proposing any other terms than unconditional surrender, is sure to go under the great current of popular sentiment.

— The Nashville Daily Times, of the 22d inst., has a report to the effect that John Bell, formerly a U. S. Senator, and candidate for the Presidency in 1860, died recently in Alabama.

— The negro portion of the great procession in New York was greeted with many demonstrations of favor along the route. They carried the motto, "Our Emancipator."

— The late President Taylor's son, a Major in the rebel army, has been paroled for ten days at Louisville, in order to enable him to leave the United States—he having refused to take the oath of allegiance.

— New York coal dealers are retailing their stock at $10 per ton. The prices obtained at the last auction sale in New York were from $1.92 to $3 per ton less than in January.

— It has been decided by Judge Clifford, of the United States Supreme Court, that a man who expressed his joy at the assassination of President Lincoln, is not fit to serve as a juror in the Courts of the United States.

— The rebel Government ought to be arrested, tried by a justice of the peace, and sent to the work-house upon the charge of having no visible means of support, says the Louisville Journal.

☞ A gem of a place—Thacher's new Apothecary Store, corner of Congress and Vaughan Streets.

Local.

☞ In the Police Court on Wednesday, John Q. A. Toppan and George H. Stone, were arraigned for keeping a noisy and disorderly house on Penhallow street, and were ordered to recognize in the sum of $100 for their appearance at the Supreme Judicial Court.

Three young men engaged in a drunken row in the above place, and whose names we suppress by request, were fined $2 each and costs.

Two female attendants in the establishment, named Ellen Brown and Ida Edwards, were allowed forty-eight hours in which to gather together their personal effects and leave the city.

☞ On Thursday, Cornelius Kane for indulging in the luxury of getting drunk, was fined $3.00 and costs, $2.86.

Lucretia Tibbets a graduate of the "House of Blazes," was arrested for fornication, and ordered to recognize in the sum of $100. Mittimus issued.

John Reardon, her partner in crime, charged with same offence, was dealt with in like manner.

☞ A resolution was offered in the City Council on Thursday evening by Mr. Nowell, of Ward One, authorizing the employment of the Portsmouth Cornet Band, at an expense of $200, to give public Concerts on Market Square, weekly, during the coming Summer evenings. Read and referred.

☞ Prof. Fabian closed his Entertainment at the Temple last evening. This exhibition has given great satisfaction to large audiences.

☞ In our Auction column this morning, will be found various advertisements of goods and estates to be sold to-day—houses, lands, furniture, watches, &c. &c., at your own prices.

☞ Miss S. S. Van Horne, of Portland, Me., will lecture on Temperance in the Court Street Christian Chapel to-morrow (Sabbath) evening, at 7 1-2 o'clock. Miss Van Horne comes to our city highly recommended, both as a Christian lady and an interesting and instructive lecturer. Her subject is one in which she is herself personally interested, and her hearers may therefore expect to find her alive and earnest in its advocacy. Let all hear her who can.

☞ We are glad to learn that the Lecture of Mr. P. A. Collins (Organizer of the Fenian Brotherhood in New England,) was well received by the Irishmen of this city, at Union Hall on Thursday evening, and that the foundation of a strong Circle was laid before he left the Hall. About thirty-five good men came promptly to time, and enrolled themselves as members of the Organization; after which they elected the following officers: Centre, John Harris; Secretary, John Curtis; Treasurer, John Donovan. A Committee of Safety, consisting of five gentlemen, was also appointed. In all probability the Circle will soon number over a hundred. Success to them.

ERIN.

☞ Academy Hall is, we understand, being refitted and refurnished in elegant style for Prof. Hinman's grand course of lectures and practical criticisms in Spencerian writing. An exceedingly rare chance is now offered to our citizens to be thoroughly and scientifically taught in this important branch of education. We know whereof we speak.

☞ In reply to the inquiries of scores of not hundreds of friends, as to whether we have ever "got that Ink" we lent the Stars and Bars man, we simply say No; when they inform us that we might have gotten it, if we had been on hand at the cleaning out the other day. No doubt, but we fear it would not "work well" for us after being in that coppery establishment.

AIDING DESERTION.—Samuel D. Ham of Rochester, was arrested there on Thursday, the 27th inst., at the instance of U. S. Detective J. Horace Kent, charged with aiding and abetting desertion. He had a preliminary examination before U. S. Commissioner Hackett in this city, and was held to bail in the sum of $1500 to answer to the U. S. Court to be holden in this city on the 8th of next month.

THE MOTIVE FOR MR. LINCOLN'S ASSASSINATION.—Bishop Potter, in an address to the clergy and laity of the diocese of New York, on Easter Eve, on the subject of President Lincoln's assassination, said:

"No one will allege that personal hostility had anything to do with it; for it is well known, and, I think, generally admitted, that Mr. Lincoln had not a personal enemy in the world. He was murdered simply because he had done his duty in the great office to which he had been twice chosen by the free voice of his countrymen; because he was unexpressibly dear to the loyal heart of the American people; because he was honored, trusted and loved by the nation he had served so well. This, and nothing but this, was the motive which prompted that most unnatural, most appalling crime."

— At Cumberland Gap, Wednesday, rebel stragglers to the number of over 100 came in and continue to come in singly and in squads. Col. Dillon has received a communication to the effect that by Saturday nearly all the rebels in that section will have surrendered to him.

— By way of New Orleans, it is reported that Gen. Dick Taylor will surrender his army to Gen. Canby, if favorable terms are granted.

— Several of the gunboats and ironclads burned and blowed up in the James River by the rebel authorities have been raised, and much of their armament found in good condition.

— Fears are entertained of the levee breaking in front of Algiers, opposite New Orleans, where there are extensive Government works, as the river is very high. A large force is at work strengthening the levee.

— The disposition that has shown itself, and would show itself again if it was safe to do so, to make a fallen hero of General Lee, and to talk about his magnanimity, is most discreditable to those who indulge in it, and most insulting to the loyal people.

A monstrous Liverpool rat, with a nest of six young ones, evidently born on the voyage, were found in a crate of imported crockery unpacked at Philadelphia on Tuesday.

The J. Monroe Taylor Gold Medal Soap is the best article in the market. It requires a little less than one half the quantity to do the same work, and when done, leaves the fabric in much better condition than any other kind of Soap. One trial will convince the most skeptical. Use no other, have no other, and be put off with no other. 135

MARRIAGES.

In this city, April 27th, by Rev. A. J. Patterson, MR. JEREMIAH TOWLE of Newington, to Miss VIRGINIA A. VAUGHAN, daughter of Wm. A. Vaughan, Esq., of this city.—Mr. JOHN F. DEARBORN of this city, to MRS. ELIZA A. REYNOLDS of New Market.

Special Notice.

To the Readers of the Morning Chronicle, Portsmouth, N. H.

The undersigned would respectfully ask attention to the preparations known as

Hunnewell's Universal Cough Remedy

The Great Remedy for all Throat and Lung Complaints.

HUNNEWELL'S TOLU ANODYNE, A perfect relief for Neuralgia, all Nervous Complaints, and Loss of Sleep.

HUNNEWELL'S ECLECTIC PILLS, Declared to be the most perfect Cathartic and Family Pill; seldom requiring more than *One* for a dose, without *Griping*, and one that should be known to every family.

These preparations will be noticed each month, and originating from most potent questions in Medicine, enjoyed for ten years unbounded reputation; readers are invited to accept such notices as a true index of character, and give their confidence to test them.

JOHN L. HUNNEWELL, PROPRIETOR, Practical Chemist, Boston, Mass.

ARCANA WATCH.
An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Levers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imer Watch Company of Europe, and are superbly finished, having engraved balance, fancy curved bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO., Importers, 15 Maiden Lane, N. Y. 1mdawsn

DR. LIGHTHILL,
OCULIST AND AURIST,
No. 20 Boylston Street, Boston,

WILL BE AT THE

ROCKINGHAM HOUSE, Portsmouth,

From MONDAY MORNING, May 1st, until SATURDAY 4 P. M., May 6th, where he can be consulted on

DEAFNESS, DISCHARGES FROM THE EAR, NOISES IN THE HEAD, CHRONIC CATARRH, THROAT AFFECTIONS, AND DISEASES OF THE EYE.

☞ *Artificial Eyes inserted without Pain.*

SYMPTOMS OF CATARRH.

A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other and occasionally on both, rendering respiration through it either difficult or impossible. The irritation in the nose produces a frequent desire to sneeze, and is accompanied with a discharge of either clear acrid water, or what is far oftener the case, a profuse, thick, yellowish, and extremely offensive matter, which forms one of the most characteristic features of the disease, and is a source of the greatest annoyance and danger — As the disease progresses, this secretion becomes prurulent, increases in quantity, and assumes an exceedingly fetid odor It escapes not only by the nose, but passes into the throat, producing irritation there, and requiring frequent expectoration, hawking or scraping for its removal, as its passage into the throat is very much facilitated by a horizontal position of the body; sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi recumbent position to obtain the necessary sleep.

Owing to the heat in the head the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking—a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgement. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones when small particles of that substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passage very difficult and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ear and hearing becomes quite thick or stopped up, but returns suddenly with something like a snapping sound. This phenomena may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable and disposed to water on exposure to cold and wind, or after the slightest exertion A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated.

This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of fatigue and weakness.

Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by travelling downward, and producing throat affections, bronchitis, and finally consumption. It may be safely asserted that, after hereditary predisposition, catarrh is the most frequent and important cause of the fatal complaint.

The symptoms of catarrh vary some in different individuals, and the degree of their severity depends upon constitutional idiosyncrasies and various external influences. With some the complaint continues for a number of years in a mild form, and without causing any of the injurious results above mentioned, while with others all the worst effects are produced in a short space of time, and cases, apparently most harmless, may, through imprudent exposure, additional cold, or unfavorable changes of the weather, suddenly exhibit all the violence and malignity which characterize the severest ones. ap26

Local.

☞ Recruiting officers Henry C. Keene and J. R. Childs, and Assistant Surgeon E. C. Ver Meulen have been detached from the Naval Rendezvous and are awaiting orders.

A distinguished Judge in the eastern part of the State, having quite recently taken a wife, spent a portion of the honeymoon in holding a Court in Carroll County. Upon the trial of a case, Frank R. Chase, ex-Speaker of the House of Representatives, was examining a lady witness, who did not answer all of Frank's questions to his satisfaction, and a little badgering on the part of the Attorney was going on, when the Judge interrupted him by a request that he would confine himself to the evidence of the case on trial, and added that he "had found in these encounters with women, that men usually got worsted." Frank looked up with a quizzical air and remarked, "I am glad to know that your Honor has learned so much in so short a time."—*Ballot.*

☞ Benj. B. Sherman, a leading merchant 95 Wall street, New York, it appears has consented to act as Treasurer of the Memorial Fund to be presented to Mrs. Lincoln as some part of the debt due to the memory and services of her husband. Subscriptions to be limited to $1 each, but every man, woman and child, of all colors and conditions, allowed to contribute in person or by proxy, or through the Post-Office.—The Tribune says,—Now let us make the sum up at once, before proceeding to build monuments. But understand, that we are paying a debt to our late President, not bestowing charity. The People voted that he should have $100,000 for four years' services. An assassin has taken this money from his family in taking away the life most dear to them. We must restore the life; we can pay the money; we ought to do it: and it is every way preferable that it should not be taken out of the Treasury, but paid by those only who will deem this at once a duty and a privilege.

— Unfortunate phraseology the N. Y. Times employs to express the marvellous accomplishment of Booth's great crime, when it says "the plot has been perfectly and speedibly successful."

— The colored Free Masons of New York made application to the city authorities, to be assigned a place in the funeral procession of the President, but had a point blank refusal.

Special Announcement.

HIGHLY IMPORTANT

TO

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE PILLS are unsurpassed by virtue and efficacy in removing all complaints of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Leucorrhœa, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 25 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States. Letters must contain a fee. Office arranged with separate apartments, so that patients are none but the Doctor himself.

Address Dr. Briscoe, at No. 25 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1864. 1Tthly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 25 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gal lons less per 100 lbs. Ton than any other paint. It possesses more body than any other paint. It forms a glossy, unfeeling, durable enamel coat, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is ready to use, giving satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

PETROLEUM OIL AGENCY.

The California Petroleum Company.

In the Summer of 1864, Professor B. Silliman, Jr., examined this locality, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.

The property covers an area of 18,000 acres in one body, on which are located the celebrated *Burning Natural Wells*, some of them the largest size. Artesian Wells can be put down, 25 miles in extent. The Company is an old Spanish Grant of four leagues, and perfect title.

WELLS, FARGO & CO. say that "those who wish to invest in this class of security need not hesitate a moment where to place their money;—here is a good, honest, reliable concern—one which in our judgment will pay."

Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.

The property consists of 108 acres, in *fee simple*, on Two Mile Run, near Oil City—a double lease of the Clapp Farm above Oil City, and four acres in fee simple on Pithole Creek, in the heart of the Oil Region.

Capital $300,000 Shares $3. Par Value $6.

Sheffield Petroleum Company.

This property consists of 225 acres on the Tionesta Creek—seventy-five acres in the same vicinity. This property is cut through by the ten mile run, a branch of the Tionesta, and the Sandburg & Tyre Railroad. This property is considered of great value in the market.

Capital $300,000, Shares $1. Par Value $3.

Everett Oil Company,

OF BOSTON.

The property of this Company consists of 200 acres of land secured in the simple, and two leases as follows: The land is located on Oil Creek, near Centreville Depot. The Oil Creek Railroad passes through the land. It has a river front of over one quarter of a mile. It is rich in oil.

Capital $300,000. Subscription price $5.

President Petroleum Company.

A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. It contains 3,600 acres, very valuable in Oil, Coal and Timber.

New York and Newark

PETROLEUM CO.

The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil District of Pennsylvania (Venango County), and lays in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Allegheny River, one piece being on that river—The Company have a twenty years' lease for one-half the Oil.

It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON E. TOWLE is Engineer and Superintendent of this company.

Capital $600,000. Shares $1.

All the above Stock for sale at the AGENCY,

No. 47 Congress Street, Portsmouth,

where Maps, Drawings and Pamphlets are ready for distribution.

I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.

Call and examine for yourselves.

JOHN S. HARVEY, AGENT.

Portsmouth, March 15, 1865.

LEVI H. STRAW, of Boston.

Directors.

John S. Barry, Boston, Y. J. Messinger, Canton, S. Johnson, Charlestown, Seth B. Brown, Boston, J. S. Shailer, Roxbury, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Rouse, Hemlock, Norman and Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced boiling, which places this Company in sight of success. The officers of this Company, in placing this property before the New England public, have full confidence that they will find yet another Oil Company, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, or at the OFFICE OF THE COMPANY, No. 47 Congress Street, BOSTON.

NEWTON'S PILLS.

(Anti-Bilious.)

Composed of highly Concentrated Extracts from

ROOTS AND HERBS

Of the greatest medicinal virtue, prepared from the original manuscript of the celebrated Dr. NEWTON, and used by him with such remarkable success for twenty years in all parts of the United States, for the speedy relief and permanent cure of

DISEASES OF THE LIVER,

OR ANY DERANGEMENT OF

The Digestive Organs.

THEY CURE

Diarrhœa, Dysentery, Dyspepsia, Biliousness, Scrofula, Liver Complaint.

The well-known Dr. WARREN of Boston says of these pills, "They have the finest effect upon the Liver and digestive organs of any medicine in the world, and are the most perfect purgative which has ever yet been made by anybody. Their effects have already shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. They penetrate to every part, stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone and vigor to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases, while they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, and being purely vegetable are free from any risk or harm.

The most remarkable feature of these pills is the perfection with which they act in extremely dissimilar chronic diseases. THE SAME DOSE cure Diarrhœa and Dyspepsia, in either case restoring the organs to a healthy and natural condition, which cannot be said of any other medicine in existence.

They create pure blood and remove all impurities from the system, hence are a positive cure for

Fevers, Headache, Piles, Mercurial DISEASES, AND

Hereditary Humors.

☞ *Price One Dollar per Box. Trade supplied, or sent by Mail, post paid, to any part of the United States or Canadas, on receipt of Price, by*

Office, No. 5, Smyth's Block,

MANCHESTER, N. H.,

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Dates, of Titusville, a man who has been active in the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this enterprise, as a man of honesty, energy, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. Mr. Dates, Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Dates, and became convinced that they were among the very best that could be had. The great Oil Belt extends from Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the most of the oil in Pennsylvania. As Gov. Curtin says in his Message, *fifty six millions* of dollars. The last of March, S. W. Harris, Esq., a well known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions as the others had, and the Four farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well, the Lower Coquet, barrels per day—within 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel will sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Farm below Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid timber, burning fuel for Cabins.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little over three cents a barrel to place it on the cars. Instances are on record of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. G. P. Hall, of the Cherry Creek Farm, in Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting greater inducements of a more full and perfect character than any other that I am acquainted with; and I have spent much time and money in the business, in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments."—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Hall, of Mr. Dates, it will be a fortune in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Hall, of Mr. Dates, it will be a fortune in sinking and boring wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of considerable value. There is abundant room on each acre for 18 wells, and on this farm for over 900 wells. Just make a computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they are expected, if they only yield 1 barrel per day, and 1 of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. The Company is in good shape for the best results, but many state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and directly east of Oil Creek, and the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite the farm and struck oil. The Parker Farm is on this same Oil Belt and would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the larger that flows 600, the Maple Shade and other noted flowing wells and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it, and began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 250 barrels per hour ever since. They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a pumping well that has been kept low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located for wells, and would be worth millions. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is bowing as freely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; goes at 20 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was bored forty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends—This Company propose to commence operations at once, and no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 80 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$500 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $500.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $600.
$5000 in solid SILVER TEA SPOONS, from $10 to $18 per set.
$5000 in LADIES' FURS, in sets from $60 to no maximum, in Sable, Lynx, Mink, Marten, Ermine, Sable Lynx Cape at $600.
$5000 in BLACK SILK or FANCY SILK DRESSES, at from $60 to $75 each.
$5000 in GENTS' FULL SUITS OF CLOTHING, at from $60 to 75 each.
$5000 in Gents' DRESS HATS, at $10 each.
$5000 in Ladies' DRESS HATS, at $20 each.
$5000 in Ladies' STRAW BONNETS, at $10 each.

STATE RIGHTS.—The following is an extract from one of "Carleton's" letters from Richmond:

The Sentinel office was not destroyed. I saw the proprietor to-day. He formerly did the government printing. We had a pleasant interview.

"I was very sorry," he said, "to see the Stars and Stripes torn down in 1861. It is the prettiest flag in the world, but I shed tears when I saw it raised over the Capitol of Virginia on Sunday morning."

"Why so?" I asked.

"Because it was done without the consent of the State of Virginia."

"Then you still cling to the idea that a State is more than a nation."

"Yes. State rights above everything."

To this the Daily Copperhead responds in these words:

We say emphatically—"State Rights above everything," and by these we mean all rights not delegated to Congress—without assuming to say what they are or are not.

Nonsense, nonsense, (says Uncle Toby:) nobody need assume anything, if he believes what the Constitution of the United States says, viz. that the Acts of Congress under the U. S. Constitution are the *Supreme law of the land*, anything in a State law or Constitution to the contrary notwithstanding.

The people have rights, the States have powers,—and the National power makes the supreme power of the land, and circumscribes the States.—While over all, God reigns, and when we build up a Babel, he confounds the builders; and the rain topples over and tumbles down.

The same insane folly which built up the rebel Confederacy on the weak foundation of State supremacy, and multitude laborers,—would fain get up some new edifice of the same nature on a smaller scale; but it is a vain effort; intelligent people don't believe the trash, and they pity the simpletons who dole it out.

The poor Virginian who cried over the raising of the Nation's flag, has fancied his State supreme,—the nation subordinate. He has found his mistake. We are a nation, we have a Government, and the people mean to preserve it. They have voted for it, and fought for it; and they are not disposed to exchange it for a Virginia abstraction.

ATTEMPT TO POISON ANDREW JOHNSON ON THE FOURTH OF MARCH LAST.—In view of recent events and developments, it is believed that Andrew Johnson, who has endured so much undeserved obloquy for his singular abberation on the 4th of March, was on that occasion under the influence, not of spiritous liquors, nor either of a mere disturbing drug, intended only to disfigure him, but of a deadly poison, furtively insinuated in his drink with the view to take his life. On this subject, Wilkes' Spirit says:

It is in proof that the assassinations were to have been perpetrated on the 4th of March, and that Booth, the chief assassin, had posted himself in a position where Mr. Lincoln must pass closely by, and it was doubtless expected that about the time when the President should have perished by the pistol, the new Vice President would have expired in the Capitol from the effects of poison he had taken. Probably this view of the matter has never struck the mind of Mr. Johnson, and it is not to be supposed that under the mystery of that strange occurrence, which must have puzzled him more than anybody else, he would care to allude to the affair with any attempts at explanation that might have been misunderstood.

The disclosure of instructions distributed among the assassins, that "they were at liberty to use the blade, the pistol, or the bowl, but they must bear in mind *the latter had once failed*," seems to be conclusive upon this point, and will doubtless suggest some important recollections to the President's mind. His powerful nature triumphed over the infernal draught, and thus, in addition to an invaluable life being saved to the nation, we are gratified in the conviction, that one who has always been a sober, self respecting statesman, is now providentially relieved from even a passing cloud on his career.

VIRGINIA FARMING.—The farmers about Richmond are returning to their homes, whence they were torn by the Davis conscription, and are prepairing to resume the tillage of their farms. Some outrages and horse-thieffs are committed by stragglers from both armies; but are put down by the United States military authorities. The cereal crops promise well in Virginia.

A SAD CASE.—About a year since a respectable girl living near "Old Harbor Wharf," South Boston, was married to a man who was comparatively a stranger, and they lived pleasantly together till two months ago, boarding at her father's house, when information was received that the man had two other wives living. The villain immediately ran away. The poor girl, who was only eighteen or nineteen years of age, took her bed from grief and died last night.—*Traveller.*

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures which are no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cord, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with Immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures: Dr. TELLER's great work for the Married or those contemplating marriage—a copy by mail of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Marriage Guide, price 25 cts. Reply. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. These are of more than 20,000 boxes annually establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other diseases peculiar to females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 2 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students now employed. Notice this, address all letters to

Cleanse the Blood.
With corrupt, disordered or vitiated Blood, you are sick all over. It may first out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the healthy and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Epilepsy or Venereal Disease, Liver Complaints, and Heart Diseases. TRY AYER'S SARSAPARILLA, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla, for one dollar. Most of these have been frauds upon the sick, for they not only contain little if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla, which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtue which are irresistible by the ordinary run of the diseases it is intended to cure. We can only assure the sick that we offer them the best alterative which we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered by any body.
AYER'S CHERRY PECTORAL is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.
Prepared by J. C. AYER & Co., Lowell, Mass. and sold by Brackett Hutchings, Thacher, W. R. Preston, David Kimball, and all druggists.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

Morning Chronicle.

Portsmouth, N. H.

MONDAY, MAY 1, 1865.

WASHINGTON ITEMS, May 28.—Surgeon General Barnes reports that the Secretary of State took his usual ride in the morning and was free from pain at night. Frederick Seward is much better; his strength is improving gradually, and wounds healing.

Gen. Augur has issued an order prohibiting the disinterment of the bodies of deceased soldiers in his Department between the 1st of May and the 1st of October.

A successful surgical operation was performed on Secretary Seward's jaw Friday afternoon in presence of several eminent Surgeons. He is recovering rapidly from his injuries, and rides out each day in company with his family physician.

The final surrender of Johnston leads prominent officials to believe that permanent peace will be secured by another month.

☞ President Johnson has postponed the National "Day of special humiliation and prayer in consequence of the assassination of Abraham Lincoln, late President of the United States," from May 25, to June 1. The President not knowing much about the feasts of Latin and English Churches, was not aware that May 25 is kept as the anniversary of Ascension Day,—but at the suggestions of members of those churches he promptly made the change.

— A St. Louis dispatch of Friday says reports prevail that a force of from 6000 to 12,000 rebels, comprising the remnants of Jeff. Thompson's and Joe Shelby's brigades, are at Pocahontas, Arkansas, preparing to invade Missouri. A large number of people are preparing to leave the southwest part of the State in consequence. Three regiments have been sent down the river. The reports are undoubtedly exaggerated, and our forces will soon clear the country of the marauders.

— It is said at Washington, that Booth's accomplice Harold has made a full confession and pointed out all the parties known by him to have been concerned in the plot. Nearly all the parties directed implicated are now in custody. Payne, the would-be assassin of Secretay Seward, is a brother of the St. Albans raiders. There are six brothers, all reckless and daring fellows.—Two were with Walker in Nicaragua.

☞ Information has been received at Washington that the rebel steam ram Olinda alias Stonewall arrived at Teneriffe on 31st of March in three days from Lisbon. She was allowed to coal and provision, but was ordered to leave the port in 24 hours. She left April 1st, steaming rapidly south, but her destination was unknown. The Navy Department in anticipation of the appearance of the Stonewall in some of our harbors, is making a proper distribution of suitable vessels on the Atlantic seaboard.

— Intelligence has been received that Jeff. Davis at last accounts was in South Carolina, and it is thought he will be intercepted before reaching the Mississippi.

PERLEY writes from Washington, Saturday:—

The war is regarded as virtually at an end, and Gen. Grant is expected here to-night to enter upon the work of reducing the armed force and curtailing the expenditure.—President Johnson will not probably continue the liberal terms of amnesty offered by his predecessor to the rebels.—Those who have refused to accept them will regret their hesitation.—Chief Justice Chase will leave here at once to visit the recently rebellious States and open U. S. Courts. He will first go to North Carolina.—Senator Sumner has consented to deliver the eulogy on President Lincoln at Boston June 1st.—Gen. Sherman is expected here.

By Telegraph—Sunday noon.

WASHINGTON, April 29th.—The following facts concerning the assassination of the President are to-night permitted by the War Department to be published: On the night of the assassination the confederates of Booth were actively engaged in measures to divert the pursuit from the right direction. The report of Booth's being seen in Pennsylvania, was also started by some of his friends. The first reliable information concerning Booth was obtained Saturday morning at Surratt's tavern, about 10 miles from the city. The tavern is owned by Mrs. Suratt, who called there Friday afternoon and left word that two men would arrive during the night, who were to be generously provided for.

On reaching Port Tobacco, Booth's leg became too painful to proceed farther, and Dr. Mudd dressed it. Soon after they had left, Mudd was arrested. On Sunday afternoon Booth and Harrold crossed the Potomac at Swan's Point, a short distance below Matthias Point, and passing through Port Royal, were captured. Facts have come to light to-night, which show conclusively that Booth and his accomplices were to escape to rebeldom, and seek Jeff. Davis for protection, who was finally to assist them in leaving the country.

Sec. Seward rode out again to-day. Frederick Seward is gaining daily.

N. Y., 29th.—Gold closed at the Evening Exchange at 146 5-8.

REDUCTION OF THE ARMY.—An important order was issued from the Adjutant General's office April 28, to the following effect:

1st. That the chiefs of the respective bureaus of the War Department immediately reduce the expenses to what is absolutely necessary in view of an immediate reduction of the forces in the field and garrison and the speedy termination of hostilities, and that they severally make out statements of the reductions they deem practicable.

2d. That the Quartermaster General discharge all ocean transports not required to bring home troops. All river and inland transportation will be discharged, except that required for the supplies of troops in the field. Purchases of horses, mules, wagons, &c., will be stopped; also of forage, except what is required for immediate consumption. All purchases for railroad construction and transportation to be stopped.

3d. That the Commissary General of Subsistence discontinue the purchase of supplies in his Department, except such as, with what is on hand, will be required for the forces in the field to the 1st of June next.

4th. That the Chief of Ordnance stop all purchases of arms, ammunition and materials, and reduce the manufacture of arms and ordnance stores in Government arsenals as rapidly as can be done without injury.

5th. That the Chief of Engineers stop work on all field fortifications and other works, except those for which specific appropriations have been made by Congress for their completion, or that may be required for the proper protection of works in progress.

6th. That all soldiers in hospitals who require no further medical treatment, be honorably discharged from service with immediate payment. All officers and enlisted men who have been prisoners of war and are now on furlough or in parole camps, and all recruits in rendezvous, except those for the regular army, will likewise be honorably discharged.—Officers whose duty it is under the regulations to make muster rolls and other final papers connected with the discharge and payment of soldiers, are directed make them out without delay, so that this order may be carried into effect immediately.

7th. The Adjutant General of the Army will cause immediate returns by all commanders in the field, garrisons, detachments and posts, of their respective forces, with a view to their immediate reduction.

8th. Quartermasters of Subsistence, Engineers, and Provost Marshals of Departments, will reduce the number of their clerks and employees to that absolutely required for closing the business of their respective Departments; and will without delay report to the Secretary of War the number required of each class or grade. The Surgeon General will make similar reductions of surgeons, nurses and attendants in his Bureau.

9th. The chiefs of the respective bureaus will immediately cause proper returns to be made out of the public property in their charge, and statements of property that may be sold without prejudice to the service.

10th. The Commissary of Prisoners will make out the name, residence, time and place of capture and occupation of all prisoners of war who will take the oath of allegiance to the United States, to the end that such as are disposed to become good and loyal citizens of the United States, and who are proper subjects of Executive clemency, may be released upon terms that the President shall deem fit and consistent with the public safety.

JEFF. D.—The Richmond Whig has information that Jeff. Davis with an escort of 2000 picked cavalry, has struck southward to Columbia, from which place the country was open before him, until he reached the lines of Generals Canby and Wilson. His one object now is to escape to the Trans-Mississippi, and he cannot regard himself out of extreme danger until he has run the gauntlet of the United States armies now operating in Alabama. These two thousand horsemen form to-day a gloomy cavalcade as they toil along the southern sandy roads under a southern sun. Perhaps they are cheered by the feeling that they bear Cæsar and his fortunes; they certainly cover all that is left of the so-called Confederate Government, and themselves compose the organized force that Davis has on this side of the Mississippi river. Davis, Breckinridge, Trenholm, Benjamin, St. John and Reagan all ride in the center of this forlorn band; and how many understrappers keep their company it is bootless to know.

It is possible that Davis can escape into Texas, in spite of our gunboats and guards on the Mississippi river, and it becomes a question what he will do when he gets there. The rebel force in the Trans Mississippi Department was officially stated to be 53,000 men a few months ago, commanded by Walker, Buckner, Magruder. The troops are well armed and equipped from the proceeds of cotton sales. If this army is not demoralized, as has been reported, Davis will probably make another effort to create a slave Empire, and thus prolong hostilities until he is driven out of the country or captured.

SENATOR SUMNER SHOT AT.—The N. Y. Times' Washington despatch says Senator Sumner was shot at Friday night by some person who fled and was not recognized. Mr. Sumner shortly after received a note saying "it was fortunate for you that my aim was not good." [Every such attempt, whether successful or not, is an additional proof of the "barbarism of slavery," and of the "irrepressible conflict" between slavery and freedom. It is also an additional nail in the coffin of rebels in the South and their allies in the North. Their joint cause is to be buried out of sight.]

— Reports have reached Washington that when Gen. Grant announced the disapproval by the Government of the terms agreed to by Gen. Sherman, Johnston proposed to accept Gen. Grant's terms. [There was a great lack of backbone or soul, in our listening to any other terms for an hour.]

GOLD, Saturday, in New York and Boston, 146 1-2 to 145.

"Good night—and flights of angels sing thee to thy rest;
This is the last of earth."

NEW YORK, *April 26th.*

Yesterday will be one long remembered in New York. Years hence, when some Irving shall sketch the lives of we modern Knickerbockers, there will be within, one chapter for this April day.

Soon after midnight I strolled down Broadway, with a friend, amid groups of people passing either way, all intent upon the same errand, but giving to the immense thoroughfare a bustle unwonted at that hour; and reaching the Park, joined the line, which,

"Like a wounded snake
Dragged its slow length along,"

toward the vestibule of the City Hall.

One hundred and fifty thousand person passed up those steps between the noons of Monday and Tuesday, to view the face of the President for the last time on earth. The bells in the surrounding spires were striking two as I passed up through to the silent halls, and in that quiet midnight hour I looked upon all that was mortal of Abraham Lincoln, cold and still, within the burial case in which they had laid him down to sleep. It was one of those scenes which impress themselves indelibly on the mind; a lesson most eloquent yet solemn, more forcible than words could give. The case was open to the breast, the body dressed as in life, the lips compressed, and face slightly discolored, but the expression pleasant and natural. Flowers were plenteously strewn around the bier, diffusing a delicious fragrance,—but among them lay the solemn presence of Death, and they, too, were dying. The arrangements were admirable: sentinels were at every ten paces, from the entrance to the exit gate; the visitors passed in two lines, one on each side the bier, and out at a farther door.

The procession at noon was immense—exceeding all the great assemblages for which our city has been periodically celebrated. Broadway was crowded at ten, packed at eleven, crammed at twelve. I have no word sufficiently descriptive to convey an idea of the condition when the long lines of police cleared the street from curb to curb, compressing the living mass to the pave, and into the hallways and side streets. The procession started precisely some time after the hour appointed, or in the neighborhood of two P. M. It marched without break or stay, and was three and one-quarter hours passing one point. The column was 18 abreast, and over eight miles long. The Herald estimates the number of the procession at 100,000. The 7th Regiment acted as guard of honor, and paraded 900 men. The line of march was up Broadway, through 14th street, up 5th Ave., through 34th street, to the cars. Numberless notables were in the procession: Admirals, flocks of Brigadier Generals, with a sprinkling of Majors, Senators and Representatives, (foreign and domestic). The foreigners were magnificently attired. My point of observation commanded a view of two miles, and the spectacle was sublime. Four years ago, from the same spot, I saw President Lincoln standing in a carriage, bowing and smiling amid a white whirlwind of welcome and a storm of cheers. Yesterday not a sound stirred the air, and every head was uncovered before the honored dead. Oh! changeable life! what next?

The Funeral Car was the most elegant structure ever devised in New York. It was fourteen feet long, eight wide, and *fifteen* high, and surmounted with a miniature temple of liberty, painted pure white. The burial case was in full view. The Herald has the following description:—

The platform was entirely covered with fine black cloth, drawn tightly over the body of the car, and reaching to within a few inches of the ground, edged with silver bullion fringe. Over this hung graceful festoons of the same material, spangled with silver stars, and edged also with silver bullion. At the base of each column were three American flags, slightly inclined, festooned, covered with crape. The columns were black, covered with vines of myrtle and camelias.

The canopy was of black cloth, drawn tightly, and from the base of the temple another draping of black cloth fell in graceful folds over the first; while from the lower edges of the canopy depended festoons, also of black cloth caught under small shields. The folds and festoons were richly spangled and trimmed with bullion. At each corner of the canopy was a rich plume of black and white feathers.

The temple of liberty was represented as deserted, having no emblems of any kind in or around it, save a small flag on top, at half-mast. The inside of the car was lined with white satin, tufted, and from the centre of the roof was suspended a large gilt eagle, with outspread wings, covered with crape, bearing in its talons a laurel wreath; and the platform around the coffin was strewn with laurel wreaths and flowers of various kinds.

The car was drawn by sixteen gray horses, with coverings of black cloth, trimmed with silver bullion.

It was symbolic that each of the horses was led by a colored groom.

The decorations all along the route were extensively added to and improved. Among the new inscriptions I noted the following appriate ones:

"Your cause of sorrow must not be measured by his worth; for then there would be no end."

—"In action faithful and in honor clear,—
Who broke no promise, served no private end;
Who gained no title and who lost no friend."

Three buildings displayed the late President's own words:

"With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right."

At Gurney's Gallery were the following beautiful lines:

"Sleep, martyred hero, Sleep!
Thy going to thy great and just reward
Among the faithful and the good, whose lives
Are sublime lives, has left a gloom
Upon a Nation and a People's joy.
A silent City from its domes and towers
With universal tears, flings out its signs of woe.
Great husbandman, though lost to us,
Thou yet hast set time to scatter far the seeds
Whose future fruit shall yet
Adorn the times; and of thy tillage
Shall our annals speak,
And make a record of thy deeds and name
Eternal as our principle."

New York surpassed herself. It was the most heartfelt tribute, the saddest, grandest pageant the world ever saw. N.

— Late Georgia papers give a good account of our Gen. Wilson's late raid. After defeating Forest at Selma, Alabama, and destroying the arsenals and manufactories there, Wilson moved eastward, capturing Montgomery, West Point, Columbus, and Macon, scattering the militia on all sides, ruining the only remaining railroad, breaking up machine shops, destroying stores and rendering the manufacture of material for future campaigns impossible.

— On Thursday the coal dealers of Providence lowered the price of coal from $13 to $11 per ton.

Bowling Alley and Furniture
AT AUCTION,
I shall sell at Public Auction on the premises,
On SATURDAY, May 13, at 12 o'clk M,
The BOWLING ALLEY built and owned by the Rock Street Club, standing on the land of the Portsmouth Steam Factory, at the corner of Rock and Sudbury Streets. There are two long Alleys in good order, with sets of bottle and common Pins, Balls, &c., and a complete set of furniture and apparatus ready for immediate use. The building must be removed within ten days. The premises can be examined at any time upon application to the Auctioneer. TERMS OF SALE—CASH.
This sale offers a rare opportunity for a gentleman or a club to obtain a fine set of alleys and apparatus, which have been built in the best manner, without regard to cost.

They *increase the nervous or vital energy*, relieve Cough, cause Night Sweats, diminish Expectoration, improve the Appetite, arrest Diarrhœa, promote refreshing sleep, and operate NEW AND MARVELOUS CURES. Let no sufferer fail to try this remedy. CIRCULARS FREE.

PRICES:—In 7 oz. and 16 oz. bottles, $1.00 and $2.00 each. 6 small or 3 large bottles for $5.00, by express. Sold by all respectable druggists, and at the sole general depot, wholesale and retail, by J. WINCHESTER, 36 John St., New York.
12Sneo&eow6m*

☞ A gem of a place—Thacher's new Apothecary Store, corner of Congress and Vaughan Streets.

Local.

☞ A small house and large lot of land, two or three acres, on Islington Road, were sold by auction on Saturday, for $605.—The whole of the field, of which this lot formed a part, was sold about 50 years ago to Robert Ham, by heirs of Walter Akerman, for $190 per acre, at least four times its market price at that time.—The occasion of such a price was this. Dr. William Cutter owned the fields next West of the ground in question; and also owned the farm now belonging to Daniel Rogers, esq: he would like to have a lane from one piece to the other; but Robert Ham owned a wide slice of land between them, and also the field to the North of the Akerman lot, but did not come out to that road. Mr. Ham did *not* wish to sell a lane through his land; but *did* wish to buy a lane from the road through Dr. Cutter's front field to his land. Dr. Cutter, in turn, did not wish to sell. Each travelled over the other's land for years: both were determined, and both were able to buy,—and they bid on each other until the above result was reached.—Then, Robert Ham cut a short lane through the Akerman lot to his own land, and forthwith *gave* Dr. Cutter a lane through his premises, on condition that C. should build the wall, and keep it in repair forever.—He built a good wall:—but did not live to see it need repairs: but by use the lane has become a road, and every one now makes his own fence.

GRAND DISPLAY.—Our citizens, and especially all whose writing schools hours are not yet numbered with the past, should call at the Post Office and examine Prof. Hinman's specimens. They will amply repay the little time and trouble required.

☞ We mentioned in an item of Thursday the fact Thomas Roberts had been arraigned before the Police Court tribunal, charged with an assault on the person of Deborah Warren, and bound over in the sum of $100 until September.

Hardly had he reached his home from the Court Room, when fierce passion gaining the ascendancy, and forgetting both his moral and legal bonds, he seized the fated woman and beat her in such a manner as to leave her in an insensible condition. Justice again sought him, and in consequence of Mrs. Warren's inability to appear, he was bound over in the sum of $200 for his appearance on Wednesday next. A depraved and brutal semblance of a man must be he, who will strike a weak and defenceless woman. We withhold many particulars connected with this case, which are unfit for publicity, and of course would reflect no particular credit upon the character of the accused.

☞ Commander M. C. Marm has been detached from court martial duty at Philadelphia, and ordered to command the Vandalia, *vice* Commander E. C. Bowers, who is at present awaiting orders.

REAL ESTATE AUCTION SALES.—Mr. Wendell sold on Saturday, house No. 41 South street, to Wm. B. Lowd for $1030. Wm. H. Hackett sold the house owned by the late Capt. Andrew Hussey, 18 State street, for $2500. H. F. Gerrish was the purchaser.

The house and land on Islington road, near the Powder House, belonging to the estate of Wm. Warburton, was sold for $605.

☞ It w ll be seen that the professional visit of the celebrated and very skillful Dr. Lighthill of Boston, to this city, will commence this morning, and continue during the week—at the Rockingham House.

☞ It will be seen that the famous "Whiston" opens at the Temple to-morrow night, his famous budget of fun and wonder.

NEW HAMPSHIRE ITEMS.

—— On Friday morning some of the hands employed on the Concord Railroad found the body of an unknown man under a bridge on the railroad which crosses a small stream in Bedford, called Darrah's Brook, which empties into the Merrimack about five miles from Manchester. He was well dressed and apparently about 70 years of age. It was evident that while walking on the bridge at night he fell thro' upon the rocks fifteen feet below, and was killed.

—— President Johnson has appointed Capt. Thomas A. Stackpole, of New Hampshire, Steward at the White House, where he has for some years been employed.

—— Amos Clough of Warren, N. H., writes to the Boston Journal about the *gold* found there, that another party than the one named, discovered some coarse particles of gold near the locality referred to. He says there is no violent excitement about the matter there, and there are not many miners at work. He says his object in making this statement "is to save any credulous person a journey to this El Dorado—unless he may choose to come, *leaving* his *gold*, and carrying away a memory of our magnificent mountain scenery and a breath of our bracing country air. The good people here do not desire to speculate at the expense of any one."

TERRIBLE STEAMBOAT EXPLOSION.—The steamer Sultana, from New Orleans, evening of the 21st, arrived at Vicksburg with her boilers leaking badly. She remained 30 hours repairing, taking on board 1996 Federal soldiers and 35 officers lately released from the Cahawba and Andersonville prisons. She arrived at Memphis at evening, and after coaling proceeded. At about 2 A. M., when 7 miles up, she blew up, and immediately taking fire, burned to the water's edge. Of 2106 souls on board, not more than 700 will be recovered; 500 were rescued and are now in the hospital; 200 or 300 uninjured are at the Soldier's Home. Capt. Mason, of the Sultana, is supposed to be lost.

At 4 o'clock next morning, the river in front of Memphis was covered with soldiers struggling for life, many of them badly scalded. Boats immediately went to the rescue and engaged in picking them up. Gen. Washburne immediately organized a board of officers to investigate.

— The post mortem examination of Booth's body showed that the ball did not touch the brain, but striking the spinal column produced immediate paralysis. The opinion of the surgeon is, that he must have died a horrible death.—There is now but one of the principal tools of the conspiracy at large. His name is Suratt. Harrold's confession unravels much that was heretofore a mystery. It shows that the leading rebs in Richmond, Canada, Washington, an Maryland were privy to the conspiracy

— The Episcopal clergymen are asking President Johnson to appoint Fast on some other day than the 25th of May, which is "Ascension Day," observed as one of the h ghest Church festivals.

Said a venerable preacher—Fellow sinners if you were told that by going to the top of, those stairs, (pointing to a rickety pair at the other end of the church) you might secure your eternal salvation, I really believe hardly one of you would try it; but if I should proclaim that J. Monroe Taylor had put a few bars of his celebrated Gold Medal Soap on the top stair for the one that would get it first, I'll be bound there ain't one of you but what would use your utmost exertions to gain the prize; my wife says there ain't anything like it, and she would recommend the whole parish to use it. 135

MARRIAGES.

In Exeter, Mr. B. E. HOYT, Jr., to Miss LINNIE T. HOYT, all of Haverhill.

ARCANA WATCH.
An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Levers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are finely finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balanced and the proved jacot bit, fine blue steel and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,
1mdawsz4 Importers, 16 Maiden Lane, N. Y.

DR. LIGHTHILL,
OCULIST AND AURIST,
No. 20 Boylston Street, Boston,
WILL BE AT THE
ROCKINGHAM HOUSE, Portsmouth,
From MONDAY MORNING, May 1st, until SATURDAY 4 P. M., May 6th, where he can be consulted on
DEAFNESS, DISCHARGES FROM THE EAR, NOISES IN THE HEAD, CHRONIC CATARRH, THROAT AFFECTIONS, AND DISEASES OF THE EYE.

☞ *Artificial Eyes inserted without Pain.*

SYMPTOMS OF CATARRH.

A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other, and occasionally on both, rendering respiration through it either difficult or impossible. The irritation in the nose produces a frequent desire to sneeze, and is accompanied with a discharge of either clear acrid water, or what is far oftener the case, a profuse, thick, yellowish, and extremely offensive matter, which forms one of the most characteristic features of the disease, and is a source of the greatest annoyance and danger.—As the disease progresses, this secretion becomes prurulent, increases in quantity, and assumes an exceedingly fetid odor It escapes not only by the nose, but passes into the throat, producing irritation there, and requiring frequent expectoration, hawking or scraping for its removal, as its passage into the throat is very much facilitated by a horizontal position of the body; sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi-recumbent position to obtain the necessary sleep.

Owing to the heat in the head the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking—a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgement. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones when small particles of that substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passage very difficult and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ear and hearing becomes quite thick or stopped up, but returns suddenly with something like a snapping sound. This phenomena may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated.

This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of fatigue and weakness.

Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by travelling downward, and producing throat affections, bronchitis, and finally consumption. It may be safely asserted that, after hereditary predisposition, catarrh is the most frequent and important cause of the fatal complaint.

The symptoms of catarrh vary some in different individuals, and the degree of their severity depends upon constitutional idiosyncrasies and various external influences. With some the complaint continues for a number of years in a mild form, and without causing any of the injurious results above mentioned, while with others all the worst effects are produced in a short space of time, and cases, apparently most harmless, may through imprudent exposure, additional cold, or unfavorable changes of the weather, suddenly exhibit all the violence and malignity which characterize the severest ones. ap25

Morning Chronicle.

ATTEMPTED ASSASSINATION OF PRESIDENT JACKSON.—The attempt of Lawrence to assassinate President Jackson is called to mind as the only instance of any known attack upon any of our Presidents. Upon the occasion of the funeral of Warren B. Davis, at the Capitol, while the President was under the eastern portico, and surrounded by members of the Cabinet and officers of the government, members of Congress and others, Lawrence approached within a few feet of the President, and aiming a pistol at him, snapped it. It did not explode. Dropping that pistol, he fired another, with like result. The President at the second snap had his arm raised against the assassin. Lawrence did not attempt to escape. He was brought to the City Hall, where witnesses were examined. When asked what explanation he wished to make, he merely said he should not contradict what had been stated by so many respectable men. Lawrence was a native of England. Some of his family lived here. He was of feeble mind, and subject to mental aberration at times. He was sent to a lunatic asylum.—He had no accomplice, and no apparent political motive.—*National Intelligencer.*

RAID IN FLORIDA.—A successful raid was lately made by twenty-two colored troops from the 3d and 35th U. S. colored troops, under command of Sergeant Benn (colored). They left Jacksonville on the 7th of March, followed the river to Fort Gates, then marched into the interior, and after a tramp of three hundred miles arrived at Jacksonville. During their trip, while at Lake Church Hill, they were attacked by a force of House's rebel cavalry, three times their number, and, finding them, believe astonishing, thought it prudent to surrender. Sergeant Benn, seeing a rebel approaching, told him to surrender his force if they would be treated as prisoners of war. The rebel assented; but when by this ruse he had approached very near, he took deliberate aim and shot the sergeant. A general charge upon the colored force followed. They all took cover, and one brave fellow sung out: "Remember Fort Pillow!" Every man took careful aim, and the rather unexpected result was that the whole rebel force was repulsed, with slaughter. The man who shot Sergeant Benn was among the killed. The rebel dead numbered twenty-six. Our men took four prisoners, and rebels had a large number of wounded, which they manifested great anxiety in getting off the field. The same party brought in eighty contrabands and thirty horses and mules. They destroyed seventy-five hogsheads of sugar, three hundred and fifty barrels sirrup, and a distillery with four hundred barrels of whiskey. We had only two wounded.

Special Announcement.

E. & H.T. ANTHONY & CO.,

Manufacturers of Photographic Materials,

WHOLESALE AND RETAIL,

501 Broadway, New York.

In addition to our main business of PHOTOGRAPHIC MATERIALS, we are headquarters for the following, viz:

The properties of this Company consist of 648 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman and Drake* wells, on this noted creek. This Company offer for subscription a seldom met with. The capital stock is wholly paid for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. ESTABLISHED

FACTS AND REASONS

FOR USING

DR. S. O. RICHARDSON'S

BLOOD-ROOT ELIXIR:

FIRST. The extraordinary curative effect of the Blood-Root Elixir was discovered by a regularly educated Physician; and the present proprietor also is a graduate from one of the highest Medical Colleges in New England.

SECOND. The Elixir is not alcoholic, contains no minerals, and may be relied upon as being composed of strictly vegetable substances; and no alcohol is to be intermixed that can unfavorably affect the most delicate constitution.

THIRD. The extensive and successful use of the Blood-Root Elixir, during the past year, proves it to be, without any qualification, the best and most valuable medicine that has ever been prepared for family use.

FOURTH. Medical science and skill have never been able to produce a cathartic medicine of equal power and effect, which contains so many desirable qualities. Its superiority as an aperient consists in its sure and thorough action, operating equally through all parts of the bowels. It never produces griping pains in its operation; never occasions nausea; its flavor is pleasing and agreeable; and it will not be rejected by the most fastidious child. It may be safely used in all cases where laxative medicine is required. It will promote the comfort and health of both sexes, and of all ages: it will assist Nature during all infantile changes; it will, during the anxious hours of a mother's life, bear such changes for her maternal pangs; it will render joyous and happy the suffering days of the aged and venerable. And when the Elixir is once introduced into any household, it will therein supersede all other laxative medicine.

FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, are continued by unsolicited testimonials, which in number and extended results exceed any estimate of our most sanguine hopes so early had anticipated,—therefore we are fortified by unrefutable evidence, that our estimate of the efficacy and value of the Blood-Root Elixir has not been exaggerated.

SIXTH. In examining certificates received during the past year of its successful results, we are gratified in believing that our medicine has not failed to cure any disease it was intended to cure, the most stubborn and chronic forms of CONSTIVENESS.

SEVENTH. Most grateful manifestations have also been evinced by patients who have been relieved from LIVER COMPLAINTS of long standing. Also it has been effectual in curing ULCEROUS ERUPTIONS UP THE SKIN and in eradicating HUMORS OF THE BLOOD. And many afflicted with deep seated incurable SCROFULA have been greatly benefitted by a moderate use of the Elixir.

EIGHTH. In cases of COUGHS and COLDS it has proved successful beyond any assurance we have ever expressed; and those who have thoroughly tested its effect, believe it to be superior to any other cough or pulmonary complaint, by its physical properties, equalizes the circulation of the blood, and removes congestion. It also, when used in connection with the Elixir, heals and soothes the irritated and inflamed membranes, from which the cough arises.

NINTH. Many persons suffer periodically from JAUNDICE, which is occasioned by a morbid and inactive state of the Liver. The Blood-Root Elixir is a sure relief from the despondent feelings and painful symptoms which are peculiar to that disease.

TENTH. DYSPEPSIA is an aggravating and disheartening disease, often leading to dangerous results. A limited use of the Elixir, according to the directions, will regulate the stomach and bowels with unerring certainty, and restore digestion to a natural and healthy action.

ELEVENTH. RHEUMATISM the Blood-Root Elixir will readily relieve; its warm and quickening effect counteracts the cold and morbid condition of the blood, which is the primary cause of all Rheumatic affections.

TWELFTH. Persons subject to HEADACHE will be relieved in a few hours by a single dose of the Elixir.

☞ Every person taking the Elixir should carefully read the printed pamphlet which accompanies each bottle.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, is now located at

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continued in the Patent Office of the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, &c., &c., manufactured in the United States, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the novelty and utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent issued from the Patent Office for One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not infinitely superior to, any which can be offered them elsewhere. The testimonials below given prove this. Inventors unsuccessful by, or not in, THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES and ABILITY, it is believed that he has abundant reason to believe; and can prove, that at no other office of the kind are the charges for professional services so moderate.

The long practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All inventors, on a journey to Washington, to procure a patent, and the usual great delay thereare here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and worthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN application, on which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on the part of Mr. Eddy, I recommend to my patentees to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at far less expense than elsewhere.

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.

Boston, Jan. 1, 1865.—6awly

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, ground in proportions less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, satisfying, durable surface, and preserves wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Halls and Decks of Ships, Tin and Shingle Roofs, &c.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by extraordinary inducements that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was the person selected by the committee to commence operations in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum region, and he selected to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the Mirror of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel S. Lancaster, 128 Broadway, New York, were appointed by the committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek and Pithole Creek, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same line with the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty millions of dollars.* The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, Geo. A. Fox, Esq., a well-known business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see the facilities of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek—The lay of the land is beautiful for Oil; high hills on each side, Cherry Creek running directly through, and a rich underlayed Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Drake & Mead well poured wild barrels per day—the Fountain 200—the Parker 200—and scores of wells are now boring, and they will yield from 50 to 500 barrels daily. Nine out of every ten wells bored on this flat are a success! A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is now owned by the Company, will be below Titusville. Coal in that section is worth $12 per ton, and if the vein of coal should work out it will be valuable for Oil, it is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. A thousand barrels a day makes a new well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. The Four Farms in Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer and presenting geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last year while in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, that he has, and I believe it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if good as those south of Titusville, would be of incalculable value. There is abundant room on each acre for 13 wells, and on this farm for over 700 wells. Let make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as those south of Europe, only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. The Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Cherry Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would pay for the expense of boring and for the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 100 barrels daily, the Jer. Fox flows 300, the Triple Dikes 300, the Fountain flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. It is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod, and other tools and machinery, worth twenty, it has flowed 220 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tackle to hold the oil. The tanks they now have will hold 2,200 barrels. Below this well, on the same Creek, another flow well has been struck, and above it a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the Byles Farm, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all land, and every rod it for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Byles thinks very highly of it, and has no doubt but we shall find oil it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on it and several wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 30 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information desired will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The Chronicle.

☞ Jeff. Davis married the daughter of Gen. Zachary Taylor, we believe about 1832. The marriage was a clandestine one, and took place at a hotel in Illinois.—Gen. Taylor disliked Davis, and in his rough way denounced him as 'an unprincipled scoundrel and hypocritical adventurer,' which indicates that he had a very good perception of human character. He refused to recognize any relationship, till at the battle of Buena Vista, Davis, then a Mississippi Colonel, not only displayed great bravery but much skill, and turned the tide in our favor when really "old Rough and Ready" had been thoroughly beaten. Then Gen Taylor advanced, gave him his hand and forgave him the larceny of his daughter. An Englishman was called the greatest and meanest of mankind; but Davis comes well up to being the ablest and worst of Americans. He is a man of vast intellectual resources; but as events have proved, it was unfortunate that Taylor ever made friends with him, for otherwise he might not have led his family to ruin. Gen. Dick Taylor, the son of Zachary, and very much like him, might then have been found on the other side and done credit to his blood and name.

JOHN C. BRECKINRIDGE.—Personal reasons would have prevented, if possible, any disparaging mention of John C. Breckinridge in this correspondence, but forbearance is no longer a virtue. Certain writers for the press, whose colored and sympathy with treason are painfully conspicuous, are endeavoring to claim for the renegade Vice-President patriotic and noble qualities of which he long since divested himself. Such a gross delusion and imposition on the feelings of the fraternity and the public should not be tolerated.

Instead of gracefully submitting, in 1861, to the choice of the people, Breckinridge regarded our martyr-President as an interloper, and as but the leader of a temporarily triumphant faction. It is to him that we owe the defection of Albert Pike and scores of other men over whom he had obtained a controlling influence. Remaining here, while others of the arch-conspirators were in the field, it was Breckinridge who debauched McClellan by hopes of the Presidency, and it is now Breckinridge who has stripped the laurels from Sherman's brow, doubtless by the same seductive argument. Worse than all this, it was Breckinridge who remained behind when the Davis government fled from Richmond, to fire that devoted city. In vain did his friends, his Masonic brethren, women, and old men implore him to spare their property. The Kentucky Gentleman was deaf to all entreaties, and rode from place to place to see the flames kindled. At last, when the business portion of Richmond was ablaze, Breckinridge reined-up his horse at the corner of Main and Twelfth streets, and was surveying his work of destruction with evident interest, when a cry of "*the Yanks are coming*," made him ride away at a canter, to overtake the retreating legions.—*Perley.*

SEARCH FOR HAPPINESS.—A wealthy epicure applied to an Arabian doctor for a prescription that would restore the body to health, and give happiness to the mind. The physician advised him to exchange shirts with a man who was perfectly contented with his lot. Whereupon the patient set out on a journey in pursuit of such a person. After many months spent without accomplishing his object, he was told of a certain cobler of whom every one had spoken as a model of contentment and happiness. Pursuing the direction given, the traveller was at length rewarded with the sight of the cobbler enjoying a comfortable nap on a board. Without ceremony he was aroused from his slumbers, and the important interrogatory whether he was contented with his lot was answered in the affirmative.

"Then," said the seeker of happiness, "I have one small boon to ask at your hands. It is that you exchange shirts with me, that by this means I may also become contented and happy."

"Most gladly would I accede to thy request," replied the cobbler, "but—"

"Nay, refuse me not," interrupted the man of wealth, "for any sum that you name shall be thine."

"I seek not thy wealth," said the cobbler, "but—but—"

"But what?"

"But the truth is—*I have no shirt.*

— As illustrating the feeling in New York among the lower classes, at the death of President Lincoln, it is stated by one of the Police Commissioners, that during the past week there have been fewer arrests for drunkenness and disorder than in any week since New York contained over one hundred thousand population.

— A Charleston letter says there are, perhaps, more numerous shades of color there than in any other part of the South, except New Orleans. A stranger would find it difficult to distinguish some of the colored women from the whites, so nearly have they approached to the features and color of the dominant race.

— Great talkers are like cracked pitchers; everything runs out of them.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK, CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest, as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboes, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with innocuous Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. J. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—Sent free of charge, in plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. To single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has had a lifetime of success in the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER'S still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of parties using them. Price of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to
J. TELLER, M. D.,

Cleanse the Blood.
With corrupt, disordered or vitiated Blood, you are sick all over. It may burst out in Pimples, or Eruptions, or in some skin disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, Tetter, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Venereal Diseases, Liver Complaints, and Heart Disease. Try AYER'S SARSAPARILLA, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla, for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no active properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla, which flood the market, until the name like a bad coin has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as shall recommend the name from the load of obloquy which it rests upon it. We think we have ground for believing it has virtue which are irresistible by the ordinary run of the diseases it is intended to cure. We can only assure the sick, that we offer them the best alterative which we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered by any body.
AYER'S CHERRY PECTORAL is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless to attempt enumerate the evidence of its virtues. The world knows them.
Prepared by J. C. AYER & Co., Lowell, Mass. and sold by Druggists everywhere. Hasbrouck, W. R. Preston, David Kimball, and all druggists.
dlawly my25

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never since its first introduced them, *failed* to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting them for a fortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the country.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the estimation of the public than Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should call on him.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

TUESDAY, MAY 2, 1865.

THE CHICAGO CONSPIRACY.—The Chicago Tribune publishes the official report of Gen. J. B. Sweet upon the arrest of the Chicago conspirators. It was withheld by Gen. Hooker until the conclusion of the trial at Cincinnati, in order that the case of the parties on trial might not be prejudiced. Gen. Sweet shows that Jacob Thompson, of Mississippi, Secretary of the Interior during the administration of Buchanan, went to Windsor, Canada, some time in May or June last, under the assumed name of Captain Carson, and having been supplied by the rebel government with large sums of money for the purpose, commenced operations to organize in Canada an expedition to release rebel prisoners of war at different camps in the Northwest, and aid the "Sons of Liberty" with money and arms, to raise an insurrection, especially in the States of Illinois and Indiana, against the Government of the United States.

About the 25th of August an expedition was organized at Toronto, under direction of Captain Hines, formerly of Morgan's command, composed of one hundred and fifty to two hundred escaped prisoners and rebel soldiers, accompanied by many rebel officers. This force went in small parties by different routes to Chicago, on the 29th day of August last, which was the day of the National Democratic Convention. It was to have been assisted by large numbers of the "Sons of Liberty," commanded by Walsh, but government got wind of the movement, and reinforcing the garrison at Camp Douglas, thwarted the designs of the traitors.

About the first of November a similar expedition was concerted in Canada, in which the same men were engaged. The night of the Presidential election was fixed upon. On the 5th and 6th of November members of the expedition and confederates in Illinois began to arrive in Chicago in large numbers, and their presence was noted by the authorities, who arrested many of them on the night of Nov. 6, got hold of their papers, and seized their arms. They designed to rob the banks, take the city, and raise an insurrection in the whole West. The Tribune says:

An examination of many of the persons arrested, shows beyond all doubt that the "Sons of Liberty" is a treasonable, widely-extended and powerful organization, touching into almost, if not all, the counties of this State; that it is an organization of two branches, one civil, the other military, the members of the civil being on probation for the military branch.

The sentences of a portion of the parties convicted of participation in the affair were promulgated on the 23d. Walsh, of the Sons of Liberty, was sentenced to five years in the penitentiary, and others received similar sentences.

☞ Gen. Grant is reported to have said that when he informed General Sherman of the disapproval of the terms forwarded to Washington, the latter frankly admitted that he made a mistake in not having put in writing that slavery was dead, but that that was the understanding between them.

As to permitting the rebel legislatures to assemble, he agreed to that because he had just learned the Virginia Legislature was permitted to assemble by authority of the President; and in the absence of official instructions he interpreted the President's desire to be that the rebel civil government should be retained for the preservation of order and to avoid maintaining a military force in these States, as well as to do away with irritation likely to grow out of a military government. As to the amnesty, it was only to cover officers and soldiers. When his attention was called to the wording, he replied with much spirit, "that does not express the understanding between us." [Rather a lame apology, if true: if otherwise, a very clumsy story.]

☞ President Johnson issued an order last Saturday, opening domestic trade, by land and coastwise, with all the late rebel States east of the Mississippi, excepting only these articles, contraband of war, to wit: arms, ammunition, and all articles from which ammunition is manufactured, gray uniforms and cloth, locomotives, cars, railroad iron, and machinery for operating railroads; telegraph wire, insulators and instruments for operating telegraph lines.

AT MOBILE, it is reported our forces captured 215 heavy guns, 10,000 stand of arms and 30,000 bales of cotton, and much corn and other grain. It is estimated that 100,000 bales of cotton and 75,000 barrels of rosin are hidden in the swamps along the Alabama river, most within reach of our forces. Over 10,000 stragglers from the rebel army have given themselves up. A dispatch, dated 19th, says an officer of Dick Taylor's staff had arrived at Gen. Canby's headquarters, to make terms for the surrender of Taylor's command.

— The publication of the Newburyport Star has been discontinued.

RAM WEBB.—A dispatch dated off the mouth of Red River, 23d, says the rebel ram Webb ran out of Red River that night, passing all the Union gunboats and ironclads in the Mississippi, going at the rate of 25 miles an hour! Early on the morning of the 25th she was seen 50 miles above New Orleans. Our gunboats fired on her, but she made no reply. She will probably attempt to destroy our commerce on the Mississippi and escape to the Gulf. It was thought that Jeff. Davis was on board and was trying to get to Havana.

A late dispatch reports that the rebel ram Webb passed New Orleans in broad day at a rapid rate, displaying the stars and stripes, but after passing hoisted the rebel flag. When a few miles above Fort Philip her condenser got out of order, and she was deserted and blown up. As far as known she had inflicted no damage save the cutting of the telegraph line. A portion of her crew had arrived at New Orleans. The remainder left for parts unknown.

— The Concord Monitor announces that Hon. J. W. Patterson, of Hanover, has accepted an invitation from the Council to deliver a funeral oration on the day designated by President Johnson for further tribute of respect to the memory of our lamented President. The arrangements for the occasion will soon be officially announced: it is said to be in contemplation to invite the citizens of that State to meet at Concord and unite in a more formal and dignified testimonial of their sense of the nation's loss than has yet been made.

LONDON PAPERS by latest steamer have a variety of comments on American affairs not worth copying in our columns.

The rebel pirate Stonewall arrived at Teneriffe, March 21st, from Lisbon. She was allowed twenty hours to coal and provision.

The advices received per steamer America at Southampton, and the Damascus at Queenstown, further strengthen the conviction that Southern resistance to the U. S. Government is virtually ended. The rebel loan has declined to 17 a 18. Federal securities are very active and advancing.

☞ Seven hundred and eighty-six of those on board the ill-fated Sultana have been found alive. The lost are now estimated at 1500. The Memphis hospitals are full of the wounded from the Sultana, many being badly scalded and burned. It is said all Eastern soldiers on board the Sultana were saved. The St. Louis Democrat has a dispatch from Cairo which says she was going at the usual speed at the time of the catastrophe, and all appeared well up to the time of the accident. The troops on board represented every State in the Union.

— Government is establishing military posts in St. Mary's, Prince George and Charles counties, Md. This is done to protect loyal people in that vicinity, and to prevent any treasonable demonstrations; and was caused by the disloyal protection which was given Booth. The troops are to forage in the county and give receipts for everything they take which will be paid all persons proving their loyalty.

— Minot's Building, corner of Court and Sudbury streets, Boston, was burnt on Sunday morning; and Kidder's Building adjoining, was first crushed and then burnt. Losses $150,000; partly insured.

— Eastern Kentucky is clear of rebel troops. 1200 surrendered Monday. Many deserters have taken the amnesty oath.

GOLD, in Boston, Monday, 145 to 144: in New York, 144 1-2 to 142 1-2.

— Jeff. Davis is said to have hired a house in Porto Rico.

— The N. Y. Herald's Washington dispatch says Gen. Grant immediately on his retur nto Washington set about making arrangements for the contemplated decrease of our military force and consequent reduction of government expenses. It is thought the army will soon be reduced 400,000 men.

— At Washington it is said to be ascertained that Jeff. Davis and party have not more than $300,000 in specie with them.

— It is stated that some of the blockade runners at Nassau, whose vocation came to a very sudden end with the fall of Charleston, have gone into the African slave trade. That is not strange at all.

— In Philadelphia on Sunday, some excitement was caused by the discovery of a plot to burn the city, as was attempted in New York last year. Gen. Cadwallader made a proper distribution of the troops, and no attempt was made.

— Information has been received by the Navy Department that the rebel iron clad Stonewall left Teneriffe on the 2d instant, for the West Indies, and she is supposed by some to be in that locality. Torpedo boats and monitors are being placed in all the principal harbors along our coast to give a proper reception to the rebel ram should it make its appearance.

— Harold has made a confession. He says the assassin of the Sewards has not yet been captured.

THE PRESIDENT AND THE CHURCHES. President Johnson has changed the day originally appointed for National humiliation, because it would interfere with the festival of the Ascension. In so doing however, he has come into Anniversary week, in Boston, when most New England ministers are absent from their parishes.—We trust, however, the Executive will make no further postponement. In the diversity of beliefs in this country, he cannot evidently keep clear of interfering with the usages of some sect.—*Boston Transcript.*

Even so, says Uncle Toby: but the New England ministers will not trouble themselves nor the President, to get the day changed. They will observe it at home or abroad, as well as they can; and their flocks, with or without them.

SHERMAN'S ARMY—*Johnston's Surrender.*—Newbern correspondence of the 27th says the lamentations of Sherman's army over the assassination of President Lincoln, were suddenly changed to rejoicing at the appearance of Gen. Grant. His old Army of the Tennessee were perfectly wild with joy

The terms granted Johnston embrace, in the surrender, four armies of the Military Division of the West, but excluding the fifth, that of Dick Taylor, lying west of the Chattahoochie river. Among the Generals surrendered is Beauregard; — principal among the Lieutenant Generals is Hardee; Bragg, lately relieved of command, was not surrendered. Wade Hampton is reported to have fled, in company with Jeff. Davis. The number actually surrendered is 27,000, although more names are given. All the militia from South Carolina, North Carolina, Georgia and the Gulf States are included.

THE CHIEF CRIMINALS.—The Providence Journal in noticing the death of Booth well says:

"Even at this hour, let us not forget that the chief criminals are not Booth, Paine, Harold and Atzeroth. Let us keep our eyes on those unhung villains who are making their way southward through the Carolinas with the money they have stolen. Jeff. Davis and Judah Benjamin and their associates are, it is believed, as guilty as Booth. Their hands are red and dripping with the blood of Mr. Lincoln. Thieves, murderers, tyrants, traitors: let Justice have her perfect work with them, and the whole nation will say, Amen."

— Our Consul General in Canada, has given notice to the authorities, that all criminals connected with the assassination of President Lincoln must be surrendered to the United States authorities.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

THE VOICE OF THE PEOPLE.—Liberty is one of the dearest blessings which our forefathers handed down to us. It was purchased by the blood of many a valiant revolutionary hero; has been gladdened by a Washington, a Jefferson, a Clay, and a Webster. But there is another blessing of the people is that world-renowned remedy, known as Coe's Cough Balsam. It cures like magic the most violent attacks of croup, and is indispensable in every family of children. Colds, sudden coughs, sore throat, hoarseness, and inflamed lungs, are instantly and surely cured by its timely use. No cough mixture has ever been known that equals it, which accounts for its great popularity with all classes. The young and the old—the rich and poor—physicians, druggists—and all who have ever tested it speak in the highest terms of its merits. We say to our readers—buy it and try it. It costs but 40 cents the bottle, contains twice as much medicine as you can obtain in any other way at the same cost, and all our drug stores keep it. sp11dawlm

Pulmonary and Nervous Diseases.

WINCHESTER'S

HYPOPHOSPHITES

ACT with promptness and certainty in every stage of CONSUMPTION, and invariable efficacy in NERVOUS PROSTRATION, General Debility, Dyspepsia, Asthma, Bronchitis, Female Weaknesses, Loss of Flesh or Strength, and all derangements of Blood. Treasurer.
LEVI H. STRAW, of Boston.

Directors.

John S. Barry, Boston, V. J. Messinger, Canton, S. Johnson, Charleston, Seth B. Brown, Boston, J. S. Sinaler, Roxbury, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Roe Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

May Fashions.

MME. DEMOREST'S MIRROR OF FASHIONS for May, containing the usual variety of information and illustrations, is just received and for sale by JOSEPH H. FOSTER.

Special Notices.

THE DESIGN

Of the physician who first discovered the method to extract from rye its medicinal qualities, was to benefit and assist nature in the removal of certain diseases. C. A. Richards' famous Extract of Rye will do more to build up a weakly constitution and strengthen the whole system than Bourbon Whiskey, because it has no injurious qualities in it.—Sold in large bottles, at a very reasonable price, by all grocers and druggists. 16

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

"*A thing of beauty is a joy forever.*"

Martha Washington Hair Restorer

Is a perfect success—*Is not a Dye*—Will not color the skin.—Will restore Gray and Faded hair to its former Beauty—Change Dry, Harsh and Wiry Hair to a soft and silk-like appearance—Cure all humors and diseases of the Scalp—Remove dandruff and scurf—Prevent the hair from falling off—Promote a healthy growth, and cause it to grow on bald heads, where there is life and vitality at the roots, but if these are gone there is no hope of success. **PRICE $1.00.** SIMONDS & CO., Fitzwilliam, N. H. Proprietors.

☞Sold in Portsmouth by WM. R. PRESTON and J. H. THACHER. ap27

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors, Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap7en6md

CLOCK'S

Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

Hair Dye! Hair Dye!

BATCHELOR'S Celebrated Hair Dye

Is the Best in the World!

The only Harmless, True and Reliable Dye Known.

This splendid Hair Dye is Perfection—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** or Dressing the Hair. Jy9—1ydaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN, Station D, Bible House, d24sndaw New York City.

NO. 46 MARKET STREET

Local.

RETRENCHMENT.—Immediately upon the receipt of the General Orders at Concord by Major Sivey, A. A. P. M. Gen. to reduce the force in his Department in this State; orders were at once forwarded to the District Provost Marshals, to curtail the expenses of their respective offices as much as possible, compatible with their business. Capt. Daniel Hall of the office in this city, reduced his force on Saturday to one clerk and one special agent—retaining Mr. Charles Chesley, who has been Chief Clerk in the office from its commencement, and J. Horace Kent, U. S. Special Agent.

The Clerks and Deputy Provost Marshals who have thus been relieved, have done good service, and have the esteem of all who have had business with their respective departments in the office, and leave our city with the good wishes of a large circle of acquaintances.

☞ The war being virtually over, Government is reducing expenses as fast as possible. We have already mentioned that the Naval rendezvous at Kittery is closed; and probably the Provost-Marshal's Office here will be discontinued ere long. In fact, most of the clerks have already been discharged; and the official Board of Enrollment, are about all who are left.

And in this connection, we understand that Dr. Hall, who previous to his wide and valuable experience in the Army, and as Examining Surgeon of the Enrollment Board, had a large and very successful practice for twenty-five years, at Wolfborough and vicinity, until selected by the State Government to fill the important and responsible positions referred to—has, at the solicitations of many of our first citizens, consented, during his present leisure at least, to practice his profession in this city, and may be consulted at No. 50 Congress Street; and that should sufficient inducements be offered, the skillful and gentlemanly Dr. may conclude to settle among us, as desired by many.

☞ As the matter of the Old Folks Concerts was made somewhat a public one, and the proceeds of the second Concert, if any, were (by request of the President of that Society,) to go to the Soldiers' Aid Society of the South Parish—the Manager of the Old Folks Choir would report thus publicly, for the information of all interested: that while the large receipts at the first Concert were only some $20 or $25 more than the actual outlay—which was also necessarily very large—the receipts on the second occasion were but $73, while the actual cash expenses, (which were kept as low as possible—but with travelling and hotel bills for out of town performers, &c., always count up very fast,) amounted to more than $90. And this, notwithstanding the Journal and Chronicle made no charge for printing, and the door-keeping and all the labor of trimming the Temple, &c., was performed gratuitously. So, considering the interest which the Pastor of the Universalist Church took in the affair, and the fact that the Manager of the Choir has, say about $10 as the net result of the two Concerts, (beside music books for future use worth $150 or so,) we have concluded to divide the small amount of cash equally between the two Ladies' Soldiers' Aid Societies of the Unitarian and Universalist Parishes referred to—only regretting it were not ten times as large, as it undoubtedly would have been but for the sad circumstance already known to all.

And in this connection, the Manager would acknowledge the important aid rendered in these Concerts, as heretofore, by Mr. Pearson—who has proved himself one of the best concert and choir leaders we ever had here; also to Mr. Lawrence, for his valuable services as conductor; to Messrs. Day and Tompson, for very material assistance; to Mr. Davis of Concord, and Maj. Blake of Exeter, for their attendance and aid; and to all who helped in any way to render the affair the great success it was. Since the formation of this Choir, ten years ago, so heavy and so good a chorus as theirs has not been heard in the city; and the best judges say that probably *never* was any instrumentation here, so rich, full and effective as at this second concert.—The musical success was all the manager could ask; and the satisfaction of the choir and the public, repays him for all his labor and trouble.

☞ The Surgeon who was called upon to dress Mrs. Warren's wounds, tells us that they are not much beyond a few scratches; that he did not perceive any great disability,—and that injustice is done to Mr. Roberts by the imputation of violence — A near neighbor also suggests that Mr. R. is a peaceable man, as may be made to appear on examination, and that he, (and not the woman,) is the injured party. We are sure our Police Court reporter had no intention of doing injustice to the gentleman referred to, and we regret the publication of the paragraph of Monday, in addition to his other vexations in this matter.

☞ Foster's champion Pop Beer is a tip-top article; and may be had in any quantity at his confectionary establishment in High Street.

☞ Whiston, the great contortionist, mimic and wizzard, appears at the Temple to-night—and there will no doubt be fun alive.

☞ The Philharmonic Society's rehearsals have been changed from Wednesday to Tuesday evenings—at half-past 7.

☞ At a recent Parish Meeting of the Unitarian Society, it was voted to raise the salary of their Pastor to $2500. Also to raise by subscription the sum of $2500, toward the National fund for the denomination. We understand the Sabbath afternoon service is to be held during the Summer at 5 o'clock; and that there is also to be a Vesper service at the same hour on Wednesdays. It is reported that Mr. Parson has been tendered the position of organist the coming year.

WRITING.—Mr. Hinman's method of instruction will be *thorough* and systematic, and will consist of regular courses of lectures on the correct principles of legitimate writing, together with the black-board demonstrations and private instructions to each pupil.

Mr. Hinman has found by long experience that the only true method of teaching this art, is to give the anxious learner at the outset, an easy position of body, and to the hand and pen their true position, and you secure to *muscle* the most perfect obedience to the *mind*.

Give the young mind in its first efforts, a good outline, a good knowledge of formation, combination, shade, slope, and arrangement, and half the work is performed; for mind is the prompter of muscular motion—and the scholar early secures a living, directing Teacher within himself.

Order, intelligence and activity, are the sure guardians of success in the disposition of school labor.—Mr. Hinman will, at stated hours, illustrate on the black-board and otherwise, (while each pupil has the standard system of writing before the eye:)

1. The best position at the desk or table.
2. Position of the hand and pen.
3. The movements in writing separately and unitedly exemplified.
4. The principles—how formed—what they form—how combined, &c.; together with the exercises as they accrue, and which increase muscular power, and fix the unity of principles on the memory.
5. The harmony of slope.
6. The proportion and harmony of curve.
7. The disposition of light and shade.
8. Arrangement, &c. &c.

Such systematic understanding union of effort (of teacher and pupil,) will beyond question do more in a few lessons to secure to the learner a good hand-writing in the event, than term after term of *attempts* at teaching, of which the people have been so bountifully supplied.

WHISTON, THE HUMORIST.—Our readers must not forget that this celebrated Performer gives his comical and eccentric Exhibition this evening, at the Temple. That this gentleman can produce any quantity of fun, no one who has witnessed his performances a year ago, in this city, will deny. His local hits on the "Men and Manners" of Portsmouth, it is said will be immense. We should advise our friends to purchase tickets early to-day, at Avery's Store, or either of Mr. Thacher's drug stores, as the Temple will be crowded to-night. 1t

☞ The usually quiet town of Kittery was disturbed on Sunday last by a party of loose women from this city, riding about in a carriage and indulging in disgusting conduct; and if the authorities of K. had been smart, they would have arrested them and their attendants. It is said that the occasion of this breach of the laws, was the fact of an open rumshop being kept there on that day, thereby affording an opportunity for not only the lewd and lascivious to enter and partake, but also those who would not indulge were they not tempted.

As we have said scores of times, the J. Monroe Taylor Gold Medal Soap is without exception, the nicest and best soap made; is the only kind that can be called a perfectly pure article, and goes nearly three times as far as any other soap and will always turn out whiter and nicer clothes than washing with any other article. Try it, and you will find what we say is true. 137

ARCANA WATCH.

An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lever, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are superbly finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balanced and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO.,

GOT ENOUGH OF THEM.—The Raleigh (N. C.) Progress of April 20 seems to have got enough of the governments, State and National, of the Confederacy. It says:

"We do not desire to dictate to General Sherman, General Grant or Government at Washington, but we do most solemnly protest against those State officers who have tyrannized over us for the last two years. Give us a military government and protection at the polls until we can elect new civil officers, and we shall be satisfied; but if those who have heretofore enslaved us be allowed to remain over us, all our devotion to Union and all our sacrifices are vain. Give us entire freedom through the constitutional mode of the ballot box, or give us abject slavery. No more of Davis, no more of Vance. We speak not for ourself, but for the people of North Carolina, and we appeal to the Union armies and the National authorities to save us."

☞ The Newburyport Herald says "Rev. Mr. Muzzey, of the Unitarian church there preached his farewell sermon last Sunday. The parish have not yet selected his successor. As that is the oldest religious society, in the city, we hope they may be fortunate in obtaining a preacher who will continue their prosperity and add to their numbers. Puritanism is the substratum religiously of New England, but Unitarianism has had a most happy influence in elevating public thought and liberalizing public opinion. They have opened a way for a breadth and elevation of sentiment which we might otherwise have been long in attaining."

— In Philadelphia, a colored woman has recovered $50 damages for being put out of a horse car because her skin is not white. Judge Allison charged the jury that the passenger railway companies must conform to the terms of their charters. They were incorporated for the accommodation of the public, and have no right to adopt rules to exclude a class. They may exclude individuals who may be offensive, but they cannot declare that because a man is a German, an Irishman, a white or a black man, that he cannot ride.

☞ The Herald says "Mr. French the sculptor, at the same time he is progressing with the bust of the late Hon. Josiah Little, is preparing to execute one of another of Newburyport's most distinguished men, who has a wide fame, and who needs no such memorial to be remembered by posterity. We hope that others will follow, so in the new Library Hall, we may at no distant day have in marble, a beautiful memento of the great and good who have been connected with the town. A gentleman who has a fine bust of Admiral Coffin, has presented that to the Library."

THE DUTIES OF NEUTRALS.—Mr. Adams, our Minister in London, lately turned the tables happily upon Earl Russell in a correspondence upon the duty of neutrals, and the idea that Britain had transcended them in permitting Confederate pirates to be fitted out from her port. Said Earl Russell, in defending his friends:

"I cannot refrain from observing that her majesty's government have been far more successful in preventing breaches of neutrality, with regard to the fitting out of cruisers to take part in the civil war in North America, than the government of the United States were in the fitting out of ships of war to aid the South America republics in their revolt against Spain, which, however, then stood in the position of a central authority resisting insurrection."

Which permitted Mr. Adams, more historically learned, to say in reply:

"Whatever may have been the deficiencies of the United States in the instance alluded to, compensation therefor has been made to Spain, and her full and free release has been given under the sanction of her hand to a solemn treaty. Whenever her majesty's government shall acknowledge itself prepared to perfect the parallel, the examination may be cited against the United States, but not till then."

SHARP BOY.—A boy selling newspapers at the railway station at Ely, was calling out one Saturday evening, "To-day's Times, gentlemen," upon which a passenger, attempting a witticism, cried out "What's the use of *to-day's Times?* I'll give you a shilling *for to morrow's!*" And the boy immediately handed him the Sunday Times. The passenger refused to give him more than sixpence, but his fellow traveller made him keep his word, and give the sharp-witted lad a shilling for a sixpenny.

— As the remains of President Lincoln arrived at Westfield, five ladies, including the wife of Col. Drake, who was killed at Cold Harbor, brought in a cross and wreath of flowers. On the former were the words—"Our's the cross, thine the crown." All were affected to tears.

A NEW USE FOR PETROLEUM.—Dr. Decasine, of Antwerp, announces that the itch may be cured instantaneously by simply applying (without rubbing) petroleum to the parts affected. The mere emanations of the oil are sufficient to disinfect the patient's clothes, and Dr. Decasine adds that all other parasites of the human body, may be destroyed immediately in the same manner.—*Galignani's Messenger.*

— The swamp in St. Mary's county Maryland, where Booth and Harold found a temporary refuge, is situated four or five miles from the Potomac river. It is about twenty miles long, and in some places almost impenetrable.

ESTABLISHED

FACTS AND APPEALS

FOR THE CURE OF

DR. S. O. RICHARDSON'S

BLOOD-ROOT ELIXIR!

FIRST. The extraordinary curative effect of the Blood-Root Elixir was discovered by a regularly educated Physician: and the present proprietor also is a graduate from one of the highest Medical Colleges in New England.

SECOND. The Elixir is not alchoholic, contains no minerals, and may be relied upon as being composed of strictly vegetable substances; and no ingredient is introduced that can unfavorably affect the most delicate constitution.

THIRD. The extensive and successful use of the Blood-Root Elixir, during the past year, proves it to be, without any qualification, the best and most valuable medicine that has ever been prepared for family use.

FOURTH. Medical science and skill have never been able to produce a cathartic medicine of equal power and effect, which contains so many desirable qualities. Its superiority as an aperient consists in its sure and thorough action, operating equally through all parts of the Bowels. It never produces griping pains in its operation; never occasions nausea; its flavor is pleasant and agreeable: and it will not be rejected by the most fastidious child. It may be safely used in all cases where a medicine is required; and it will promote the comfort and health of both sexes, and of all ages: it will assist Nature during all infantile changes: it will, during the anxious hours of a mother's life, hasten and manage her maternal pangs; it will render joyous and happy the declining days of the aged and venerable. And when the Elixir is once introduced into any household, it will therein supersede all other laxative medicine.

FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, are confirmed by unsolicited testimonials, which in number and extended results exceed any estimate our most sanguine hopes so early had anticipated,—therefore we feel authorized to introduce into any household, it will therein supersede all other laxative medicine.

FIFTH. The long period which the Elixir was used by the original proprietor, in prescriptions to his patients, and the great and unqualified success which has attended its more general use, during the past year, are confirmed by unsolicited testimonials, which in number and extended results exceed any estimate our most sanguine hopes so early had anticipated,—therefore we feel authorized to introduce into any household, it will therein supersede all other laxative medicine.

SIXTH. In examining certificates received during the past year of successful results, we are gratified in believing that our medicine has not failed in any case where it has been tried, to cure the most stubborn and chronic cases of COSTIVENESS.

SEVENTH. Most grateful manifestations have also been evinced by patients who have been relieved from LIVER COMPLAINTS of long standing. Also it has been effectual in curing CUTANEOUS ERUPTIONS OF THE SKIN and in eradicating HUMORS OF THE BLOOD. And many afflicted with deep seated incurable SCROFULA, have greatly benefitted by a moderate use of the Elixir.

EIGHTH. In cases of COUGHS and COLDS it has proved successful beyond any assurance we have ever expressed; and those who have thoroughly tested its effect, believe it to be equal to all other cough preparations.—the Elixir, by its physical properties, equalizes the circulation of the Blood, relaxes the contracted skin, and when used as a gargle, or swallowed slowly, heals and soothes the irritated and inflamed membranes, from which the cough arises.

NINTH. Many persons suffer periodically from JAUNDICE, which is occasioned by a morbid and inactive state of the Liver. The Blood-Root Elixir is a sure relief from the despondent feelings and painful symptoms which are peculiar to this disease.

TENTH. DYSPEPSIA is an aggravating and disheartening disease, often leading to dangerous results. A limited use of the Elixir, according to the directions, will regulate the stomach and bowels, without unnecessarily shock, restore digestion to a natural and healthy action.

ELEVENTH. RHEUMATISM the Blood-Root Elixir will readily relieve; its warm and quickening effect counteracts the cold and morbid condition of the fluids, which is the primary cause of all Rheumatic affections.

TWELFTH. Persons subject to HEADACHE will be relieved in a few hours by a single dose of the Elixir.

☞ Every person taking the Elixir should carefully read the printed pamphlet which accompanies each bottle.

For sale by Apothecaries and Dealers in Medicines, and at the Doctor's office,

51 Hanover Street, Boston.

PRICE $1.50 PER BOTTLE. m9

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington,

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, Reports on Drawings for Patents, Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the drawings and specimens of Inventions forwarding One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that more than ONE HUNDRED PATENTS IN THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are a larger proportion of inventors secured,

The Chronicle.

NEW HAMPSHIRE ITEMS.

—— The Peterborough Transcript says that cotton has been purchased, and the mills in that town will continue operations for the present.

—— The old "Foster Mill," situated in East Jaffrey, owned by C. H. Powers and Dr. O. H. Bradley, was consumed by fire on Saturday night April 15th. It has recently been used for the manufacture of feeting, and run under the firm of John Kimball and Co. Loss estimated at $10,000. Insured for $6,500. [So say both the Manchester papers:—but what is "feeting?"

—— Thursday night about eleven o'clock, a fire broke out in Swiftwater village in Haverhill, and consumed a church, a school-house, and a barn belonging to William H. Southard. Incendiary.

—— The Keene Sentinel states that five persons attended the funeral services at Dr. Barstow's church in that town on the 19th, who attended the funeral services held under the same roof frame, on the occasion of the death of George Washington, in December 1799. These persons are Hon. John Prentiss, Noah R. Cooke, Esq., and Mrs. Elijah Parker of Keene; Abijah Ellis, and Mrs. Lucy Nims, widow of the late Matthew Nims of Roxbury.

—— Mr. B. D. Bingham, formerly of Nashua, while returning from Boston to his home in Roxbury, was knocked from the platform of the horse car by a passing vehicle and run over, dislocating his shoulder and fracturing two of its ribs. He is doing as well as could be expected.

— A movement is on foot to establish a Theological School in Washington City, for the education of colored Baptist ministers. About fifty of these preachers have been found in or near Washington, whose names have already been enrolled as pupils. It is believed that attendance of from twenty-five to forty can be secured from the outset. Prof. E. Turney, D. D., is to be their teacher.

— Newbern correspondence says the last positive information of Jeff. Davis' movement's was that he passed through Charlotte on his way southward, escorted by a brigade of cavalry, probably Wade Hampton's, on the 23d inst. As General Wilson was at Macon on the 20th, and virtually held all southern Georgia, perhaps Jeff. may be caught.

— Georgia papers contain accounts of General Wilson's force to the 20th. The rebels have been defeated and lost West Point, Columbus and Montgomery. All the bridges and rolling stock on the Montgomery and West Point Railroad are burnt, also the Lagrange depot. The city of Griffin was surrendered.

— Edward Harris, the largest woolen manufacturer in the country, intends to build thirty or forty cottages in Woonsocket the coming Summer, each one to have a garden, and offer them to industrious mechanics for sale. Who will follow this excellent example?

— Booth's diary mentions everything that occurred from the time he fired the fatal shot until his capture. He gives the names of the parties who had harbored him and those who refused to, the latter of whom he had marked for his vengeance.

— At Louisville, Ky, Gen. Palmer has issued an order that the power of arrest will be sparingly exercised and directed against rebel offenders. Hostile bands within the district are to be treated as guerrillas and robbers; and all loyal people, without distinction of color, are to be protected from cruelty and oppressions.

—Does the —— see no difference between State *Rights* and State *Sovereignty*? President Johnson, like every sensible man, believes in State Rights, but he would be little better than a traitor to endorse that idea of sovereignty which exalts the state above the federal Union.

— By the shooting of Booth, the nation is saved much foolish talk as would be the case at his trial, in relation to insanity, and also much sickly sentimentality, which is common with a certain class.

— We have yet to learn that a man who swears and says "by the Eternal," he will do so and so, is more courageous and exhibits more pluck, than he who talks calmly and makes use of no such big expressions.

— Port Royal, where Booth was captured, is a village in Caroline Co., on the right bank of the Rappahannock 22 miles below Fredericksburg, in Virginia.

— The Rebellion had Slavery as its father, and "paramount" State Rights as its mother. Let us beware of them both!

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an Ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to all countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of inks. NOTH S. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink for about years past, from Prof. Ure's Recipe, (made of Alepps Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first. It has not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without it, remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder you sent, and do say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder, and it only needs the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all*.
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing*.—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Mason's Manard & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and state distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale* it to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awaw3m

HIGHLY IMPORTANT
UNFORTUNATE FEMALES!
DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, p. o. box 38 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 18, 1864. TTESLY
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Petroleum!
LOMBARD & GORE,
BOSTON
PETROLEUM AND COAL STOCK
EXCHANGE,
99 STATE STREET,
BOSTON,
Buy and Sell Oil and Coal Stocks on Commission, in New York, Philadelphia, and in Europe.
We believe we can offer superior inducements to all persons wishing to invest in
Petroleum Stocks,
Such investments, as a class, offer greater inducements to persons of either large or small means, than any the world has ever known.
Many Petroleum Stocks are now paying at the rate of 60 per cent. per annum, and taking the increased value of the stock into consideration, a person investing at subscription price in reliable companies may reasonably expect to double his money within a year. Capitalists in all parts of the country are now giving their attention almost exclusively to this class of securities, which have already yielded princely fortunes to thousands of persons. ☞ Persons desiring information can rely upon receiving an unbiassed account of the standing and prospects of the various companies on the market.
Enquiries by mail will receive prompt attention.
Subscriptions received to all first-class Companies upon the most favorable terms.
Receipts and Certificates will be forwarded in exchange for available funds, without charge; and Petroleum and Coal Stocks will be sold at the Brokers' Boards of New York and Philadelphia at the regular rates of commission.
We would call special attention to the following Companies, viz:—
THE HAMILTON
OIL AND COAL COMPANY.
CAPITAL $1,000,000.
100,000 Shares, par value $10.
Subscription Price $5 per Share.
20,000 Shares reserved for Working Capital
PRESIDENT—HON. WM. G. STEELE, M. C.
VICE-PRESIDENT—JOSEPH TREAT.
TREASURER—S. L. WOODHOUSE.
This Company has secured 2218 acres in Pennsylvania and Ohio, which have been selected by the most experienced oil men after two months' careful research and personal examination on the grounds. On one part of the property is a well from which considerable quantities of oil have already been taken, and as the Company will proceed to make further developments at once, they have every confidence of being able to pay dividends at an early period. A prospectus may be had on application to us.
BOSTON
PETROLEUM OIL COMPANY.
Capital, - - - $300,000.
Par Value of Shares, - - $10.
$33,000 Reserved for Working Capital.
This Company is organized under the General Laws of Massachusetts. The property consists of
Ten hundred and ninety-six (1096) Acres of the very best Oil Lands,
all contained within the great Ohio Oil Belt, over 700 acres of which is in FEE SIMPLE.
PRESIDENT—CHARLES S. WHITEHOUSE.
TREASURER—CHARLES SMITH.
SECRETARY—CHARLES H. PIERCE.
ATTORNEY—JOSIAH RUTTER, ESQ.
MANAGING AGENT—F. A. WILDER.
DIRECTORS.
C. S. WHITEHOUSE, J. W. PARMENTER.
CHARLES SMITH, JOHNSON BEAN.
JAMES F. BRIDGE, GEO. E. SMITH.
Books for Subscription are open at our office. Only 2300 Shares are offered to the public at the subscription price of $10 each, and we would advise prompt application, believing the stock to offer a good and secure investment. Five wells are now being bored on the properties of this Company, and the interests of the Stockholders are in the hands of able and competent managers. Full information will be given on application at our office, in person or by letter.
ROBY & COW CREEK
OIL COMPANY.
CAPITAL STOCK $500,000.
100,000 Shares. Par Value $5.
Subscription Price $3 per Share.
Working Capital $50,000.
No personal liability. No further assessment. To be organized under the General Laws of Massachusetts.
PRESIDENT—HON. LINUS CHILD.
TREASURER & CLERK—HENRY F. SPENCER.
DIRECTORS.
Hon. Linus Child, Hon. John A. Goodwin.
E. H. Sawyer, Esq., F. E. Gregory, Esq.
Levi C. Barnes, Esq., Henry R. Merrill, Esq.
Emerson Leland, Esq.
This property consists of valuable Rights in the very best Oil lands in the country, situated on Oil Creek, Pennsylvania, and Bull and Cow's Creeks and Rawson's Run, West Virginia. Property in the vicinity of Rawson's Run has increased largely in value within a few months, on account of the numerous successful developments. There are many wells now going down upon this property, or being put in working order under the management of an able superintendent.
A map and prospectus of the different properties belonging to this Company, may be had upon application at our office
SUFFOLK
PETROLEUM AND COAL CO.
OF BOSTON.
In a short time Subscription Books will be opened at our office only for a portion of the Stock, due notice of which will be given.
Full information will be furnished in regard to the above, and all other Companies in the market, upon application at our office, personally or by letter,
P. S.—Parties remitting funds to us will please send by express, except when drafts can be obtained, in which case we will bear the charges of forwarding. In this manner they can obtain reliable receipts.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MAY 3, 1865.

WASHINGTON ITEMS. The trial of the Conspirators was to begin Tuesday May 2, before the Military Commission. The evidence will be reported verbatim, but will not be allowed any publicity until the War Department shall see fit. There is a plenty of evidence, and among other things it will be known in the Commission who *paid the money* to the murderers and would be murderers. In due time the people will know it.

— The Rebellion is put down, perhaps, as far as field fighting will do it, and the Government will probably make military posts of all the Southern capitals, and then —wait. The loyal men of the land can afford to be patient. The new President will be reasonable but resolute. Clemency to the deceived—stern retributive justice upon the deceivers—is to be the policy of the Government.

— The formal surrender of Johnston's army was to take place, according to advices from Raleigh, on Saturday, at Greensboro'. Every officer but Wade Hampton, is included in the capitulation.

— Retrenchment has commenced in earnest. A large number of transports were discharged Monday from the Quartermaster's department.

— The rebel guerrilla Moseby was at Salem, near Warrenton, last Friday. He is still harbored by the rebel inhabitants. His command has deserted him entirely, 400 having arrived from Winchester. Gen. Hancock paroled some of them off to bring in Moseby for a reward of $5000.

— Parts of Gen. Sherman's army are going to Richmond. The Army of the Ohio, Gen. Schofield commanding, consisting of the Twenty-third and Tenth Corps, remains and will be distributed as a garrison force throughout the State of North Carolina.

— The N. Y. Tribune's special Washington dispatch says Clark Mills, the sculptor, who is supposed to have no excess of loyalty, applied to Sec. Stanton for permission to take a cast of Booth's head. The blunt war minister replied, "Better take care of your own head."

— The War Department has directed that all civilians designing to visit Fortress Monroe or City Point and Richmond must go via the Baltimore boats.

— April 20th, Sec. Mallory of the rebel navy, surrendered himself to Capt. Gibson of the U. S. Navy, at Pensacola.

☞ The London News remarks that the capture of Richmond and the approaching end of the Southern rebellion, which have surprised the infatuation of hot partisans, will compel the French Government to reconsider its policy in Mexico, its ostensible aims and its secret objects, and probably to withdraw the flag of the Second Empire at the earliest possible moment from an enterprise begun in bad faith, conducted under false pretences and directed to no reasonable or avowable ends.

☞ On the very day of President Lincoln's assassination, a Democratic paper in Pennsylvania published the following words from C. Chauncey Burr. Burr had just been on a visit to Wheatland, where he had spent a few hours with Mr. Buchanan, and in the exhuberance of spirit generated by their interview, he says: "For our own part, we have never feared for the ultimate triumph of truth and liberty, nor doubted the overthrow and punishment of Lincoln and the partisans in his despotism. But we know of many who do doubt—a visit to Wheatland would reassure them. Mr. Buchanan has prepared a documentary history of the latter part of his administration, which will be published by the coming summer. It will do much to unmask the hypocrisy and crime of the despots in power, and to save our country."

— The Buffalo Express stops the flow of a good deal of sympathy, by contradicting the report about the insult to ex-President Fillmore in that city. The Express says: "We beg to inform the public that no mob has troubled the repose of Mr. Fillmore, nor has his stately mansion sustained any damage from ink or other malicious applications. All that the venerable gentleman has experienced of recent trouble, so far as we know, is perhaps a little chagrin or mortification, or other slight disturbance of the serenity of his mind." Mr. Fillmore displayed mourning drapery on the day of the funeral of President Lincoln.

IN NORTH CAROLINA, Mr. Holden, editor of the Standard, who is suggested for Governor, takes decided ground against the restoration to power of Governor Vance and the existing Legislature. He favors the adoption of the constitutional amendment abolishment slavery, and of recognizing the Constitution of the United States as paramount to any State constitution.—[This is the true and safe ground.]

— Oregon papers mention the hanging of 15 horse thieves, by lynch law. The vigilance committee had a list of 150 rogus who would be driven out of the country.

A FEW BOOKS FROM THE HARPERS.—*Dear "Oldest Paper:"* I have on my table a small pile of new books, of widely different character, that I would like to tell you something about. And first in my estimation is, HOARTHREAD AND MCDONNER, by Jacob Abbott. In an older form it has been a great favorite of mine: now it has grown into a beautifully illustrated duodecimo. It is a religious story, with no labored plot, and destitute of every attraction used by Sylvanus Cobb, and that goes to make up a flash novel. If a keen dissection of thought and a wonderfully accurate delineation of commonplace persons, scenery and events, will not satisfy the readers, the Abbotts despise all lower arts of allurement. I would not exchange this one book for the use of my family, for the whole Rollo, Lucy, and Franconia series.

Next comes a smaller book, by John S. C. Abbott. Strange how much alike these two brothers are, and each how how unlike himself! The christian Abbott wrote The Corner Stone, The Way to do Good, The Mother at Home, and Hearyhead. The unbelieving Abbott wrote the Rollo books, a long series forender minds, in which I do not recollect one glimpse beyond the bounds of time. The latest of these works is PRACTICAL CHRISTIANITY, a very readable presentation of the claims of Religion upon the young. It reminds me of the "Corner Stone," which made quite an impression in its day, but is now too much forgotten.

Next comes Mrs. Richards' SPRINGS OF ACTION. I deviate from my usual rule, not to write about a book I have not read thoroughly. But I am not fond of this kind of reading, and it is not always easy for me to understand what she would mean. But now that I sit down to write it off my hands, I am sorry I have not read it. It is written for the formation of the character of young girls; but I find so much in it that would be instructive to one of the opposite sex and a maturer age, that I am resolved to try the course of "Lydford Law," first pronounce judgment and then proceed deliberately to the trial. There is less sin in this, because the judgment is favorable. I think it would make an excellent text-book for ladies' schools.

Next comes C. V. D. Heard's SIOUX WAR. This relates to the Minnesota Massacre, and the causes and consequences of it. Awful misgoverment at Washington, and in the satraps sent thence: oppression that despised justice and feared not vengeance, was the cause. The consequence was, a vindictive hatred of the Indian, that nothing but a war of extermination could satisfy. Mr. Heard was a volunteer in that war.

Next comes GEORGIA SCENES: quite an old book, but now with a new meaning to it. In the light of recent history, I can testify to its wonderful fidelity in the delineation of the character of the less educated and refined part of the class of small slaveholders. To those who knew nothing of them, much that is sober fact looks like broad caricature. But much in Southern character will not admit either of caricature or exaggeration: nature has done all that at hand.

I overrun the limit I set myself, rather than to pass by J. ROSS BROWNE'S YUSEF. I have found it a dangerous book. I can read the most comic works of our most comic writers with a grave countenance. I do not think that Artemas Ward or Mrs. Partington ever drew a smile from me. Once only have I feared the rupture of a blood vessel from laughing: YUSEF did that. There is a humor in ROSS BROWNE that to me is irresistible. Some are perfectly bewildered by this volume of Eastern travel—not knowing where the truth comes in. It comes indeed in queer shapes. But I must close.

Yours truly, I. F. H.

☞ The rebel ram Albemarle, which was sunk at Plymouth, N. C., has been raised, and is now at the Gosport Navy Yard. The cost of raising her was about $20,000. Her machinery is in excellent order, and she sustained but little damage by the explosion of the torpedo. It is intended to put her in sea-going order, and probably she will be sent to New York to be fitted out as a first-class iron-clad.—Paroled rebel officers and privates are daily arriving at Norfolk, taking the oath of allegiance and returning to their homes.—The land in the vicinity of Portsmouth, Va., is in an advanced state of tillage.

— Gen. Halleck has issued an order at Richmond to the effect that no one be allowed to transact business without first taking the oath of allegiance. He has also offered to supply the citizens of Virginia with condemned government horses for agricultural purposes.

— The N. Y. Times' correspondent says Ex-Governor Aiken was arrested by order of President Johnson, and that his arrest was based upon his refusal to take the oath of allegiance.

☞ Hon. John Covode, of the War Committee, furnishes the following relative to the Sultana disaster:

No troops belonging to States of Ohio were lost. All Eastern troops will be sent to Annapolis. The boat was overloaded, her registered capacity being only 376 tons. Nearly 2200 persons were on board. There were other good boats at Vicksburg which could have been sent, but the authorities would not permit them to leave.

— When the rebel ram Webb went past New Orleans, she was fired upon, and a 125 pound ball passed through her bow.—The gunboats started in pursuit, and 24 miles below the city she was fired by the crew and blew up. The crew of 64 men and 8 officers took to the woods, but most of them afterwards surrendered.

NEW HAMPSHIRE ITEMS.

—— The Concord Monitor of Monday, says Rev. Mr. Patterson of Portsmouth, delivered his celebrated lecture on "The Flag and the Cross," Sunday evening, in the Universalist church, to a full and delighted audience. The Monitor gives a sketch of the discourse, and says it is abundantly worthy of being made matter of more permanent record.

—— In Concord, Saturday night, the houses of J. V. Barron and James Peverly, were entered by some burglars, and valuable watches and money taken from each. In Mr. B.'s house, a watch was taken from his sleeping room, and his pants were removed to another room, where his wallet was searched and the money taken. The house was entered through a window. The watch dog had been put into the barn for the night, on account of the rain! Every room in Mr. P.'s house seems to have been entered; a watch was taken from his library room, some jewelry from a box, and his pocket-book from his sleeping room. A lamp was taken from his house to Mr. B.'s.

—— Sarah E. Webber, tried at Keene week before last for the murder of Alfred A. Tolman and found guilty of manslaughter, was sentenced by the Court to fifteen years in the State prison.

THE ADJUTANT GENERAL'S OFFICE.—The people of New Hampshire will be as much gratified by the following intelligence, embodied in a circular from Gen. Head, as those officers of our volunteer regiments to which it is addressed. Hence we give it a place in our columns:

I have the pleasure to inform you that by the valuable and efficient assistance rendered by you respectively, and with the aid of clerical assistance at Washington, D. C., I have been enabled to obtain such monthly returns of your respective organizations as will make the files in this office as complete as those in the possession of the War Department. The value of these returns cannot be estimated by figures. The welfare of our brave soldiers is inseparably connected with them. The payment of bounties, and the awarding of pensions is influenced, and the extension of State aid is based upon them. Other matters of equal importance are in many cases governed and decided by the information embraced in them.

The monthly returns thus obtained have enabled me to account for nearly *eighteen thousand* volunteers; of which, previously, no record existed at these headquarters beyond that of their enlistment into the military service of the United States.

The State records of New Hampshire soldiers up to Jan. 1st, 1865, are as complete as they can now be made.

It is due to our Adjutant General and all connected with his office, that the people of our State should understand that the results which have been epitomized above have not been attained without untiring effort. The Clerks in Gen. Head's office have been busy, under his personal supervision, from early in the morning until late at night; and have displayed not only perseverance and energy, but rare business tact and courtesy in the discharge of their arduous duties. The office is a model of neatness and despatch, and a credit to the State of New Hampshire. The results of its labors will be apparent in the report for this year, which is already in the hands of the printer.—*Monitor.*

For the Chronicle.

☞ A rebel slaveholder must see the *just ice* of the emancipation proclamation, where it *freezes* (frees his) negroes.

— *Is* it proper to say "she," referring to a *mail clad* ship?

— Why are the rebels like cows out to pasture? Because they cannot come back until "our boys" *take down the bars.*

— Why are the "big rebels" like cows driven home? Because they need to be *tied up.*

— Why is a whipt school-boy superior to the teacher? Because he is a *smarter.*

— Foster's paper "went up," a martyr to its *un-flag-ing* devotion to the rebel cause.

JOHN S. BARRY, of Boston.

Treasurer.
LEVI H. STRAW, of Boston.

Directors.
John S. Barry, Boston, V. J. Messinger, Canton, S. Johnson, Charleston, Seth B. Brown, Boston, J. S. Shaller, Roxbury, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

Local.

"Vice is a monster of such horrid mien,
That to be hated, needs not to be seen;
Yet seen too often familiar with her face,
We first endure, they pity, then embrace."

Some write for the public Journals to gain popular applause; few wish to incur censure by attempting to reform the public morals. Yet when conscience points out our duty, we ought not to shrink from its performance. Having been the humble instrument of doing some good to Portsmouth, regardless of frowns or flattery, we now call the attention of our fellow citizens to an unpleasant subject—the state of morals here, in order to see whether measures may not be devised for reformation. Newspapers at a distance have cast a stigma upon our city, on account of tolerating numerous houses of ill-fame here. We might retort upon some other cities for suffering such sinks of vice to exist; but that would afford no excuse or justification for this city, for vice is vice wherever it may be endured. It is painful to admit that there are such nuisances in our midst. In the language of the law they ought, all of them, "to be abated." We have heard what are called reasons assigned for suffering such houses to exist. But all such reasons, however plausible, amount only to an argument in favor of justifying vice and sin against high Heaven—to justify the violation of the injunctions of the sacred scriptures. Such houses open the door to crimes which disgrace human nature—to dreadful profanity, drunkenness, lying, theft, robbery, disease, murder, and other offences, from which humanity revolts and shrinks back with abhorrence! How many of our youths—how many adults, seduced by the temptation of the arch fiend of human nature, suffer their organic system to be poisoned, enervated, underminded, or destroyed. Indeed many come to an untimely end. Such houses—pandemoniums, are like war upon the physical energies. The war from which we are about to emerge, has had a baneful effect, as all past wars have had, in corrupting the national morals. It has had a similar effect, no doubt, in many of the populous cities. Since the war began, there has been an influx of transient people into our city, of various grades and classes, immoral as well as moral, who have perhaps brought some public reproach upon our upright citizens. But such influx, as a natural sequence of the war, was unavoidable. It admits of no doubt that the moral and enlightened people of our interior towns, would not suffer such houses long to remain, without resorting to the legal remedy, or else the axe. But we are opposed to all violations of law. The legal remedy is sufficient. The abandoned inmates of such sinks of iniquity, as well as the owners or lessees of the houses, are liable to criminal prosecutions. Complaints may be made to the civil magistrate, or to the Grand Jury. The latter would readily bring in Bills of Indictment, under laws and statutes of the State. That would be the most effectual way to remove the reproach from the city.

Let the owners or lessees of such houses, reflect that the high rents they may receive can be no expiation for the evils they are the means of inflicting upon the community. Their houses are as full of evil as Pandora's box, for which they will be held accountable at the judgement Day.

Are they less culpable than the most miserable and despicable female prostitutes who have no regard to character and the moral sense, or who have, regardless of the admonitions of friends and relatives, deserted the parental roof? It is said that steeped in vice, they generally live out but half their days. Wherever or whenever a town or city gets a bad reputation abroad, just or unjust, it operates not only as a cause of emigration but is a hindrance to the immigration, of the best classes of society. We need not refer to the immutable principles of the christian religion in support of our positions. These we trust, are well understood by all moral persons, and the latter will surely approve the remarks we have made from a pure motive to promote the prosperity and happiness of our city.

A CITIZEN.

A GREAT CURIOSITY.—Prof. Hiuman has among his specimens of art, *the Lord's Prayer written three times within the area of a three cent piece*, in the most perfect manner. This we consider one of the most wonderful and difficult productions of human skill. Every word and letter easily read in sunlight. Prof. Hiuman will take pleasure in showing this skillful and difficult piece of writing to all who may wish to see it.

☞ The Unitarian Church will be open for divine service on Wednesday afternoons, at 5 o'clock. This service will consist of a scripture lesson, a prayer, and a vesper hymn. All are invited.

☞ Mrs. Haley, (one of the Committee—not the President) of the South Parish Ladies' Soldiers' Aid Society, acknowledges the receipt of $5 from the Manager of the Old Folks Choir.

Rev. A. J. Patterson, in behalf of the Soldiers' Aid Society of his Parish, also acknowledges the receipt of a like sum from the same source.

☞ Returned soldiers have the preference when vacancies are to be filled on Navy Yards and government work. Their names are registered, their former employment stated; and when requisitions are made for men in the respective departments, master workmen are obliged to first consult this register, and employ those there recorded, if such be found. About four hundred have registered their names on the Portsmouth Navy Yard.

☞ WHISTON, the Humorist, had a "full hearing" at the Temple last night—and delighted, puzzled and amused his large audience. To-night there will be one more chance to see this Comical genius—who as everybody knows, is a "host" in himself; as we are requested to announce that Whiston will give another rich Entertainment this Wednesday evening, with a new programme. Tickets a "quarter," to be had at Thacher's and Avery's.

☞ Orders have been received at the Portsmouth Navy Yard to prepare the ironclad Agamenticus for sea. A rumor prevails that a rebel ram has been seen outside on the coast, which probably occasioned the haste in fitting her out. Her machinery works admirably, and if she is stationed at the mouth of our harbor, we need ask no other means of defence from rebel incursions.

☞ Two pair of hands can do more than one. Dr. A. P. Stevens, at No. 3 Daniel St. thinks so, and has therefore secured the services of a first class assistant in his Office. Artificial Teeth will now be gotten up by the Dr. just as well as before, and as is sometimes important, in much less time. Entire satisfaction is the Dr.'s motto. See Advertisement.

RAISING THE FLAG AT SUMTER.

With holy hands and thoughts profound,
Lift the banner from the ground;
With sanctifying breath of prayer,
Speed it through the ransomed air;
With hearts tumultuous with love,
Greet it, as it floats above:
Redeemed, regenerate, set free,
Salute it, O ye land and sea!

Four bitter years of dark mistrust
Trailed that banner in the dust;
Four cursed years of sin and shame
Falsified the nation's name;
Four wasting years of blood and strife,
Freedom struggled for its life;
But to-day the flag floats free,
Salute it, all the land and sea!

Round the fort where first it hung,
Treason first its echoes rung;
Where first the sacred sign unfurled,
First the bolts of hate were hurled;
Where first arose the smoke and shell,
First to earth, disgraced, it fell;
There restored, and there set free,
Salute it, land; salute it, sea!

Never again its folds shall wave
O'er a traitor or a slave;
Never again shall man efface
Star of hope or line of grace;
Never again shall kings maintain
God's republic is in vain:
Henceforth that banner leads the free;
Salute it, every land and sea!

BOSTON CORBETT. — "Burleigh," the gossip writer for the Boston Journal, tells the following tale of Corbett:

Sargent Corbett, who shot Booth, is well known in New York city. He was a constant attendant at the Fulton Street Meeting, and greatly annoyed it by what was considered his fanaticism. He took part frequently, and in his prayers was in the habit of adding "sir" to all his words, as "O, Lord sir, hear-er our prayer-er." When anything pleased him he would shout, "Amen," "Glory to God," in a sharp shrill voice, to the great horror of the Dutchman who controls the meeting. All remonstrance was in vain, and he shouted to the very last.

He enlisted in the 12th regiment, and made conscience his guide there. He was perpetually in hot water because he would follow the order of his conscience rather than the military order. He prayed in the corner of his tent regularly night and morning, nor could the taunts or jeers of his associates turn him aside. I have seen him often in the guardhouse with his knapsack full of bricks as a punishment, with his Testament in his hand, lifting up his voice against swearing, preaching temperance, and calling upon his wild companions to "seek the Lord."

One day at a dress parade in Franklin Square, Butterfield cursed and damned the regiment for something he did not like. Corbett stepped out of the ranks and reproved the Colonel for breaking God's law. He was of course put under arrest.—He made up his mind that the time for which he enlisted expired at twelve o'clock at night on a certain day. He gave notice that he should go home when his time was out. He was put on picket duty, and as the hour of midnight was sounded, he laid his gun down on the line and marched off. He was tried by a court-martial and sentenced to be shot. The order was not executed, but he was drummed out of the regiment.

Nothing daunted, he enlisted again. He was in a detachment of the New York Sixteenth, who were hemmed in by Mosby, near Culpepper. All surrendered except Corbett. He stood out manfully with his revolver and breech-loading rifle. He killed seven men before he surrendered. He brought his man down every time he fired, and as each rebel fell he shouted: "Amen! Glory to God!" just as he used to at the Fulton street meeting. Mosby liked his pluck, and ordered his men not to shoot him. He was a prisoner at Andersonville. He now passes down to history, immortalized as the avenger of the President.

A UNITARIAN CREED.—The following are the articles of faith offered to the Unitarian Convention by Mr. Low, of Brooklyn, and very decidedly rejected:

1. Belief in the Holy Scriptures as containing a revelation of God to man and as deduced therefrom; 2. Belief in one God the Father. 3. Belief in one Lord Jesus Christ our Saviour, the Son of God, and his specially appointed messenger and representative to our race, gifted with supernatural powers, approved of God by miracles and signs and wonders which God did by him. 4. Belief in the Holy Ghost the Comforter. 5. Belief in the forgiveness of sin, the resurrection from the dead, and life everlasting.

THE GREAT CONSPIRACY.—We have had the great rebellion—now the great conspiracy which was to have insured its success is being unraveled, and were it not that the authorities think that any disclosures might obstruct the operations of justice, I could make some strange revelations. Few can conjecture the extent of the plot, the number of victims who were to have been slain, or the large organization enlisted, including agents and accomplices.—*Perley.*

"Doctor, I want you to prescribe for me." The doctor feels her pulse. "There is nothing the matter, madam, you only need rest." "Now doctor, just look at my tongue; now say, what does that need?" "I think that needs rest, too." Exit madam in a state of great excitement.

— The comb factories in Newburyport and West Newbury, are going to suspend operations for the present, till the markets become more settled.

A Jew called on to justify bail in the Court of Common Pleas, the opposing counsel thus examined him: "What is your name?" "Jacob." "What are you?" "General dealer." "Do you keep a shop?" "No." "How then do you dispose of your goods?" "To the *best advantage*, my good fellow."

PETROLEUM OIL AGENCY.

The California Petroleum Company.

In the Summer of 1864, Professor B. Silliman, Jr., examined this locality, now owned by the CALIFORNIA PETROLEUM CO., the purchase of which he strongly recommended to his friends in New York.

The property covers an area of 18,000 acres in one body, on which are at present at least *twenty Natural Wells*, some of them the largest size. Artesian Wells can be put down, 50 barrels to the extent. The Ranch is an old Spanish Grant of four leagues, and perfect title.

WARGO & CO. say that "those who wish to invest in this class of security need not hesitate a moment where to place their money;—here is a good, honest, reliable concern—one which in our judgment will pay."
Shares $40. Par Value $100.

Rensselaer Petroleum Comp'y.

The property consists of 100 acres, in *fee simple*, on Two Mile Run, near Oil City—a double lease of the Clapp Farm above Oil City, and four acres in fee simple on Tibbets Creek, in the heart of the Oil Regions.
Capital $300,000. Shares $3. Par Value $5.

Sheffield Petroleum Company.

This property consists of 225 acres on the Tionesta Creek—seventy-five acres in the same vicinity. This property is cut through by the Sheffield run, a branch of the Tionesta, and the Sudbury & Erie Railroad. This property is considered of great value in the market.
Capital $300,000. Shares $1. Par Value $2.

Everett Oil Company,
OF BOSTON.

The property of this Company consists of 200 acres of land owned in fee simple, and two leases as follows: The land is located on Oil Creek, near Centreville Depot. The Oil Creek Railroad passes through this land. It has a river front of over one quarter of a mile. It is rich in oil.
Capital $300,000. Subscription price $5.

President Petroleum Company.

A few Shares of this valuable Stock can be had if applied for soon, at the original subscription of $5 per Share. Its contains 3,600 acres, very valuable in Oil, Coal and Timber.

New York and Newark
PETROLEUM CO.

The property of this Company consists of five parcels of land situated in the very centre of the Celebrated Oil District of Pennsylvania, Venango County, in the immediate vicinity of Oil City, the nearest being two miles and the farthest five; and within one-quarter of a mile of Allegheny River, one piece being on that river. The Company have a twenty years' lease for one-half the Oil.

It is the interest of the Trustees to invest every dollar in sinking Wells and obtaining Oil, and not speculating in stock. HAMILTON E. TOWLE is Engineer and Superintendent of this company.
Capital $500,000. Shares $1.

All the above Stock for sale at the AGENCY, **No. 47 Congress Street, Portsmouth,** where Maps, Drawings and Pamphlets are ready for distribution.

I am fully persuaded that all the above Companies are good, well managed, and must pay good dividends, and are the best investments now in the market.

Call and examine for yourselves.

JOHN S. HARVEY, AGENT.
Portsmouth, March 15, 1865.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.]
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The numerous Patents which prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCH IS THE BEST OF HIS ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to compile a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there are here saved to inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can confide in gentlemen *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made more of THESE applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great success and ability must lead me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications for APPEALS, VERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

ARCANA WATCH.
An Elegant Novelty in Watches.

The cases of this watch are an entirely new invention, composed of six different metals combined, rolled together and planished, producing a rich color equal to 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are also engraved, eighth the usual. The case is beautifully designed with Panel and shield for name, with Patent Push Pin, and engraved in the exact style of the celebrated Gold Hunting Lever, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Imer Watch Company of Europe, and are superbly finished, having engraved palletts, finely carved bridges, adjusting regulator, with gold balance and the improved jewelled action with line dial and skeleton hands, and is warranted a good time keeper.

These Watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for $125 00. A single one sent in an elegant Morocco Case for $25 00; will readily sell for three times their cost. We are the agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVEUGE & CO.,
Indawat Importers, 15 Maiden Lane, N. Y.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Hayes, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen personally, and starting this company as a strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the property for this Co. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. P. Poig, Esq., of the firm of Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the lands in question. Early in February they looked over the lands selected by Mr. Hayes, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have been the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty-six millions of dollars*. The Hon. D. J. Barnes, Mr. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through it, and an excellent road leading on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil Basin south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 1000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this farm are productive. The Oil Rock will fill for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of ground on the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that region is selling for $10 per ton, and if the price of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $600 to sink a well to the depth of 700 feet, and the Steam Engine and Tools $20 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and preventing geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil territory in Venango, Clarion, Clearfield and Warren Counties, in all of which I have made considerable investments.—Professors Maxwell and Silliman, eminent men of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. Also, in reference to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells of perfect character, and would ask for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. I have spent much time on each acre for 18 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the profit on the whole in a year, if they are as good, as they are expected, if they only yield the minimum average of the wells flowing in field, and your income from this Farm alone is over one million of dollars. The Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, is heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and near the Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite the Farm and struck oil at 90 feet, and on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. Its about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the owner that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 220 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. Adjoining further north the same company, the United States, is putting down a well that looks already better than the great Frazer spouter, and promises more upon it. In sight of the spouting wells, and between the Frazer and the one which has rised so high in hopes, is Byles Farm, all low land and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it. There is no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Creek, leased for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing fine as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

The property of this Company is located on "Coal Run Creek," Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends.—This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome percentage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations at once, and their first order for machinery was $18,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding 30 gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon this property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land or products of any kind, are to be divided among the stockholders, and in addition $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of their stock at the par value, rather than to sell it, as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:

$5000 to purchase a HOUSE in Boston or vicinity.
$6000 in U. S. 5-20 BONDS, CERTIFICATES of $500 each.
$5000 in DIAMOND RINGS, in value $25 to $500 each
$5000 in DIAMOND PINS, in value from $25 to $500 each.
$5000 in GOLD WATCHES, from $25 to the first quality Frodsham, worth $600.
$5000 in SILVER WATCHES, from $15 to $50 each.
$5000 in FURNITURE, in Sets.
$5000 in CARPETS, each one to be worth $100.
$5000 in PIANO FORTES, from $250 to a Grand Piano at $600.
$5000 in solid SILVER TEA SPOONS, from $10 to $18 per set.
$5000 in LADIES' FURS, in sets from $50 to an American Sable Fur Cape at $600.
$5000 in Ladies' BLACK SILK or FANCY SILK DRESSES, at from $50 to $75 each.

The Chronicle.

☞ The opposition to Gen. Sherman is becoming more moderate.—*Exchange.*

Very likely it is so,—says Uncle Toby. The rebel army that used to oppose him as a military man, has become very moderate; and the traitors at the North, who in their hypocrisy as pretended peace-makers, opposed and maligned his march, have moderated down as flat as dishwater. The loyal men lauded him as a great, successful general; and still think as highly of him as ever in the military line;—they could not help opposing him in his abortion as a negotiator: but since President Johnson and Gen. Grant have buried the abortion, there is nothing there to oppose. Sherman as a general will be remembered and honored: as a treaty maker he should deserve to be forgotten as soon as possible.

A PUZZLED EDITOR.—The Concord Monitor has the following item:—

The Episcopalians have secured the change of the President's Fast from May 25th, that being *Ascension Day*, to June 1st, that being a day which ordinary mortals can consecrate to the memory of a ruler of a great nation, without desecration. There seems to be very few days in the 365 left unappropriated. Our almanac has "Nicomede" printed over against the 1st of June. We don't know what it means, but gravely fear that Johnson has jumped out of the frying-pan into the fire. Somebody has evidently spotted that day.

☞ When President Lincoln's remains reached Chicago, an immense procession was formed, of which four divisions, among others, of the Ellsworth Zouaves, children of the public schools, mounted artillery, two batteries of Illinois light artillery, several regiments State infantry, Masons, Odd Fellows and all other associations and societies and not a few colored citizens. Included in the procession was a full regiment of infantry composed of men formerly in the rebel service, and who on taking the oath of allegiance, were recruited at the several parole camps.

The remains were conveyed to the rotunda of the Court House, where they now lie in State. The rotunda is appropriately draped. Among the mottoes is this: "Illinois clasps to her bosom her slain but glorified son." The catafalque is very handsome.

☞ A correspondent writes us that "the U. S. steamer Eutaw arrived at New York on Saturday, April 29th, from James River, where she participated in the attack upon Howlett's Battery, receiving from Admiral Porter commendation for her rapid and effective firing, pronounced by him as excelling all other vessels in the fleet in this respect. Her officers are: Lt. Com., L. Paulding; Act. Vol. Lieut., J. Simmons; Acting Masters, Kerth and J. Davis; Act. Asst. Surgeon, J. Malone; A. A. Paymaster, T. Caustair."

— Napoleon III is reported to be very sick. His labors upon his "Life of Cæsar" have overcome his strength, or the criticisms upon the book have affected his nerves. What the consequence of the death of this potentate would be upon the interests of the world, could hardly be estimated. He has made himself not only the supreme ruler of France, but a dictator among nations. His removal from this mundane spere would be likely to create immense changes certainly in national policy, and possibly in France also.

— The war element of the South is now said to consist of women, the most rabid; preachers, exceedingly fanatical; and politicians whose occupation is gone with the rebellion. The people would gladly return to loyalty; but the fools and fanatics are not all dead yet.

— Acting Assistant Surgeon John A. Hill of the Lincoln General Hospital, was on Monday ejected in disgrace. An intercepted letter to a person in Canada from him, referring in scurrilous terms to the death of the President, was the cause.

— A man lately went to General Thomas, asking him not to execute a noted guerrilla in his custody, giving as a reason that the war was about at an end. "I guess we shall have time to hang this fellow," was the response of the General as he dismissed the subject.

— A freight conductor on the Detroit and Milwaukee Railroad hurrahed for Jeff. Davis, as the train left Muir Stat on on Saturday. On the return of the train he escaped the indignant people by crawling into a tool-chest on the engine.

— General Sherman is blowing up all the powder mills in North Carolina. That is a manufacture that better be confined to the loyal States for a time.

FRUIT, CONFECTIONERY,
—AND—
Cigars.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported for home made, flowing freer, writing darker, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken in the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have used a large quantity of it. Heretofore I supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but has generally disappointed all who have used it. Your *Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write much faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. FOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without it. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery.
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been manufactured. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected at all.
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. PARKER.
Deering, Monroe Co., Ind., Feb. 20, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks, within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.* It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 18, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky mucilaginous about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEO. W. PLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all people. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. FARRER.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 4, 1865.

WASHINGTON ITEMS.—The Court Martial, of which Maj. Gen. Foster is President, is now in session for the trial of B. G. Harris, a member of Congress from Maryland, who is charged with persuading rebel soldiers not to take the oath of allegiance, and urging them to return South and fight again as soon as they are exchanged. The court will not, it is understood, be dissolved upon the conclusion of his trial, but be continued for the trial of Booth's accomplices.—Facts within the knowledge of the authorities go to show 800 conspirators banded together for the purpose of burning Philadelphia and other northern cities. The affair is undergoing investigation.

WASHINGTON ITEMS.—Payne, the Seward assassin, has made a confession of his guilt.

A most protracted and important session of the Cabinet took place, the subject being the free trade question. It is understood that the whole system of giving permits to favorites was denounced. There was a decided preponderance of opinion in favor of opening trade in all parts of the South subject to Union authority.

There were upwards of 330 sail of vessels at City Point, Va., on the 29th ult.; all loaded on Government account and waiting orders.

FROM NEW ORLEANS AND THE SOUTH-WEST. The New Orleans Times of the 25th reports that the steamer General Hodges came out of Red river on the 23d, under a flag of truce, for the purpose of negotiating with Col. Sprague, Chief of Staff of General Pope, for the surrender of Kirby Smith and his forces. Col. Sprague left Cairo on the gunboat Lexington, for the purpose of meeting Gen. Hodges at the mouth of Red river, and there can be but little doubt that Kirby Smith has surrendered his entire force on the same terms as those proffered by Gen. Grant to Gen. Lee. The Lexington and General Hodges were, at last accounts, anchored at Hog Point, a few miles below the mouth of Red river.

The surrender of the rebel Secretary of the Navy at Pensacola is confirmed.

The sum of eighteen million dollars in greenbacks had arrived at New Orleans to pay our troops, and as much more is on the way.

Claiborne, Alabama, was occupied by our forces, under Gen. Lucas, after a victory over a regiment of rebels north of Mount Pleasant, the rebels losing ten killed and fifteen wounded and twenty-two prisoners. Our loss was three killed and nine wounded. Five hundred bales of cotton were secured.

Captain Pickens, who has forsaken the rebel cause, has issued an address to the people of Louisiana.

The rebel General Chalmers is reported to have been murdered in Texas.

Advices from Brazos state that Cortinas had again abandoned the Imperial cause and occupied Saltillo and Monterey. A party of his men are said to have dashed into Matamoras, and Mejia has sent to Vera Cruz for reinforcements. Bagdad is also said to be occupied by 3000 well armed men under Cortinas, and it was thought Matamoras would soon be taken by them.

Deserters are coming in from Texas and enlisting in our army at Brazos.

An inundation at San Antonio, Texas, destroyed twenty-five buildings and ten or twelve lives.

FROM NEW ORLEANS, April 27.—The river in the vicinity of Baton Rouge continued to rise. Many plantations on the west side were inundated.

Capt. Reed and 26 of the crew of the ram Webb were captured by the 10th Illinois cavalry, and brought into New Orleans on the 26th.

Steamer St. Mary, sunk in Mobile Bay, was being raised.

Steamer Hamilton from New Orleans with the 3d Michigan cavalry, was struck by a torpedo under her bow in the Lower Gap channel entrance to Mobile, making a wreck of that part of the boat, killing and wounding 13 persons. An order was immediately issued for all steamers to take the Eastern channel by way of Tensas river in going to and from Mobile, 20 or 30 miles further.

☞ A man who was on the railroad train captured by Stoneman's cavalry between Greensburg and Salisbury, N. C., says Jeff. Davis was on the same train, on his way to Charlotteville. Learning the railroad was cut above and below, Davis, with other passengers, escaped and returned to Greensburg. Stoneman's cavalry is in the valley of the Safuda River with headquarters at Anderson, S. C., and the cavalry are scouting from there towards Augusta, Ga., with instructions if they hear of Jeff. Davis and his treasure to follow them as long as there is a horse left. The infantry of Stoneman's command is engaged in clearing the mountains of bushwhackers, guerillas and horse thieves, and making clean work of it.

Our New Zealand Correspondence.

PORT CHALMERS, OTAGO, N. Z., Feb. 14.

Dear Chronicle:—Though your numerous patrons have not had the pleasure of perusing one of my choice epistles for a long while, I think they are able to bear up under one, especially as I leave it to your own discretion to administer it in one, two, or three doses.

By the papers I sent you by the last mail, you read (or *might* have) that the New Zealand war was just about concluded, to the satisfaction of all parties—excepting only the Maories. Since then, the insatiable savages, who seem determined not to give up their lands and liberties even to please the only brave and humane people on earth, have "rebelled" afresh, killed a very fair quantity of the invincibles, and walked off with a quantity of rifles and ammunition, after chasing the soldiery to their stockades. I am not a vindictive nor a prejudiced man, but I do hate a Britisher cordially, and have a private jollification every time he gets beaten (and that's not seldom) in his unequal war with the half-armed and half-clothed Maori. Lest you might imagine me an enthusiast, and my rejoicing without foundation, I send you some more papers, which (if you read) will convince you that even a gallant Briton *may* be seized with a "panic," and retire from the face of an enemy without stopping to whip him first.
